

I mean, after what they saw at *castillo*...

The least we can do is attend to their party. Plus, free food!

I'm not saying this is a dang bad idea but... This ain't my specialty, partner.

This whole *werewolf* makeup deal? yeah, i'm clueless.

Still... I'm willing to go along with this, partly because they agreed to keep *that night* a secret...

Is that truly what you desire? Us kept a secret?

This ain't what I meant! I want this... *us*... But how to even try to begin to explain it to Reyes?

Explaining it to Reyes  
would be a daunting  
task, indeed...

Now imagine explaining  
this to my clan!

At least both our supports  
know about it now...  
I reckon you already told Genji.

Of course!  
There's no more  
secrets between  
us anymore.

Fair enough!

Dang it! How do I even get  
my nose black like that?

In any case,  
what's your  
second reason?

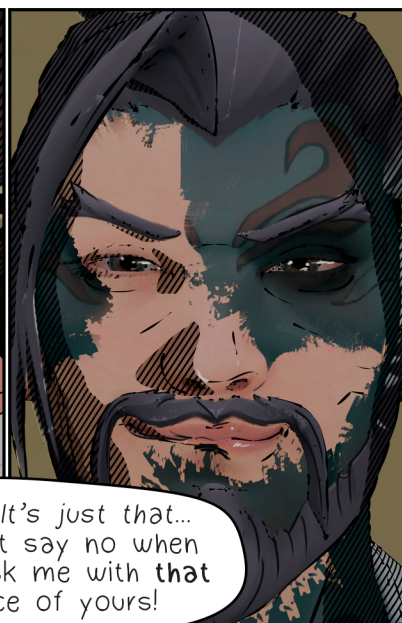

W-what?

You said the secrecy  
was partly the reason  
...

Oh... It's just that..  
I can't say no when  
you ask me with that  
face of yours!

Hold on now!  
We've got a party to  
attend! Now now, uh,  
speaking of  
tricky situations...

Oh? Is that so?..  
What about you give me  
another nice bl-

Of course!

Could you lend a hand with this werewolf thing?

You know, I've done this type of things since I was a kid...

Shit! I'm getting hard already!

I- uh, uh huh!

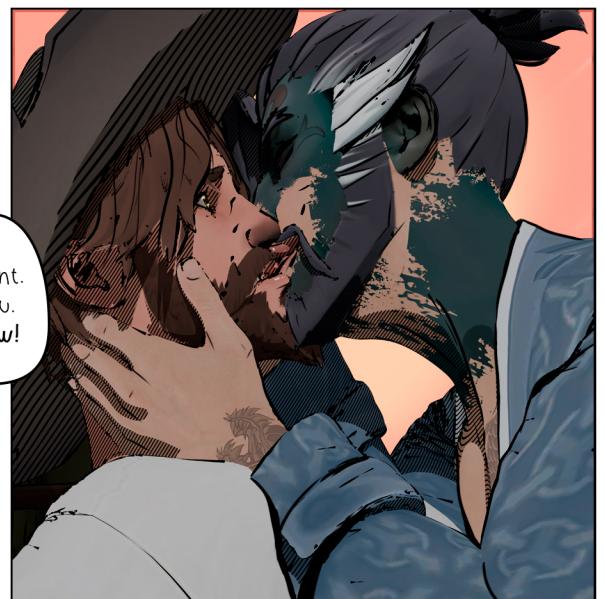

...for Kumadori festivals and stuff...

You ...

W-what? Does it look bad or something? We can try-

I. Want. You. Now!

You're... Beautiful!

Huh? You got a kink for this wolf stuff now?

It's not that! Still I would have you even if you were a mindfayer!

A mind what?!

Nevermind! I mean, we can still change the costume!

Don't you dare!

Plus, you look absolutely HOT like this!

I know you want me, demon dragon. I can see the lust in your eyes. Plus you're not being exactly subtle, are ya? Guess the alpha pheromones are working already, right?
