THE HISTORY OF MONEY

Before money was invented, goods and services were traded for women and coconuts. But then **history happened**.

Alexander
Da Great
took charge
of Da
World. One
day after
absolutely
dominating,
crushing

puss n shit. Alexander had a crazy thought:

"My life is perfect.
I'm Da Great. But
there's a hole in my
heart. I have this
indescribable urge
to get something.
But I'm not sure
what it is. I'm not
sure anybody
knows what it is. All
I know is that I want
it. Oh,
Eureka

I've got it

Cash."

So then he came up with this shit:

Yeah, that looks alright, I guess. The issue with this is that, although it is **cash**, it's not **paper**. Momma im not after no rocks, I want **bread. Dough. Bark.**

Then the **CHINESE** came through big time. *You know how the CHINESE* be, always **AHEAD OF THE GAME.**

2 Chinese Babies With Edited Genes May Face Higher Risk Of Premature Death

They thought.

**.BRO DAMN
.COINS WITH FUCK REALLY DON'T I
.PAPER SOME GET LET'S**

GENIUS SHIT

Damn. Got Damn. Looking Good. Looking pretty good.
But it's not quite there.

Yes, it's paper. Yes, it's cash. But, it's in Chinese.

So then Benjamin Franklin was chilling and inventing the pocket pussy. He was chilling and speaking english to himself as he was fucking various versions of the pocket pussy on an old work bench. He kept fucking them and just giving them to people, all used and gooey. Then one day some horny clean freak said in English
“Hey man, I know it’s kind of your thing, but could I grab one of those pocket pussies that isn’t chock full of your cum. Like just an unused one with the outline of your dick.”

And Ben thought for a moment.
And then he said

“That’s Gonna Cost Ya”

So he invented the holy grail of money. The Big Boss Don Hundred Dollar Daddy’d Bill. The AK-100. The Ten Ten Single. The One Thousandth Million. The Maximum. The Ultimate. **THE ONE HUNDRED DOLLAR BILL.**

**SO LETS GET YOU
ONE**

VISUALISATION

The first step to \$100 dollars is Visualisation. Imagine, even just for a moment, you have \$6.00 US sitting on your nightstand right now. Your about to go asleep but you look over. you see a guy. You’re wondering just what it its hes doing in your bedroom. You look into his face, you can see every last wrinkle and pore. it disgusts

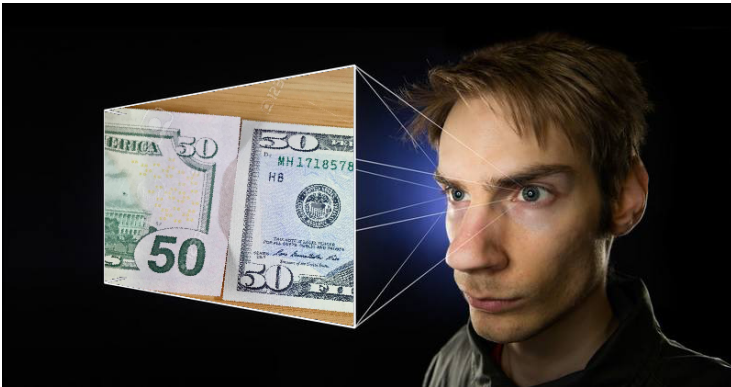

you. you simply hate this fucking nude man in your room. you look closer. you stare deep into his eyes and stop thinking about his penis. his eyes look familiar. his eyes look like your fathers. hes your dad. your dad hands you \$94.00 us. Now thats paper.

Now Think about your naked dad like a buisness. In Business you have movers, and you have shakers. your dad goes into your child hood bedroom every night and he moves and shakes his penis and ass in front of your rescue heroes. Yeah... This is seriously normal. Your dad is doing something called **Alpha Dogging**. Alpha Dogging is crucial on the road to \$100

Every day, meditate for an hour, Repeating the mantra, "My \$100.00." When you feel comfortable enough, enlist in the Navy snd get sucked and fucked by the bravest men if all time. This is just to see what we happens. If your not comfortable dont do it. But, Just remember how your Naked Dad will be disappointed. This is important to visualizing your \$100.00

Visualize two fifty dollar bills. *Now thats some g shit.
Now im feeling so fly like a
G6*

- **STRATEGIES**

Getting \$100 is no easy task. It takes strategies. Strategies are how you get anywhere in this **fucked up world** of ours. How else are you going to get some bread, a little cheese, some *“cha-ching”* without a strategy. Without a strategy, y'broke bitch. **DENIED**.

let me freak your mind

1. DECEPTION

Deception is the most useful tool in the **\$100** getter's tool pouch. If you wanna be rolling in the money bags with *BIG SHOT RAPPERS* and **global elite**, talkin **\$100**, you gonna have to make that bitch lie.

Imagine a scenario where you recently found out that one of your friends/business associates has, by the grace of God, come into a large sum of money. Let's just say, **\$100**. They didn't earn that money. You did. That's your money. *Let's get that money.*

How could you get that money? **Strategy: Deception.**

You hire a team of producers at a network like ABC or NBC, real, *legit shit*. You hire them to create a new TV

show, a new game show that is. A new game show, with a new game, and it's called **"GUESS THAT MONEY"**.

You hire a team to create a fake gameshow set, and you start having fake auditions for contestants. In your personal life, you tip off your \$100'd friend that there's this fucking nuts new game show, fucking crazy man. It's called **GUESS THAT MONEY**, and its gonna make you filthy rich man. **Filthy fucking rich. \$200** shit.

Im so rich I dont have to eat pussy. And soon you will be too. Yeah bitch i'll eat your pussy. Yeah no problem. I'll eat it with my dick. **\$100**

So your friend auditions. Of course, he makes it. He's on the show. **GUESS THAT MONEY**. You get a celebrity to host. Gal gadot. Gal Gadot's hosting and her cans are totally out. *Hollywood style*. So you're watching Gal Gadot and her cans, and she's

quizzing your friend. **Guess That Money** the crowd says. Your friend keeps guessing.

He's winning and winning. Money style kind of winning, and that's not BS. that's real shit. *GUESS THAT MONEY.*

Shows over.

Total amount raised for your friend.

\$29,999,900. Pimp status. Big pimp shit money.

Paper: stacked. Your friend has that **\$100 stare.**

**The producers come out with a check. Time for the
prestige.**

*Hey man, so we have your check right here, but there's a super tiny problem. **We wrote the check for \$30,000,000.** That's our bad, but we can't give it to you straight up. Anyway you could break this shit up? I don't know. Maybe **\$100.***

Friend forks over the cash.

BINGO. ?

Give him the check. Poor bastard heads to the bank to cash it. **"SIR, THIS IS A CHECK FOR THIRTY MILLION DOLL HAIRES.**

2. SEDUCTION

N

Money is one easy slut

STRATEGY COMPLETE

That's What I Call Cashing In

COINS

*“Look into your pocket right now. What do you see?
That’s coins right there.” - Pierre Sebulba*

When it comes down to it, coins are often forgot about when people talk about money. **Coins** are money. **Money** is coins. Saving your cones in a jar or a bag or a can is a good way to collect multiple coins over time. Lets look at the facts:

THE BROWN COIN- The Brown coin is the root of it all. One brown coin is equal to 0.01 of 100.00. Its simple math. Do you get it? what is your problem? are you fucking restarted? Did your brain get replaced by a crap by a doctor that replaces brains wjth crap?

The Brown Coin is simple. Small. Elegant. It has the face of americas first brown president on the side.

THE GOLD COIN- The gold coin. What else can i say. about it.

THE SILVER COIN- There are four silver coins to choose from. all different values. If you keep four of the big one, thats one dollar. one dollar times 2 is two one dollars. keep doing that and your on your way to one hundo clams.

*One Thousand more and you got
paper.*

3. INVENTION

S

All the richest motherfuckers invented. All of them. Bill gates - the computer. Steve jobs - the computer. Get that bread and calculate that bread. Invent that bread till you can't count no mo.

STACK IT AND REGULATE.

Find a need. Attack the need. I need some money. DO NOT attack money, attack the need. How do you get that money? Invent it. Invent the money.

Hey man, relax. We're gonna get you the money. But first you gotta invent. You need investors. Investors need inventors. Inventors need investors. like men and women. You're the man.

Invent something. Take something that's already been invented and hey, fuck it,

Add Electricity.

Electric Razor. Electric toothbrush. Electric car. This is gonna be easier than you thought. Electric computer. Electric paper. Electric money. You feel that feelign right now, that shit in your bones and your blood that electircity baby. It's electric and we're at the electric company, your passing "go" with \$100.

YOU DONT NEED YOUR PARENTS.
YOU NEED YOUR MONEY. STACK

Cash Money Equation

$$c = m \subseteq \begin{matrix} \square \\ \square \\ \square \\ \square \\ \square \end{matrix} \$100 \Rightarrow \sqrt[3]{\begin{matrix} \sigma \\ \cup \\ \Theta \gamma \oplus XXX \end{matrix}} \quad \begin{matrix} \exists \\ \lim \\ 1 \in \$1,4 \rightarrow \bigcup_x^y \end{matrix}$$

The rest of the equation wont fit on the page but you can guess what that shit says. Youre brain is big for a reason homie

IN YOUR LIFE YOUR GONNA MEET FUCKERS
WITH ALL DIFFERENT AMOUNTS OF MONEY

These are called **MONEY TIERS** and you have to know all of them if you want to run with the **PIMPS** and **BIG CASH DADDIES**

\$10	Ten Dollars you're starting to make moves. These fellas are THE TEN PERCENTERS . I don't know why but thats what theyre called.
\$50	Halfway there you have the REAL FUCKERS . These guys will "REALLY" "FUCK" you over if youre not careful. \$50 can

You better be ready, put your pedal to the metal

I never give in
(Whoa!) I never give up
(Whoa!) I never give in
I just wanna be, wanna be loved
I never give in
(Whoa!) I never give up
(Whoa!) I never give in
I just wanna be, wanna be loved
I got another confession,
I fell to temptation
And there is no question
There was some connection
I gotta follow my heart
Don't matter how far
I got roll the dice
Never look back and never think twice
I never give in
(Whoa!) I never give up
(Whoa!) I never give in
I just wanna be, wanna be loved
I never give in

(Whoa!) I never give in
I just wanna be, wanna be loved
Take your past, burn it up and let it go
Carry on, I'm stronger than you'll ever know
That's the deal, you get no respect
You're gonna get yours, you better watch your fuckin' neck
Take your past, burn it up and let it go
Carry on, I'm stronger than you'll ever know

Another lesson from the **LAB**

Make a bet against your friend. Start like
this:

“I bet you \$1,000 that you will explode in one
minute”

*Playa's Note: I know what your
thinking. How can I afford to
make a bet like this? Just
watch and learn.*

Your friend will refuse the bet. They dont thnk
they will explode and also they dont have \$1000.

51

“Okay then how about I bet you \$100 that you won't explode in 6 seconds” **THIS TIME THEY WILL TAKE THE BET.**

^ This is a tactic called Numericological Psychology. Because the number is only 10% the size of the previous number your friend will be compelled to take the bet based on the numericalocological phenomeomonon of numbers.

Your friend will not explode because shit like that doesnt happen.

Collect your \$100. Pass go.

Notice the patterns around you

There is a pattern in the universe – a
pattern of \$100.

**Take a look at these events and statistics. See if
you notice a pattern?**

*The highest denomination of printed american
money?* **\$100**

The bill that has Benjamin Franklin's face on it?
\$100

*The amount of money you have when you get a 100
dollar bill?* **\$100**

The price of a really big burger? **\$100**

The coolest paper money? **\$100**

Think of a number? **\$100**

Notice anything? That's right— most, if not all, of these have to do with the 100 amount of money (\$**\$100**).

These motherfuckers have developed whats called "foolproof money making solutions". Organized REALigion. Holy Moly. Holy Money.

Think about it, if you were this ugly

You would probably say you were God too if it got you some skunch.

L. John Bubbard created a boat army where he could keep his cash and Shelley Miscavige. Bubbard was the first guy to fuck a alien bitch, and once he got a taste for purple pussy, he wanted purple **money**. Mommy got tired of his antics though and banished him to **LOS ANGELES CALIFORNIA** where he recruited **TWO GAY GUYS** to assist in his cash-getting endeavor. A new system of Government is being developed in **China** called the Anti-Money System.

We cannot let this system be installed within the United States... It would cause money (including \$100) to be converted into pure Chinese *CHI*. (*that means coins*)

**SO Y'ALL MOTHERFUCKA NEED
TO FIGHT BACK AGAINST THE
CHINESE SYSTEM!
THROW YOUR FIST TO THE SKY!!!**

Inflation is the idea that, over time, money becomes larger. And that shit is **dead correct**. Ahh, you want more money? **Literally just wait.**

Say you sold your horse for **one dollar** in 1812. Let's take a look.

The Inflation Calculator

What cost **\$1** in 1812 would cost **\$14.91** in 2018.

DAMN. This is the *Fifteen Dollar Horse Strategy*, which I am realizing I forgot to put in the *Strategies* section. **Don't Care.**
