

**Iron
Golem
Cold gold
Step-by-step**

◆ Paints required:

NMM cold gold

- **Dryad bark**
- **Yellow Ochre (Vallejo mc)**
- **English uniform (Vallejo mc)**
- **Abaddon black**
- **White**

Basecoat the gold trim with a 1:1 mix of dryad bark & english uniform

Now start glazing in the frame of the light reflections with pure english uniform – add 3-4 parts of water. I have added a video reference in the post description for how to paint a NMM trim.

We now glaze more towards the middle of the light reflections with a 1:1 mix of english uniform & yellow ochre.

We now glaze the very middle of the light reflections with yellow ochre.

We now shade the areas still covered in the basecoat with a 2:1 mix of dryad bark & abaddon black – add 3-4 parts of water. We furthermore edge highlight the trim with yellow ochre – add 1-2 parts of water.

We now add a dot or 2 in the very middle of the light reflections & on all the nails, with pure white. Add 2-3 parts of water. Done!
