

# *Pulsar on Top*

Hello!

Thank you for purchasing the *Pulsar on Top* portfolio. This collection of images shows the cardinal taking a more dominant position, doing the fucking for a change! It's something of a sequel to *Pulsar in Public*, my first portfolio where Pulsar is having fun right out in the open. There are two sets of images in this pack. The first seven are the original images, followed by extra spunky alternate versions.

Also because this portfolio is being sold, please don't distribute it either to friends or the internet at large.

I'd also like to extend my thanks to those who lent their characters to appear in this portfolio. The characters are copyright their respective owners. All characters were used with permission.
