

Maid Different

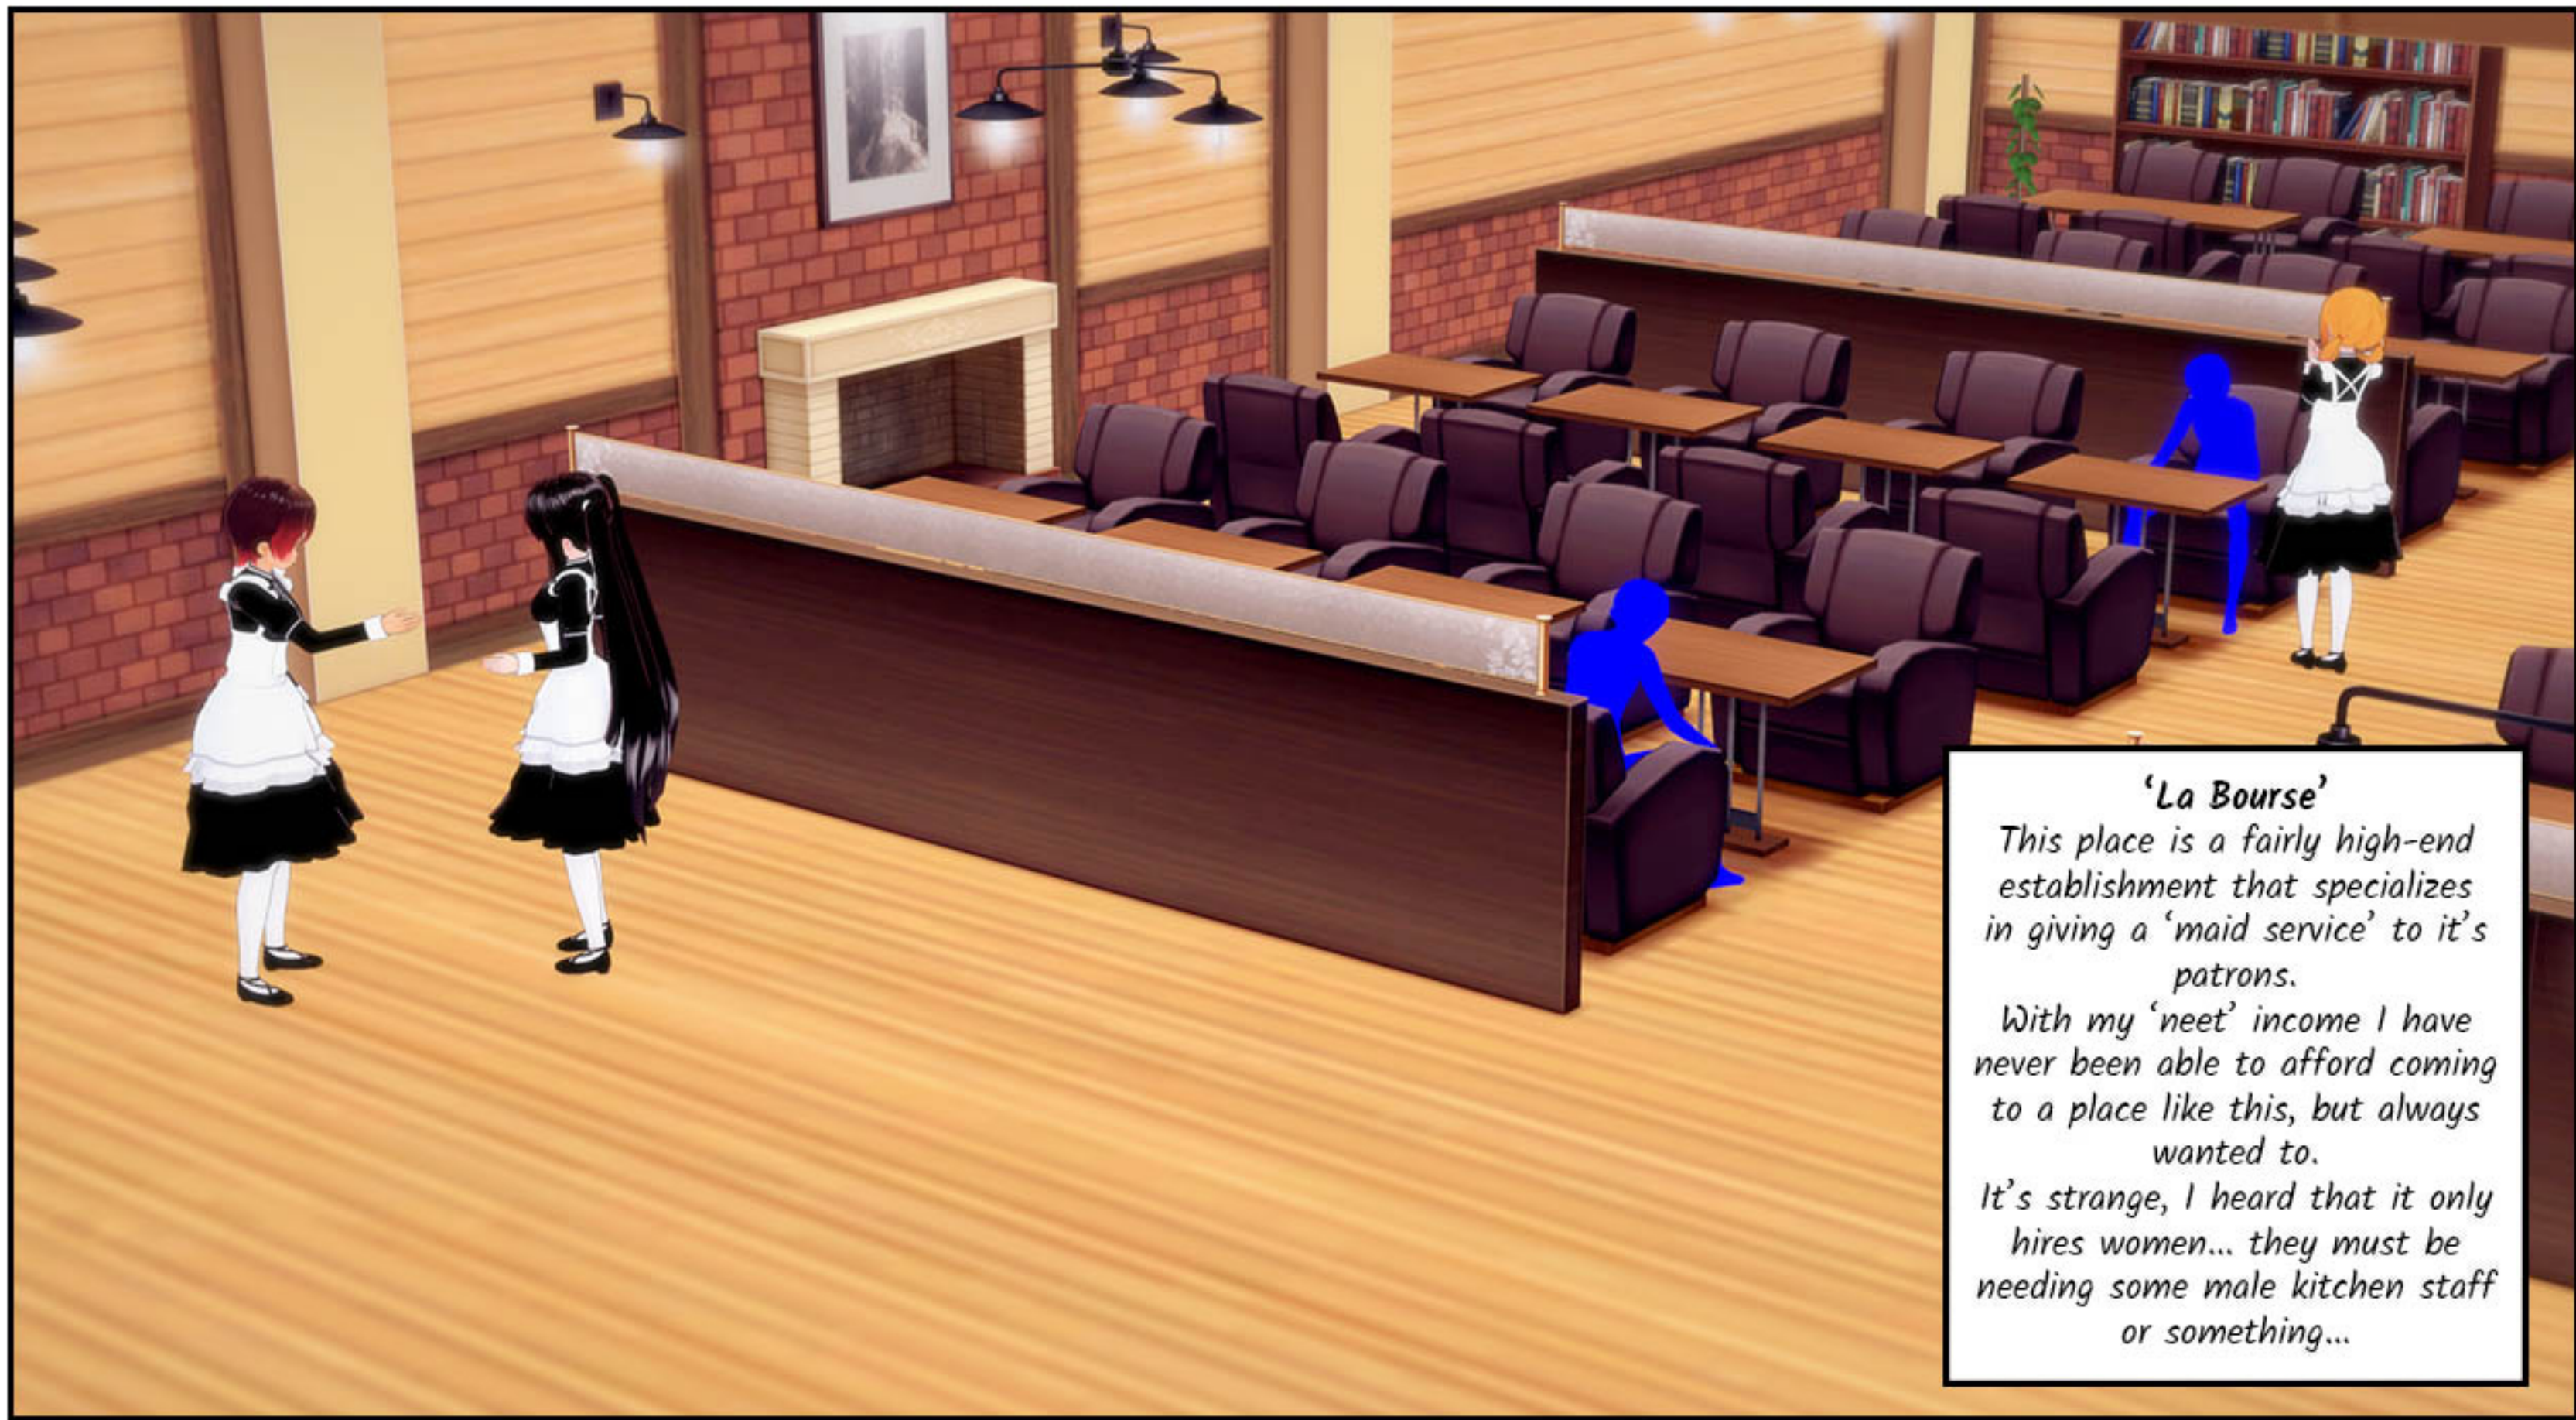

Sigh...

A Comic by

'La Bourse'

This place is a fairly high-end establishment that specializes in giving a 'maid service' to it's patrons.

With my 'neet' income I have never been able to afford coming to a place like this, but always wanted to.

It's strange, I heard that it only hires women... they must be needing some male kitchen staff or something...

Oh man,
I'm in way over my head...
Maybe I should just go, I can
make it sleeping rough...
Probably.

chatter

Rena, we've
got a customer.

Right...
I'll get back behind
the till.

Dearest customer,
On behalf of the entire establishment
allow me to apologise for not noticing your
presence immediately upon your arrival.
I understand if you wish to speak to a
manager about this egregious
service.

Uhh, I'm
not a customer, I'm
actually here for a job.
My step-sis said that there
was work going
here...

Oh yes,
your step-sister came in
here and told us to be expecting a
“neet who is bone-idol and desperately
needs whipping into
shape.”

Haha...
Yeah...
Can you stand up?
You're making this
way more awkward
than it needs
to be....

Unfortunately,
as I told your sister; we
are only hiring women at the
moment...

Great...
Looks like I'm getting
kicked out the house when
I get back then...

Then again,
If the stakes are that high I can try
talking to the owner and we can also
try "mumble"...

Anything you
can do would help
immensely!

Come and take a seat. I'll give you something to boost your 'hiring potential' and shall go have a word with the owner.

Ok?

?

That's great!

*Yes! Isn't it?
I need to get back to the
customers. Come back tomorrow
at 8:00 a.m. to start your
new job!*

On the way back home...

*I'm getting warm,
I know it's been a hot day
but I'm really feeling hot!
I can't imagine how the cafe' maids
feel in their outfits. At least I won't
ever be wearing one of those
dresses!*

*Wait... I've been
feeling warmer since that
meal... it wasn't given to me for
free because there was something wrong
with it, surely they wouldn't want to
poison a new employee?
My stomach's really hurting
and griping.*

Grumble

I'm really
burning up and my
chest and body feels...
tingly?
What's wrong
with me?!

I need to
rush home- wait,
was my hair always
this long?

Back home.

If you're back already Eric I presume that you've got some good news? If not I think your suitcase is still under your bed.

TV Chatter

Yeah, I-

GROWL

NGH!
Got the job, I start there tomorrow.

See?
It wasn't so scary
was it?

I guess not.
L-look I've got to
go, I've got stomach
ache.

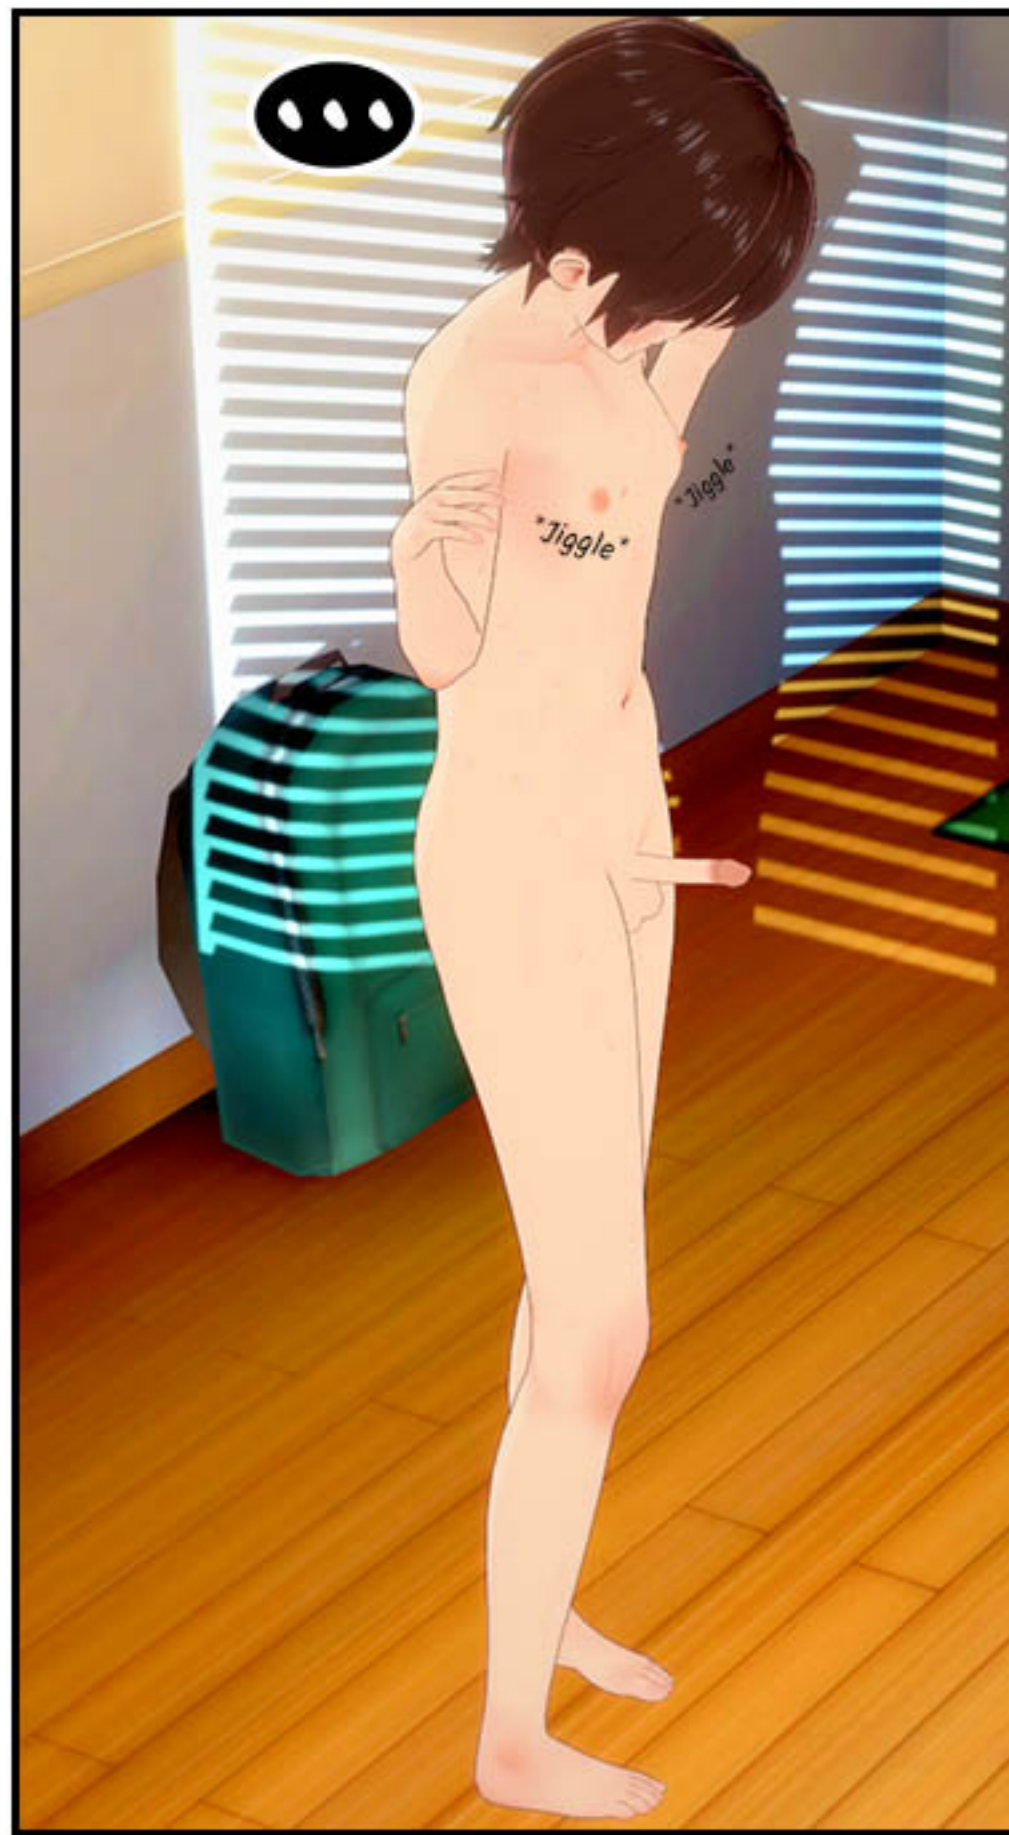

Wait! You need to tell me more about the job! At least tell me if you got the names of the cute girls who work there!

Gurgle

I got away from sis pretty easily but I need to see what's going on with my body. I feel tingly all over and I'm **definitely** getting a temperature.

Eric? Are you OK? I'm heading out to a friend's place for a couple of nights. She's been dumped by her loser boyfriend and I think I can 'get in there'... Unless you are feeling so ill that you need 'Big Sis' to hold your hand through your illness? Like a baby. A 24 year-old baby.

N-no, I'll be fine! Honest! You go and... have fun.

Aww... That's so sweet of you! F.Y.I. I'll be calling that cafe' every day so you'd better not skip work! See ya later little bro!

Sigh

It's for the best that she's going. I can't let her know about my body changing like this... I'd never live it down. I need to need to examine myself... see what's going on.

These look like breasts...

Jiggle

Feels like them too... not that I'd really know. Damn they're so sensitive. I don't really know how to feel about that...

You scared me for a

'little fella'...

Hold on,
where's my dick?
I can't see because
of these things on
my chest!

Bounce

Jiggle

Were you always this size? I'm sure you were bigger...

These definitely weren't this big... are these B cups? C cups? How has this happened?

I don't get it, how did I turn into a girl? The only thing I can think of is that bento box that I was given. I need to go talk to that girl A.S.A.P...

I mean, what else am I going to do? Alone. With a female body.

...

Well, that was an embarrassing noise... I'll amend what I previously said, this is **way more** sensitive than my dick...

Hmm... talking to the girl can wait... I'm seeing her tomorrow anyway and I'd better 'check' to see what else is different with my body for... medical purposes, of course.

Rub

It...
feels nice playing
with it, let's up the
tempo.

Slide

My God!
This feels amazing!
Girls are so lucky to feel
this!

Then again...

I'm no doctor, but I can't see how having a body like this could be healthy... I want my 'little soldier' back to his full glory too...

...plus how the hell am I going to explain to people my sudden change?

I need to go back to the cafe' tomorrow morning. I need to reverse this change. Hopefully it can be reversed...

To be continued?
