

And of course
a legendary fight

I thought you might
misunderstand me.
It is not I who
ordered them to
attack.
they are out of my
control now.

Sadako

Order your evil
army retreat or
I will kill you

I have no time to
plain more.
listen to me.
You must kill me
after this.

I have given
humans tow
hundred years of
peace.
So sorry i can't last
for any longer.

As you may guessed i
was a human before.
But it was a long story.
Give me little more
time and do this fast.
People are dying.

You may kill me after
I tell you the way and
see the consequence.

DEAD QUEEN

You are the last survivor, this fact proves your strength. now the only way to cease the xenocrowd is to become their queen. A new queen, far stronger.

Radio

Sadako, what's your status? Have you eliminated the queen? The crowd became more crazy. We're retreating.

DEAD QUEEN

Once you have killed me, go to my nest fast, and you will find an egg shape thing.

Go through it, and you will be taken to a secret nest.

Sadako

Queen is down, but we're wrong. No time to explain. I know how to end this. It won't be long. Sadako out.

This doesn't
feel good.

DEAD QUEEN
then
Let the new bread
hug your face

and remember,
since you have
killed all the drones,
there will be no one
to put you into that
hatch place, you
better stand in it.

After that, your
mind will bind with
the hive mind, and
you take my place
to handle the crowd.

You will go deeper
this time. I have
modified the DNA
for my heiress.

So you can control
them better.

However, the hive
mind will corrupt
you deeper also.

Good luck

Now it's your turn.
Hope you can last
longer.

Until human's
weapon tech is high
enough to clean the
crowd.

Sadakueen
This does feel
good.

Sadakueen
Why not try
another form of
living, and
immortality.
And donate
your whole
body and mind
to us.
