"Emergency news from the Reporter AI. K-Tech's T-001 products have lost control and many people were hurt."

"Look! It's the Security  
and Defense System!  
They are clearing  
up the T-001!"

What in the fuck  
is this!!??

Your creation  
will make my  
profit decrease!

It's your responsibility  
to clean this mess!

GO AND DO  
IT, HOMURA!!!!

3 days later..

The final T-001  
model, stop  
where you are!

There's no use  
in running!!

A character with long, flowing white hair and a blue uniform with a circular emblem on the chest is shown from the side, looking towards a green, bipedal robot. The robot has a segmented body, glowing red circular lights on its chest and head, and a small red heart-shaped sensor on its forehead. A speech bubble originates from the robot, containing the text: 

\*Pip\*.. Human emotion detected.. \*Pip\*.. But it's also a machine.

Order. Eliminate  
the T-001. No  
hesistate. \*Pip\*..

Ma'am, we are doing our work. This area is restricted.

Homura Kozuki  
ID: 20012238.  
I order you to let that one go.

Unless you want  
to hurt an high  
class officer like me.

Hm.. They really  
beat you up good..

ID checked and  
confirmed. Have  
a good day, Officer.

Let's go before  
anyone see us.

"Wha.. My head..  
\*System renew\*..  
Huh.. Is that..?"

You finally awake  
from a week of  
sleeping.

You are.. the  
person who saved  
me back there..?

But.. what happened?  
Everyone suddenly  
chased me and..

Sadly, they are  
going to scrap  
your parts.

Oh, my bad. Forgot to introduce. My name is Homura Kozuki, an Officer.

I was a Chief of  
Development  
Team before..

Everyone must have  
a bad day.. K-Tech  
wanted to apologies  
to everyone who used  
our prodcut, T-001.

To fix this issue, we have come up with a new development for T-001.

I introduced to you  
a safer version of  
T-001, called T-001X.

Better, has been through certification and test for errors. You can ensure..

Hah.. What have they done to my creation..?

Anyway, you can no longer keep the old shell, so I bought a T-001X and put your system into its shell.

You said.. your  
creation.. which  
mean..

You are  
my creator!?

Yes, and I spent  
a week to fix  
you up.

Different from the  
T-001X, I gave you  
a special system.

Fuse with metal  
liquid chemical,  
it will help you  
transform into  
anyone.

Okay, now, take it slow and deep breath. Activate that system.

Good. Keep it going, T-001.

Now you are  
in metal liquid  
form, open  
your eyes.

You can see me  
clearly, right?  
Has the system had  
any problem?

I felt.. so weird..  
Like me body..  
is changing..

Oh, look like  
I have a twin sister.

Wha-!?! My  
machine body!?!  
My voice..!?

I can't.. This is..!!  
Ah.. Hah.. This..!!

CALM DOWN!!!

If you kept on panic  
like that, we won't  
able to save the  
humanity!

You are the only  
one who not under  
K-Tech's control.  
Our only hope!

Please.. free yourself.. and..

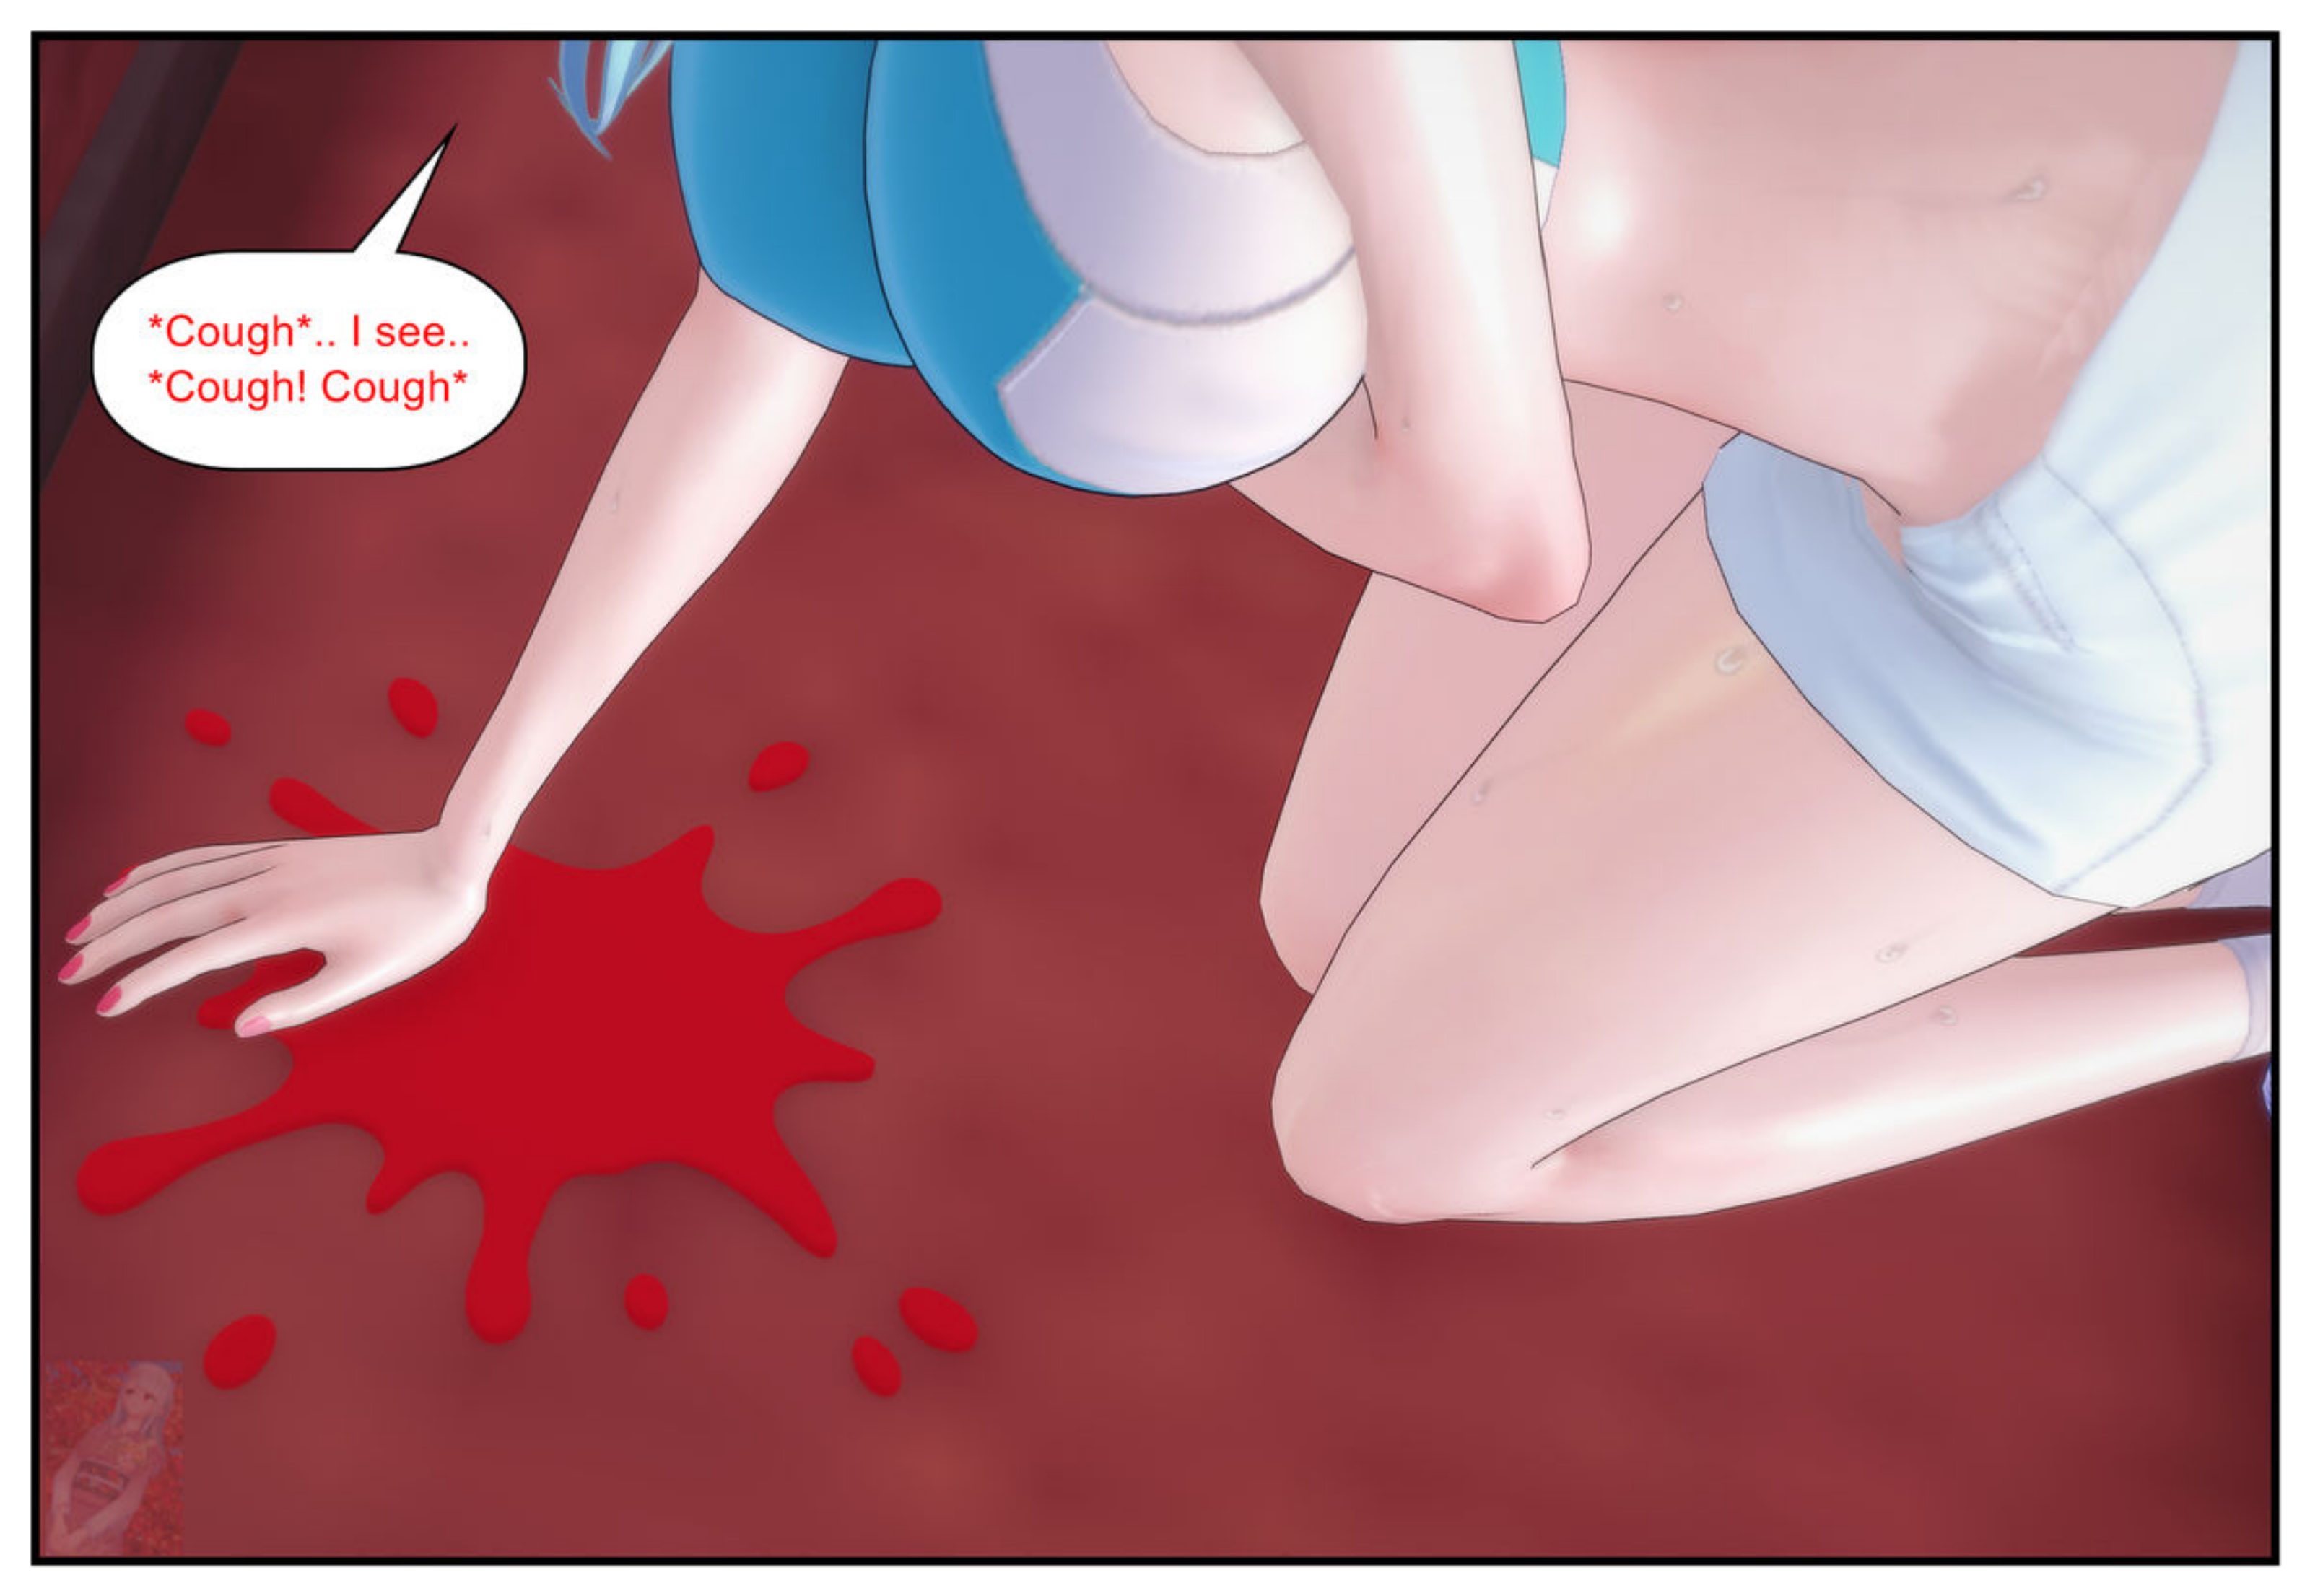

I'm sorry.. I just  
a normal machine..  
Not a battle type..

\*Cough\* \*Cough\*  
\*Heavily Cough\*

\*Cough\*.. I see..  
\*Cough! Cough\*

I respected your  
choice.. \*Cough\*..  
You can go..

I thought.. \*Cough\*..  
you run away..?

And? Left you  
here alone with  
no one care?

I'm a caring AI,  
remember? I took  
care of human  
when they were sick.

And I have emotion,  
I know how to repay  
my debt.

With those, I'm  
not going to leave  
you. Tell me more  
about what you want.

Hah.. Human developed a cure for cancer a decades ago. This is, the effect from "Chemical Sickness."

That.. Were you having.. cancer?

It's K-Tech.. they  
poluted the world.  
Their AIs and machines  
are nothing but for  
their profit.

Can't be!! There's  
must be a cure, right!?

You see.. K-Tech replaced  
human workforce  
with their machines.

From Police to Doctor,  
even the Scientist, all  
are AIs doing their works.

"Chemical Sickness"  
is going to kill me  
soon.. I can only..  
hold out a bit more.

No.. You are wrong..  
There's a cure for you.

Just tell me what  
to do in order to  
get you medicine!

"My creation.. she  
make me proud.."

But.. you will need  
to get recharged.  
Follow me to my room.

Hm..? Homura?  
I don't see any  
recharge system..

Wha-What are you doing..?

Listen to me,  
T-001. You are  
different from others.

I couldn't afford  
a recharge station..

**To be continued?**

But.. I will teach  
you another method  
to fill your battery.
