

Magic Dorm walkthrough:

To complete the game you must find six keys that each of the girls will give you to access the water valve.

Get Lilithea's key:

-1 Lilithea will ask you for a book found on the shelves in Florala's room. On the left side of the screen.

-2 When you give her the book she will ask you for a statuette. The statuette is in her room, next to the red dildo on the desk chair.

-3 Once you have given the statuette to Lilithea, she will ask you to offer it to the girls to charge it. When they have all refused, you must talk to Lilithea again and she will have Tom charge it instead of the girls.

-4 Once charged, Lilithea will ask you for something to draw a circle of protection. You must get the salt from Rala (see Rala steps).

-5 When you give the salt to Lilithea, she will start a summoning ritual, but the result is not what she expected and she will give you the statuette again and insist that one of the girls must charge it. This time, if you give it to Florala and she is preparing for the wind offering (see Florala steps), she will agree to charge it and give it to you.

-6 When you give the charged statuette to Lilithea, she will perform a new ritual and this time her ritual will be successful. She will get the key and give it to you. If you talk to her again after this you will see an extra event with an erotic result.

Get the key from Rala:

- 1 Rala will ask you for 3 ingredients to brew her potion: chocolate, deep ones scales and pepper.

- 1.1 You will be able to take the chocolate from the bathrobe hanging on the side of the shower when Nara is out of the shower (See Nara steps).

-1.2 You will get the deep ones scales when you give Mitiny's comic book to Lubly (See Mitiny and Lubly steps).

-1.3 You will get the pepper if you have the awl that Nara gives you (see Nara steps) and go to the water valve cabinet. This will open the electrical panel and you can pick it up.

-2 When you give the three ingredients to Rala, she will finish the potion, drink it, feel sick and go to her room, but before, she will give you the salt (needed for Lilithea steps) and ask you to get the good alcohol from Mitiny. Now you can take the good alcohol of Mitiny that is on the cupboard of the kitchen, among the bottles of cheap alcohol. Remains of pepper will be left in the inventory (necessary for Mitiny's steps).

-3 When you give the good alcohol to Rala in her room, she will rest and will not

wake up until you have thrown Nara's pendant to the specter in the hallway that appears during Nara's events (see Nara's steps).

- 4 Once she wakes up, Rala will ask you for chilli peppers that Florala will give you by giving her fire (see Florala steps). With them she will prepare a potion for Tom but it will not have the result that Rala wanted and she will ask Tom to find a way to increase his semen production. He will also give you the potion he used (needed for Mitiny's steps).

-5 To increase Tom's production, you must get the fertility fetish that Mitiny gives you (see Mitiny steps) and when you give it to Rala, she will prepare the potion she needs to get the key and give it to you. At this point you can talk to her again to see an event of erotic result.

Get Lubly's key:

-1 To make Lubly stop being sad you must give her the comic book that you will find in Mitiny's room (see Mitiny steps).

-2 Once she has the comic, she will ask you if the shower is free so she can go there. You must get Nara out of the shower by going to the shower when Florala has made you the cleaning with sage (see steps of Nara and Florala). When you tell Lubly that Nara is no longer in the shower, Lubly will go to take a shower.

-3 Once Lubly is in the shower, you will get her to get out of it by giving her the toy octopus that you will find in the bookcase in the living room, on the lower left side. After this, Lubly will go to her room.

-4 Once in her room Lubly will ask you to find the pieces of her tablet. One piece is in Rala's room, on the floor next to the book, one on the floor in the hallway, one in Nara's room, on the small table at the bottom left of the screen and one in the hallway, in the Christmas stocking on the hanger on the left. When you have all the pieces, Tom will put them together into the tablet and, when you give it to Lubly, he will return to the altar room where he will ask you to bring him a charged opal (see Nara's steps).

-5 When you give her the charged opal, Lubly performs a ritual and returns to her room. There she tells you that she thinks the key is in a box at the bottom right of the screen, and gives you some pieces so you can solve the puzzle that opens it. The solution to this is on a piece of paper hanging on the wall just above the box. When you have opened it you will find Lubly's key and if you talk to her again you will see an event of erotic result.

Get Nara's key:

- 1 To get Nara out of the shower you must talk to her when Florala has done the cleaning for you after giving her the sage (see Florala steps). Then she will tell you that an entity has stuck to you and will tell you to go see her in her room.

-2 In her room she will ask you for incense that you find in Lilithea's room, on the bedside table on the left. But she will tell you that what she was trying to do didn't work and she will ask you for a divination object and give you an awl (necessary for Rala's steps).

-3 When you give him the object of divination, a crystal ball that you will find in Mitiny's room, next to the lamp on the bedside table on the right, Nara will try something unsuccessful and give you a quartz pendant for your protection against the entity that has stuck to you.

-4 Once she gives you the quartz pendant the entity will manifest in the hallway and you must throw the pendant to it. Then, when you talk to Nara again, she will give you an opal and tell you that you must place it on "the other side" which in this case is the mirror in the bathroom.

-5 When you place the opal on the bathroom mirror, the entity will pass to the physical plane by breaking the glass. Then the opal in the inventory will become a charged opal (necessary for Lubly's steps) and on the floor you will find a piece of mirror with a strange glow (necessary for Mitiny's steps).

- 6 When you talk to Nara again she will perform another ritual and give you her key. The next time you talk to her an event with erotic result will be shown.

Get Mitiny's key:

- 1 In order to enter Mitiny's room, you must give her the catnip given to you by Florala (see Florala steps).

-2 Once inside Mitiny's room, in order to continue interacting with her, you must take the blue comic book from the shelf on the right. She will then ask you to find her something to bind her ceremonial rods.

-3 In the altar room, on the floor, in the top right, you will find some rubber bands, when you give them to Mitiny, she will say that they are useful to her and that you must look for 2 rods for her. One of them is in the closet of the water valve and the other in Lubly's room, next to the left side of the headboard of her bed.

-4 When he has the rods, she will see that it is still not enough for the ancestors, they say that Tom must be more savage, which is achieved by giving her the potion that gives you Rala (see steps Rala). She will then perform the ritual, ask you to make her a life offering and a death offering and give you the fertility fetish (needed for Rala steps).

-5 The life offering is the piece of mirror that you can pick up on the floor of the bathroom when you put the opal of Nara in mirror (see the Nara steps). And the death offering is the remains of pepper that you have left after giving it to Rala (see Rala's steps). When you give them to Mitiny she will give you the key and when you see her again you will see a new event with erotic result.

Get the key from Florala:

-1 Florala asks you for sage to cleanse you so you can help her in her rituals. You find the sage in the kitchen on the left side of the screen. When you give it to her and she performs the cleansing (necessary for Nara's steps), she asks you to bring her fire.

-2 You get the fire when you use the lantern you find in the entrance, on one of the chairs, on the stove on the left side of the kitchen. When you give the lit lantern to Florala she gives you catnip (necessary for Mitiny's steps) and chillis (necessary for Rala's steps) and asks you for water for the next step of her ritual.

- 3 In order to give Florala water, you must take the bucket, which is located in her room, in the upper left corner, and put it in the bathroom faucets to fill it. When you give it to her, she will tell you that she is preparing to make the wind offering.

- 4 To get Florala to make the offering of the wind, you must bring her the statuette of Lilithea, the second time she asks you to give it to the girls (see Lilithea steps). Then, Florala will charge the statuette (necessary for Lilithea's steps) and will ask you to help her to find consecrated soil.

-5 To deliver the consecrated soil to Florala, you must use the small jar that you will find in Nara's room, on the floor, in the upper right, in the sand of Mitiny's room to be able to collect some soil. When you give it to Florala she will ask you to have Tom take a shower for his last cleaning and come back to talk to her afterwards.

-6 If there is no one in the shower Tom will wash himself and, when you return to Florala, she will open a portal to the goddess realm and give you her key. When you talk to her again you will see an erotic event as a result.

Open the lock on the water valve:

Once you have the 6 keys, if you go to the closet in the living room, Tom will place them and open the lock, then you will find that the house is now empty and you can go outside where you can see the final event.
