

MAX

Maximum Wolf

Background story and lore for Maxwolf explaining where they come from, how they got made, why they grow when excited or scared, and finally how they came to co-exist with the city they call home. Intended to be turned into a 3D animation.

EXT. LABORATORY BUILDING - MORNING

EXTERIOR SHOT OF A MODERN, SLEEK LABORATORY BUILDING ON THE OUTSKIRTS OF THE CITY. YOU CAN SEE THE CITY IN THE DISTANCE AS THE CAMERA PANS DOWN TO THE FACILITY ITSELF.

VICTORIA SINCLAIR (32) enters the laboratory, wearing a professional attire.

Victoria walks through security and down a hallway towards the main lab. There are scientists active all around her in rooms and walking down the hallways.

INT. GROWTH CHAMBER - MOMENTS LATER

THERE IS A LARGE GLASS TUBE AT LEAST TEN FEET TALL IN THE MIDDLE OF THE ROOM, TONS OF WIRES AND COMPUTERS ARE SETUP ALL AROUND IT.

Victoria enters a high-tech laboratory filled with many YELLOW BIOSUIT SCIENTIST and a few BLUE BIOSUIT MANAGER to oversee their work. There is tons of very expensive and advanced looking equipment all over.

Victoria walks up to the massive glass tube and looks at it with hands on hips. It dwarfs her, the empty tubes void seemingly staring back as if it knows it eludes a woman who otherwise has everything. A droning sound implies this that builds up and then suddenly stops when she speaks.

DR. EVELYN BLACKWOOD (55) stands besides the chamber also waiting for Victoria to say something.

001 VICTORIA

"Are you all ready to start the test? I assume you are waiting around for auth codes."

002 EVELYN

"The brain wave patterns seem promising in the simulations, same for genetic cohesion. However as you know, simulations only provide so much. We're ready to give this one a shot. Everything is ready, just enter your auth code and we can begin."

INT. GROWTH CHAMBER - MOMENTS LATER

THE CAMERA FOCUSES ON A GLASS CHAMBER FILLED WITH SWIRLING GASES AND TUBES.

Victoria pressing a button to initiate the creation process making the laboratory hum to live with sound of power and pumps.

A loud electrical hum is heard throughout the lab like something is charging up.

003 VICTORIA

"Excellent. I will stay and watch this time, I got a feeling this is the one."

004 EVELYN

"As you wish, very well."

005 EVELYN (CONT'D)

"Alright boys, you know what to do. This one is by the numbers."

(to other scientists)

INT. GROWTH CHAMBER - MOMENTS LATER

QUICK MONTAGE OF SCIENTIFIC EQUIPMENT, BEAKERS, AND COMPUTER SCREENS DISPLAYING COMPLEX FORMULAS AND GENETIC SEQUENCES.

Montage stops at the backs of EVELYN and DR. BENJAMIN MORGAN (42) near a console, the camera moves in slowly as if we are listening in on their conversation.

006 BENJAMIN

"Billionaires have way to much money, we could be working on so many other things but she has us doing this?"

(under breath)

THE CAMERA SPINS AROUND TO SHOW THE FACE OF BENJAMIN AND EVELYN STILL HAVING THEIR CONVERSATION.

007 EVELYN

"Don't let Victoria hear you say that, she pays more than any pharma corp. If she wants to make a monster, we make her a monster!"

(under breath)

INT. GROWTH CHAMBER - MOMENTS LATER

A black liquid is pumped into the glass tube, a loud electrical discharge causes the liquid to spasm and contort in strange ways.

THE CAMERA REVEALS THE MOMENT OF MAX'S CREATION, WITH VICTORIA AND THE TEAM WATCHING IN AWE.

The liquid shrinks away to reveal a dark anthro figure suspended in the tank. It is MAXWOLF.

WIDE SHOT CAPTURING SIZE DIFFERENCE OF MAX TO THE SCIENTISTS, IT SHOULD BE CLEARLY EVIDENT MAX IS ALMOST TRIPLE THE SIZE OF THE SCIENTISTS.

Max's eyes opening for the first time and looking around the room as their body begins to move as they awaken.

INT. GROWTH CHAMBER - MOMENTS LATER

WHEN MAX OPENS THEIR EYES THE CAMERA PULLS BACK TO SHOW SCIENTISTS REACTION: SOME GASP, OTHERS STEP BACK, OTHERS CHEER TO IMPLY THIS TIME TIME IS DIFFERENT THAN THE OTHERS.

008 VICTORIA

"How are they awake already?
It's looking right at me.."

009 EVELYN

"They are so much bigger than
the simulations predicted!"

010 BENJAMIN

"Every time we made them
smaller we would just lose
cohesion and they melted back
into the base solution."

011 VICTORIA

"I wanted to see the unimaginaire. You've all created something extraordinary!"

012 VICTORIA (CONT'D)

"Knock them out, drain the tank, and collar them. You are to begin cognitive, motor, and language tests in the next 24 hours."

013 EVELYN

"Yes ma'am, we will begin immediately!"

The sounds of liquid being drained from the tank and a loud pump starting can be heard as the scene fades to black.

INT. TESTING CHAMBER- THE NEXT DAY

MAX AWAKENS IN A SPACIOUS SQUARE TESTING CHAMBER, A LARGE NUMBER 05 ON THE WALL IMPLIES THIS IS NOT THE ONLY CHAMBER.

Max was knocked out when brought into this room and laid on their back in the center. Once they wake up again they slowly stand up.

Max is also wearing a collar with gold spikes on it, showing the audience it was put on them after they got out of the tank.

POINT OF VIEW SHOT OF WHAT MAX SEES AS THEY WAKE UP AND STAND UP.

The sound of a door opening makes Max turn around to see several men walking into the room. Max is much larger than them.

A few men in bio suits slowly approach, Dr. Benjamin Morgan is behind them. Max backs up some and then stammers as their fear starts a growth spurt.

The group of men stop and watch in awe as Max has their first growth spurt, their body almost doubling in size as hold their head until it stops.
