

Ever since Mashiro joined the office, Crush has been acting so weirdly..

We think there's something going on between them.

I know it's none of my business, but Crush is your boyfriend

So I'd thought you should know..

I shouldn't pry

I know I shouldn't..

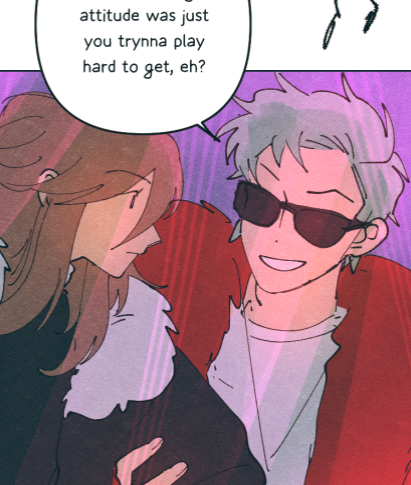

But what if it's not the overworking?

What if..

Whatever's in this USB is the source of all his stress as of late?

This.. fucking idiot.

What's the point of having a password..

If you're just gonna set it as my birthday again..?

According to what was in the USB..

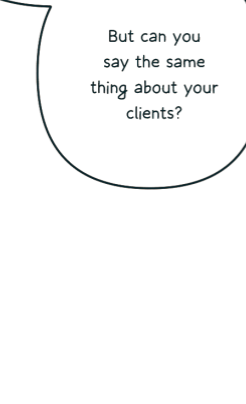

Crush is gonna be at Mr. Lopa's birthday party.

And luckily for me, I still had that jerk's number to get the invite.

But there was just one problem..

How am I gonna find him and Mashiro in this sea of people??

I should probably try the kitchen.

He could've snuck in with the staff.

No way, you actually came to my birthday party!

Guess that haughty attitude was just you tryna play hard to get, eh?

Imagine my surprise when my assistant told me that you actually accepted the invite!

I had to go look for you to believe it!

Haha

Who's this?

Your friend?

Oh, he's from that small fry company that's trying to take me down, haha

Cute, right?

He actually thinks he's gonna win.

Well, we have a pretty strong case, and you admitted-

Yeah, right. You're gonna settle before those poor wallets dried up and they can't afford bills anymore.

Isn't that the whole reason why you're here?

To beg me for more money?

Oh, am I wrong?

You know you're never gonna win this, right?

I can stretch this lawsuit out as long as I want to, I have all the time and money in the world,

But can you say the same thing about your clients?
