

Blessed Milk Preview

An empty bucket sat in front of her beneath a cow's udder. The pail had been dry for a distressingly long period of time since the cows refused to produce. Cautiously, Melanie grasped an udder and pulled.

Mooooooooo!!

Nothing came out. Melanie hadn't hoped for dairy to flow, but could only use the barn as refuge for so long if she couldn't produce results.

GUUURRRRGLE

"Nngh!! T-They're...getting bigger!"

Mooooooooo!!

She attempted milking the heifer again. Nothing came out but annoyed lowing. Flesh bulged across her torso as she leaned into her knees. The torture on her lactating chest was immense. Various shapes of soft flesh bulging between her wraps announced themselves by pressing against the dress.

"Come on... Just give me a little! I can't hide in here all d--Nngh!!!"

GUUURRRRRRRRGLE!!!

SSPPRRRCH!!!

"Aaugh!!!"

Her nipples couldn't take it for another second. Throbbing thick and full, they released a surge of milk through Melanie's dress.

"Too... They're too full...!!!"

GUUURRRRGLE

"I don't think I can...hold another drop!! I feel as though they could burst!!!"

Melanie gasped and panted, unable to focus on her task. The milk welling within her was everything she ever wanted and also a curse. Head-sized breasts threatened to rip through her dress if she continued ignoring their plight.

"Please...! You have to...stop swelling! I can't...hold anymore! If you get much bigger, I-I--"

SSTTRRRRRRTCH!!

"Mmnnggh!!!!!"

Melanie trembled on her stool. The pressure was at its peak and raged within her bust. Another minute could spell disaster. She couldn't understand why the cows wouldn't give milk; nothing sounded better than emptying her own over-engorged udders of their burden.

PATTER PATTER PATTER!!

"Gah!!!"

Milk struck the empty bucket to make her gasp. It had come from her bust, though settled in the pail all the same as a cow's. Panting, sweaty, and feeling overcome with heat, Melanie could no longer stand to deny her breasts.

"Milk i-is milk... And I-I have...to milk them... They can't hold another...d-drop!!!"
