Basic Game Systems

Sexuality Paths: In the Haven's Port game, your actions have lasting effects on your character. Many/most actions in the game give you points toward one of two Paths. Each path represents a type of

sexual expression, with the **Nymph Path** representing an individual that is...kinda a 'slut,' thought not in a negative fashion. A character who is dominantly of the **Nymph Path** will find more/greater opportunities for things like Public Sex, Group Sex, Free Use Play, and extremely casual dalliances with anyone and everyone. Alternatively, you may choose the **Seductress Path**, which focuses on more quality than quantity (not in actual content levels, but in flavors of encounters). A character who is dominantly of the **Seductress Path** will find more/greater opportunities for heady, sensual encounters such as Erotic Shows, Involved Dom/Sub experiences, and Repeat Lovers. **Both** paths will have some of all types of content (I.E. Nymph Path will have Dom/Sub experiences and Seductress with all Public Sex options), but how common they are and what their overall **tone/feel** is changes between the two paths. A dom/sub experience for the Nymph Path might involve Public Petgirl Play, for example, where a dom/sub experience for the Seductress Path might involve Training a Sub one-on-one in a BDSM Dungeon.

Notably, the two paths are also used to represent how skilled in a given area the MC is. As such, they effect Pay Rates and Job Tier access for the jobs most relevant for them. In example, a certain amount of Nymph Points are needed to unlock additional Tiers of the Dockside Gloryhole job and a certain amount of Seductress Points are needed for 'enhanced' endings to the Rose Dancer job at the Rose Haven. Pay rates and options at Neutral Jobs (such as working a shift at the Jolly Roger) may also be effected by Nymph/Seductress Path scores!

Fame/Infamy: One of the most significant long-terms systems for the game, this hasn't been used yet in Build 1(though it IS implemented in the game). Fame allows you 'upwardly mobile' as it were, regarding your place in Haven's Port's society. While you start out as an utterly unknown soul, rescued from a slave galley, you'll be able to rise to prominence through your actions in Haven's Port. Actions you take while playing the game will raise your Fame/Infamy and, when you reach a certain level, you'll have a chance to level up to the next tier of reputation. This will unlock things like New Outfits, New Places to Live, New Jobs, and Investment Opportunities. It will also, eventually, unlock unique events throughout the game...and access to the other islands in Haven's Port's island chain! The Fame/Infamy difference is in name only, with Fame being both the default and the name used if your character is primarily a Seductress. It will change to Infamy if your MC follows the Nymph Path.

Titles: In addition to being flavor for the game, Titles are another way, along with the clothing system, to effect temporary bonuses or negatives to Fame, Nymph Points and Seductress Points. There are generally Fame or Sexuality Path requirements for each title, as well as a 'training' requirement. In example, in order to unlock the Glory Girl title, you must have completed the training for all 3 tiers of the Dockside Gloryhole job. Only one title can be used at a time and it grants a boost to certain stats, depending on the title chosen. They may also unlock certain Town Events.

Housing/Rent: When you first arrive at Haven's Port, you'll be provided with a free room at the inn. This will always remain one housing option and, as an unknown, it's the only one available to you at first. When you reach additional Reputation Levels, you'll gain access to new housing options that can unlock additional scenes/features. However, this comes at the price of Rent, collected every 7 days (you can track time to the next rent payment on the character menu). Failure to pay rent will result in...consequences.

Town Events: Not all scenes in Haven's Port are related to jobs or major NPCs! Some scenes are triggered simply by wandering around town while you meet their conditions! Such scenes are random occurrences, and currently there aren't that many of them, but the number will increase quite a bit over time!

Wardrobe: Haven's Port allows you to purchase and wear many different outfits! These outfits can be changed into in the MC's current home, and each has status effects that provide boosts or negatives to Fame, Nymph Points, and Seductress Points. Some future outfits may also trigger events when you pass through town, or even certain locations while wearing/not wearing them. Certain outfits may also cause slight variants to some scenes, such as being Nude when you trigger the (Nymph) options at the Jolly Rodger pub. While most jobs have uniforms, there will be places around town that you'll be able to actively see your clothing choices in the setting (such as while drinking at the Jolly Rodger). You can also always see what you are currently wearing in the Character Menu, and bonuses/negatives will appear in the (x) area behind your permanent Fame/Nymph/Seductress Points! Hopefully! That was actually kinda hard to get to work...

Time: There are four time periods in the game: Morning, Afternoon, Evening and Night. Currently, they have no real effect, beyond you needing to sleep after passing the Night period. In the future, many actions or encounters will only happen during a specific time period. Time was simply implemented from the onset to save me headaches later. You can see the current time at the top of the Character Menu. Once it matters more, I'll likely also find a better way to display it.

All Scene Locations/Conditions

Haven's Port - Port Island(Starting Location)

The Jolly Rodger (Pub/Tavern)

Work a Shift(Tame): This option is available to all from the very start, no requirements. However, it also has no sex content. (+50 Gold)

Work a Shift(Daring/Regular): Choosing this option to work at the Jolly Rodger results in the MC working without pants, opening herself up to being groped by clients... This job has a base pay of 100 gold, but gets bonus pay based off your Seductress Points.

Work a Shift(Menu+): Choosing this option to work at the Jolly Rodger results in the MC working in nothing but panties...as well as offering 'extra options' to patrons of the bar. It results in a blowjob scene, image-wise. This job has a base pay of 200 gold, but gets bonus pay based off your Nymph Points. **As of Build 15, there are options for if you see Lesbian or Straight encounters with this scene.**

Sex with Lyana: This is one of two new scenes (as of Build 3), for Lyana the Bartender/Owner of the Jolly Rodger. This scene only triggers if your Seductress Path score is higher than your Nymph Path score. If the opposite is true, you'll get the other scene instead. In this scene (which is an option when Chatting with Lyana), you convince Lyana to have some fun after she closes up the bar for the night. She agrees and you return after closing, whereupon she leads you up to her room for some fun...

Sex with Lyana: This is one of two new scenes (as of Build 3), for Lyana the Bartender/Owner of the Jolly Rodger. This scene only triggers if your Nymph Path score is higher than your Seductress Path score. If the opposite is true, you'll get the other scene instead. In this scene (which is an option when Chatting with Lyana), you set up a Free Use Gangbang in the Jolly Rodger, with yourself as the main attraction, knowing that Lyana likes to watch...

(Seductress) Take a Man Home: This option only unlocks with a minimum of 10 Seductress Points. Temp points from outfits DO count. It triggers a unique scene in which you Seduce a man from the bar and take him back to your room for some fun... (+1 Seductress Path)

(Seductress) Take a Man Home – Cottage Version: This is the variant of the bar seduction option that only happens if you are renting the Cottage (Only Available when you reach at least Reputation Level: Resident). While I called it a variant...it's actually a completely different scene with a completely different NPC, in a completely different location. It does, however, replace the Inn scene (unless you return to the Inn as a housing option).

(Seductress) Take a Woman Home: This option only unlocks with a minimum of 10 Seductress Points. Temp points from outfits DO count. It triggers a unique scene in which you Seduce a woman from the bar and take her back to your room for some fun...(+1 Seductress Path)

(Seductress) Take a Woman Home – Cottage Version: This is the variant of the bar seduction option that only happens if you are renting the Cottage (Only Available when you reach at least Reputation Level: Resident). While I called it a variant...it's actually a completely different scene with a completely different NPC, in a completely different location. It does, however, replace the Inn scene (unless you return to the Inn as a housing option).

(Nymph) In a Back Alley - Male: This option only unlocks with a minimum of 10 Nymph Points. Temp points from outfits DO count. It triggers a unique scene in which the MC strips down and messes around with the bar patrons, before picking a man out and having sex with him in the Alley behind the pub. Note: There is a *minor* variant of this scene if the MC is already nude when you trigger it! (+1 Nymph Path)

(Nymph) In a Back Alley - Female: This option only unlocks with a minimum of 10 Nymph Points. Temp points from outfits DO count. It triggers a unique scene in which the MC strips down and messes around with the bar patrons, before picking a woman out and having sex with her in the Alley behind the pub. Note: There is a *minor* variant of this scene if the MC is already nude when you trigger it! (+1 Nymph Path)

(Nymph) Pay for Menu+ Oral: If your **Nymph Score is 10** or higher, there is a new option when you first enter the Jolly Rodger pub. You can hire one of the girls working a Menu+ shift for some fun! Currently, this is the own option, resulting in Ria the Barmaid eating the MC out. Raises Nymph Score and Fame since you have an audience... Costs: 150 Gold

(Nymph)(Reputation Resident) Male Bar Patron: Upon tiering up to **Resident** level Reputation, this scene will replace the original **In a Back Alley – Male** scene. Now more comfortable with Haven's Port's culture, a proper Nymph won't need the privacy of Alleyways...

(Nymph)(Reputation Resident) Bar Bunny: Upon tiering up to **Resident** level Reputation, this scene will replace the original **In a Back Alley – Female** scene. A certain Bunny Girl that always seems to be in the Bar seems like an interesting pursuit...

(Reputation Resident) Bondage Girl: To unlock this scene, you have both reached **Resident** level Reputation AND currently be renting the cottage, as well as have the **Bondage Bench** already purchased from the **Pet Shop**. If you meet all those requirements, a new option will appear when you sit at the bar. Lyanna will point out a girl that would just love to have some fun in your playroom. Taking the Half-Elf in question back to your cottage playroom results in a Bondage Bench scene with her as the bound girl.

(Reputation Resident) Bondage Guy: To unlock this scene, you have both reached **Resident** level Reputation AND currently be renting the cottage, as well as have the **Bondage X-Cross** already purchased from the **Pet Shop**. If you meet all those requirements, a new option will appear when you sit at the bar. Lyanna will point out a guy that would just love to have some fun in your playroom. Convincing him to come how with you via judicious use of alcohol, will result in a X-Cross scene with him being the one strapped down...though with the MC in a bit of a predicament of her own, once she gets started...

The Dockside Gloryhole

Training (Handjob): This is a short scene that happens when asking Desiree for handjob training at the Gloryhole. She uses a prop in the form of a wall-mounted dildo to provide simple instruction. (+1 Nymph Path)

Training (Blowjob): This is a short scene that happens when asking Desiree for blowjob training at the Gloryhole, which you can only do after reaching a minimum of **5 Nymph Path Points**. She uses a prop in the form of a wall-mounted dildo to provide simple instruction. (+1 Nymph Path)

Training (Cunnilingus): The female equivalent of the blowjob training. Talk to Desiree and asked to be trained. Like the blowjob training, this requires **5 Nymph Path Points**. She uses herself as a prop to provide basic instruction. (+1 Nymph Path)

Training (Sex): This is a short scene that happens when asking Desiree for sex training at the Gloryhole, which you can only do after reaching a minimum of **10 Nymph Path Points**. She retrieves a dildo to use on the MC, teaching them about what they'll deal with during a Sex Shift. (+1 Nymph Path)

Work a Shift (Handjob): Only accessible if the MC has completed the Handjob Training, this shows a shift of giving handjobs at the Gloryhole... (+1 Nymph Path up to 5) (Pay: 75 gold + Nymph Score Based Bonus)

Work a Shift (Blowjob): Only accessible if the MC has completed the Blowjob Training, this shows a shift of giving blowjobs at the Gloryhole... (+1 Nymph Path up to 10) (Pay: 150 gold + Nymph Score Based Bonus)

Work a Shift (Cunnilingus): Only accessible if the MC has completed the Cunnilingus Training, this shows a shift of service women instead of men at the Gloryhole... (+1 Nymph Path up to 10) (Pay: 150 gold + Nymph Score Based Bonus)

Work a Shift (Sex): Only accessible if the MC has completed the Sex Training, this shows a shift of being available for sex through the gloryhole...with a little extra in the form of some lesbian content...(+1 Nymph Path up to 20) (Pay: 300 gold + Nymph Score Based Bonus)

Be a Client!: Since the Dockside Gloryhole now services female clients...you can choose to be said client! For a mere twenty gold, you get a semi-private room for your new experience...(+1 Nymph Path Point)

The Haven of the Rose

Train as a Rose Dancer: This is the first step in becoming a Rosegirl. If you ask to Train as a Rosegirl, the MC will be lead of to get a uniform...and then taught how to do what amounts to a Lap Dance. This will Unlock working as a Rose Dancer.

Train as a Masseur: This is the second step in becoming a Rosegirl. If, after reaching 10 points in the Seductress Path, you go back for more training, you can be trained as a Masseur. This, in turn, will unlock scenes for Male and Female massage clients.

Complete your Rosegirl Training: This is the third step in becoming a Rosegirl. In addition to needing at least 20 points in Seduction, you also must have reached the **Resident** reputation level. Once you meet these conditions, go back for more training and you'll be handed off once again to Akane. She leads you through a Threesome with a client, which ultimately unlocks the Rosegirl Title, the Sex Therapist Job, and Sex Variants of the Dancer/Masseur Jobs.

Work as a Rose Dancer: Unlocked only after completing the first Rosegirl Training (above), this allows the MC to work as a dancer. It features giving a lapdance to a male client, with 4 possible endings. The first is just a dance. The second is to let the client jerk off to you. The third requires a minimum 5 Seductress Points and allows the MC to finish him with a handjob. The fourth requires 10 Seductress Points and allows the MC to finish him with a blowjob...well getting off herself! Rewards increase based on which ending is taken, with a bonus based on Seductress Path score. **Reputation Unlock:** With greater than 15 Seductress Points and at least Resident Level reputation, you can offer sex to the client.

Work as a Masseur(Female Client): Unlocked after completing the second Rosegirl Training, working as a Masseur gives you the options to choose either male for female clients. If you choose the female client you get this scene, which has multiple ending options. By default, you can finger the client to climax as their Happy Ending. If you have at least 15 points in the Seductress Path, you will have an additional option to eat the client out instead. Rewards increase based on which ending is taken, with a bonus based on Seductress Path score. **Reputation Unlock:** With greater than 20 Seductress Points and at least Resident Level reputation, you can offer sex to the client.

Work as a Masseur(Male Client): Unlocked after completing the second Rosegirl Training, working as a Masseur gives you the options to choose either male for female clients. If you choose the male client you get this scene, which has multiple ending options. By default, you can give the client a handjob. If you have at least 15 points in the Seductress Path, you will have an additional option to give him a blowjob instead. Rewards increase based on which ending is

taken, with a bonus based on Seductress Path score. **Reputation Unlock:** With greater than 20 Seductress Points and at least Resident Level reputation, you can offer sex to the client.

Work as a Sex Therapist: This is basically the fancy title for being able to work as an official Order of the Rose prostitute. Currently, choosing this option results in a Male Client that you can satisfy the desires of. Eventually, it will result in a client of random gender (or even a threesome/group).

MC's Bedroom (Inn)

Masturbate: In the Inn Bedroom, you can select the option for the MC to masturbate, getting a unique scene. It does not have any stat effects.

Masturbate – Cottage Version: Choosing to Masturbate after you Rent the Cottage (requires Reputation Level of **Resident** or higher), results in this scene replacing the original Inn Bedroom scene. It is a unique scene, rather than just a duplication of the other, and as such is listed separately.

Masturbate – Town House Version: Choosing to Masturbate after you Rent the Town House, results in a new scene specific to the Town House!

Clothes Changes: In the Inn Bedroom, you can get a small fashion show of sorts by swapping between any owned outfits. Notably, and most of the reason this is even listed, is that trying to leave your room in just Underwear or Nude results in a Nymph Path check. 10 Nymph Path Points are required to go out in just Underwear, 20 for fully Nude.

The Magic Shop

Give Jazerhra a Blowjob: In order to unlock this option, you must work through Jazerhra's chat dialog. Ask her about Magic, then Ask if she has any transformations. This will unlock two repeatable scenes with her (The Option to repeat them will appear in the Main Magic Shop Menu after the first time).

Have Sex with Jazerhra: In order to unlock this option, you must work through Jazerhra's chat dialog. Ask her about Magic, then Ask if she has any transformations. This will unlock two repeatable scenes with her (The Option to repeat them will appear in the Main Magic Shop Menu after the first time).

Work a Shift - Breast Expansion(Seductress Path): If you ask Jazerha for work, you are provided with options. If you choose to take a Bountiful Bosoms potion, you can increase sales by having some fun with your clients. In this version that means seducing a small-chested woman into buying a supply of similar potions, having a bit of fun with her in the process...

Work a Shift - Breast Expansion(Nymph Path): If you ask Jazerha for work, you are provided with options. If you choose to take a Bountiful Bosoms potion, you can increase sales by having some fun with your clients. In this version, you can offer a Titjob in exchange for a customer spending more money...

Work a Shift – Fairy Transformation: This option only appears after you've reached at least the **Resident** Reputation level. After you've done that, it appears as a new Transformation option for working shifts at the Magic Shop. By consuming a bottle of 'Fairy Facies' potion, you are transformed into a fairy! Working a shift in this condition reveals a new sex scene, where you must get your whole body in on getting a customer off, in exchange for a rather large commission!

Work a Shift – Futa Transformation: Like the Fairy Transformation, this option only appears after you've reached at least **Resident** level Reputation. Now more confident about the oddities in Haven's Port, you can take a Futa Potion to see a little bit of how the other half lives! Working a shift in this condition introduces the character of Amolyn to you as well, who is likely to recur again later (I liked the design too much to make her just a one off). Repeating the scene later will result in slight differences, though nothing earth-shattering.

Magic Shop Demo Girl(Resident): This option will appear as a Work a Shift option after reaching the **Resident** level of reputation. Instead of taking Jazerhra's place running the shop...you volunteer yourself as a Test Subject for the clients to see the effects of various potions. This triggers a Bondage/Transformation scene.

The Wave Mistress

Sex with Captain Temlin: This is simply a repeat of the sex scene involved in the **Resident** Reputation Unlock. With, of course, modified text to reflect it not being part of that event.

Bondage Bench Unlock – Captain Temlin: This scene is unlocked by first Renting the Cottage (Requires **Resident Reputation** Level) and then purchasing the **Bondage Bench** from the **Pet Shop**. Once these conditions are met, visit the Wave Mistress and you will have a new option...to invite Captain Temlin back to your cottage for a little fun! She, of course, takes charge...

Bondage Cradle Unlock – Captain Temlin: This scene is unlocked by first Renting the Cottage (Requires **Resident Reputation** Level) and then purchasing the **Bondage Cradle** from the **Pet Shop**. Once these conditions are met, visit the Wave Mistress and you will have a new option...to invite Captain Temlin back to your cottage for a little fun! She, of course, takes charge...

Bondage X-Cross Unlock – Captain Temlin: This scene is unlocked by first Renting the Cottage (Requires **Resident Reputation** Level) and then purchasing the **Bondage X-Cross** from the **Pet Shop**. Once these conditions are met, visit the Wave Mistress and you will have a new option...to invite Captain Temlin back to your cottage for a little fun! She, of course, takes charge...

The Pet Shop

Unlockable Location! This location is not available until you've reached the Resident Reputation level!

Buying Gear – In addition to the various events/scenes attached to the Pet Shop, you can also Buy Bondage Furniture to stock the Playroom on the second floor of the Cottage home. You must currently be renting the Cottage in order to buy furniture. However, after you have done so you need not purchase it a second time, even if you stop renting the Cottage. The furniture simply goes into ‘storage’ until you rent the Cottage again.

Rent a Catgirl – This is a set of 3 scenes, each started by renting Violet the Catgirl from the Pet Shop. You must also currently be renting the Cottage. Once you take her back to the Cottage, you’ll have a choice of the following scenes, assuming you have purchased the relevant piece of gear.

Vanilla Lesbian – Available by default, in this scene, you unlock Violet’s chastity belt and have a lesbian encounter with her in the main Cottage room.

Bondage Cradle – Available only once you’ve purchased the **Bondage Cradle** from the **Pet Shop**. You strap Violet into the Cradle, before taking off her belt and having your way with her...

Bondage Bench – Available only once you’ve purchased the **Bondage Bench** from the **Pet Shop**. In this option, you choose not to release Violet from her Chastity Belt, instead strapping her into the Bondage Bench and seeing if you can make her cum by...other means.

Bondage X-Cross— Available only once you’ve purchased the **Bondage X-Cross** from the **Pet Shop**. In this option, you’ve decided to tease Violet, strapping her onto the X-Cross and edging her for hours before letting her cum.

Work as a Catgirl – This is a set of 2 scenes, each started by choosing to work as a Catgirl at the Pet Shop. There is a 50/50 chance of each scene occurring!

A Kitten for a Captain – Captain Temlin has gotten word that you’re renting yourself as a catgirl and she just couldn’t resist coming to purchase your time! You takes you back to the Wave Mistress for some Bondage fun...

The Cat and the Alchemist – A male Alchemist rents your time, taking you on a tour around town before bringing you back to his suite at the Inn for some fun...

The Mysterious Woman – A well-dressed woman with night-kissed skin rents your time. Something about her seems to make the owners nervous...but she insists on being treated normally. Of course, when you do something a little naughty there are consequences...albeit fun ones... (Includes a very mild Spanking scene + Lesbian Bondage scene)

Work as a Ponygirl –

Ponygirl Rickshaw Service – This a single scene, albeit one with an **unlockable** variant available, accessed via choosing to work as a ponygirl for the Pet Shop. You are given a shift working for the Ponygirl Rickshaw service, with a ‘extra fun’ variant unlockable if you have at least **20 Nymph Points**. In the normal variant, you simply work a shift

ferrying people around as a ponygirl. In the Extra Fun version...you get a toy insert to make your shift more entertaining (includes two additional renders)!

A Pony for an Artist – Flare Cocktil, the artist you may have encountered in **The Artist** town even, has approached Kalaid, wanting to rent a Ponygirl for a day. From the Work as a Ponygirl option in the **Pet Shop**, there is a new option for this ‘Special’ task. Taking it results in going with Flare to be her model...and in getting the Toy Insert from the Extra Fun option so she can keep you entertained. Special Note – There are actually two ‘poses’ that she can put you in, chosen at random (with different renders, of course), in an effort to make repeating the scene slightly more interesting.

The Wave Mistress/Pirate Job

Note: Once you reach the Resident Reputation level, you can seek employment aboard the Wave Mistress. There are currently 3 sorts of jobs, split into two ‘ranks.’ The lowest rank is available immediately, though it will gain options as you gain Pirate Skill. The next rank, Seawoman, can only be taken after you gain enough Pirate Skill, and pays out based on the formula of (Pirate Skill + Combat Skill) *25. So, the more you do the Pirate Job, the higher the pay will become.

Entertain the Crew: Without skills, you need to earn your keep another way, in exchange for a small amount of pay and on-the-job-training! ‘Service’ the crew’s needs while they are in port to earn that training! This job is split into 4 possible scenes. For each you will receive 50g and +1 point of Pirate Skill.

Crew Entertainer(Female): Choose to service the female members of the crew. Leads to a Female/Female/Female threesome.

Crew Entertainer(Male): Choose to service the male members of the crew. Leads to a Bondage scene on the Canon Deck.

Service the Quartermaster: This requires you already have at least 3 points of Pirate Skill. If you do, this option will appear, leading to you dominating the Quartermaster in a bondage scene. Additional Benefit of +1 Seduction Point.

Service the First Mate: This requires you already have at least 3 points of Pirate Skill. If you do, this option will appear, leading to you having a sex scene (Titjob and Doggystyle sex) with the First Mate. Additional Benefit of +1 Seduction Point.

Cabin Girl(Nymph): If you sign on as a Cabin Girl in order to learn some skills, you will get one of two scenes. If your BASE(no additions from clothing or title) Nymph Points are higher than your Seductress Points, you will get this scene. Which has a Nymph flavor and unique uniform.

Cabin Girl(Seductress): If you sign on as a Cabin Girl in order to learn some skills, you will get one of two scenes. If your BASE(no additions from clothing or title) Seductress Points are higher than your Nymph Points, you will get this scene. Which has a seductress flavor and unique uniform.

Seawoman: This is the second rank of the Pirate Job. **Requiring a minimum Pirate Skill of 5**. In this job you actually participate in raids as a full crewmember of the Wave Mistress. There are currently two scenes that will be selected randomly.

Merchant's Reward: A merchant that fell afoul of the Empire is *very* grateful for a being rescued from their clutches...she's like to show you here *appreciation*.

After Raid Party: There's always a party after a successful raid! And with the Pirates of Haven's Port...that usually devolves into sex! Leads to a Female/Female/Male threesome.

Port Island Free Use Scenes

These scenes can only be accessed after buying the **Free Use Collar** at the **Clothing Shop**. Once you have that, as well as a high enough Nymph Score to equip the Collar, you can access these scenes by doing so from your current residence. Once you do, like with the Transformation Content, you will be presented with a unique version of the navigation menus that will only let you travel to places with Free Use Content.

Clothing Shop: This scene can be triggered under two circumstances. First, if you have a high enough Nymph Score, you can trigger it when first purchasing the Free Use Collar at the Clothing Shop. Alternatively, entering the Clothing shop after putting on the Free Use Collar later will also trigger the scene. Contains the first appearance of a Double-Ended Dildo in the game :-).

Bar(Male): If you simply wait for 'Someone to take Advantage' of you in the bar, it will randomly trigger one of two scenes. This is the male variant, obviously.

Bar(Female): If you simply wait for 'Someone to take Advantage' of you in the bar, it will randomly trigger one of two scenes. This is the female variant, obviously.

Bar(Pillory): Asking if you can Work at the bar while using the Free Use Collar, Lysana puts you to work as a crowd pleaser. Literally. Sticking you in a pillory attached to the bar, for anyone to use...

Town Event (Male): Choosing the 'Wander Around Town' option will result in one of two random events. In this one you find a shy young man manning a produce stall as you wander the town. Amused by his blushing, you seduce him instead of the other way around...

Town Event (Female): Choosing the 'Wander Around Town' option will result in one of two random events. In this one...an interesting woman appears out of seeming nowhere to demand sex with you. Contains hints for future content ;-).

Wave Mistress: Visiting the Wave Mistress while wearing the Free Use Collar results in discovering the Captain on her way out. She will decide to take you with her to meet an...associate. This leads to a Bondage scenes (MC bound to X-Cross), with the Mysterious Woman that I haven't revealed the identity of yet. It's one of three scenes currently in the game with said Mysterious Woman, and she WILL recognize you if you've already met her before. At least assuming that the meeting occurred in Build 7 or beyond.

Main Island

The main Island is only accessible once you've reached the Citizen Reputation Level. Once you've unlocked that level of reputation, you can take the Ferry to the Main Island from the main street menu of the starting/port island.

The Rose Brothel:

The Rose Brothel is the largest current area of the Main Island (by far) and this is broken up into the following subsections:

The Rose Brothel(Services): Accessible by visiting the Brothel Mistress, you can hire any of the trainers for an evening of fun.

Be Dominated by Karmilla: For 250 gold, you can have the red-skinned beauty dominate you in one of the Brothe's Dungeons. No Unlock Requirement.

Dominate Sylvia: For 250 gold, you can take the cute fox girl to the dungeon and have your way with her! Also, pet those fluffy ears! Seriously, those ears looks so soft and fluffy... No Unlock Requirement.

Test Dwegian's Stamina: For 350 gold, you can have an entire day with Dwegian (hence the higher cost) where he proves to you that Dwarven stamina is something to that lightly... No Unlock Requirement.

The Rose Brothel(Training/Tests): In order to be allowed to work at the Brothel, or even receive training, you must have unlocked the Rosegirl title, by going through at least the **First Three** training's at the **Rose Haven** on the **Port Island**. Note, you do NOT have to have the title equipped. You merely need to have earned it. Additional note! Seductress options lead to softer, Bedroom encounters, while Nymph options result in BDSM encounters in a Dungeon setting.

Be Tested for Work at the Brothel: If you've already unlocked the Rosegirl title at the Rose Haven on the Port Island, the Brothel Mistress will set you up for a test to work at the Rose Brothel. The Dwarf Dwegian will test your 'basic skills.'

Be Trained as a Dom(Seductress): Karmilla will recruit Sylvia as your demonstration model, then teach you how to dominate with a softer touch.

Be Trained as a Dom(Nymph): Karmilla will recruit Sylvia as your demonstration model, then teach you how to dominate someone via harder, BDSM style options.

Be Trained as a Sub(Seductress): Sylvia will reveal that the brothel uses Roleplay Scenarios as a way to match the softer types of submission to strangers. She'll demonstrate with an adorable Maid Roleplay.

Be Trained as a Sub(Nymph): Sylvia will, slightly reluctantly, recruit Karmilla to help demonstrate. Karmilla will take the pair of you to the Dungeon to demonstrate BDSM style submission scenarios.

The Rose Brothel(Work a Shift) Work a shift at the Brothel! If you've already completed the test to work at the brothel (See Training/Tests). You can work any shift that you have the

appropriate training for. However, note that there are two types of training for both Dom and Sub. Any character can access the trainings...but the pay scale of the related shifts they unlock is majorly affected by the character's Seductress/Nymph score. A character with high a high Seductress score and low Nymph score will make far more money on Seductress shifts, and vice versa. Note that, eventually, there will be multiple encounters for each shift type. For now, each has only one.

Regular Shift (Female): The Brothel Mistress will set you up with a generic female client. Fingering, Oral, and Scissoring.

Regular Shift (Male): The Brothel Mistress will set you up with a generic male client. Blowjob + Anal Sex.

(Nymph) Dominate a Shy Troll Woman: The Brothel Mistress will set you up with a shy troll woman as a client. This results in some impact play (spanking) in one of the Brothel's Dungeons.

(Seductress) Dominate a MILF: An older, but beautiful, woman awaits you. She's a bit uncertain, so a soft touch is called for.

(Nymph) Sub for Local Businessmen: A group of local businessmen have rented you as entertainment for their...team building exercises. Results in a bound gangbang of sorts.

(Seductress) Maid Scenario with a Half-Orc: The Brothel Mistress sets you up to perform a maid/master roleplay with a half-orc!

The Rose Brothel(Baths): The Public Baths on the Main Island are part of the Brothel, maintained by the Order of the Rose. Thus, they are accessed from the main entrance of the Brothel. Taking a bath in baths can result in a several scenes at random.

Nothing Happens: You simply bathe in peace for a bit.

Bathing Couple(Threesome): You spot a man and woman having sex in the baths, choosing to approach them results in them inviting you to join them for a threesome.

Tila(Brothel Guide): Note! This is a special encounter. You can find the Brothel Guide taking a break in the baths and offer her a massage...which CAN escalate to more. However, if you try for too much too fast, she will be put off. To go as far as you can with her, only massage her shoulders on the first encounter, let your hands wander on the second (but allow her to finish herself), and only on the third encounter push for more. Rushing her to fast will result in any progress with her resetting to zero.

Drow Sisters (Miona and Mione): Note! This is a special encounter. The Futa sister is the same one you can encounter when you Explore the Island as a Fairy back on the Port/Starting Island. If you have not previously encountered her, then Mione will scare you off. (Extra Note: You'll need to redo the encounter if you've already done it prior to Build 7, as the variable didn't exist yet in Build 6, sorry!). If you've already encountered Miona as a fairy, she will speak up and Mione will let you sit with them. From then on, there is a random chance you will either encounter them together (which currently only

lets you chat with them) or you can encounter Miona alone, being harassed by her admirers. If you encounter Miona alone, you will rescue her and take her on a Date through the Market. Ending with a little fun in a back-alley...

Mione & Miona Additional Content: While this is triggered by randomly finding either of the twins alone in the baths, the content is covered in the Dates section of this guide.

The Order of the Rose (Acolyte):

After reaching a certain set of unlock conditions, you can move forward with becoming a full member of the Order of the Rose, instead of just a Rose Girl. The unlocks are that you need to have 1) Completed your training at the Rose Haven 2) Been tested for working at the Brothel and 3) Have 25 Seductress Points or higher. Note that, in this case, only permanent points count, not temporary additions from titles or outfits. Once you meet the conditions, go to the **Brothel Mistress** and **Chat** with her, there will be a new option that will start things off. This ultimately unlocks the following scene set.

Companion Training 1 & 2: Talking to Ryoia about companion training will introduce two scenes in sequence, where she trains you in more Geisha-like skills.

Exotic Training(Centaur): The first time you ask about Exotic Training, you'll be given over to Sylvia so she can take you to see Harmind the Centaur for some...oversized fun. There is a version of this scene that will be available to replay even after you finish the training. The repeatable scene is somewhat shorter.

Exotic Training(Mermaid): The second time you ask about Exotic Training, Neer'ra will take you to The Cover to meet Ryoka the Mermaid. With a bit of help from a potion, you'll have some underwater fun. As with the other exotic scenes, there is a repeatable variant once training is completed.

Exotic Training (Vampire): It turns out, as undead, Vampires need a bit of specialized help. Karmilla will escort you to get some experience with servicing such a client. As with the other exotic scenes, there is a repeatable variant once training is completed.

Sylvia and the Centaur: If Sylvia has become your **Lover**, you can choose to take her along to visit Harmind, giving you a variant scene for the Exotic-Centaur option!

Premium Clients

Once you've completed the Acolyte training, you can complete new jobs, accessed through Ryoia as the Mistress of Acolytes. Clients are random.

Cavendish: A Male Planar who want some conversation and dancing...and then other things.

Tammy: A half-goblin merchant who is rather shy when it comes to personal relationships. Dinner and a Bath are on order to help seduce her...

(Futa) Reska: Only accessible if you visit Ryoia as a Futa, Reska is a planer who's into being dominated by a girl with something a bit extra...after being properly seduce, of course!

Services

Once you've completed the Acolyte training, you can help people by providing services through Ryoia as the Mistress of Acolytes. Clients are random.

Marriage Counseling: There are a lot of distractions for married couples in the Haven Isles. Help an Orc woman and her half-drow husband get their spark back!

Uncertain Transformations: Ryoia points you to a young half-elf maiden that just come of age. She grew up outside of the Haven Isles and needs some advice on the compelling options magic gives her...

(Futa) Fertility Rites: If you visit Ryoia as a Futa and choose the services option, Ryoia will set you up to help a pair of women of incompatible species to have a child. You get to act as the magical bridge between them...

The Fleet Faction

After reaching a certain set of unlock conditions, you can move forward with becoming a full member of the Fleet Faction, which is the Nymph Path counterpart to the Order of the Rose's Faction. There are two people from whom you can get a recommendation to join.

*Lyra the Fight Coordinator will offer one if you have Pirate Job Skill of 10 or more and general Combat Skill of 8 or more.

*The Fleet Commander will offer you her recommendation if you find her while exploring the Port Island in fairy form. Requires Pirate Job Skill of 10 or more and general Combat Skill of 5 or more. Also requires a high enough Reputation Level to reach the Main Island.

Once you have one of these recommendations, you can access the Adventurer's Guild from the Main Island Docks.

Raider Training: Unlocked as soon as you have access to the Guild Mistress, this is one of the three trainings required to fully join the Fleet Faction. You'll take on a position as the Captain of *The Smirking Mermaid*, one of the smaller interception vessels of the Raid Fleet.

Monster Hunter Training: Unlocked as soon as you have access to the Guild Mistress, this is one of the three trainings required to fully join the Fleet Faction. After being warned of the...dangers of monster hunting, you'll be paired with Mione for training in the Isle's Dungeon. Combat with Goblins follows, followed by a bit of fun with Mione.

Espionage Training: Unlocked as soon as you have access to the Guild Mistress, this is one of the three trainings required to fully join the Fleet Faction. The Guild Mistress will send you to Erizla, the Spy Mistress who manages the Fleet's intelligence arm. Your first job will be to pretend to be a slave, be sold at auction, and activate a homing beacon once aboard a slaver ship so that the Fleet can raid it.

Adventurer's Guild Scenes

Once you've completed all Fleet Faction trainings, you will be inducted into the Fleet. After that, you can visit the Guild Mistress via the Main Island Docks to get Monster Hunting Missions.

NOTE: If you lose a battle with monsters, it will result in a rape-loss. You are warned about this going in AND you can simply choose to run instead of fight. Or, alternatively, to surrender instead of fighting. This was the best balance I could find of providing this type of content without breaking my rules about non-consensual content. Essentially, you are flat out warned by the powers that be in game that you are accepting the risk as an alternative to simply dying.

Note, the skill requirements to win are so high as these are *supposed* to be a fairly late game events. In order to unlock the Adventurer's Guild at all, you'll likely have at least 10 Combat Skill, unless you made use of cheats. Technically, you can unlock it with as little as 5 combat skill, but only if you make exactly the right (or wrong) choices.

Novice Monster Hunter (Goblins): Go hunt some more goblins in the Dungeon! If you have combat skill of 13 or higher, you'll win and merely be rewarded with increased combat skill, fame and money. If you have less than that combat skill you'll be gangbanged by a bunch of goblins and LOSE fame and skill points.

Adept Monster Hunter (Ghost): The ghost of a murdered member of the Order of the Rose is haunting a nearby ruin. You've been sent to attempt to dispatch it. Combat Skill of 15 or higher is required for victory. Defeat means sharing a close encounter of the sexy kind with the ghost girl and losing some Combat Skill, Fame and Seductress Points.

Expert Monster Hunter (Extra Planar Invader): You are sent to fight an unfriendly visitor from the Outer Planes. Success requires 20 or more Combat Skill. Failure leads to being its toy for a while, along with losing some skill points!

Hunt Goblins with Mione: Unlocked if Mione is your Lover, this allows you to repeat the dungeon crawl with her from training. No risk this time! But you still have fun with Mione afterward...

Espionage Missions:

Once you've completed all Fleet Faction trainings, you will be inducted into the Fleet. After that, you can visit the Spy Mistress via the Main Island Docks to get Espionage Missions.

A Spy at Court: Seduce a noble in an Imperial Court in order to get information on shipping movements for the Fleet. There are both Male and Female Noble variants to choose from.

Information Broker: A nomadic information broker has information to sell. Part of the deal with her, however, is to let her have a 'taste of the isles' so to speak. Her most recent obsession is pony girl gear...

Contact Imperial Sources: A corrupt Magistrate inside the Empire has information for you. But he thinks he's selling to a slaver group, so you might be called on to 'entertain' him. Thankfully, your two companions are eager to make up for your pain and suffering. Note that this scene has two variants, one each for your Male and Female companions.

Attention Another Auction: Basically, just a trimmed-down and repeatable version of the Training Scenario for the espionage branch.

Raid Fleet Missions:

Once you've completed all Fleet Faction trainings, you will be inducted into the Fleet. After that, you can visit the Fleet Commander via the Main Street of the Port Island to get Fleet Missions.

Patrol Run: The waters around the Isles need to be patrol for smugglers and enemy vessels. This rather boring but necessary job often leads your equally bored crew to get up to shenanigans...

Monsters on the Trade Routes: While the Adventurer's Guild handles all land-bound monsters, occasionally the Fleet needs to hunt down outside monster that are bothering your shipping lanes. This is a risky and poorly paid job...so you need to find ways to keep your crew happy. Maybe that's just buying them a few rounds...or maybe it's a more *personal* reward...

Hidden Tavern Raid: The slavers have their own resources...such as a magical tavern that teleports away whenever it is threatened. Every time you find it, it needs chased off, since doing so will at least slow them down. Results in a party afterward...and variant options for either an male or female threesome. (2 Males and the MC or 2 Females and the MC)

Raid Captain: Basically, just a trimmed-down and repeatable version of the Training Scenario for the Raid Fleet Branch.

The Market

The Main Market of the Haven Island chain, this will eventually have quite a bit of content. For now, there is a new minor Job here. You can work a shift for the Adventurer Mart's presence in the market.

Work a Shift(Regular): Simply work a regular shift at base pay. No sexy shenanigans.

(Seductress) Work a Shift: Unlocked by having higher Seductress Points than Nymph Points. You work a shift using your wiles to convince shoppers to spend more. Features an encounter with a Female Troll Blacksmith.

(Nymph)Work a Shift: Unlocked by having higher Nymph Points than Seductress Points. You work a shift using 'extra services' to convince shoppers to spend more. Features an encounter with a Male Guard/Adventurer.

Wander the Market— Thief!: Choose to 'Wander the Market' and there's a random chance that you'll discover that a Thief is being punished for stealing from the market. In typical Haven Isles manner, this means she's been put in a bondage device for people to play with until she works off her debt! You can pay to either eat her out, or use a strapon to fuck her ass.

Wander the Market – Free Use: Choose to 'Wander the Market' and there's a random chance you'll encounter a dark-skinned male with a horse cock...and wearing a Free Use collar. You can choose to have some fun with him if you wish!

Wander the Market— Submissive Fiddler: Choose to 'Wander the Market' and there's a random chance that you'll be approached by a submissive locked in a 'fiddle' bondage device. Wearing nothing but it and a strapon, the cheerful sub has been ordered to fuck at least three women to earn her freedom, and wants to know if you'll be one of them!

Wander the Market— Bondage Trap: This is the only 'wander the market' option that has an additional requirement. Namely, that you must have met/worked for Amber, in the market area, at least once. If you have, choosing to 'Wander the Market' may result in her flagging you down. An adventurer whose known to be a bit of a pervert traded her a magic item and she needs someone to test it, since she has hours left in her shift! If you agree...you'll end up in a sticky situation! Not to worry! Amber will help you get out of it...eventually. Ends in an opportunity to have sex with Amber or Bartrum (the owner of the Adventurer's Mart).

The Arena

The Arena is accessible from the Docks of the Main Island. Here you can participate in fights, spar against others, and find Fiona and Louie(The Underchampion and Champion respectively).

Fights

Win/Loss does not effect the outcome for the purposes of fights, save for if you get a payout or not and a few minor text changes. Winning a fight gives out 3x the buy it cost. Beginner fights requires 5 or greater Combat Skill to win. Intermediate fights require 10 or greater Combat Skill to win. Each opponent has a unlockable scene after the fight.

Helruia(Beginner Level): With 10 or more points of Seductress, you can tempt Helruia into a little fun in a special arena Store Room...

Rellusian Third-Leg(Intermediate): With 10 ore more points of Seductress, you can tempt Rellusian into inviting you back to his home for a bit of fun...

Tera'ka the Whirlwind: **Unlockable only if you've been trained as an Archer by Fiona. See her Dates for more information.** Win or lose, you end up in a private bath reserved for higher level fighters. There, you can choose to blow off some of the rush from the fight with your opponent...or not.

Evan the Dominator: **Unlockable only if you've been trained as a Swordsman by Louie. See his Dates for more information.** Win or lose, you end up in a private bath reserved for higher level fighters. There, you can choose to blow off some of the rush from the fight with your opponent...or not.

Sparring Matches

Unlike fights, Sparring Matches have two outcomes, depending on win or loss. They also grant +1 Combat Skill regardless of win or loss, up to a maximum of 15 points.

Fight Redgar: Redgar is a beginner level human male. You'll need 5 points or higher of Combat Skill to best him.

Win: If you win, you can choose if you want to dominate Redgar or simply walk away.

Loss: If you lose, Redgar will dominate you as a forfeit.

Fight Ria: Ria is an intermediate level Dark Elf. You'll need 10 points or higher of Combat Skill to best her.

Win: If you win, you can choose if you want to dominate Ria or simply walk away.

Loss: If you lose, Redgar will dominate you as a forfeit.

The Black Flag Tavern:

The Black Flag Tavern can now be visited.

Nymph)Find Female Fun: With 15 or higher Nymph score, you find a Troll woman in the bar willing to have some very public fun with you...

Nymph) Find Male Fun: With 10 or higher Nymph score(it's actually supposed to be 15 but I screwed up), you find a lonely man at the bar willing to have some very public fun with you...

Aria the Bard: If you visit the bar in the evening or night, you'll see a bard entertaining the crowd with a bawdy ballad. Getting a scene with her has an additional unlock condition, however! This bard is the same elf woman from Free Use (Futa Version) scene in the Main Island Market (Futa version). You must have already done that scene with her to unlock this one. If you've unlocked it, you'll be able to convince Aria to put on a little show (sans clothing) in the park...and have some fun with her after.

Reputation Level Up Events

Note: When you reach certain levels of Fame/Infamy, you can Tier Up to the next level of reputation. This doesn't happen automatically, however! Reaching the right levels of Fame/Infamy merely unlocks the option. The following are explanations of what else you need to do.

Resident Level Reputation: When you first reach 50 fame/infamy, you can Tier Up to become an actual Resident of the island, instead of just an Unknown. In order to do so, however, you must find yourself a sponsor! Specifically, you need to get an introduction to Captain Arylin Temlin of the Wave Mistress. You can get this introduction by getting to know either Lyana (Bartender/Owner of the Jolly Rodger), or Jazerhra (Owner of the Magic Shop). Both of them, as of Build 3, have Relationship Counters in the Character Menu. You need to earn 10 Reputation Points (I'll likely turn this in to a status in the longer run) with them, before you can get their help. This is easy to do by Talking/Chatting with them, Working for them, or Having Sex with them. Once you have enough Relationship Points with them, a new option will appear in their Talk/Chat menus, saying that they have an offer for you. That offer is to take you to a Party, where they will introduce you to Captain Temlin of the Wave Mistress. From there, events are linear, so just follow along!

Citizen Level Reputation: When you reach 100 fame/infamy, you can Tier Up to become a Citizen of the Haven Islands. Just like before, you must find a sponsor! For this, there are two options, **Captain Arylin Temlin of the Wave Mistress**, or **Mother Gloria of the Rose Haven**. Each have their own requirements, in addition to the fame requirement, before they will sponsor you. In the case of **Captain Temlin**, you must raise your **Pirate Job Skill to 10 or higher**. In the case of **Mother Gloria**, you must complete all FOUR of the trainings available at the Rose Haven. Three of those are a linear progression of simply needing more Seductress points to unlock them. The fourth, however, is the Futa training that can only be done by using a transformation potion at the Magic Shop, then visiting the Rose Haven as a futa.

Once you meet the requirements for one of them, visit them and there will be an option in their menu saying that they have an offer for you. Accept this offer and you will be sent to the Commander of the Raiding Fleet to be granted Citizenship. This, in turn, unlocks the Ferry to the Main Island.

Port Island Town Events

Note: Town events occur when specific conditions are met. Even with conditions met, however, they have a random chance factor. Currently, they will trigger 20% of the time if their conditions are met. NOTE: All Town Events are current on the Port Island only.

The Artist: This event is the single hardest to get every part of. In order to trigger it, you have to walk through town Nude, which means a high Nymph Path score. However, in order to see all content of the scene, you'll need 10 points of Seduction as well. Titles can help you with this, a bit, but it's still the current most-difficult-scene to trigger. As for the scene itself, if you meet the basic condition of walking around town nude, you may be flagged down by Flare Cocktail, a painter who wants to use you as her next model! If you agree you will be paid...and if your Seduction is up to snuff, you can have some fun with her when she's done painting...

The Couple: This event only triggers if you have the Glory Girl title turned on. As a special note, due not how the current Town Events code works, you also can't be nude. If you are, the The Artist event will trigger over this one. I'll be changing that in the long run, but for now you simply need to not be nude (and have the Glory Girl title turned on!) in order for this event to trigger. As for the event itself, if you meet the conditions you may be flagged down by a couple. The man has been a regular at the Dockside Gloryhole and recognizes you from seeing you head 'backstage' a few times. He's a bit embarrassed at admitting it...but his girlfriend is all for a threesome to help break down that embarrassment of his...

A Date with Jazerhra: This event only triggers if you are wearing the Sexy Black Straps outfit AND already know that Jazerhra is a futa (which you find out via conversation with her). If both of those requirements are met, there is a 50% chance that this event will trigger upon entering the Magic Shop. Jazerhra seems to have a strong reaction to your outfit...inviting you out on a date!

Transformations!

Note: In Haven's Port, Transformations work on a temporary basis. Once you have activated a Transformation Effect (Via a Magic Shop Potion or similar), all options not compatible with your current transformation will vanish. This means that anywhere you have the option to visit under a Transformation Effect, has at least one scene related to your current Transformation. In some cases, there may be other unlock requirements, but if you can visit it...there is a scene there! For convenience sake, Transformation Scenes are separated here into this section!

Port Island Futanari Scenes: Unlocked by reaching the **Resident** level Reputation, visiting the Magic Shop will allow you to take a Futa Transformation Potion (Cost 300g). The potion lasts until you climax more than 3 time, or else return to the Magic Shop to cancel it. It Unlocks the following scenes.

Pub Menu+ Blowjob: Visit the Jolly Rodger pub as a Futa and select the Menu+ Services option. From here, you can choose for Ria to give you a blowjob. This will result in a Fame and Nymph Score increase, since you have an audience... Costs: 150g

Pub Menu+ Titjob: Visit the Jolly Rodger pub and select the Menu+ Services option. From here, you can choose for Ria to give you a titob. This will result in a Fame and Nymph Score increase, since you have an audience... Costs: 200g

Dockside Gloryhole Blowjob: Visit the Dockside Gloryhole as a Futa and select the Pay for a Blowjob Option. Costs: 50g

Dockside Gloryhole Sex: Visit the Dockside Gloryhole as a Futa and select the Pay for Sex Option. Costs: 100g

Rent a Catgirl Futa Sex: *Note:* This requires you to be currently renting the Cottage! Visit the Pet Shop as a Futa and Rent Violet from the shop. Upon returning to the Cottage with her, this scene will trigger automatically, as it's currently the only Futa compatible option for her. In the future, more options will almost certainly be added. Costs: 500g.

(Town Event) Pillory Blowjob: Choosing the 'Wander Around Town' option from the Main Street menu will currently automatically (for now, more results will be added in time) result in finding a pair of women undergoing Pillory Punishment for their debts. **Unlock Requirement:** In order to participate, your current Nymph Score must be higher than your current Seductress Score. If you meet the requirements, choosing the dark skinned woman will result in a blowjob. Costs: 25g

(Town Event) Pillory Sex: Choosing the 'Wander Around Town' option from the Main Street menu will currently automatically (for now, more results will be added in time) result in finding a pair of women undergoing Pillory Punishment for their debts. **Unlock Requirement:** In order to participate, your current Nymph Score must be higher than your current Seductress Score. If you meet the requirements, choosing the punkish woman will result in sex with her. Costs: 25g

Rosegirl Futa Training: This is a one-time event! Go to the Rose Haven and ask about working there as a futa. You'll be offered training...by Mother Gloria herself! She's not a futa all the time...but she apparently dabbles much as you are. Completing this training will unlock the ability to work as a futa at the Rose Haven, when you ARE a futa, of course.

Work as a Futa Rosegirl: Once the Rosegirl Futa Training scene has been completed, you can now work as a futa at the Rose Haven. Currently there is just one scene that will trigger, with a oddly colored (A Named NPC, hint hint) half-elf that pays for your services!

Jazerha Second Date (Sub): **This scene has an unlock requirement.** In order to unlock this, you must have already done the A Date with Jazerhra town event and currently be renting the Cottage. (Note, if you've done A Date with Jazerhra prior to Build 7, you'll need to do it again, as the variable setup was not in Build 6's code.) Once you've completed that event, visiting the Magic Shop **while under the influence of the Futa Potion**, will give you the option to invite her on a second date. After inviting her back to your cottage afterward, you'll be presented with the choice to either dominate or submit to her. Submitting triggers this scene, when you are on the 'receiving' end of the futa x futa encounter.

Jazerha Second Date (Dom): **This scene has an unlock requirement.** In order to unlock this, you must have already done the A Date with Jazerhra town event and currently be renting the Cottage. (Note, if you've done A Date with Jazerhra prior to Build 7, you'll need to do it again, as the variable setup was not in Build 6's code.) Once you've

completed that event, visiting the Magic Shop **while under the influence of the Futa Poition**, will give you the option to invite her on a second date. After inviting her back to your cottage afterward, you'll be presented with the choice to either dominate or submit to her. Choosing to dominate her resulting in you being on the 'giving' end of the futa x futa encounter.

Port Island Fairy Transformation Scenes: Unlocked by reaching the **Resident** level Reputation, visiting the Magic Shop will allow you to take a Fairy Transformation Potion (Cost 500g). The potion lasts for four encounters, or else return to the Magic Shop to cancel it. It Unlocks the following scenes.

Pub Fairy (Female): Visiting the Jolly Rodger while transformed into a fairy will present you with the option of seeking Male or Female company. Choosing to seek out a woman to have fun with will result in this scene.

Pub Fairy (Male): Visiting the Jolly Rodger while transformed into a fairy will present you with the option of seeking Male or Female company. Choosing to seek out a man to have fun with will result in this scene.

Wave Mistress (Fairy): Visiting the Wave Mistress as a Fairy will result in an encounter with Captain Temlin!

(Town Event)Dockside Fairy Encounter: Choosing to 'Wander Around Town' will trigger this open automatically (for now, there will likely be other options added later). You'll encounter a Real Fairy who's interested in having a fun time with someone her own size. Medea also drops a hint about there being more of her kind around somewhere...(Not in the game yet, though!)

Explore the Island(Dark Elf): Choosing the option to 'Explore the Island' will randomly choose between 2 (as of build 7) scenes. In this scene you discover a Futanari Drow/Dark Elf sunbathing on a remote beach. She'll be a major character later on...for now you can join her for a little 'fun' on the beach!

Explore the Island (Mysterious Woman): Choosing the option to 'Explore the Island' will randomly choose between 2 (as of build 7) scenes. In this scene you discover a familiar (possibly) woman idly in a remote lookout area near the cove entrance. She will be a major character later on...and appears in other scenes elsewhere. For now, you can have a fun little encounter with her.

Main Island Futanari Scenes: As of Build 9, you can now take the Ferry to the Main Island after being transformed at the Magic Shop. The following Futa-Exclusive scenes are available on the main island!

Tila's Break Time: **Unlock Required!** In order to unlock this scene, you must have fully completed Tila(Brothel Guide) in the **The Rose Brothel(Baths)** section of this guide. If you have done so, you will see an option while visiting the brothel to join her during her break time, where she will be quite interested in trying out your temporary extra feature...

Futa Bathtime Threesome: Featuring the same couple that you can have a threesome with in the non-futa take a bath option, investigating the Rose Brothel's Baths as a futa can get you another threesome with them!

Earn Some Encores: This scene requires that you have completed Aria the Bard from the **Black Flag** section of this walkthrough (which, in turn, requires you to have met her in Free Use (Futa Version), during the Futa version of Wander the Market. This makes it one of the more complex unlocks of the game. In exchange, however, you can go looking for Aria while you're under the effects of the futa transformation. Upon finding her performing for the Tavern...you can add a little something extra to that performance. Namely...you.

Wander the Market(Futa)

Thief! – You encounter a thief paying off her debts to society at the entrance to the market. Since this is the Haven Isles...the way she's paying is rather predictable! She's strapped into a bondage device and you can pay to make use of either her mouth or pussy!

Free Use (Futa Version) – You encounter a gorgeous elf woman wandering the market in a Free Use collar. You can choose to take advantage of that...and you might just see her again in the future ;-).

Amber's Predicament – If you've already done the **Wander the Market— Bondage Trap** scene at least once, you may find, during the Futa wandering option, that Amber has accidentally activated one of the bondage traps herself...and needs a specific sort of help to get the magic to let her go.

Work at the Brothel(Futa)— Assuming you've already passed the Brothel Mistress' test for working at the Brothel, you can now work there as a futa as well! Currently, the following three scenes exist.

Service a Regular Client – This gives a relatively tame female client for you to service!

(Nymph)Futa Dom – If you have already completed the Nymph domination training with Karmilla, you can take a submissive client...which turns out to be a gnome!

(Nymph)Futa Sub – If you have already completed the Nymph Submissive training, you can play a futa submissive role. You're clients turn out to be a half-elf and half-orc pair who stick you in an interesting bondage device for a unique threesome...

Seduce the Brothel Mistress – If you've completed Acolyte Training and become an Acolyte of the Order of the Rose, visiting the Brothel Mistress as a Futa will give you a new option to try seducing her...which sort of works...sort of?

Miona:

Bath Time Fun(Futa): Once you have become her Lover, if you visit the Main Island as a Futa, you can now choose to look for Miona in the baths. Finding her leads to a futa/futa scene.

Main Island Free Use Scenes: As of build 12, the Free Use Collar content has been extended to include the Main Island. You can use the Collar from the Townhouse, or Travel between the islands with the Ferry after putting it on at the Inn or Cottage locations.

Black Flag:

Rough Magic: No Unlocks requires (beyond the Collar itself). You can have an encounter with a well-dressed man...who proves not everyone in Haven's Port is completely nice. And that some people just make up for their shortcomings with a little magic...even if it's not really the same thing at all.

The Twins: **Unlock Required!** You need to have met Mione and Miona successfully in the brothel baths (meaning that Mione didn't drive you away). If you've successfully met both of them, than this option will be open to you. Mione and Miona may not be into Twincest...but they are more than willing to share a lover. Particularly if that lover is wearing an open invitation around her throat...

Market: Note that the Market Scenes are randomized. You may get any of the following scenes.

A Shy Orc: A girl-next-door sort of orc woman wants to make use of you. But she's clearly a bit new to the idea of public fun. You kindly help her get over her nerves so she can fuck you properly...

The Unashamed Pervert: An older man has discovered both you and Aria wandering around with Free Use Collars at the same time. Like any properly unashamed pervert, he wants you both...

Wander the Town: Note that the Town Scenes are randomized. You may get any of the following scenes.

The Terrible Twosome: A pair of gregarious fellows who always hang around the well and do everything together...want to do you together. And, give your Collar, you aren't saying no...

What the Oddball: You are ambushed by a very off woman who takes full advantage of you. Why do you feel like you've seen this person somewhere before...?

Punishments!

Note: Punishments occur when you do something against the law in Haven's Port! Currently, the only thing that will trigger them is failing to make a Rent Payment. Eventually, other things will accrue fines or punishments as well.

Pillory Punishment: You have to pay off your fine! In order to do so, the guards lock you into the Town Pillories...nude, of course. Anyone can make use of your vulnerable body, so long as they pay a small fee...and you'll only be let go once those fees add up to your fine amount!

The Clothing Shop

Currently the only sex scene for this area is an optional one when purchasing the Free Use Collar or visiting with it equipped.

Current Outfit List – With Requirements

Haven's Port Classic – No Requirements

Black Straps – No Requirements

Fancy Furs – No Requirements

Traditional Pirate Outfit – Requirement: Achieve **Resident** Reputation level

Seductress Panties – Requirement: Achieve **Resident** Reputation level

Nymph Panties – Requirement: Achieve **Resident** Reputation level

Nymph's Seductress – Requirement: Achieve **Resident** Reputation level

Swashbuckler Special – Requirement: Achieve **Resident** Reputation level

Mysterious Magics – Requirement: Achieve **Resident** Reputation level

Title Unlocks

Rosegirl Initiate – This title can be unlocked via training as a Rosegirl for the first time. Simple as that! It boosts Seductress Points while reducing Nymph Points, and adds a small amount of fame.

Rosegirl – The next stage of the Rosegirl title set, this can be unlocked via finishing all three trainings for being a Rosegirl. The final training requires at least **Resident** level of Reputation. It proves the same types of boosts and negatives as the Initiate title, but stronger.

Glory Girl – This title can be unlocked by working 10 shifts at the Dockside Gloryhole! It boosts Nymph Points while reducing Seductress Points, and adds a small amount of fame.

Housing Options

The Inn: As a rescued Ex-Slave, there is always a free room for you at the Inn.

Masturbate: You can masturbate while in your room.

The Cottage: Once you reach Resident Level reputation, you can Rent a Cottage on the Starter island, unlocking a few new scenes...and eventually quite a bit more content.

Masturbate: You can masturbate while in your room.

The Town House: Once you gain access to the Main Island, you can Rent a Town House there, which unlocks new content.

Masturbate: You can masturbate while in your room.

Bondage Basement Upgrade: For 4000 gold, you can upgrade the Bondage Basement to include a trio of Bondage Frames.

Bondage Basement (Pub Girl): From the Bondage Basement, you can decide to go out and find yourself a girl from the pub to play with. This variant finds you a submissive girl who really likes being spanked...

Bondage Basement (Pub Guy): This option requires the **Bondage Basement Upgrade** to unlock. From the Bondage Basement, you can decide to go out and find yourself a guy to play with. This variant find you a dominant guy who will tie you to the Laying Bondage Frame and have his way with you...

The Beach House: Once you gain access to the Isle of Jerta, you can rent a Beach House there, which unlocks new content.

Masturbate: As with each housing option, there is a unique masturbate option. This time involving a double dildo.

Dates: Any of the dateable NPCs who you have achieved 'Lover' status with can be invited to Jerta for a date. The actual date descriptions can be found with the dates for each character elsewhere in this guide. Namely, in the section right below this one...

Dates

In Haven's Port, several Major NPCs are dateable. In this section, you can find how to locate, trigger, and successfully complete dates with these NPCS. Each NPC also has chats available, and some may have new chats after you've gone on specific dates (this currently only applies to Mione as of Build 9).

Sylvia – Located in the Brothel and accessed through the Brothel Mistress menu, you can chat with Sylvia...and you need to in order to unlock her first date.

Date 1: Do all three of Sylvia's chats and you will get the opportunity to ask her out. She will avoid directly answering...but take you on an adventure playing voyeur with her around the brothel. This leads to some fun in the baths after you spy on a couple of rooms with her.

Date 2: This is one of the more complex dates, with far-reaching effects that aren't in game yet. Once you've completed Date 1 with Sylvia, you can ask her out again. In order to pass the date, you must gain at least two date points with her, out of three possible. To start it, simply speak to her and ask her out again. This time, she'll directly accept you taking her on a date. You'll take

her to the Park at the center of town and talk with her for a while. Eventually, she'll ask you a question. You will gain a date point if you answer positively, that 'yes, it's possible,' to her question. HOWEVER, this is planned to effect how her story will develop. And strictly speaking you can pass the date with a negative answer.

From the Park, the two of you will head to a café above the Brothel, where you'll get the chance to order from her. Picking Redfin Tuna rewards you with a date point, salad results in negative date points, and letting her choose for herself in neutral.

After some more talking, she'll ask another question about if you want a family or not in the future. Again, answering that yes you do will get you a date point....buuuuuutttt it will also effect where her story goes! Still, you need to answer positively about either this question OR the first question, if you want to succeed at the date.

Assuming you got at least 2 of 3 points, Sylvia will invite you back to her room in the dormitory's for some fun...

Date 3: This date is simple to unlock. Just finish Sylvia's Date 1 and Date 2 and this one will become available. Date three shows off more of Sylvia's submissive and insatiable side, with you taking her to the Black Flag for some public attention. Note that this is the last date required before you can gain Lover status with Sylvia.

Lover Status: After the first three dates with Sylvia, the option will appear to ask her to become your Lover. Doing so will open up additional options/content for her, as well as the ability to repeat previous dates.

Tour the City Date: After she becomes your lover, Sylvia offers to show you some of the more practical locations in the city, outside the main attractions. Of course, she wouldn't be her if it didn't end in something kinky. (Tentacles)

Sylvia's Elven Friend Date: After she becomes your lover, Sylvia asks you to visit a friend of hers...who turns out to be an elf named Lily stuck on a lonely guard rotation. But Sylvia has more in mind that just bringing her friend some better food...(Threesome)

Town House Bondage Basement (Spanker): After she becomes your lover, you can invite Sylvia to your bondage basement by visiting her at the Brothel. You must be **Renting the Townhouse**, obviously, though you do not need the upgrade. As you're well aware that Sylvia doesn't really like pain in the playtime, this scene takes a twist that she won't expect...

Town House Bondage Basement (Laying X Frame): After she becomes your lover, you can invite Sylvia to your bondage basement by visiting her at the Brothel. This scene has the two unlock requirements (aside from the **Lover** status). You must currently be **Renting the Townhouse** and have purchased the **Upgrade** for the Bondage Basement. As the title suggests, this scene is to option to tie Sylvia to the Laying X-Frame for some fun.

Jerta Island Date(Fairy Swarm): For this one, you need to have unlocked Jerta Island by becoming a member of the Fleet Faction. There, if you rent the Beach House and Sylvia is your lover, you can invite her on a date from the Beach House's menu. As for the date itself...Sylvia is

quite familiar with Jerta and takes you to a grotto where she shows you how to lure in a Fairy Swarm for a bit of fun...

Miona – Miona's first date is a random encounter in the baths, where she's being accosted by her fans. This was actually added in Build 8 and is in the Baths section, but will be copied here as well. Further dates are accessed by finding her ALONE after that first date. Originally, that meant being subject to the randomizer. **As of Build 10, you can also find Miona via simply looking for her in the baths. This will allow you to activate all dates EXCEPT the first. That one, due to its nature, must still be found via the randomizer.** Note, that it can't be recusing her again, that scene is repeatable in and of itself. You need to find her alone (without her fans or sister around), which will only happen a random after that first date. **Encounters are also only available if you go through the randomize method.**

Date 1: First, you must have met Miona as a fairy back on the port island. Second, you must encounter her again with her Twin at the Brothel Baths on the Main Island. After first meeting with the Twins in the baths, there is a chance to encounter Miona being harassed by her fans, without her sister around. You can rescue her and take her on a Date through the Market. Ending with a little fun in a back-alley....

Date 2: Finding Miona again, ALONE (no fans, no sister), will trigger the chance to either Chat with her or ask her out on a date. If you ask her out on a date, it will trigger this option, where you take her to the Park at the center of town. Eventually, after chatting for a while, she will show you a secret spot where the two of you can have some fun...

Date 3: Finding Miona again, ALONE (no fans, no sister), will allow you to ask her on a third date, if you've already completed the first two. In the third date, she takes you off the Main Island entirely, to a minor island few know about. There you have both some fluffy fun and some sexy fun.

Lover Status: After the first three dates with Miona, you can ask her to become your Lover. Once you have done so, you will be able to repeat the first three dates, as well as gain access to the new scenes listed below.

Jerta Island Date: Once Miona is your Lover, you can choose 'Visit Jerta with Miona' and it will trigger a new date. Miona has agreed to look after a friend's place on Jerta Island and offers to take you with her. This is the first sneak peak of Jerta in the game! Jerta is an Asian-themed island, and thus the date is as well.

Rose Garden Date: Once Miona is your Lover, you can choose 'Visit Rose Garden with Miona' and it will trigger a new date. It turns out that Miona's actual home is on the island of Rose Garden, even if she rarely stays there. She takes you for a visit...

Bath Time Fun: Once Miona is your Lover, finding her alone in the baths will include an additional option. Note that the 'Suggest some fun' option will only appear if you find her via the 'Take a Bath' randomizer, rather than via simply searching for her. This is meant in part to give a unique scene to the randomizer version so it doesn't feel like a complete waste when you get it. The option leads to a unique scene in one of the brothel's bedrooms.

Bath Time Fun(Futa): Once you have become her Lover, if you visit the Main Island as a Futa, you can now choose to look for Miona in the baths. Finding her leads to a futa/futa scene.

Town House Bondage Basement – (Dom): Unlocked by both being Miona’s Lover, Renting the Town House, and completing the Bondage Basement Upgrade, you can take Miona back to the townhouse for some fun. In this variant, you tie her up to the Laying Bondage Frame and have your way with her.

Town House Bondage Basement – (Sub): Unlocked by both being **Miona’s Lover, Renting the Town House**, and completing the **Bondage Basement Upgrade**, you can take Miona back to the townhouse for some fun. In this variant, she ties you up in the Suspension Frame and has her way with you.

Jerta Island Date(Futa Public Use Fun): For this one, you need to have unlocked Jerta Island by becoming a member of the Fleet Faction. There, if you rent the Beach House and Miona is your lover, you can invite her on a date from the Beach House’s menu. As for the date itself...she takes you to her own house there and gives you a Futa Potion. The two of you then double team an orc at the main beach’s Public Use station.

Mione – Like Miona, you must have met the twins in the baths already. This means you have to have also met Miona as a fairy back on the Port Islands so that she will invite you to bathe with her and her twin. Once you have met them, there is a chance to encounter Mione alone in the baths, where you can chat with her.

Date 1: This has an additional requirement! Mione won’t date you until you’ve already done the first TWO dates with her sister. After that, find her in the baths and Mione will demand you take her on a date so that she can ‘make sure you’re good enough for her sister.’ If you accept, you’ll go with her the Black Flag tavern to talk...and eventually you’ll get a chance to go back to the Brothel and rent a room with her. **NOTE! Mione is a dominant, pure and simple.** All sexual encounters with her will put the MC as a submissive! You have been warned!

Date 2: Once you’ve gone on the first date with Mione, find her in the baths again and she’ll flat out as you for another if you encounter her again. She’s somewhat melancholy for...reasons I won’t spoil in a guide. You learn a lot about her and her sister’s past, plus have more sexy times.

Date 3: Once you’ve gone on the other two dates, find her again and she’ll propose another date...but this one a bit different. As you’re warned my Mione herself, if you agree to the date, you have to obey her completely. No Spoilers ;-). I think it’s one of the best done bits of content so far!

Lover Status: After the first three dates with Mione, you can ask her to become your Mistress. Once you have done so, you will be able to repeat the first three dates, as well as gain access to the new scenes listed below.

Walkies: After Mione becomes the player's Mistress, there will be an option to allow her to choose a date for you. This randomly selects between two(current) dates. If this date is selected, Mione retrieves a collar, gag and leash and takes you for a walk through town...

Arena Encounter: After Mione becomes the player's Mistress, there will be an option to allow her to choose a date for you. This randomly selects between two(current) dates. If this date is selected, Mione locks you in chastity and takes you to watch a fight at the Arena...as well as more. Note: There is a random chance that she will *leave you locked in chastity* for anywhere between 1 and 3 days. The length of time is random.

Chastity and Mione: Mione has a thing for chastity belts! Once she becomes your mistress, two of her dates (the Tavern Date repeat and Arena Encounter) have a random chance for her to leave you locked in chastity for a random amount of time (between 1 and 3 days). While locked in chastity, options will be limited to those places where compatible scenes have been introduced (much like the Futa, Fairy, and Free Use effects). In order to be released from your belt, you can visit Mione in the Brothel Baths...but beware! If you haven't been locked up long enough for her tastes, she'll not only refuse to release you...but she'll add an extra day to your time!

Town House Bondage Basement – Bad Girl: Unlocked by both being **Mione's Lover**, **Renting the Town House**, and completing the **Bondage Basement Upgrade**, you can tell Mione that you've been a bad girl. She will force you to talk naked through town back to your Town House, then set you up for a spanking...

Town House Bondage Basement – A Little Tied Up: Unlocked by both being **Mione's Lover**, **Renting the Town House**, and completing the **Bondage Basement Upgrade**, you ask Mione if she wants to tie you up. She agrees, taking you naked through town back to your Town House and suspending you on your Bondage Pole, then having her fun with you...

Jerta Island Date(Magic Bondage): For this one, you need to have unlocked Jerta Island by becoming a member of the Fleet Faction. There, if you rent the Beach House and Mione is your lover, you can invite her on a date from the Beach House's menu. As for the date itself...Mione surprises you by taking you a scenic overlook. Then surprises you again by using magic for a little bondage fun...

Fiona – Fiona is the Arena Underchampion and can be found in the Training Area of the Arena on the Main Island. Prior to winning an intermediate-tier fight against Rellusian Third-Leg for the first time, you can only chat with her. However, defeating Rellusian Third-Leg opens up date options. Currently, there are two, both with Seductress unlock requirements.

Date 1: You must have a minimum of 10 Seductress Points to unlock this date. Additionally, you must have defeated Rellusian Third-Leg (which requires 10 Combat Skill). Once you meet the unlock requirements, speak with Fiona in the Training Area and choose to 'Flirt with Fiona.' This results in taking a walk around the Arena with her...where you learn an interesting and useful tidbit about her...

Date 2: You must have already completed Date 1 and have at least 15 points in Seductress, to unlock this date. Additionally, it will only be available during the 'Evening' time slot for reasons that will become obvious during the date. Once unlocked, you can 'Tempt Fiona into more Fun.' This leads you using the information you gained on her in the first date to her in her panties again. As well as have a nice chat afterward...

Date 3 (Training Date): You must already have completed Date 1 and Date 2 for Fiona. Additionally, you need to have fought in the Arena, have a Combat Skill of 10 or higher. All of which you should honestly already have if you're dating her, but they **are** hard requirements to unlock the third date. After checking off each of those requirements, Fiona will have a new option saying she's looking you over. Following the option will result in her inviting you back to her place to train. Not only does this result in an eventual sex scene with her, but **It Also Unlocks Fighting Expert Arena Matches as an Archer**. It also **Unlocks the Ability to ask her to be your lover**.

Lover Status: After the first three dates with Fiona, you can ask her to become your lover. Once you have done so, you will be able to repeat the first three dates, as well as gain access to the new scenes listed below.

Exposure Therapy/Pony Date: Fiona seems to have some odd hangups for someone with obvious exhibitionist tendencies, who is living on the Haven Isles. With this date, you concoct a plan to find out what the issue is...by luring her out for some skinny dipping and...more. Results in a small amount of Pony Play content and an explanation of what her issue is! **Required to Unlock her Fairy Date**. You must be her lover to see this option.

Fairy Date: You must have done Fiona's **Exposure Therapy/Pony Date** at least once to unlock this. Now knowing what her problem is, you've found another work around. Using a transformation potion from Jazerhra's magic shop as a disguise, you take her around town for some public fun. You must be her lover to see this option.

Jerta Island Date(Potion Challenge): For this one, you need to have unlocked Jerta Island by becoming a member of the Fleet Faction. There, if you rent the Beach House and Fiona is your lover, you can invite her on a date from the Beach House's menu. As for the date itself...Fiona is excited that nudity is *mandatory* on Jerta. Wanting to push her a bit more in her exhibitionism, you take her to play the Orc Village's Potion Challenge game...

Louie – Louie is the current Arena Champion and can be found in the Training Area of the Arena on the Main Island. Prior to winning an intermediate-tier fight against Rellusian Third-Leg for the first time, Louie will not even speak to you. After defeating Rellusian, you can both chat with him and unlock two dates.

Date 1: You must have a minimum of 10 Seductress Points to unlock this date. Additionally, you must have defeated Rellusian Third-Leg (which requires 10 Combat Skill). Once you meet the

unlock requirements, speak with Louie in the Training Area and choose to 'Flirt with Louie.' This will result in a walk in the park, leading to more at his home...

Date 2: You must have completed Date 1 to unlock this date. Talk to Louie again in the Training Area and get a second date that takes you to several locations around town before ending in the Black Flag Tavern.

Date 3 (Training Date): You must already have completed Date 1 and Date 2 for Louie. Additionally, you need to have fought in the Arena, have a Combat Skill of 10 or higher. All of which you should honestly already have if you're dating him, but they **are** hard requirements to unlock the third date. After checking off each of those requirements, Louie will have a new option saying he's looking you over. Following the option will result in him inviting you back to her place to train. Not only does this result in an eventual sex scene with him, but **It Also Unlocks Fighting Expert Arena Matches as an Swordsman**. It also **Unlocks the Ability to ask him to be your lover**.

Lover Status: After the first three dates with Louie, you can ask him to become your lover. Once you have done so, you will be able to repeat the first three dates, as well as gain access to the new scenes listed below.

Wilderness Date: Louie will ask you to accompany him on an evening/overnight date into the wilderness portion of the Main Island. He will take you to see a natural wonder, then have a nice campfire even and some sexy fun. Must be his lover to unlock.

Harem Evening Date: Louie loves telling stories and you've listened closer than he realized. You arrange a private evening in a 'harem' environment for him. Note, this is not a multi scene, just the MC and Louie. In this case, the 'harem' is the setting. Must be his lover to unlock.

Jerta Island Date(Centaur Lovers): For this one, you need to have unlocked Jerta Island by becoming a member of the Fleet Faction. There, if you rent the Beach House and Louie is your lover, you can invite her on a date from the Beach House's menu. As for the date itself...Louie loves horses and wants a chance to see what it's like to be at least half a horse. He drags you to see the Herd's alchemist for a little joint transformation fun...

Chastity Content

As with the Futa, Fairy and Free Use content, ending up in a Chastity Belt results in you player seeing an alternate version of the Haven Isles, where you can only go to places that currently have Chastity Enabled Scenes. The following is a list of both the current ways you can end up trapped in (temporary) chastity, how you can get free, and what scenes are available while in chastity.

Market Trap – In the market on the Main Island, 'Wander the Market' can result in your interacting with Amber. The first time you do so, you can trigger the 'Wander the Market— Bondage Trap' scene (found in the Market section of this guide). However, every time AFTER the first, Amber will present you with the option to play a game. Odds are 1 in 3 of each of the following results: Get 500g, Repeat of the

Bondage Trap scene, or Get Trapped in Chastity for 1-3 days. If you trigger the Chastity Trap option, there is a farther 50/50 chance on getting trapped With or Without a toy. This belt will *automatically fade* after its timer runs out.

Mistress Mione – After her Third Date, you can ask Mione to become your Mistress. Once she does, two of her scenes result in a 50/50 chance for her to leave you locked in chastity for 1-3 days. These scenes are the Arena Date and the Tavern Date. You can visit her at the Brothel Baths at any time to ask to be unlocked...but be warned! If you haven't spent enough time in the belt for her satisfaction, she'll not only leave you locked up but add another day to the timer! Note that Mione is a big believe in locking you up with a toy, so she will always do so...and that toy will be set for random activation!

Market Unlock: As of Build 14, there's a new option for how to escape being belted. If you wander the market while belted and encounter Amber, taking her offer will give you the chance to get the belt off.

Public Toy Incidents

Public Toy Activation(Main Island): If you are not only in chastity, but also have a toy locked inside, there is a 1/3 chance that it will activate while you're moving around the island. If it does so, it will vanish your clothes and make you cum right there in public, whether you want to or not! This is the Main Island variant.

Public Toy Activation(Port Island): If you are not only in chastity, but also have a toy locked inside, there is a 1/3 chance that it will activate while you're moving around the island. If it does so, it will vanish your clothes and make you cum right there in public, whether you want to or not! This is the Port Island variant.

Black Flag

Challenge the Black Flag – Once Trapped in Chastity, you can visit the Black Flag Tavern and challenge the entire bar to make you cum despite your...restrictions. Results in a gangbang until they make you cum...

Bardic Magic – This scene requires that you have completed Aria the Bard from the **Black Flag** section of this walkthrough (which, in turn, requires you to have met her in Free Use (Futa Version), during the Futa version of Wander the Market. This makes it one of the more complex unlocks of the game. In exchange, however, Aria might be able to help you get off while you're pussy is all locked up! Maybe. Results vary depending on if you have a toy included with your chastity play or not...

The Jolly Rodger

Menu+ Assistance at the Jolly Rodger – If you visit the Jolly Rodger Pub while trapped in chastity, you can ask one of the Menu+ girls for help cumming, despite your restrictions...

Try Drinking Your Frustration Away— At the Jolly Rodger, you can decide to simply try and 'drink to forget,' as it were. Predictably, this doesn't go as anticipated, since extreme horniness + lack of inhibitions + Haven's Port pub = Sex is an obvious equation. You'll work your way through a bit of fun either way, but the final results (and the final image) change depending on if your

Chastity predicament includes a toy or not. With a toy you'll be able to cum at the end of the night. Without one...you'll only end up more frustrated...but you'll still have had fun!

A Magical Solution— Asking Lyana (the bartender) about your situation results in her directing you to a mage named Savanna. Savanna just so happens to be two things. A portal mage...and the owner of the Glory Hole down by the docks. With the help of her portal magic you can get the best of your chastity belt! For an hour, at least...

The Magic Shop

Act as a Model: **Note, this scene only appears as an option if you are in chastity but do NOT have a toy locked inside.** If you enter the Magic Shop in those conditions, Jazerhra perks up immediately and makes you an offer. Be her model for the day, allowing her to show off some of her more exotic transformations to customers, and she'll find a way to make you cum with her potions. Agreeing results in being bound to a frame and used as her display for the day...but she *does* live up to her promise to make you cum at the end of it...

The Pet Shop:

The Catering Job: **Note, this scene only appears as an option if you are in chastity and DO have a toy locked inside.** If you enter the Pet Shop in those conditions, the owner offers you employment for the day. If you agree, you end up catering to some VERY high-profile figures in the Haven Isles while they have a meeting. And in the end, they remotely activate your toy as a reward...

The Brothel/Baths

Work at the Brothel(Threesome) – While trapped in Chastity, you can work for special clients in the Rose Brothel by talking to the Brothel Mistress. In this variant, she sets you up with a couple that want a threesome...but only with certain conditions.

Work at the Brothel(Female) – While trapped in Chastity, you can work for special clients in the Rose Brothel by talking to the Brothel Mistress. In this variant, she sets you up with an eccentric female mage who wants to play 'punish the maid.'

Get Relief at the Brothel(Mistress Massage): You can now ask the Brothel Mistress if there's anyway to get some relief from your arousal. To your surprise, she offers to help you personally, for a small fee. She takes you back to basics with a massage...at a true master's fingertips.

Miona – Chastity Bath – If Miona is your Lover, you can see her out in the Rose Brothel Baths and she will take charge for a little anal fun...

Market

There are currently two possible market scenes, with which one you get being randomized on entry.

Phase Fairy: A fairy with a gift for phasing through things offers you some help getting a little relief, while you're browsing titillating titles such as 'How to Make Stripping Out of Platemail Sexy.'

Amber's Offer: Amber has impulse purchased a BDSM cage. Now she needs to justify it to her boss. If you agree to let people use your ass (and mouth) as an extra reward she can offer for a special sale...she'll convince her boss to unlock your belt for you. Note, that there is a minor variant to the text depending on if your belted with a Toy or not. If you are, you'll cum during the event. If you aren't, no such luck! If you choose to get your belt removed, you'll also have the chance for some relief with Bartrum or Amber afterward.

Rose Acolyte

If you have already become a Rose Acolyte, there are (as of Build 14) now a couple of chastity supported scenes. Visit Ryoia, the Mistress of Acolytes, for work to see them...

Lady Riza (Scene 1): A new client has appeared! Riza is interested in the control exchange of a Chastity Belt experience. Ryoia asks you to ease her into it...

Lady Riza (Scene 2): This encounter unlocks only after you do Riza's first scene. It's also currently unique in the game in that only half of it occurs immediately. Riza's back for more and asks to me locked up longer this time...which is exactly what you do. She'll come find you for the other half of the scene *three days later*, when you're about to sleep. NOTE: Because of the screwy way I originally did time (days aren't actually counted, which I thought was me being clever, whereas I now wish I'd not done it that way), only actually triggering the sleep event will count days off. Since there are some events that bypass it, it may not count those days. NOTE THE SECOND: Only works if you're currently renting the Town House.

Lady Riza (Scene 2 Variants): The second half of Lady Riza's scene 2 actually has two variants. One if you are, yourself, in chastity when she finds you three days later. Another if you've escaped your own belt before she finds you. Each results in a unique set of renders.

Others

Townhouse Chastity Masturbation – You can *attempt* to masturbate in the Town House, if you are currently renting it. However, if you do not have a toy inside the belt, you will only end up frustrated...and if you DO have the toy things still won't go quite as you'd expected...

Mione – Tavern Date – If Mione is your Lover, you can do a variant of her Tavern Date by visiting her in the Rose Brothel Baths.

Captain Temlin's Help – If you approach Captain Temlin while stuck in chastity, she will instantly recognize your problem and offer to help you get some relief...for her own price, of course!

The Isle of Jerta

The Isle of Jerta, also simply referred to as 'Paradise' by the locals, is the nymph-path themed, Fleet Faction specific island of the Haven Isle Chain. Unlocking this island is simple, though should typically only happen fairly late-game if playing without cheats. Essentially, all you have to do to unlock the island

is to become a member of the Fleet Faction. (See [The Fleet Faction](#) section of this guide for more details on how to become a member). Once you become a full member of the Fleet Faction, the first time you visit either the Main Docks on the Main Island or Main Street on the Port Island, you'll be presented with a brief unlock message regarding The Isle of Jerta. From that point on, you can take a Ferry from either of those locations to visit Jerta.

Beach

This area is the main dock/landing area for the island. Eventually, it may contain more content. For now, it primarily serves as a hub for other locations. Though it also contains a Public Play area with a few scenes.

Public Play Area

Pillory Scene: This scene allows you to lock yourself into a public pillory for three hours, allowing anyone that wants to play with you to do so. Grants +1 Nymph Point.

Bondage Bench Scene (Sub): Similarly to the above Pillory Scene, you can lock yourself arched over a curved bondage bench for people to play with. Grants +1 Nymph Point.

Bondage Bench Scene (Dom): Unlike the first two scenes, in this one you decide to play with *someone else* who has locked themselves into the bondage bench. You're given agency to choose what you would like to do with the Islander Native who has done so, with options including oral sex, strap on usage, and getting a Centaur involved to make a sex sandwich out of the two of you. Grants +1 Nymph Point.

Centaur Herd

Accessed from the Beach, this area is owned by the local Centaur Herd. Most of the content involves being transformed into a Centaur (either a regular Centaur Mare or a Futa).

Public Platform (Human): This is the only scene with you as a human (as of build 16). There is an enchanted platform in the main area where you can safely experience sex with a Centaur. Specifically with Nixie, the greeter for the area. Grants +1 Nymph Point.

Centaur Transformation:

Visiting the Centaur Alchemist, who happens to be Lexie, Nexie's daughter, gives you the options to be transformed into either a Centaur Mare or a Centaur Futa. Each comes with its own set of scenes.

(Centaur Mare)

Jocize the Berry Picker: Choosing to 'Explore' as a Centaur Mare will give you one of two (as of Build 16) random scenes. In this one, you encounter a Male Centaur who is picking berries the Centaur's sell to The Order of the Rose, which have an aphrodisiac effect. Choosing to join him will result in both of you 'blowing off steam' with a round of sex afterward. Grants +1 Nymph Point.

A Wandering Nexie: Choosing to 'Explore' as a Centaur Mare will give you one of two random (as of Build 16) scenes. In this scene, you find the greeter for the Centaur Herd is taking a break when you find her in a meadow while exploring. She'll chat with you for a bit about your new

experiences...and you can hint that you'd like another such new 'experience,' resulting in sex with Nexie. Grants +1 Nymph Point.

(Centaur Futa)

Public Platform (Centaur): As a Futa Centaur, you can take the chance to see what sex with one of the more humanoid races is like as a Centaur. Heading over to the enchanted platform, you find an Orc Woman eager to be your experimental 'victim.' Grants +1 Nymph Point.

Astrid the Mare: Exploring as a Futa Centaur currently has just this one scene, where you find a Centaur Mare named Astrid bathing in a stream. She asks for your help 'washing up,' predictably leading to a round of sex. Also contains an interesting tidbit about female Centaurs... Grants +1 Nymph Point.

Lexie's Boredom(Centaur x Centaur): Lexie is bored! Visit her after your first encounter with her and you might notice! If you spot it, you can choose to explore with her and get this option. End in Futa Centaur x Centaur Lexie sex. **Notable as Required to Unlock the Centaur Trials!**

Lexie's Boredom(Human Lexie x Centaur MC): Lexie is bored! Visit her after your first encounter with her and you might notice! If you spot it, you can choose to help satisfy her curiosity what it's like to be a human railed by a Centaur. Ends in Futa Centaur x Human Lexie sex on the herd's Public Use human platform. **Notable as Required to Unlock the Centaur Trials!**

The Centaur Trials: The Trials are the **means to unlock the final/highest stage of Reputation.** There will eventually be six sets of trials, three each for Jerta and the Rose Garden. On Jerta, the Trials are currently offered by the Centaur's and Fairies. To unlock the Centaur Version, you need to do both of the **Lexie's Boredom** scenes. If you do so, then visit Lexie, there will be a new option to start the trials.

Trial One – Lexie's Tour: Lexie, who turns out to be an Acolyte of the Centaur Patron Spirit, offers you the first trial. Which...turns out to be taking Lexie on a tour of the Main and Port Islands? Is...is a Greater Spirit setting you up on a...date?

Trial Two – The Way of the Centaur: *Gasp* I've given into the dark side and added a Trivia Challenge! Don't worry, you needn't know any real world facts for this one :-). Upon returning to Lexie after the First Trial, you'll be Transformed into a Futa Centaur and sent to Nexie. Nexie will take you on a tour of the Herd's lands, explaining The Way of the Centaur. Pay attention and answer her questions correctly about it afterward and you'll pass the Trial. Or...don't pay attention and use the answers from this guide, I suppose. The answers are:

Question 1: You manage the Land

Question 2: You Provide Services that need Strength

Question 3: Humbleness. To never become arrogant despite how blessed your people are

Answer the questions correctly and you not only pass...but also get to have some fun with Nexie. It seems she's rather picky about who she let's dominate her...or maybe a bit of a narcissist ;-).

Receive the Centaur Spirit Mark: After passing the two trials, returning to Nexie will get you sent to Lexie. There, you're fed a special transformation potion and taken to see the Greater Spirit that is the Patron of the Centaur Herd. That Greater Spirit, Erin, is a Futa Centauress herself. She offers you her mark. You need **One** mark from one of the Spirits to ascend to the last reputation tier. But which one you take is up to you. Choosing to take the mark results in a sex scene with Erin.

Orc Village

The Orc Village is accessible from the Beach. Continuing the theme of each island having its own Tavern, you can find Jerta's Tavern here in the Orc Area. You can also discover a Potion-Based transformation games that the Orcs, barred from Violence here on Jerta, use to challenge each other.

Orc Tavern

Drink to Pass Time: This is a non-sex scene, used to pass time if you so desire. Useful for triggering the other tavern scenes if you're impatient.

Find a Male Companion for the Evening: Much like the other Taverns in game, in the evening/night period, you can find companions to spend the evening with. In this case, you find a pair of male Orc twins that are quite eager to take you back home with them for the night...

Find a Female Companion for the Evening: Much like the other Taverns in game, in the evening/night period, you can find companions to spend the evening with. In this case, you find an attractive Orc woman drinking along. She's quite happy to take you home with her for a bit of softer sex...that goes all night.

The Challenge Cage

Following the sounds of cheering and catcalls will lead you to a large cage with a pair of orcs facing off. As you watch, you'll get an explanation from a local. Not allowed to fight on the island, the Orcs have come up with a Challenge as a means of showing bravery. Two people enter the Challenge Cage and both take a random potion with unknown transformation effects. Regardless of what they are turned into, the two must have sex, following the instincts of their new form, before the cage will open for them. Once you've seen this explanation once, from then on out you'll be able to choose to play a round of the Challenge yourself. Scenes are 100% random, since that's sort of the point.

Troll and Mouse: In this result, the big, burly male Orc you're facing is transformed into a Mouse Girl. Meanwhile, you're transformed into a Futa Troll. Predictably, you dominate the now-timid mouse girl.

Extra Planar Fun: In this result, you are transformed into a succubae, with your Male opponent transformed into an infernal. Your new instincts mean you don't even *want* to resist as he goes several rounds with you...

Ice and Orc: In this result, you are transformed in an Orc woman, while your Female opponent is transformed into an Ice Elemental. She summons up a strapon and bends you over the table.

Fire and Drow: In this result, you are transformed in a Dark Elf and your Female Opponent into a Fire Elemental. With competing instincts, you both end up trading off control as you explore each other.

Drow and Harpy: In this result, you are transformed into a harpy while your Female opponent is transformed into a futa drow.

Double Futa: In this result you and your Male opponent are both transformed into a futas and need to figure out what to do about that...

Fairy Grove

Accessible from the Beach, the Fairy Grove is...home to the fairies. Shocking, I know. Here you can choose to have some fun with the fairies as a human, or be transformed into one to help them with their work. Helping them with their work results in several possible scenes with the other natives of the island.

Just Have Some Fun: Technically, this uses basically the same content as one of the work options, simply letting you skip the whole working part to have sex with the fairy swarm in their grove. It's not counted as a unique scene on its own as a result.

Help the Fairies Work: It turns out that the fairies actually have an important job on Jerta! They use their magic to promote fertility in all of Jerta's crops, which are then exported to the rest of the Island Chain. In exchange for this, they are paid with the right to 'recharge' with any of the local population. Since they recharge via sex, this basically means that any working day for them ends up with them swarming some lucky island native for a round of fun. As a guest helping them out, they'll let you choose who to swarm!

Swarm a Centaur: Choosing to 'recharge' via Centaur results in your little swarm finding a Futa Centaur near a stream. You and your companions...well...swarm her.

Swarm an Orc: Choosing to 'recharge' via Orc results in finding a Female Orc busy fishing...until you swarm her for your 'recharge.'

Swarm an Islander: Choosing to recharge via a 'native' results in you minding a male islander who is washing up in a lovely little grotto. He's quite a jolly fellow and an enthusiastic participant...

Fairy Orgy: It turns out you can technically 'recharge' with each other! It's less efficient, but the Fairies don't mind, devolving into a small orgy right there on the field.

Offer Yourself: You can offer yourself as a 'recharge' source. They take you back to the Grove and return you to normal...then, predictably, swarm you for some fun...

The Fairy Trials: The Trials are the **means to unlock the final/highest stage of Reputation**. There will eventually be six sets of trials, three each for Jerta and the Rose Garden. On Jerta, the Trials are currently offered by the Centaur's and Fairies. To unlock the Fairy Version, you need to 'Help the Fairies with their work' at least three times. Who you choose to swarm has no relevance. Once you do so,

returning to the Fairy Grove will provide you with a new option when talking to Glitterfly. She excitedly tells you the Fairy Elder would like to meet you...

Trial One – Find the Fairies: The first trial is quite simple. After explaining a bit about the Trials, the Fairy Elder set you the task of finding two wayward fairies that are overdue for reporting in. One each is on the Main Island and the Port Island. If you've fully explored the game, you might even remember where they are, as both of them have scenes prior to this ;-). If you don't happen to remember however...you can find the **Main Island Fairy at the Market** and the **Port Island Fairy at the Docks**. Both of them want to have a little fun before heading back, resulting in sex scenes with both of them. After finding them both, you return to the Fairy Elder. She congratulates you and offers you the second trial. Which can be done either immediately, or accessed via Glitterfly later.

Trial Two – Fairy Escape: In the second trial, the elder magically sends your mind into the Spirit Realm, where you find yourself trying to free a fairy that has been captured by a crone. There's a simple puzzle that you can't actually fail and results in you brewing a potion to help free said fairy. Honestly, I wanted to make this more complex...but Twine doesn't lend itself to complex puzzles very well :-(. Regardless, once you succeed, you'll return to the Fairy Elder in the real world, who will explain you passed the Trial. She'll send you away to recover your energy a bit.

Receive the Fairy Spirit Mark: After passing the two trials, returning to the Fairy Grove will result in Glitterfly directing you to a previously hidden path at the back of the Grove. There you will discover a bit of a surprise I won't spoil here ;-). Regardless of the surprise, you'll be met by Aris, the Greater Spirit who is the Patron of the Fairies. She will offer you her Spirit Mark. You need **One** mark from one of the Spirits to ascend to the last reputation tier. But which one you take is up to you. Choosing to take the mark results in a Lesbian sex scene with Aris.

Rose Garden

Rose Garden is the counterpart island to The Isle of Jerta. Whereas Jerta is nymph-path and belongs to the Fleet Faction, Rose Garden is seductress-path and belongs to The Order of the Rose. That said, 'Seduction' in the case of Rose Garden is more about quality over quantity. Essentially, Rose Garden focuses on *experiences* instead of just casual sex. Usually more involved ones than are found elsewhere in the isles. There is, of course, also some more traditional seduction-focused activities.

The Theater:

In order to find the Theater for the first time, you need to wait until Evening or Night. Once you've found it the first time, there are things that can be done there during the Morning and Afternoon. But, the first time, you have to wait until later in the day. On first finding it, you'll be drawn into watching a performance of The Orgasm Orchestra, as a way of introducing you to the Theater. After that, the following scenes will become available:

The Orgasm Orchestra:

The Orgasm Orchestra 1: Visiting the theater and selecting 'Ask about Training for the Orgasm Orchestra' will result in a one-time-only scene, with a repeatable version of the training that comes with it available/unlockable later. You ask about the Orchestra and are directed to Mademoiselle Maupin, the Conductor you first witnessed when you found the theater. When she determines you have the potential to be a member of her Orchestra, she offers you training...that you can either accept or turn down. Accepting gives you a first, unique, variant of the Musical Moan Tone Training that will be available later.

The Orgasm Orchestra 2: Visiting the theater again after The Orgasm Orchestra 1 will allow you to select 'Get Farther Training for the Orchestra.' This will start another one-time scene, which involves a unique (more involved) variant of the Orgasm Control Training that will be available later. Finishing both this and the previous training will unlock repeatable variants of the Musical Tone and Orgasm Control Trainings.

Musical Tone Training: This will be unlocked after completing The Orgasm Orchestra 1 & 2. This someone less wordy version of the training will help you level up your Musical Tone. Since it slowly infuses that tone into your ever moan, it also serves to raise your Seductress Path score.

Orgasm Control Training: This will be unlocked after completing The Orgasm Orchestra 1 & 2. This someone less wordy version of the training will help you level up your Orgasm Control.

Prepare for a Performance: This will unlock only once you reach 3 points each in both Musical Tone and Orgasm Control. You can check your score in those via the Character Menu, once you have completed their basic trainings in The Orgasm Orchestra 1 & 2. Once unlocked, this option will set you up for a Performance...which includes being locked into an Orgasm Denial Chastity Belt for Three Days. Madam Maupin will double check that you're okay with that...and offer you a last orgasm before locking you up if you are. **NOTE:** This Chastity Belt will live up to its hype. Once locked into it, you'll have access to some of the usual Chastity Options to entertain yourself with for three days...but unlike with other belt options, you **won't** be able to cum. This disable some scenes and provides unique alternates for a few others. There's also **no other way** to get the belt off than waiting and going through with the Performance!

Perform in the Orgasm Orchestra: Once you complete the Three Days in Chastity required to perform, return to the Theater and you can...perform. You'll be released from your chastity belt and take part in a performance of the Orchestra as one of its instruments! Once the event is over, you'll be set free...until the next time you want to perform! Note: This is required in order to unlock the **Riddle Challenge**.

Attend a Play: Only available during the Evening and Night times, you can watch a Play at the theater...and experience some of what happens on stage with the help of some enchanted seating arrangements...

Attend the Orgasm Orchestra: Only available during the Evening and Night times. This essentially repeats a version of the original showing of the Orgasm Orchestra, from when you first find the Theater. The overwhelming emotion of the music inspires some insights into Seduction. +1 Seduction Path

***New* Aerial Dance:**

New Dance Practice: Visiting the theater during the Morning or Afternoon will reveal a sign advertising for dancers. Following the directions on the sign will introduce you to the Dance Instructor, Diana. She introduces you to Aerial Dance and invites you to practice, so you can take part in a Show. After practice, you can choose to visit the Sauna with your fellow trainees for a bit of fun. This event is repeatable. Returning to the Theater during the morning or afternoon after the first practice will provide you with a 'Dance Practice' option. Participate **three times** to unlock **The Dance Performance**.

New Dance Performance: Visiting the theater during the Evening or Night time periods, after having done **Dance Practice at least three times**, will provide you with the chance to participate in a Dance Show for at the Theater. Doing so provides a stipend for your performance (and is intended to eventually unlock more advanced practice, but that's not in the game as of Build 19).

***New* The Play(s):**

New Attend Play Practice: Visiting the theater during the Morning or Afternoon will reveal a sign advertising for the local acting trope, who need new people for a new play! Following the sign will take you to a practice stage, where you can try out for a part in a new play. Upon getting one of the lead roles, you'll be able to return here for Practice, during the same time periods, each day. Attend practice **at least three times** in order to unlock **Play Performance**. Note: There is also a Futa version of this that follows the same rules. It's an entirely different play, listed under the Rose Garden – Futa Scenes section of the guide.

New Play Performance: After **Attending Play Practice at least three times**, this option will unlock for the Evening/Night time blocks. Visiting during those time blocks will allow you to participate in the play you've been practicing! Note: There is also a Futa version of this that follows the same rules. It's an entirely different play, listed under the Rose Garden – Futa Scenes section of the guide.

The Acolytes Hall:

The Acolytes Hall is a gathering place for members of The Order of the Rose. Here they can let their hair down and just be normal people among others who understand their professional commitments...

Akari Date 1: There's a depressed looking Acolyte all alone in the Acolytes Hall...you wonder if you can help?

Akari Date 2: Akari is looking more positive now...and if approached, will invite you out to a nice Ramen Place. And then back to her place for some fun. Gain +1 Seduction Point. Currently, this is the end of her storyline. More to come in Build 19.

New Akari Date 3: Akari looks eager the next time you visit her...and invites you along to the Center for Advanced Pleasure. If you choose to go with her, it opens up TWO different Pet Play scene options:

New Be a Pet: In this version, you decide to be a Pet alongside Akari. The two of you find a pair of Futa Planar's to be your 'owners' for the scene.

New Be an Owner: In this version, you decide to be Akari's owner. You spend some time grooming her...before moving on to other pleasurable things...

Soak in the Bath: Choosing to use the Hot Spring will trigger one of the following three scenes randomly. There *is* a chance to exit each scene if you wish, however.

Foursome with a Futa: An elf, planar, and Futa dark elf invite you to join them for a foursome in the hot springs!

Lesbian Threesome: A goblin girl and a human woman invite you for some threesome fun!

Male Side Threesome: You go and explore the male side of the baths, looking for some fun. There you encounter a male human and male troll that are more than happy to entertain you...or is it you that's entertaining them?

New Mixed Threesome: If you get this chance encounter, an eager elf acolyte finds you and invites you to go with her to the male side. If you go with your fellow acolyte, the two of you have a Threesome with an Orc Acolyte on the Male side of the baths...

The Center for Advanced Pleasure:

The Center for Advanced Pleasure is an interesting place, where volunteers seek out every more refined/involved sexual experiences.

Tentacle Room - You can choose to have fun with a tentacle monster. While secured in an enchanted bondage cage for your own safety...you're a little worried about what they mean by that...

Become a Sex Toy(Doll) – You can choose to be turned (temporarily of course) into an inanimate sex doll. Once you've been transformed, you're rented out for a day to a male Planer.

New Become a Sex Toy(Dildo)— You can choose to be turned (temporarily of course) into an inanimate sex toy, specifically a double dildo. Once you've been transformed, you're rented out for a day...to a lesbian couple.

Dronification – You can choose to go through a process of being temporarily turned into a Drone. A gel-like being that can't think for itself or act beyond the orders it's given. There are two variations currently, which you get to choose from. Essentially, however, it's just a choice between if you want to be given to a female or male client to play with...

New Spend time as a Pet— Choosing this option will introduce you to the Pet Play Area Manager, who will outfit you in a Pet Suit. Afterward, you are ushered into the Pet Play Courtyard, where you can choose between:

New A Male Orc: The Orc will take you for ‘walkies’ before coming back inside for some doggy-style fun...

New A Troll Woman: The Troll woman focuses on petting and grooming you, wanting no attention for herself while giving you a relaxing experience...

New The Tea Shop:

This is a new area added in Build 19. Currently, there isn't a lot here. But you can find the Guide from the Center for Advanced Pleasure here and have tea with her...followed by some variable natured fun!

New The Guide: You're surprised to find the Guide away from the Center for Advanced Pleasures. And you're even more confused by her claiming that she's not away from there at all! Still, she distracts you with a blunt offer of a fun time. If you take her up on it, there are three major variants you can pick from!

New Lesbian Fun: This is the most straightforward, where the two of you just have some fun as is.

New Futa Guide: In this option, the Guide uses her magic to give herself a horse-cock to rail you with...

New MC Futa: And in this option, the Guide uses her magic to give *you* a horse-cock to rail *her* with. Note: This version is also available when you're already a Futa!

New Rose Garden – Futa Scenes:

As of Build 19, Rose Garden had some Futa compatibility! The following scenes can be accessed by taking a Futa Potion at the Magic Shop on the Port Island, then traveling by Ferry to Rose Garden. (Yeah, I know I need make a more convenient way to access the Futa transformation elsewhere -_-).

The Theater:

New Attend Play Practice (Futa): Visiting the theater during the Morning or Afternoon will reveal a sign advertising for the local acting trope, who need new people for a new play! Following the sign will take you to a practice stage, where you can try out for a part in a new play. Upon getting one of the lead roles, you'll be able to return here for Practice, during the same time periods, each day. Attend practice **at least three times** in

order to unlock **Play Performance (Futa)**. Note: This is a COMPLETELY DIFFERENT Play to the one that you practice/performance as a non-futa character!

New Play Performance(Futa): After **Attending Play Practice (Futa) at least three times**, this option will unlock for the Evening/Night time blocks. Visiting during those time blocks will allow you to participate in the play you've been practicing! Note: This is a COMPLETELY DIFFERENT Play to the one that you practice/performance as a non-futa character!

The Acolytes Hall:

New Soak in the Baths: If you soak in the baths as a Futa, you'll be found by an exotically colored Planar who wants some fun. And...there's some oddities about her...

The Tea Shop:

New The Guide: You're surprised to find the Guide away from the Center for Advanced Pleasures. And you're even more confused by her claiming that she's not away from there at all! Still, she distracts you with a blunt offer of a fun time. If you visit as a futa, this encounter defaults to the Guide using her magic to alter your cock to a horse-cock to rail *her* with. Note: This version is also available when you're aren't a Futa.

***New* Rose Garden – Trials:**

Since, unlike with Jerta, the Trials on Rose Garden aren't as directly linked to specific sub-areas, I decided to put them in their own section. Admittedly, I may edit the way the Trials are sorted for Jerta too at some point, just to make things consistent...

Merixa the Sphinx:

Orgasm Orchestra: This is noted here...as the Orgasm Orchestra is actually the first, hidden, trial for Merixa. You'll need to complete the steps from the Theater section, all the way through Performing in the Orchestra, at least once. Doing so will unlock the next step. After you've performed in the Orchestra at least once (with Build 19, previous completion in Build 18 won't work, but simply performing again will do so), the next time you visit the Theater, you'll be pulled aside to take to Mademoiselle Maupin. This will start **The Riddle Game**.

New The Riddle Game: Unlocked by Performing in the Orchestra, Mademoiselle Maupin will reveal that the Theater is sponsored by one of the Patron Spirits of the Haven Isles. That Spirit has secretly set performance in the Orchestra as their first trial! Now that you've passed, you can take the second trial! If you accept, you'll be locked in chastity with magical toys...and forced to cum repeatedly as you visit three of Merixa's followers on different islands! They will ask some, frankly rather simply and silly, riddles.

Riddle Answers: A Certain Vegetable, Legs, A Balloon

After getting the Riddles right, you'll be sent back to Mademoiselle Maupin...who will remove the toys, but not your chastity belt. She reveals that you're stuck in the belt until you visit your potential sponsor! Exhausted, you'll return to your home (wherever

that is) and wake up in the Chastity-Enabled version of the Isles. Visit Rose Garden again to 'Follow the Directions Mademoiselle Maupin Gave You' for the next step!

New Patron of the Arts – Merixa: A fairly direct continuation of the Riddle Game. Visiting the Rose Garden while stuck in chastity after the Riddle Game will give you an option to 'Follow the Directions Mademoiselle Maupin Gave You.' Doing so will lead you to a Library, where you will meet with Merixa. She'll offer you her Mark...though you're not obligated to take it. You'll be freed from your Chastity Belt even if you turn her down.
