

[SCENE: It's night time after a league match and Melony bumps into the last trainer she just beat]

Ah, dear! Shouldn't you be heading home? I know you're obviously old enough to not have a bedtime, but that doesn't mean you should be up so late! Though, while I have you here... I want to praise you for that excellent fight! Even though I won, you really had me on the ropes. I really had to fight hard in the end!

[She notices how upset the listener seems]

[sympathetic] Oh... There's no need to be so upset. Losing is never fun, but you have to use it as a learning opportunity! Just pick yourself back up and try again.

[Melony seems dismayed that her pep talk isn't working]

[sigh] What am I going to do with you...

[She hugs the listener tight]

You remind me of someone I beat a very long time ago. He took it just as badly, probably even worse. Of course, he wouldn't ever want that known. [giggle] He'd probably blow a fuse if he knew I was telling someone, he's very protective of his image. But the point is... He went on to be an amazing trainer, and I know you can too! You just need a push in the right direction. But, you know... Pushing is for someone who isn't willing to go the whole way. I may not look it, but I'm a *strict* teacher. So instead of a push...

[She pulls down the listener's pants, gently grabbing their dick]

How about I give you a tug?

[Melony giggles, stroking slowly and gently]

You showed a lot of promise in there, so... I might be willing to give you some tips for the future. As I said though, I'm known for being quite the tough coach. I'm more than happy to give you some *motivation*, but don't think I'll go easy on you just because I'm making you feel good!

Pokemon battling is a bit like sex. That's why I'm so good at it, after all. [proud snicker] It's important to manage your pace and build up momentum. Start off slow, probe around, find their weakness...

And once you've found it, go all in sweetie!

[With a giggle, she starts pounding at the listener's cock]

See how effective that is? You're already squirming, so cute! Mommy is so proud of you, being such a good example of my technique's efficacy.

[Melony gives the listener a kiss as thanks]

Ooh, that made you throb... I suppose that brings us to our next lesson.

[Melony kisses the listener again]

Applying afflictions can be very crucial! For example, I've definitely *Paralyzed* you with that kiss... And now your cock is all mine to stroke!

[She resumes pumping]

That's it... Such a good little trainer, aren't you? You wouldn't be fighting back even if you could, I bet... So maybe the demonstration is a bit flawed. [giggle] But it's still a game-changer. Teaching your Pokemon nothing but attacks is a mistake only my youngest son would make! Leave your opponent so stunned they have no choice but to take what you dish out.

[Melony gives the listener a longer kiss, hand pumping away until she gets them to the edge]

Oops, don't 'faint' yet! Mommy's got so much more to show you. Don't worry, it's nice and late... All the good boys and girls have gone home, we can go further without risking *too* much. [playful giggle] Though, taking risks is what makes both sex *and* pokemon battles so much fun.

[Melony gets to her knees, pulling her shirt up and trapping the listener's cock between her breasts]

Now it's important to know about the strengths of your own team. For example, my tits are *quite* hefty, don't you agree? So the best move to teach them...

[She starts slamming her breasts against the listener's dick]

Would be Heavy Slam! Super effective, don't you agree? A match up like this would end in my victory in no time! Of course, if you notice the opponent's Pokemon is as large and heavy as my breasts... Then the best course of action is to use that against them! Give them a Low Kick or a Grass Knot and turn the tables!

Though, that's just hypothetical. I'm pretty sure a good trainer like you would *never* want to turn things around on Mommy dearest, would they? You love being Mommy's good little pupil, taking her tits so well.

[Melony titfucks them for a bit before suddenly stopping]

[reprimanding] Ah ah aaahhh! No cumming yet. Ride that edge, dear. Mommy still has a lot to show you, we wouldn't want you tapping out before you've learned everything, would we?

[Melony stands up, pulling her pants down and showing off her ass]

Let's talk more about afflictions. Some moves seem risky, but are actually perfect if you use them in the right context! For example...

[She begins shaking her hips, smacking her ass teasingly]

Swagger seems like a risky move, but used against a Pokemon that relies on its Special Attack... Well, that's all reward with no risk, isn't it? Just like shaking your ass and-

[She lets out a groan as she reaches back and spreads her pussy]

Spreading your pussy for a well-behaved pupil that would never *dream* of taking advantage! No, you'll just sit there and throb like a nice little trainer while Mommy spreads and-

[Moan as she begins masturbating]

Mnnph- Playing with her *experienced* pussy! Won't you, sweetie? Come on, let Mommy see that cock *bounce*!

Ohhh *Arceus* this feels good... Somehow masturbating just feels so much better when you've got an audience! You should try it sometime! But *not* right now. Mommy wants you watching and twitching, not stroking.

[Melony keeps fingering herself, moaning louder and louder until she finally squirts with a squeal]

That felt *amazing*...! [pause, snicker] Oh dear, did Mommy get it all over your dick? I'm so sorry. Let me clean you up, it's only fair.

[Melony drops back to her knees, taking the listener's cock in her mouth with ease]

Mmnn... Love the taste of all that leakage, excellent work sweetheart.

[She starts loudly and sloppily sucking him off, bobbing away eagerly]

So thick and *hard*, too! I can feel you getting close, you know!

[Right before they cum, she pulls away again]

[catching her breath] Too late, sweetie. It's important to keep things close to your chest in Pokemon battles, you know. If you're too obvious...

[She daintily kisses their cock]

People can *easily* work against you. [kiss] And you'll be absolutely helpless as your opponent [kiss] figures out *all* your moves! [playful] And we wouldn't want that, *would* we?

[Melony gets back to her feet]

I *will* clear something up, however. I won't be doing this for you every time you lose a match... So try and put aside that urge to be a good trainer for Mommy when we're battling properly, alright? If I even *suspect* that you've been naughty and thrown a match on purpose...

[She leans in close, whispering]

I have ways to punish naughty pupils. If you think you're on the edge and desperate to explode *now*... [sadistic] Imagine how you'd feel after a month.

[She lets that sit for a moment before pulling the trainer back into a hug, sliding their cock between her thighs]

But I know you're *very* well-behaved and would never do that! Especially since I'm sure you are fully aware that your cock is never getting inside of me until you beat me in a league match. [pause] Oh, did I not tell you that? [mean giggle] It must have slipped my mind, you know Mommy's memory isn't what it used to be! Yes, I'm afraid it's nothing but teasing and foreplay for you until you prove that you've learned enough to be worthy of it!

[Melony begins pumping her hips, giving the listener a thighjob]

I'm not heartless though, I would never needlessly torture my adorable pupil! You'll get to cum eventually, once I'm certain I've told you everything. After all, the most important part of battling *and* fucking is timing! Know when to use the right move, know when to thrust at her g-spot to make her squirm, know *exactly* when to blow your load to ensure pregnancy! [giggle] I mean, if you were into that sort of thing of course...

Timing! Is! Crucial! If anything, make sure you remember that. When you attack, when you go on the defense, when to give it everything you've got... It all relies on timing! I'm sure you'll succeed if you keep that in mind, darling!

For example, right now... Tell me, what's the proper time to cum? Right this instant, where it will most likely just get wasted all over the Circhester pavement? Or perhaps... [giggle] Perhaps you should tough it out, endure my attack for just a *little* longer? I've got lots of ways to make you

squirm while I teach, so maybe the best move is to tense that body up and hold off on orgasming until I'm in the *perfect* position, hmm?

Just. Like. Battling!

[Guiding the listener's head to her breasts]

Now come on. Mommy noticed you staring all night... Honestly, I noticed you staring during the *match*. You're insatiable, aren't you? I have to wonder how you won against Nessa if a woman's body gets you so excited you stare like that... Tell me dear, did you undress *her* with your eyes? Or perhaps you only have eyes for Mommy? [giggle] So cute... Go on. Suck away.

[The listener starts sucking on her breasts as Melony pumps away at their cock]

That's it, harder! You'll *never* get any results with limp jaw movement like that! Use your hands, grope them too! There's plenty of Mommy to enjoy, so I'm giving you full permission to do so!

[Melony moans loudly, going harder and harder on their cock as she giggles giddily]

Oh how I missed the vigour of youth! [playful laugh] You ripe trainers in your twenties just drive me absolutely *nuts*!

[She moves on of her hands to start groping the listener's balls]

Mmmnn... Just *thinking* about the virile sperm in these balls gets me leaking... I know for **certain** that if you plunged in right now and aimed for my womb, I'd be raising another child this time next year!

[Melony pauses to think, barely hiding moans as she clearly gets ravenously horny]

Oh... To *hell* with it!

[She grabs the listener's hips and plunges them into her pussy]

Breed me, alright? Just go to town and *ravage* me! [moan] R-Remember what I taught you though! Spot your opponent's weak point and hit them at *just* the right time to ensure victory!

[The listener pumps harder and louder into Melony]

I can feel it so *deep*...! Mommy is so proud of you, dear! So, so proud! Keep those hips moving while you suck on Mommy's tits, alright? Get me nice and rowdy so that I'm *guaranteed* to get bred when you shoot that thick load!

[They keep like that for a few moments before the listener cums inside of her]

Arceus **YES!** Keep cumming, more more more more! Make sure Mommy gets pregnant!

[The listener eventually finishes, leaving Melony panting]

Wow. I... [clears throat] G-Got a little carried away there. [awkward giggle] A-Anyway, don't think this changes our agreement. Just... Consider it sweetening the deal a bit. You'd better win, alright?

[She leans in close]

And I'd *better* get a positive pregnancy test.
