

**Rockgut red
skin
Step-by-step**

Paints required:

Red skin

- **Khorne red**
- **Evil sunz scarlet**
- **Wild rider red**
- **Ivory (vallejo mc)**
- **Naggaroth night**

As we already basecoat the skin with khorne red, we start glazing all the raised areas on the skin with a 1:1 mix of khorne red & evil suns scarlet. Add 3-4 parts of water.

We now glaze more towards the upper parts of skin with pure evil suns scarlet.

We now glaze the very upper part of the skin with a 1:1 mix of evil suns scarlet & wild rider red.

We now shade all the recesses on the skin, included the belly, with a 1:1 mix of naggaroth night & khorne red. Add 3-4 parts of water. We furthermore add some dots randomly here & there on the skin, with the same paint mix.

We once again glaze the very upper parts (most raised areas on the skin) with a 2:1 mix of wild rider red & ivory. Done !

We once again glaze the most raised areas with a 2:1 mix of kislef flesh & ivory. Done!
