

Idols - Gaudy Beautician

The gaudy beautician loves to stand out. More than that, she loves to change her looks, clothing, and jewelry whenever the mood strikes her. Which is a lot! She is the kind of girl who can go to a party and spend her entire time in the bathroom trying to perfect her look in front of the mirror. She loves sparkles and sequins. She loves gaudy makeup and leopard print outfits. She makes sure that her hair is always dyed and put up with enough hair spray to keep it perfect the entire day.

The gaudy beautician loves talking loudly about sex and swearing as much as possible. When she isn't talking or thinking about fucking, she's changing the color of her long feminine nails and cheap gaudy jewelry. The beautician enjoys applying her makeup multiple times a day as she feels like nothing she does is ever quite perfect. There's always a way to stand out and be more feminine than the women around her and this girl is always on a quest to figure out what it is!
