YLIE

REIMAGINED

Ylie of Voedeford started her journey as a student in the Arcane Academy. Although she specialized in elemental frost, she also shared a hobby of tickle magic passed down to her by her best friend Chersti. Ylie is the first of Dralmar's victims that Lucia found, and the two became quick best friends. Throughout their journey to save Cyriaan, the companions learned Ylie is ticklish everywhere. After marrying Bavol of Fallung, Ylie plans on starting a family.

LUCIA

Reimagined

Lieutenant Lucia Torsson of the Fallungian Royal Guard stands tall after her recent promotion at Castle Beaumont. Her fast track through the military ranks can be attributed to her strength, cunning, and leadership needed to thwart Dralmar's plans. Even after defeat and his eventual exile, Dralmar swore Lucia would be his beloved and bear him a child unto the stars, whose power could only be matched by the gods.
