

THE FORGOTTEN TEMPLE OF NINE EYES

PART 04

The search for these ancient, long-forgotten ruins remains a daunting task. Tucked away in one of the deepest, most dangerous parts of human forests, the temple lies for centuries undisturbed and hidden from prying eyes and thieving hands.

Even a hint toward its whereabouts piques the interest of many—those of a bold and adventurous type, and those who creep and crawl from under a tavern’s crooked planks to pick up any whispers of its location. Mortals and those beyond the living all want a piece of the Forgotten Temple, “as for he who finds it will find with it an insurmountable amount of treasure.” Or so... the folklore states.

And maybe just as forgotten as the temple itself, the tale now only represents a half-truth. As the second part goes: “But he who finds himself greedy for that which shimmers, be

wary of the dangers lurking with nine eyes.”
