

Simple Red Clothes – Mamikon Patreon

Hello everyone!

In this tutorial I will show you how to paint simple red cloth on miniatures. Let's get into the tutorial!

PATREON |

Step 1.

We will start with a
basecoat with black.

Step 2.

We will follow that with a coat of Mephiston Red mixed in a 1:1 ratio with water. Make these highlights wide, just like on the picture.

Step 3.

Next, we will add a highlight with Evil Sunz Scarlet mixed in a 1:1 ratio with water.

Add this inside of the previous coat of paint. This will create a smooth transition between the dark and light red tone.

Step 4.

Next, we will add a coat of Evil Sunz Scarlet mixed in a 1-3 ratio with water all over the clothes. This will make the overall color of the cloth more red.

Step 5.

Next, we will apply Fire Dragon Bright mixed in a 1:1 ratio with Ushabti Bone on the top part of the cloth. The paint is mixed in a 1:1 ratio with water.

Step 6.

Next, we will apply a 1:1 mix of Evil Sunz Scarlet and Fire Dragon Bright on the whole area. The paint is mixed in a 1:3 ratio with water. After the first coat is done, we will drag the paintbrush across the cloth from one side to the other, creating horizontal lines. This will indicate, that the material is actually fabric.

Step 7.

In the final step, we will add a 1:1 mix of Fire Dragon Bright and Ushabti Bone on the top parts of the cloth. The paint is mixed with water in a 1-1 ratio here.

Here is a collage
of the steps for
your
convenience:

Thank you very much for supporting me – it means a lot to me! I dream of being able to paint and make tutorials full time, so if you like my tutorials – please tell your friends. It would make a massive difference to me and hopefully it will be beneficial for your friends too :)

Best wishes,

Mamikon
