**We now add a dot of a 1:1 mix of pink & white on all the sharpest edges on the armour . Done !**

**We basecoat the trim with a 1:1:1 mix of dryad bark, english uniform & yellow ochre.**

**We now glaze in the frame of the light reflections of the trim, by adding 1 part more of yellow ochre to the basecoat mix – add 3-4 parts of water. Besides the before mentioned video tutorial for how to locate light reflections & glaze, I have added a video tutorial for how to glaze a trim on a Chaos terminator.**

**We now move more towards the middle of the light reflections with pure yellow ochre.**

**We now make a 1:1 mix of yellow ochre & ice yellow & glaze the middle of the light reflections.**

**We now shade all the areas still covered in the basecoat (included deepest recesses) with dryad bark & shade around all the nails with abaddon black – add 3-4 parts of water to both paints.**

**We now edge highlight the armour with a 1:1 mix of yellow ochre & ice yellow. We dont need to edge highlight the gold trim on the jumppack.**

**We now make a 1:1 mix of ice yellow & white and highlight all the nails & glaze the very middle of the light reflections . And now the purple armour & NMM cold gold trim is done!**
