

Bimbo Nurses - Chapter 23

Sometimes you just want more. Sure you're already tan, but what if you were even *more* tan? More... everything?

Art by Mr Phoenyxx

One day later...

Are you sure about this?

Awww! That is so nice of you to say. I love your body, but I have dreamed of you being more of a bimbo.

Yes, I'm sure. I have wanted this for a while now, and I want you to be the one to do it. There is no one I trust more.

Another day has passed since the last chapter of our tale, and we find Kindra and Misty at the salon. That is not unusual though, since it is their place of work.

giggle
I think I can manage that. After all, I sort of do this for a living. Well, here we go then. Hang on!

Well then, make me into the me from your dreams. Make me as sexy as you, or sexier!

It looks like they are messing with the Techno Tanner again. The two of them used it once before to give Kindra a bit of a boost. It looks like it has received some upgrades or modifications since then.

I
can't wait
to see what your
fantasy hottie
looks like.

Misty steps into the machine, and Kindra presses the button to power it on. The device whirrs into motion and the "tanning lights" begin to glow.

How
big am I
gonna get? How
hot are you
gonna make
me?

It makes a couple of passes up
and down Misty's body, almost
like it is evaluating it. Then the
scanner moves back into the top
position above her head.

Oh
gawd! I am
getting wet just
thinking about
it!

I say, "Scanner", but it's really more like a light bar. Though, we really don't know all of the capabilities that it possesses.

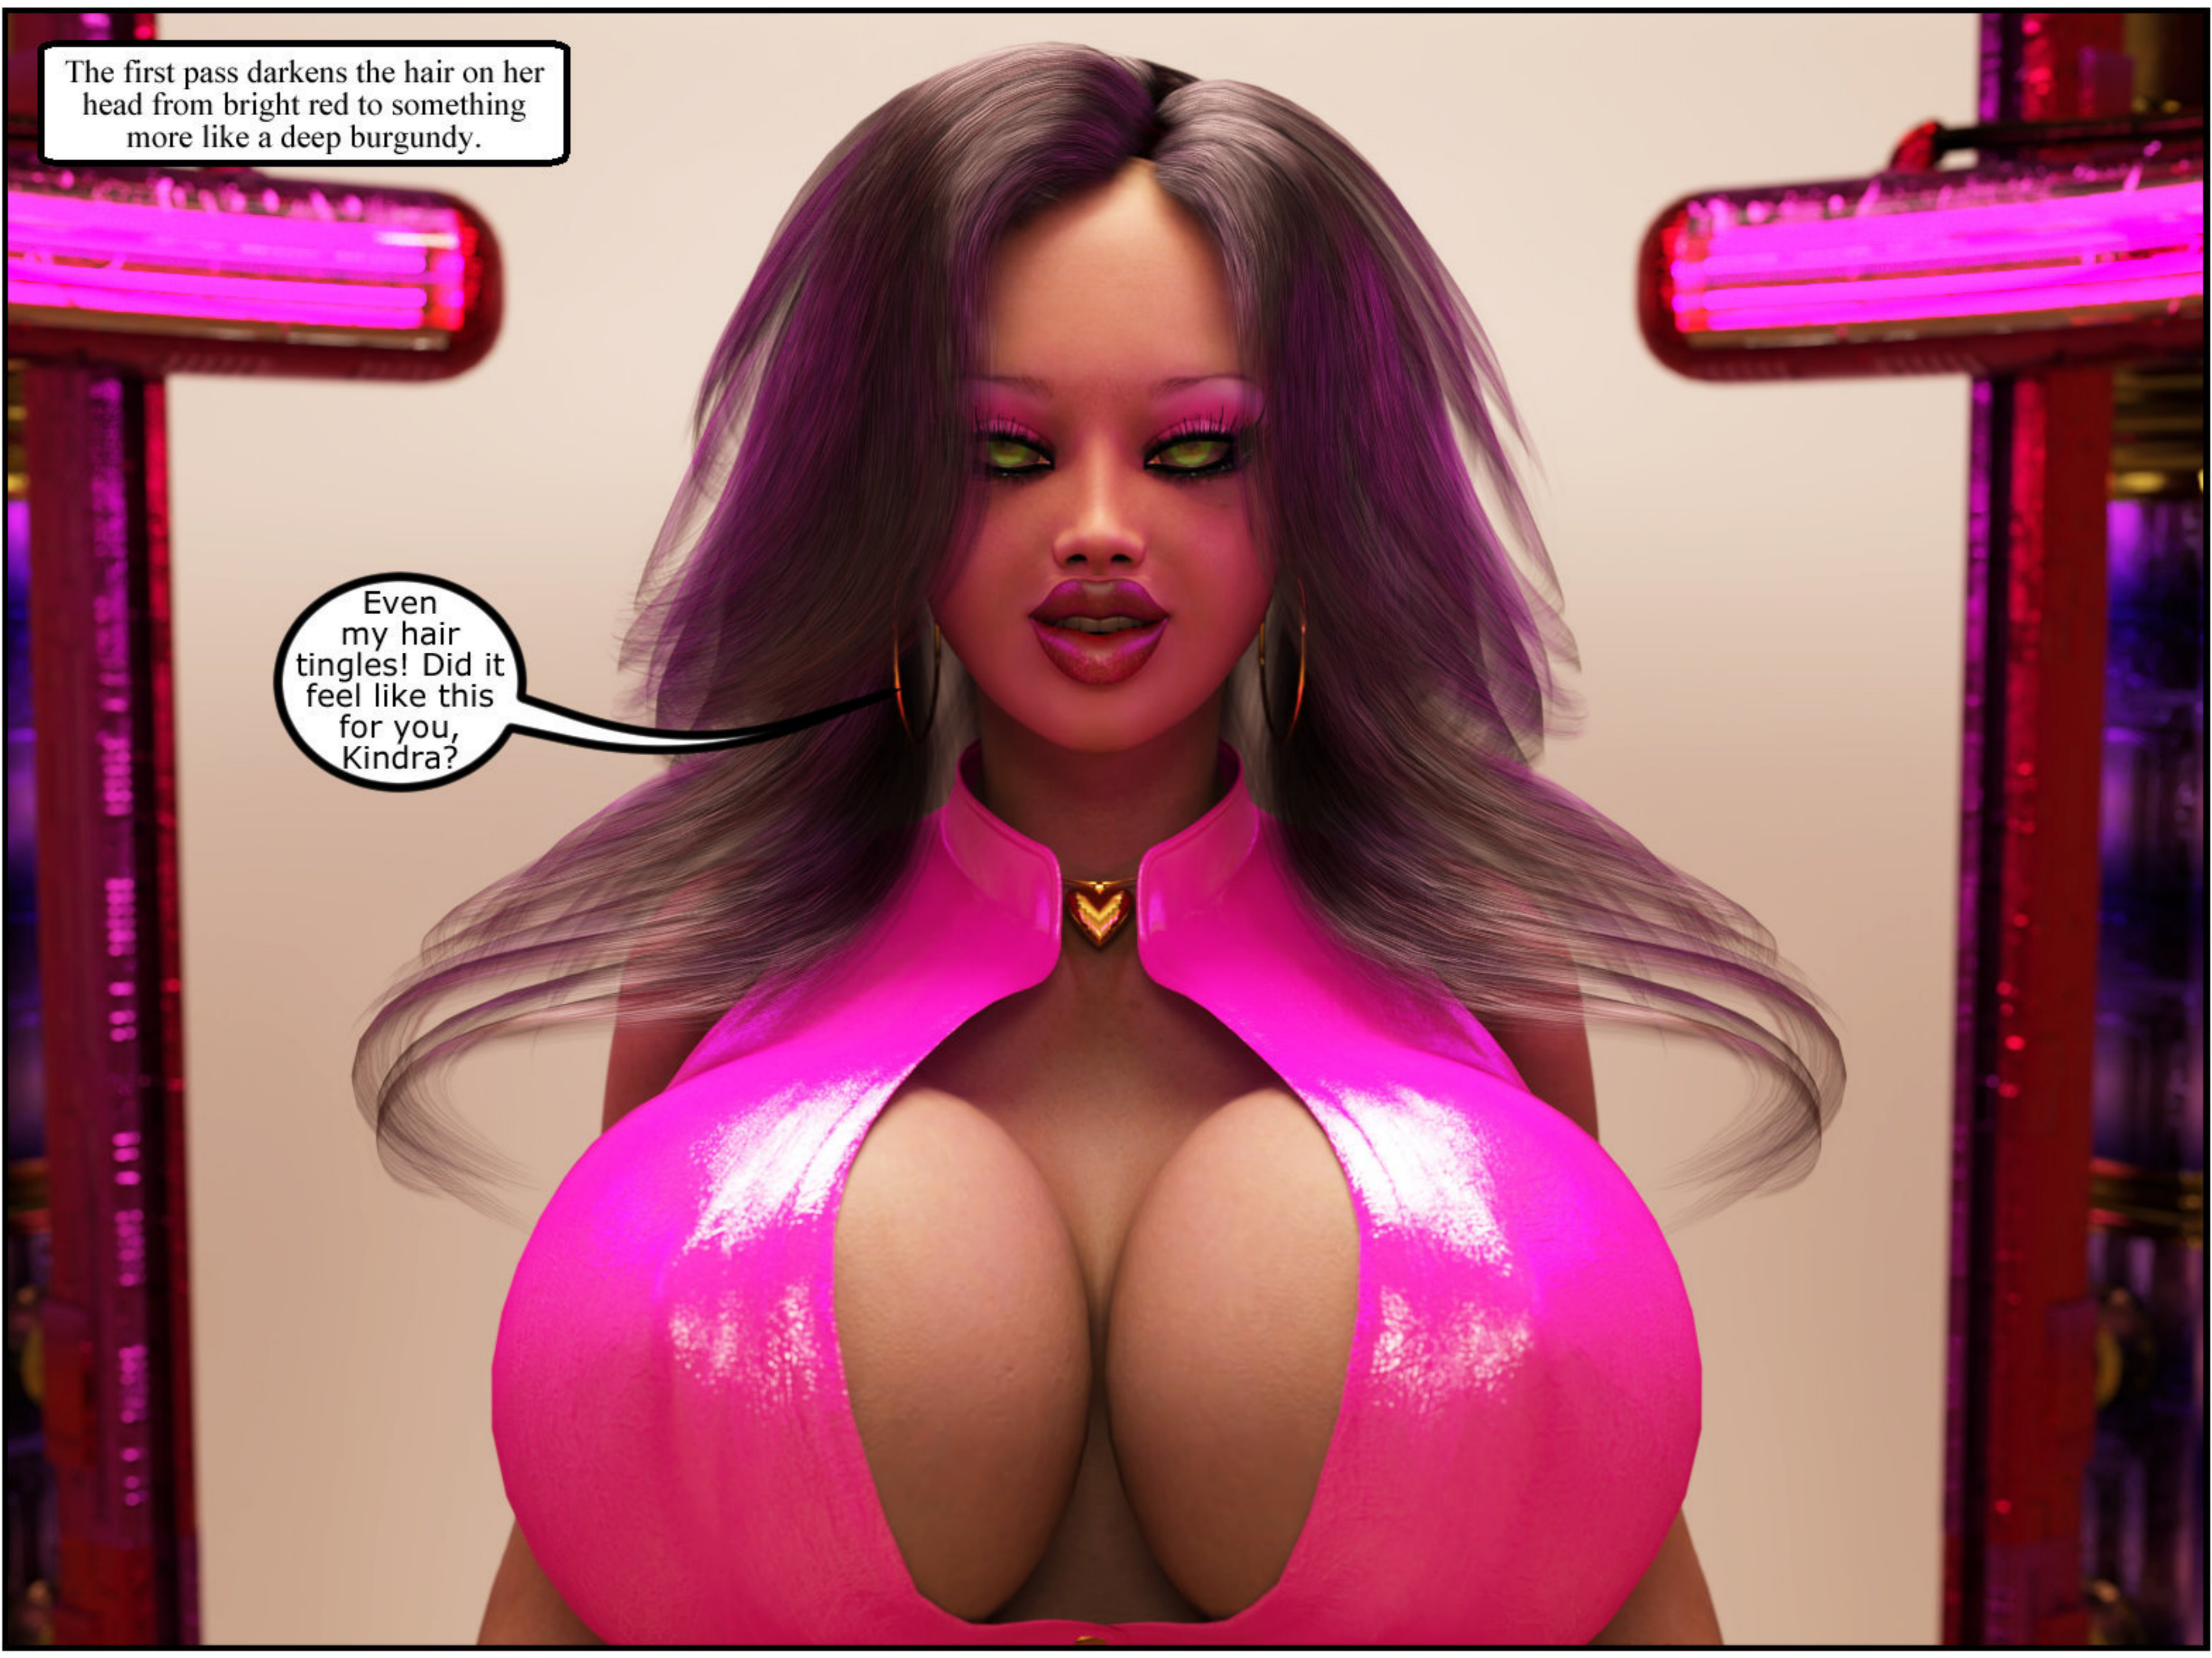

But we are probably about to get a demonstration, as the scanner begins to slowly pass down Misty's body.

You know, this feels pretty nice - all warm and comfy.

The first pass darkens the hair on her head from bright red to something more like a deep burgundy.

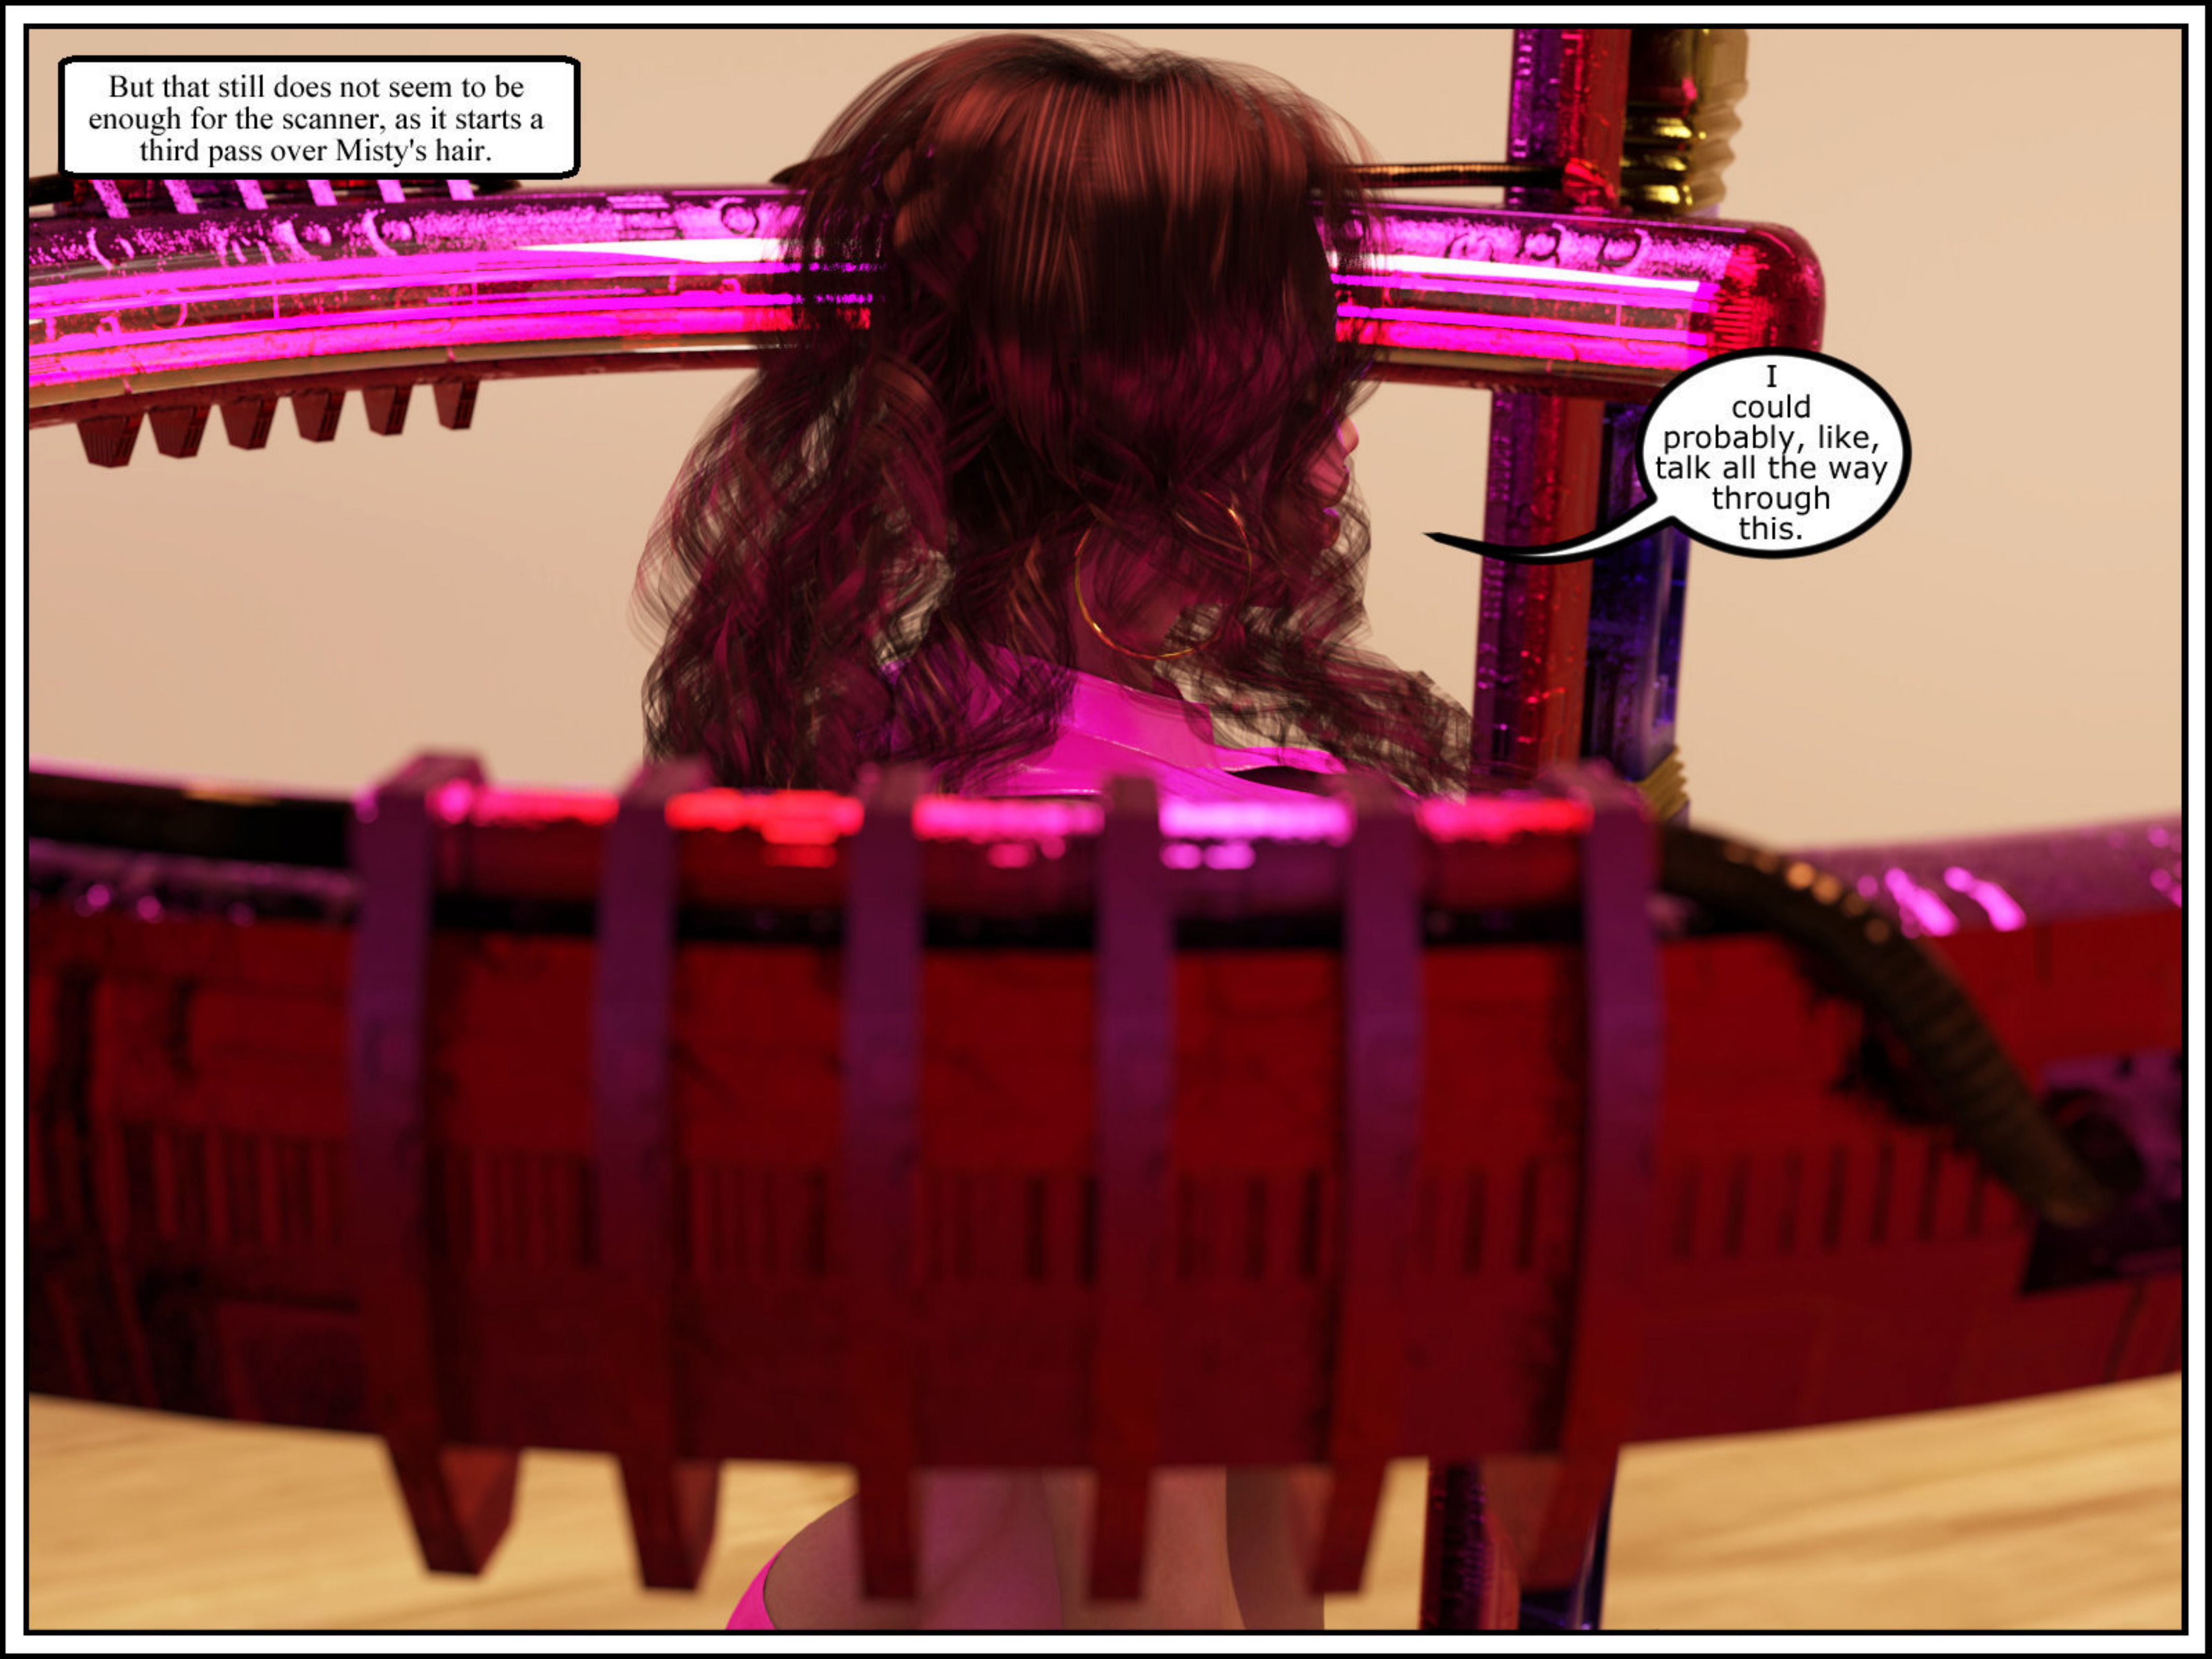

Even my hair tingles! Did it feel like this for you, Kindra?

The second pass over Misty's head completely changes her hair style. What do we even need the salon for?

I feel like I'm rambling. Am I rambling? I guess I'm pretty excited, you know?

But that still does not seem to be enough for the scanner, as it starts a third pass over Misty's hair.

I could probably, like, talk all the way through this.

Or maybe we should say that it is not enough for Kindra, since she is the one using the controller right now.

But I feel like maybe I should just be quiet.

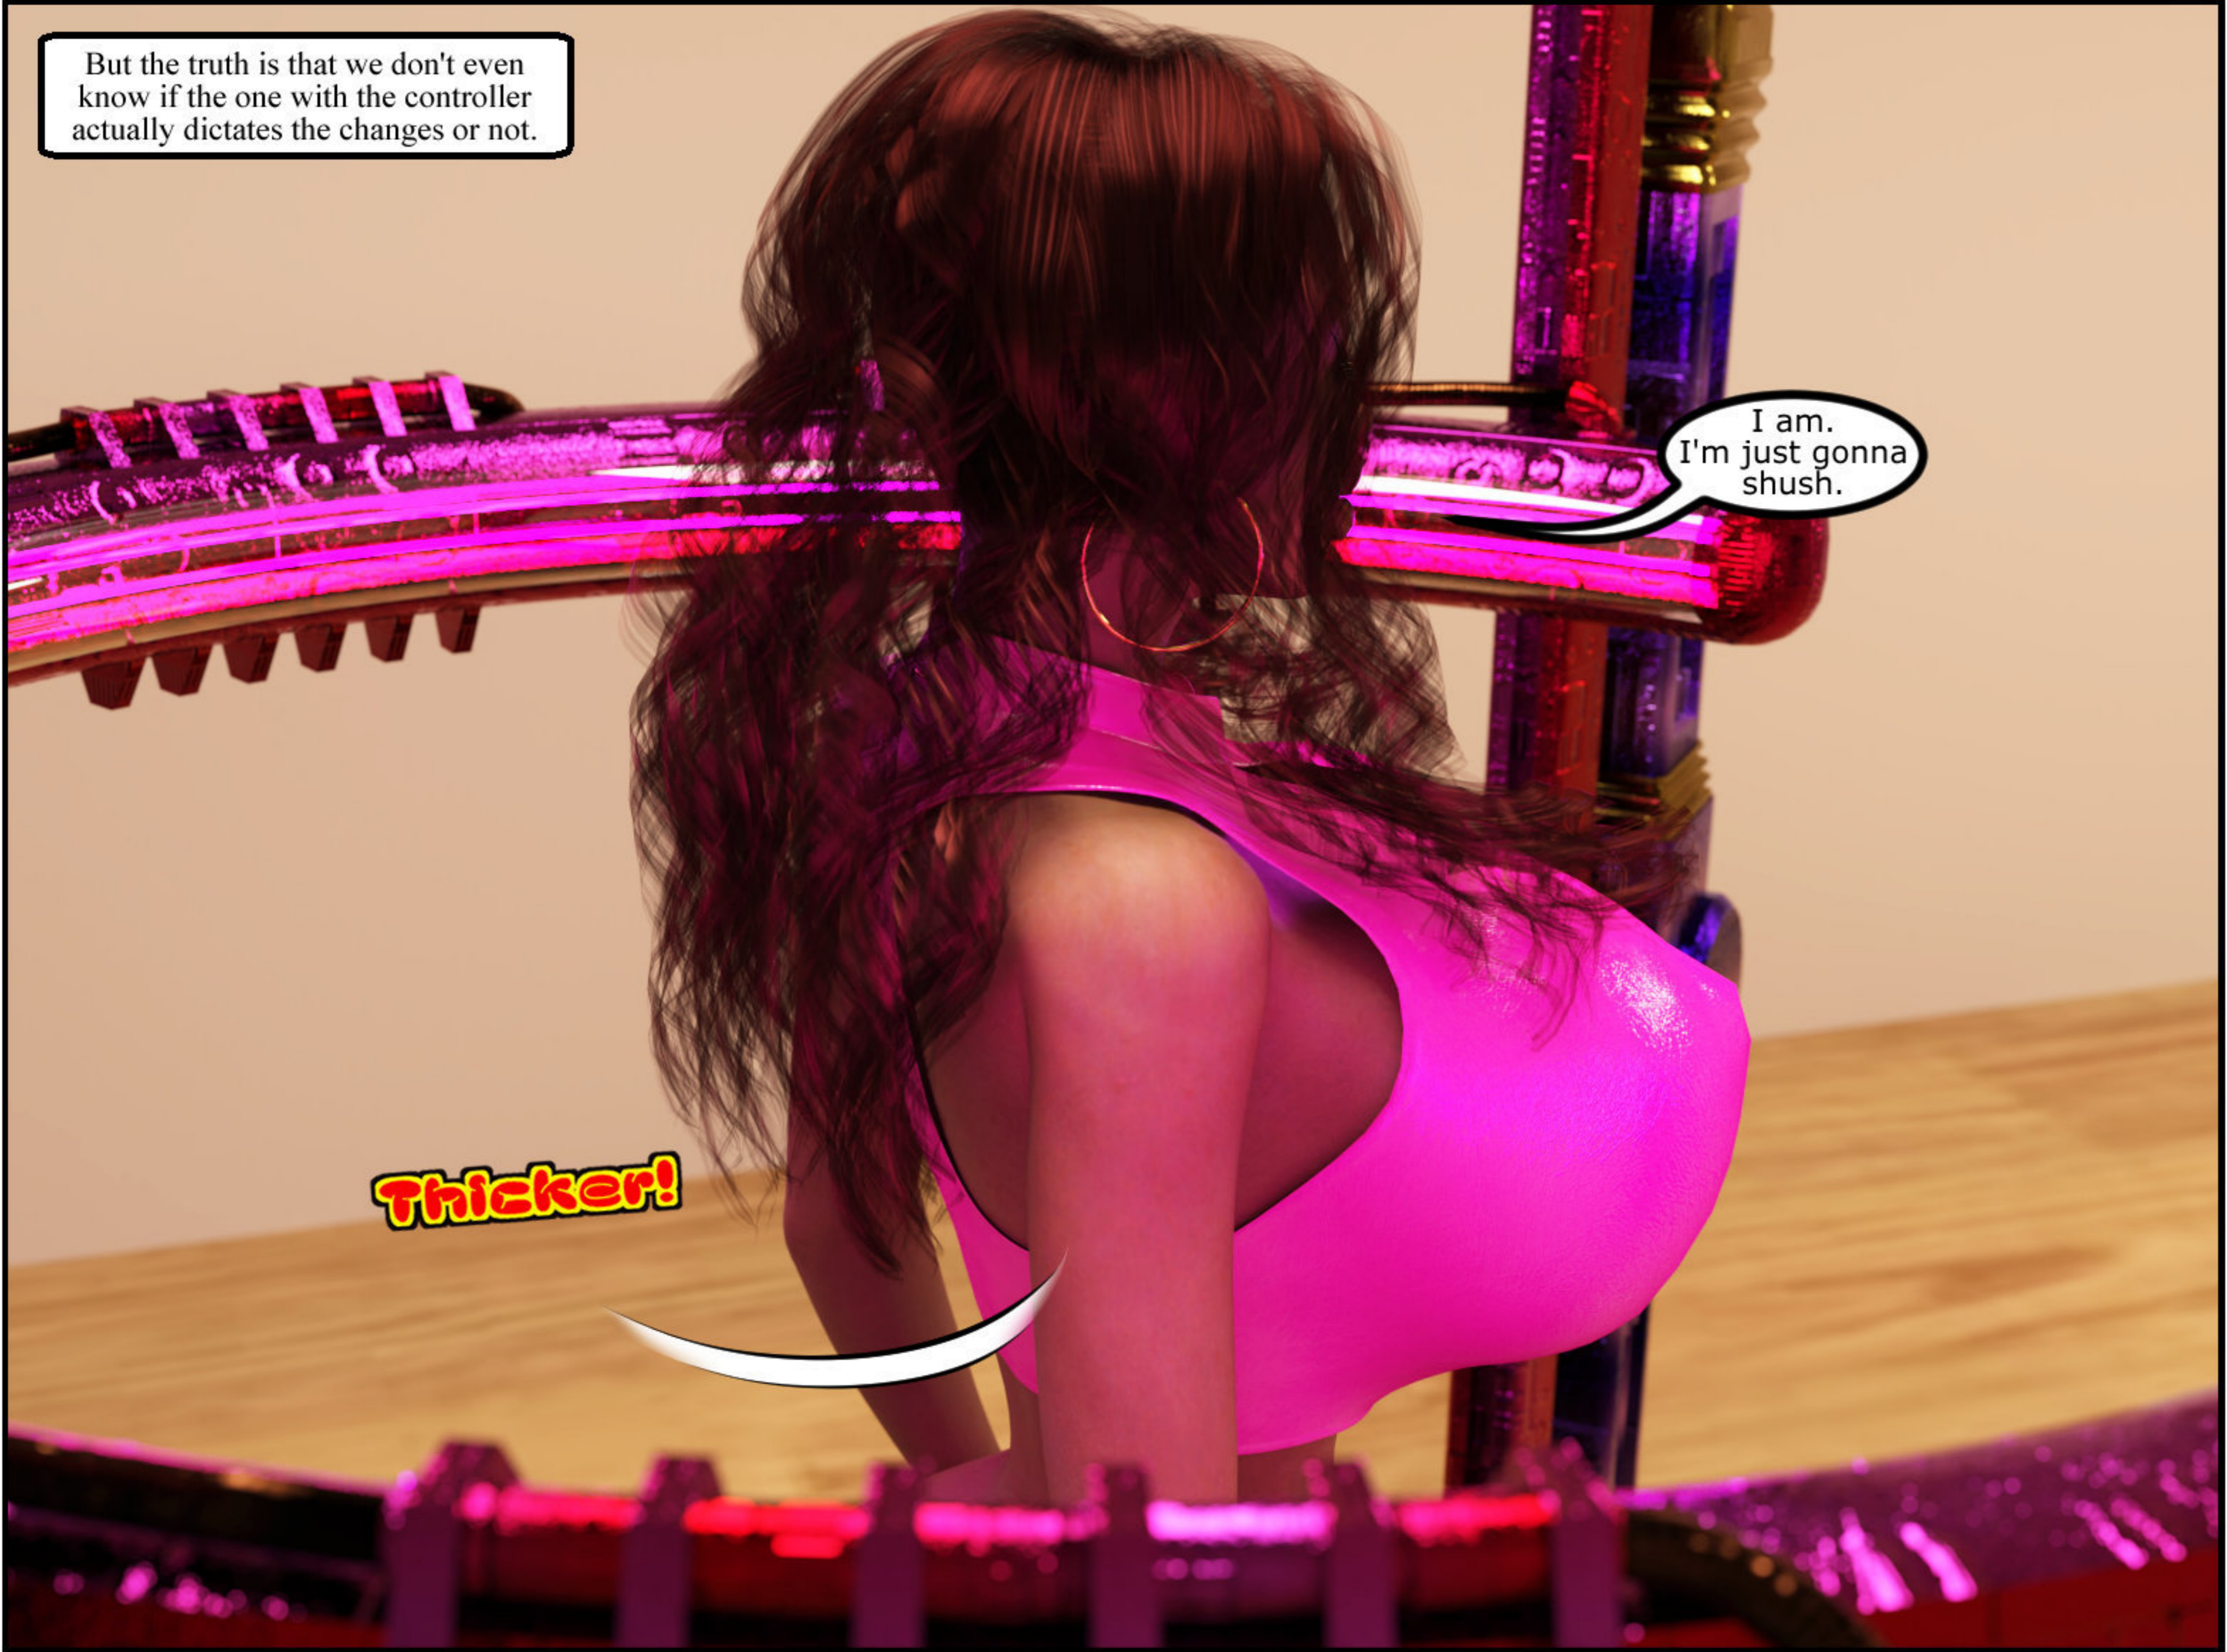

Larger!

But the truth is that we don't even know if the one with the controller actually dictates the changes or not.

I am.
I'm just gonna shush.

Thicker!

When Kindra used the machine, Misty pushed the button, but then it just seemed to do its own thing.

Yep!
Sure am.
Just gonna stop
talking
now.

Earlier!

Regardless of who or what is currently in control, the Techno Tanner is sure doing a number on Misty's hair.

Stop babbling away and just enjoy the feeling.

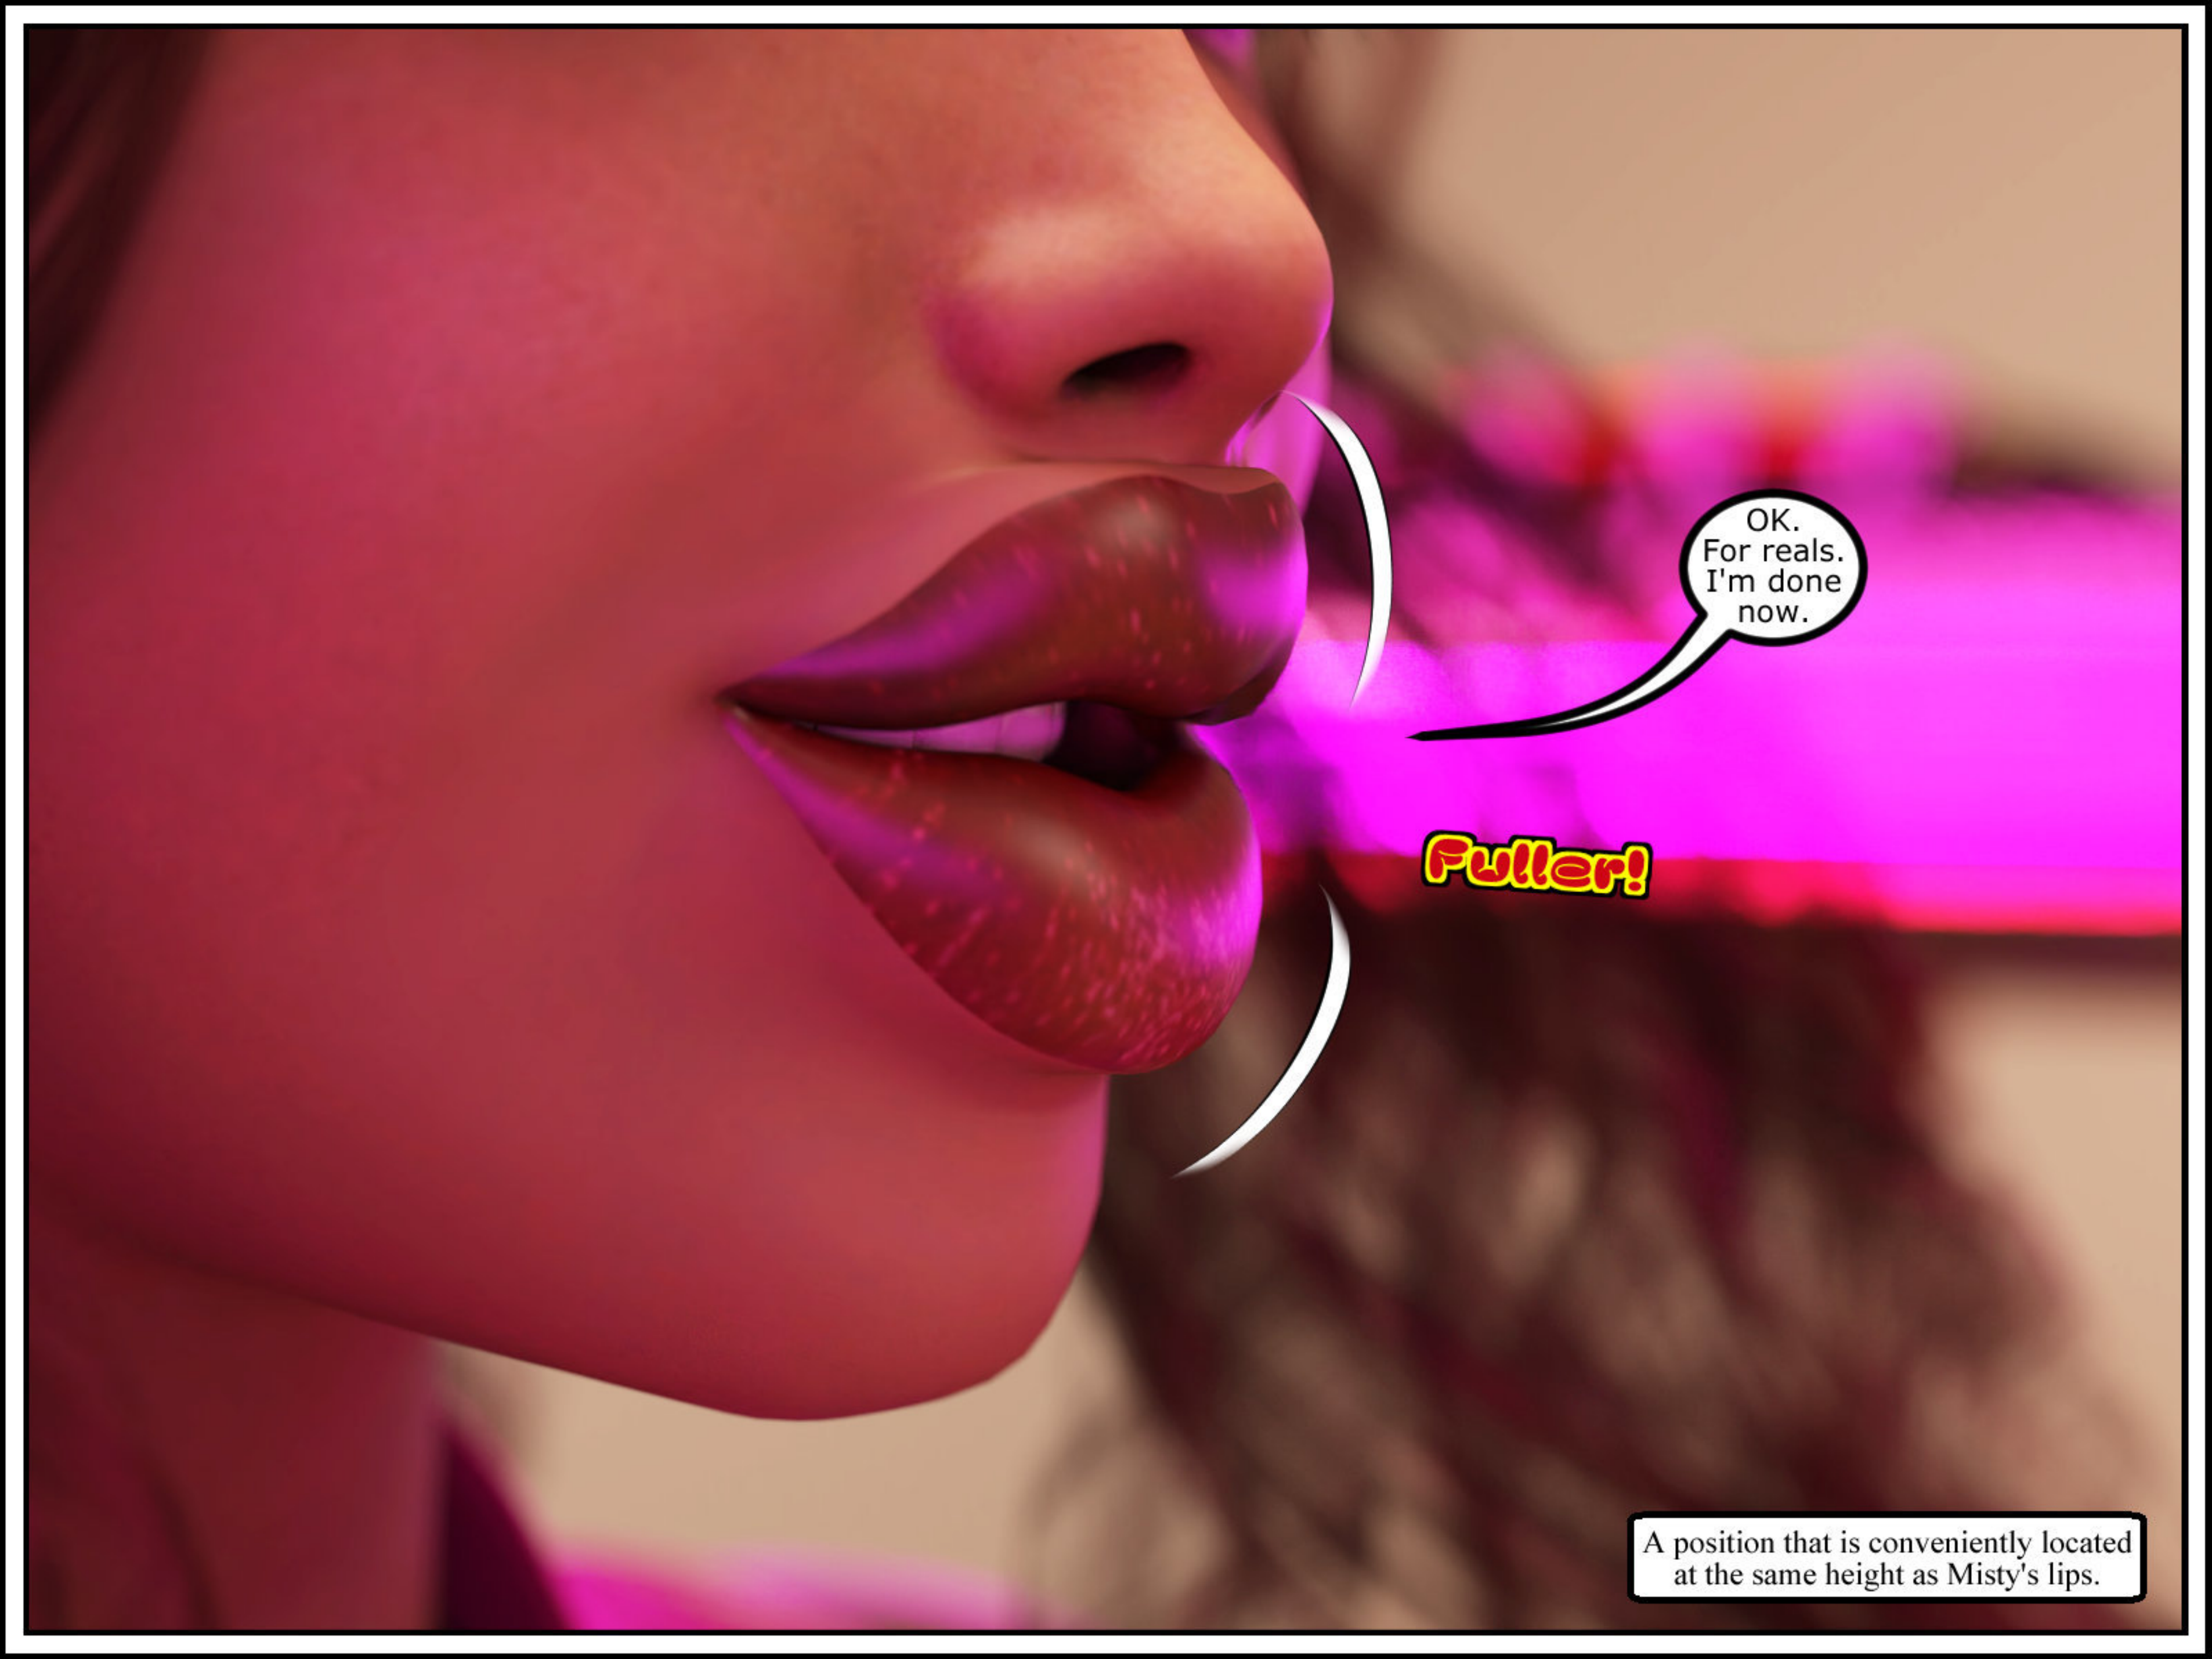

Even Longer!

Yep!
Uh-huh.
Any second now.
Just gonna
stop.

Finally, the machine seems to be done with Misty's hair. The scanner stops moving and sits in a resting position.

OK.
For reals.
I'm done
now.

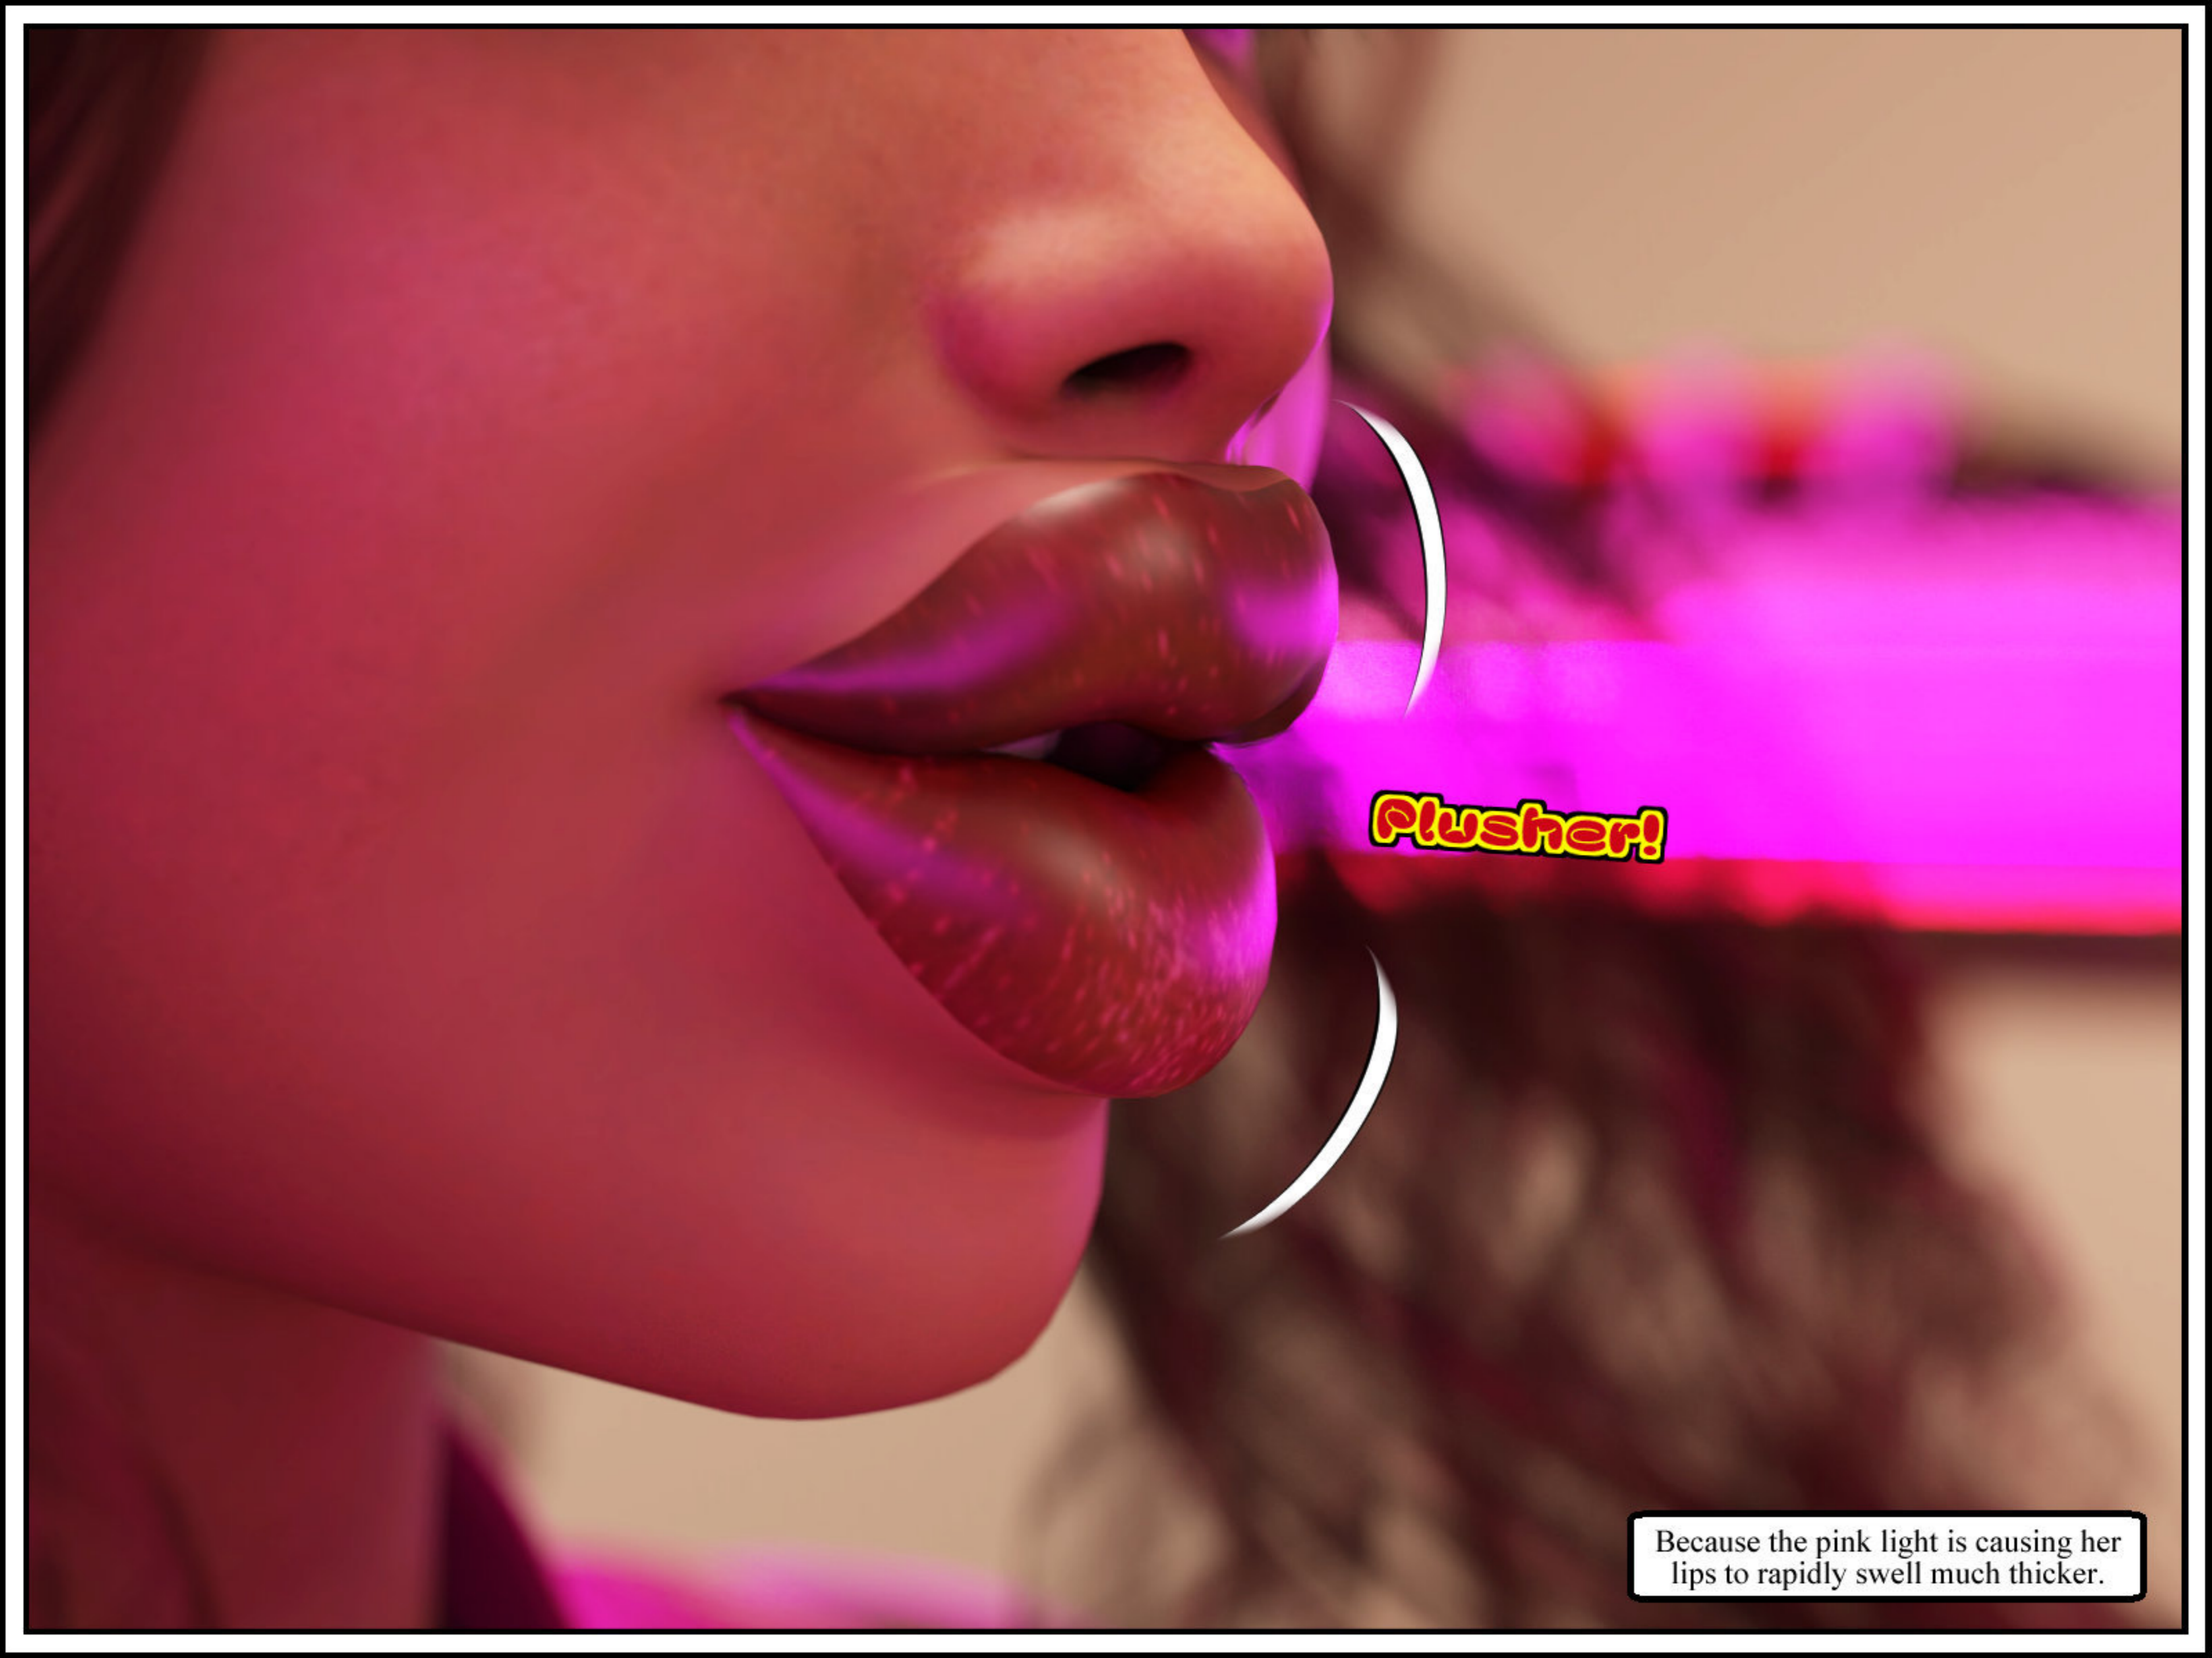

Fuller!

A position that is conveniently located
at the same height as Misty's lips.

A close-up, side-profile view of a woman's face. Her lips are pursed together in a 'fish face' expression. A white speech bubble with a black outline is positioned near her mouth, containing the word 'Plumper!' in a yellow, bubbly font with a black outline. The background is blurred, showing what appears to be a bed with a patterned blanket and a lamp with a pink glow.

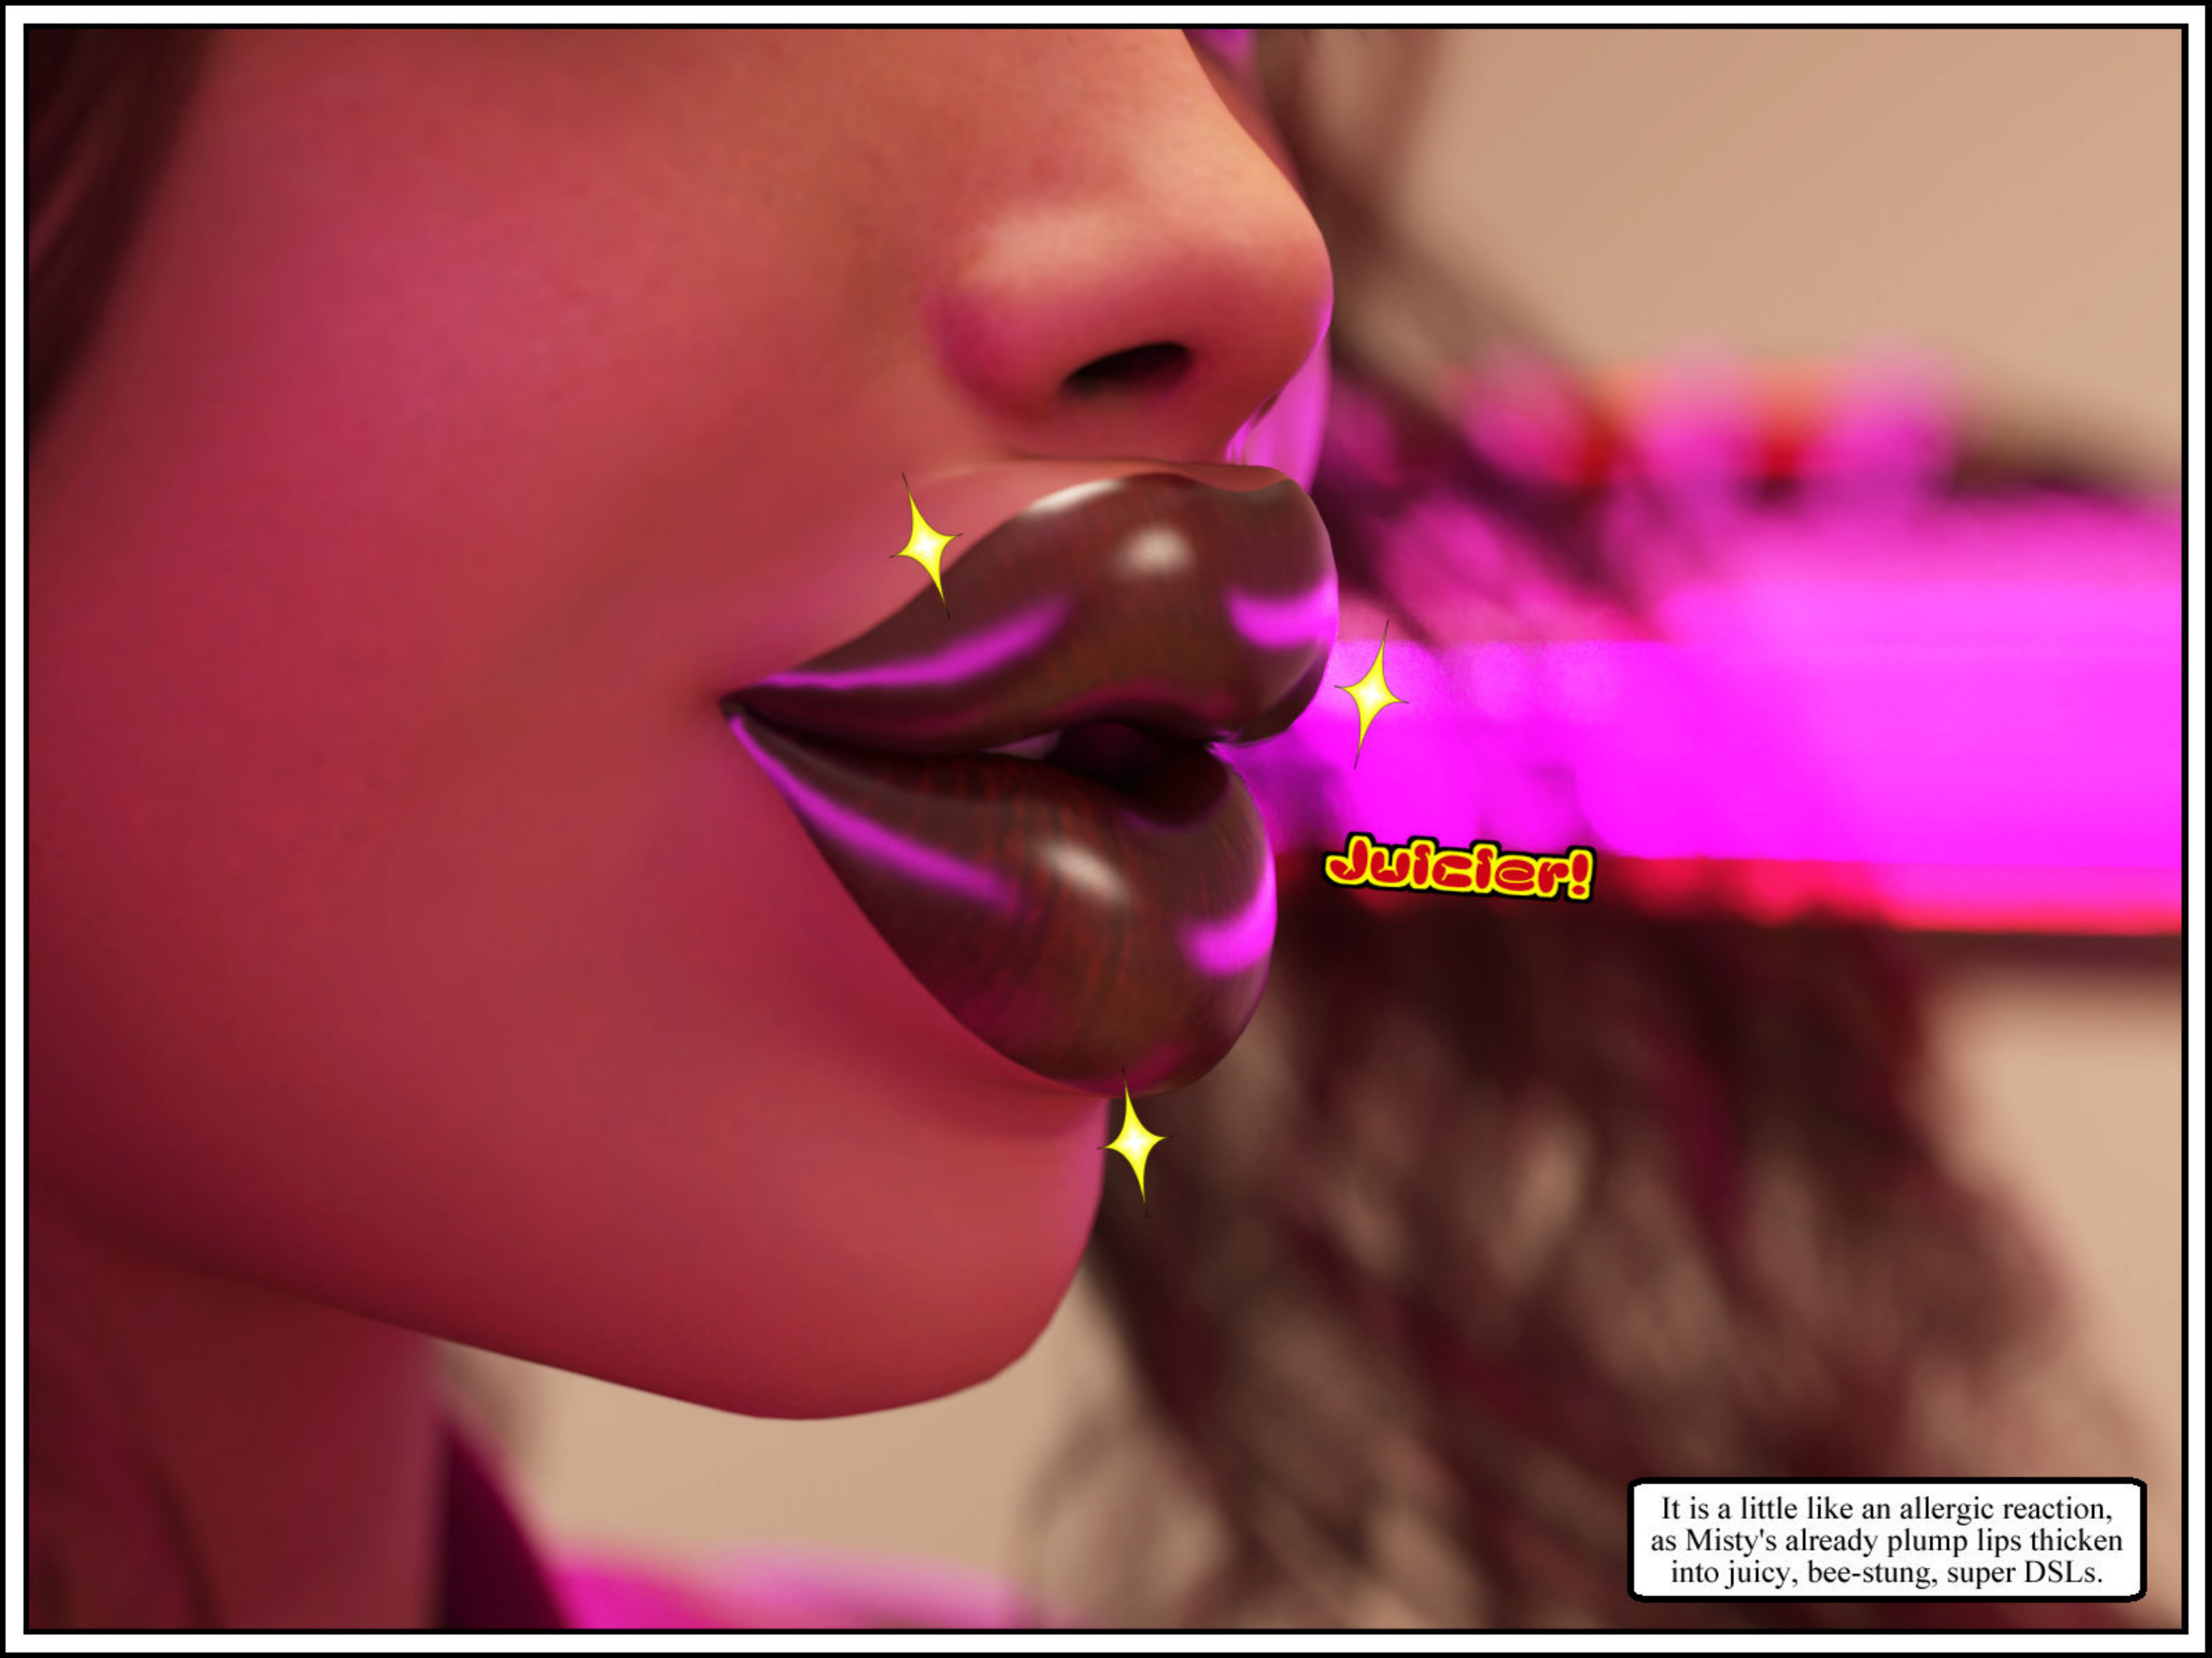

Plumper!

So it is probably a good thing that
Misty has finally stopped talking.

Plusher!

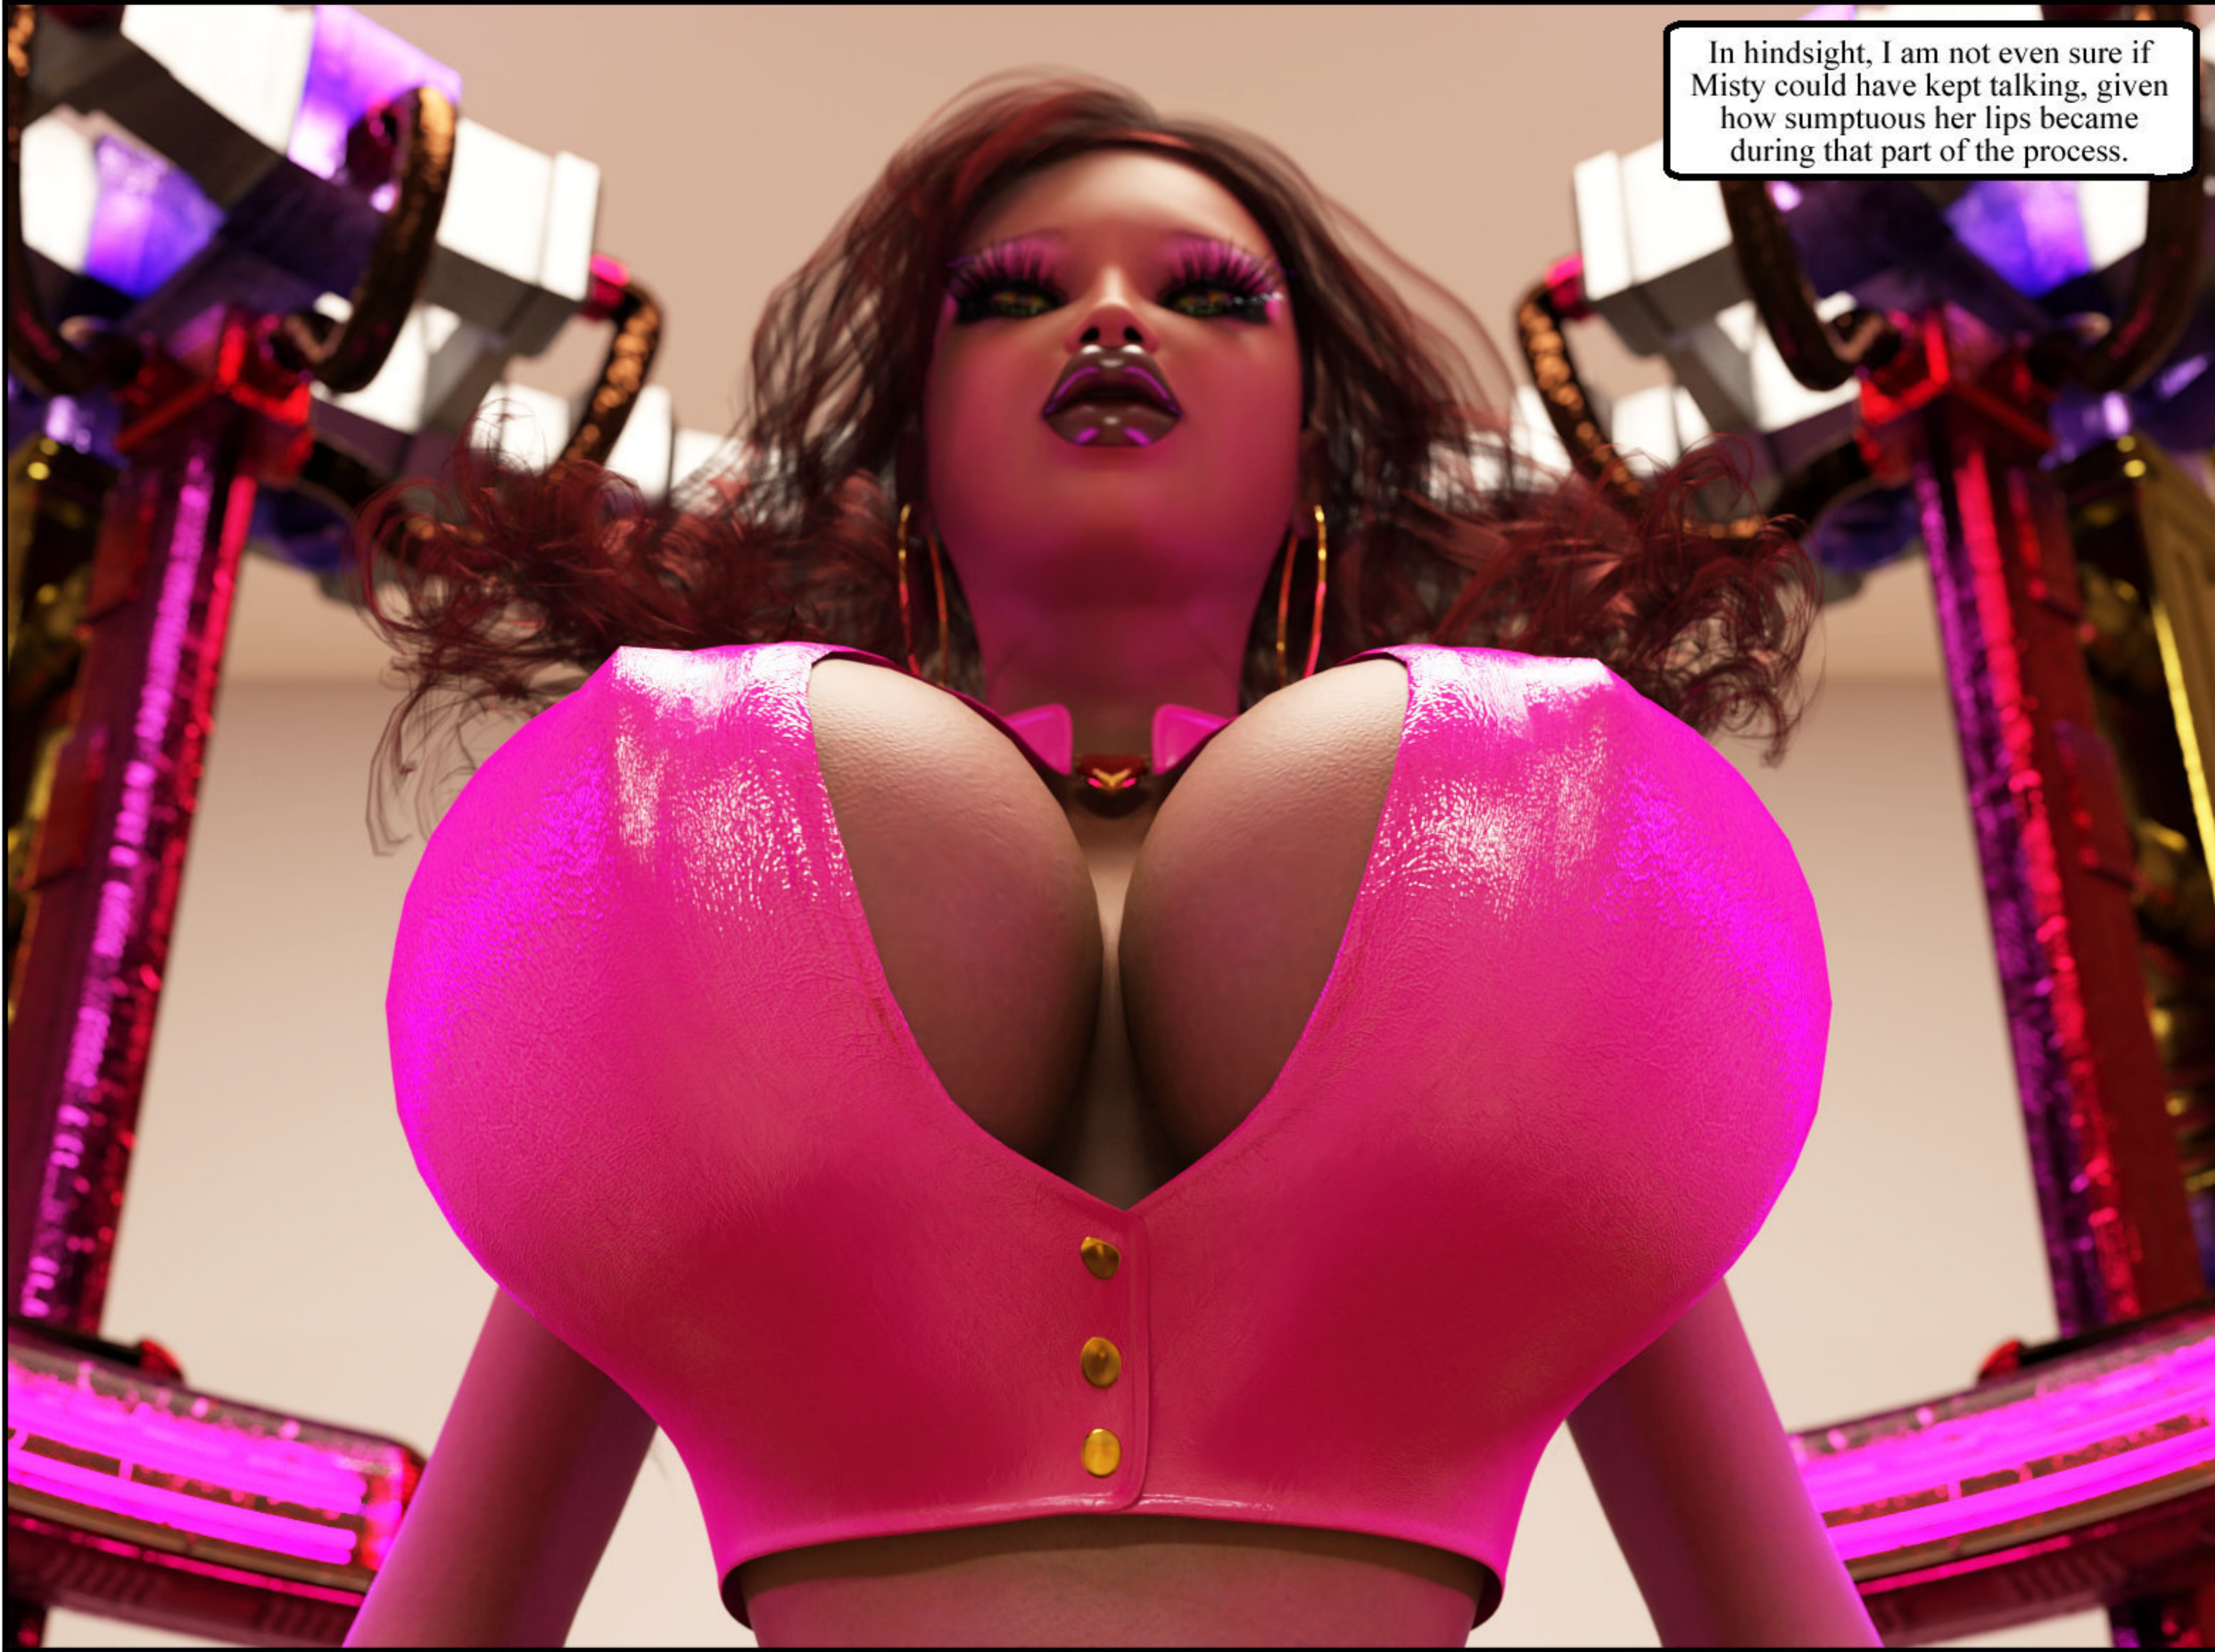

Because the pink light is causing her lips to rapidly swell much thicker.

Juicier!

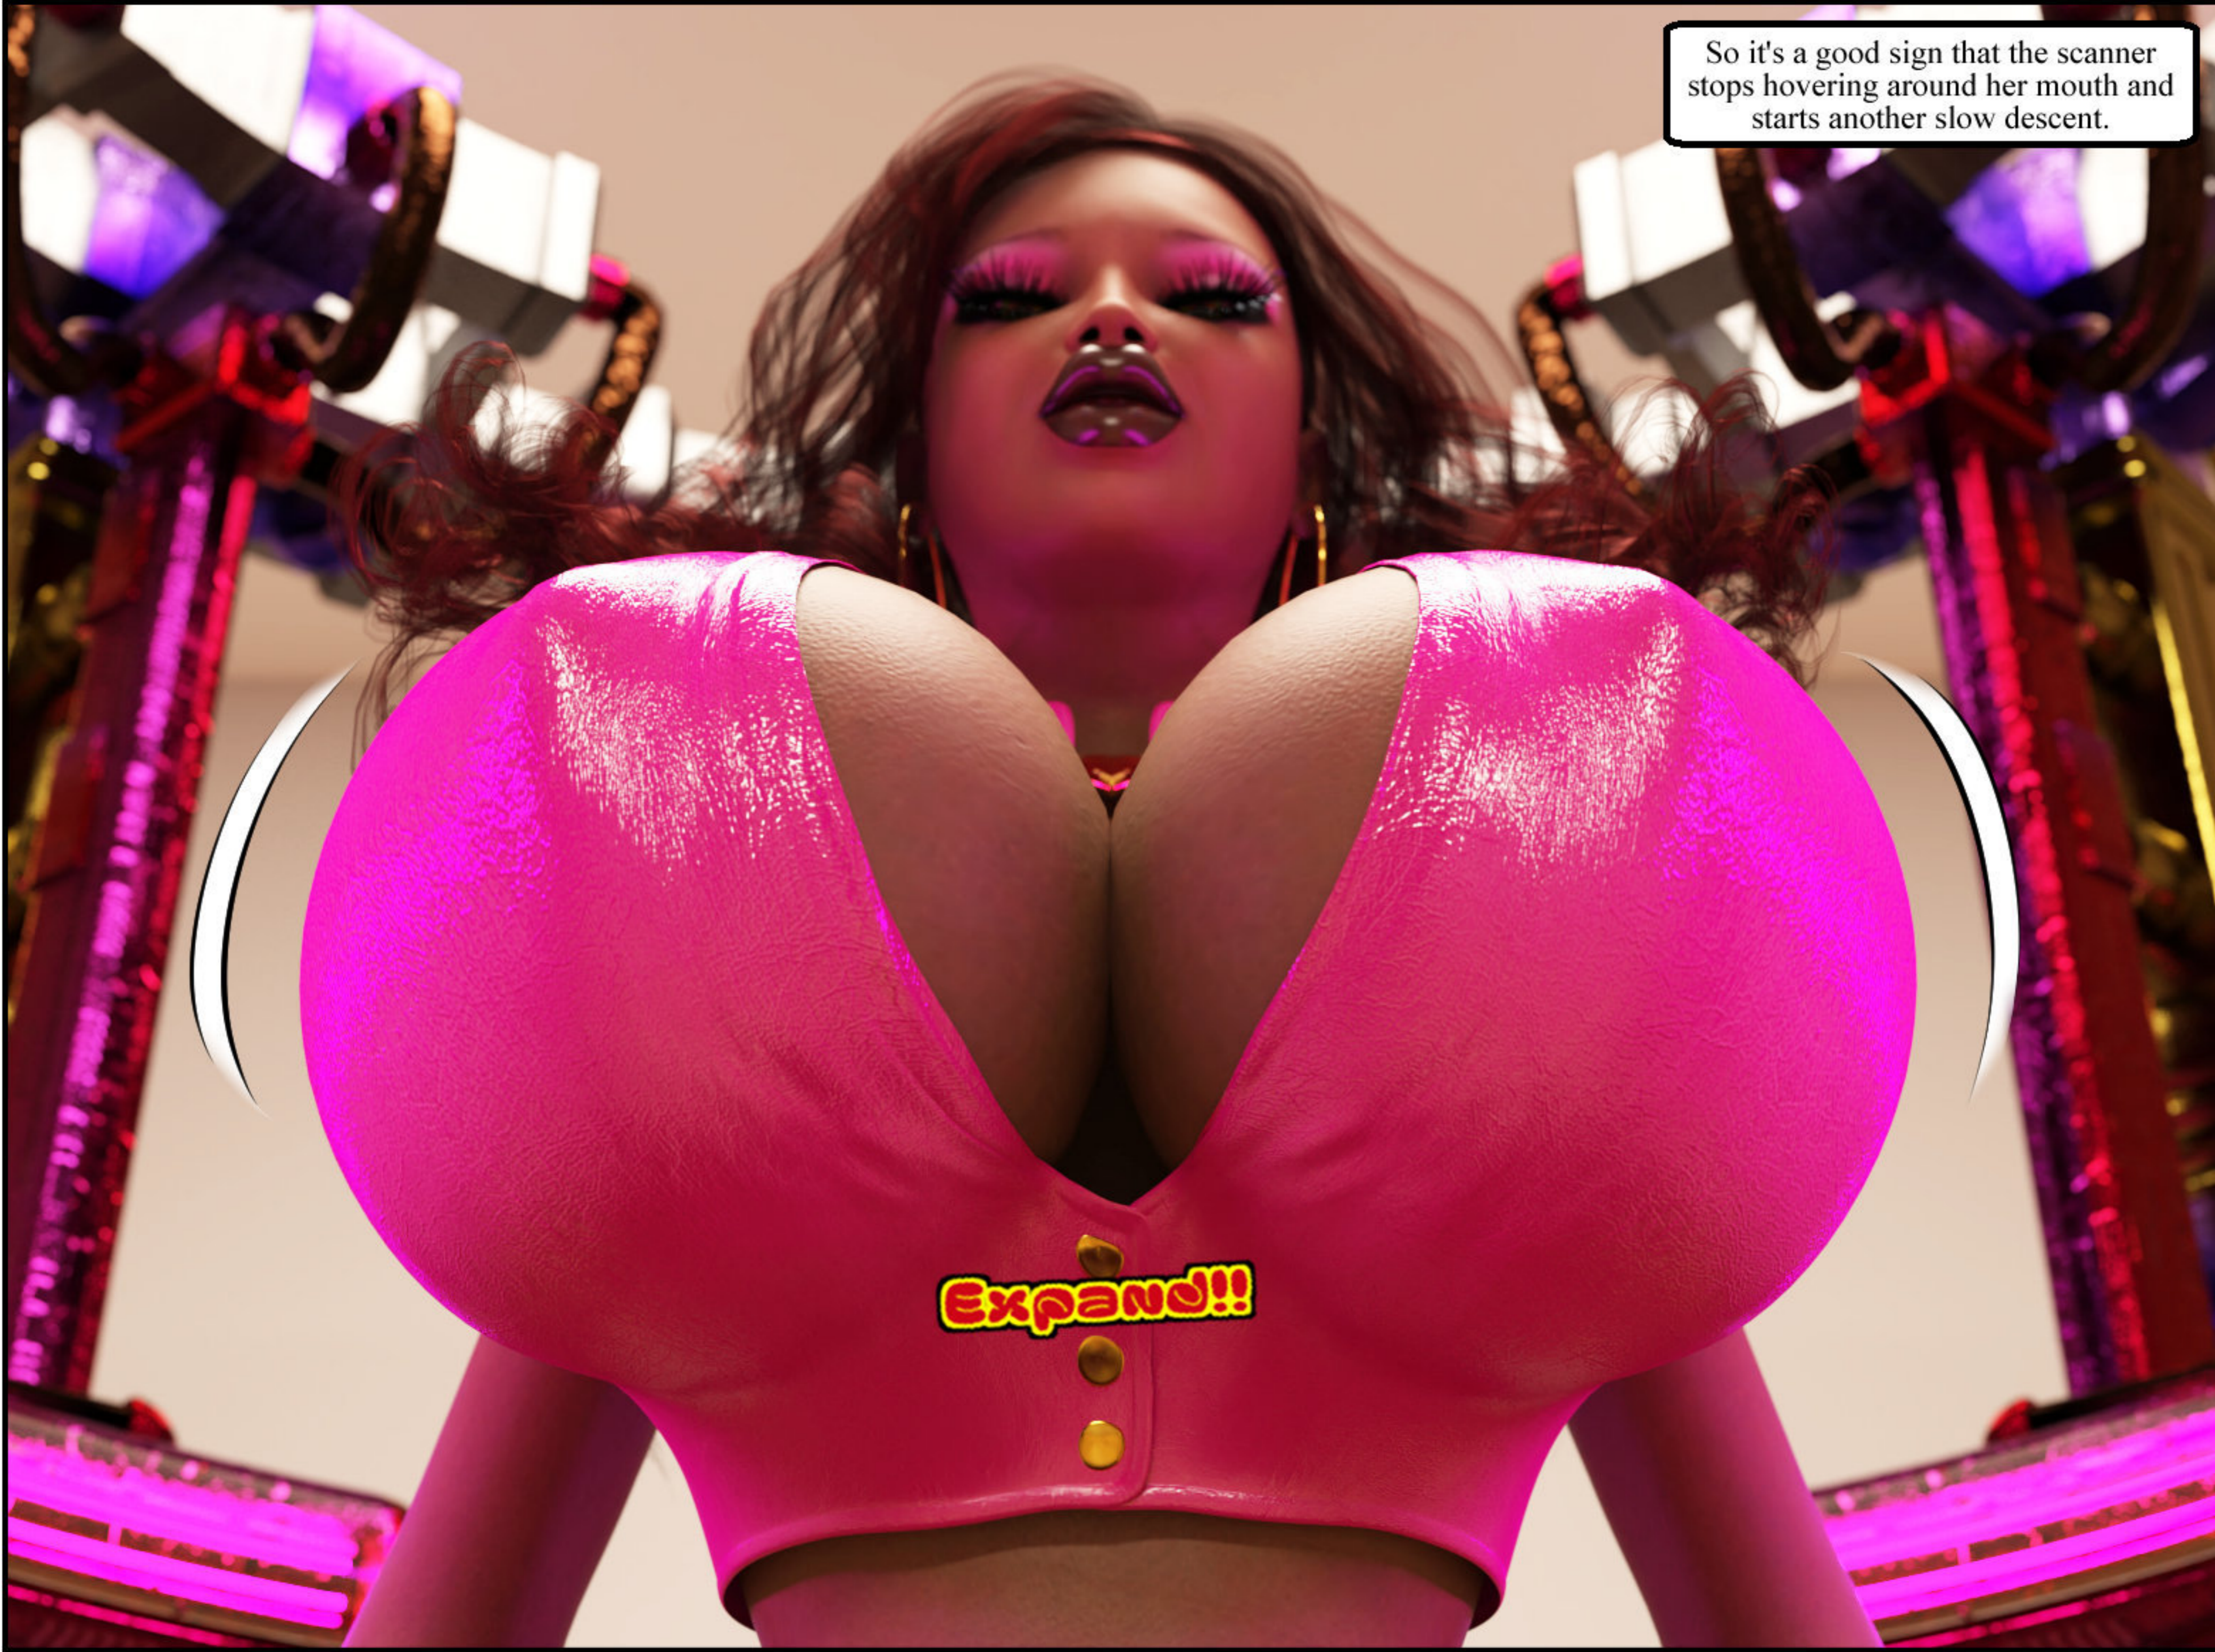

It is a little like an allergic reaction, as Misty's already plump lips thicken into juicy, bee-stung, super DSLs.

In hindsight, I am not even sure if Misty could have kept talking, given how sumptuous her lips became during that part of the process.

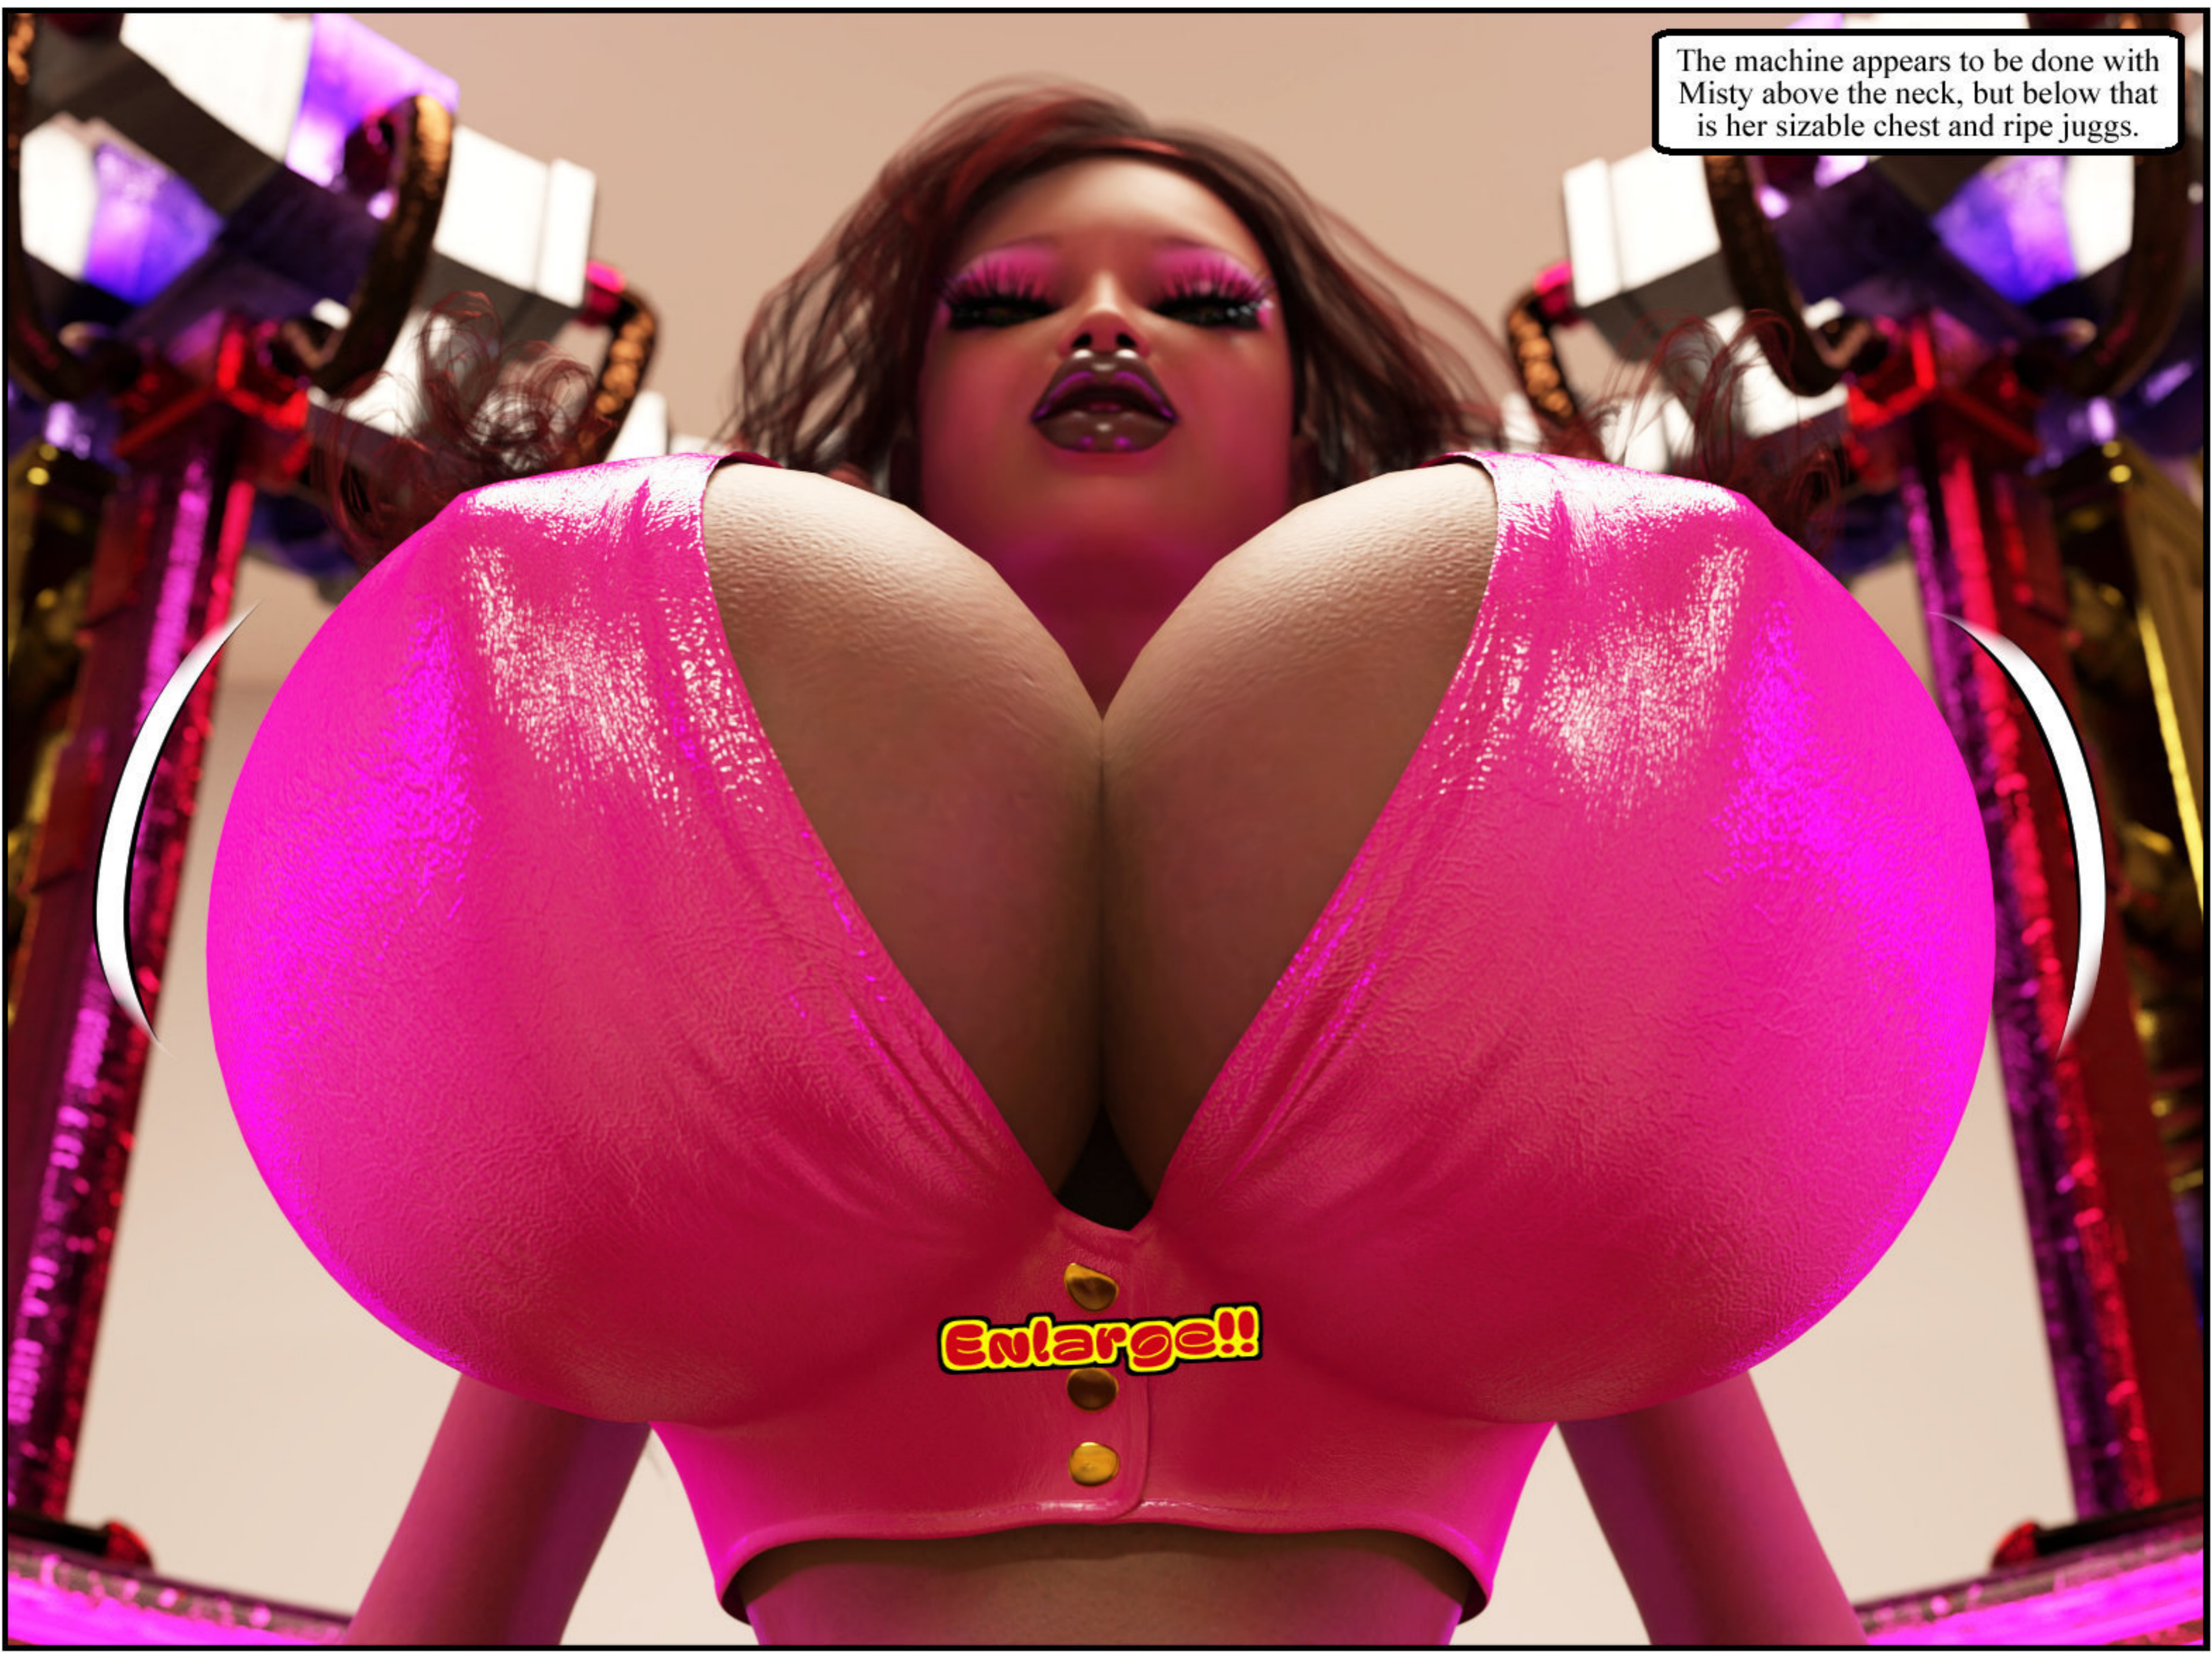

So it's a good sign that the scanner stops hovering around her mouth and starts another slow descent.

Expand!!

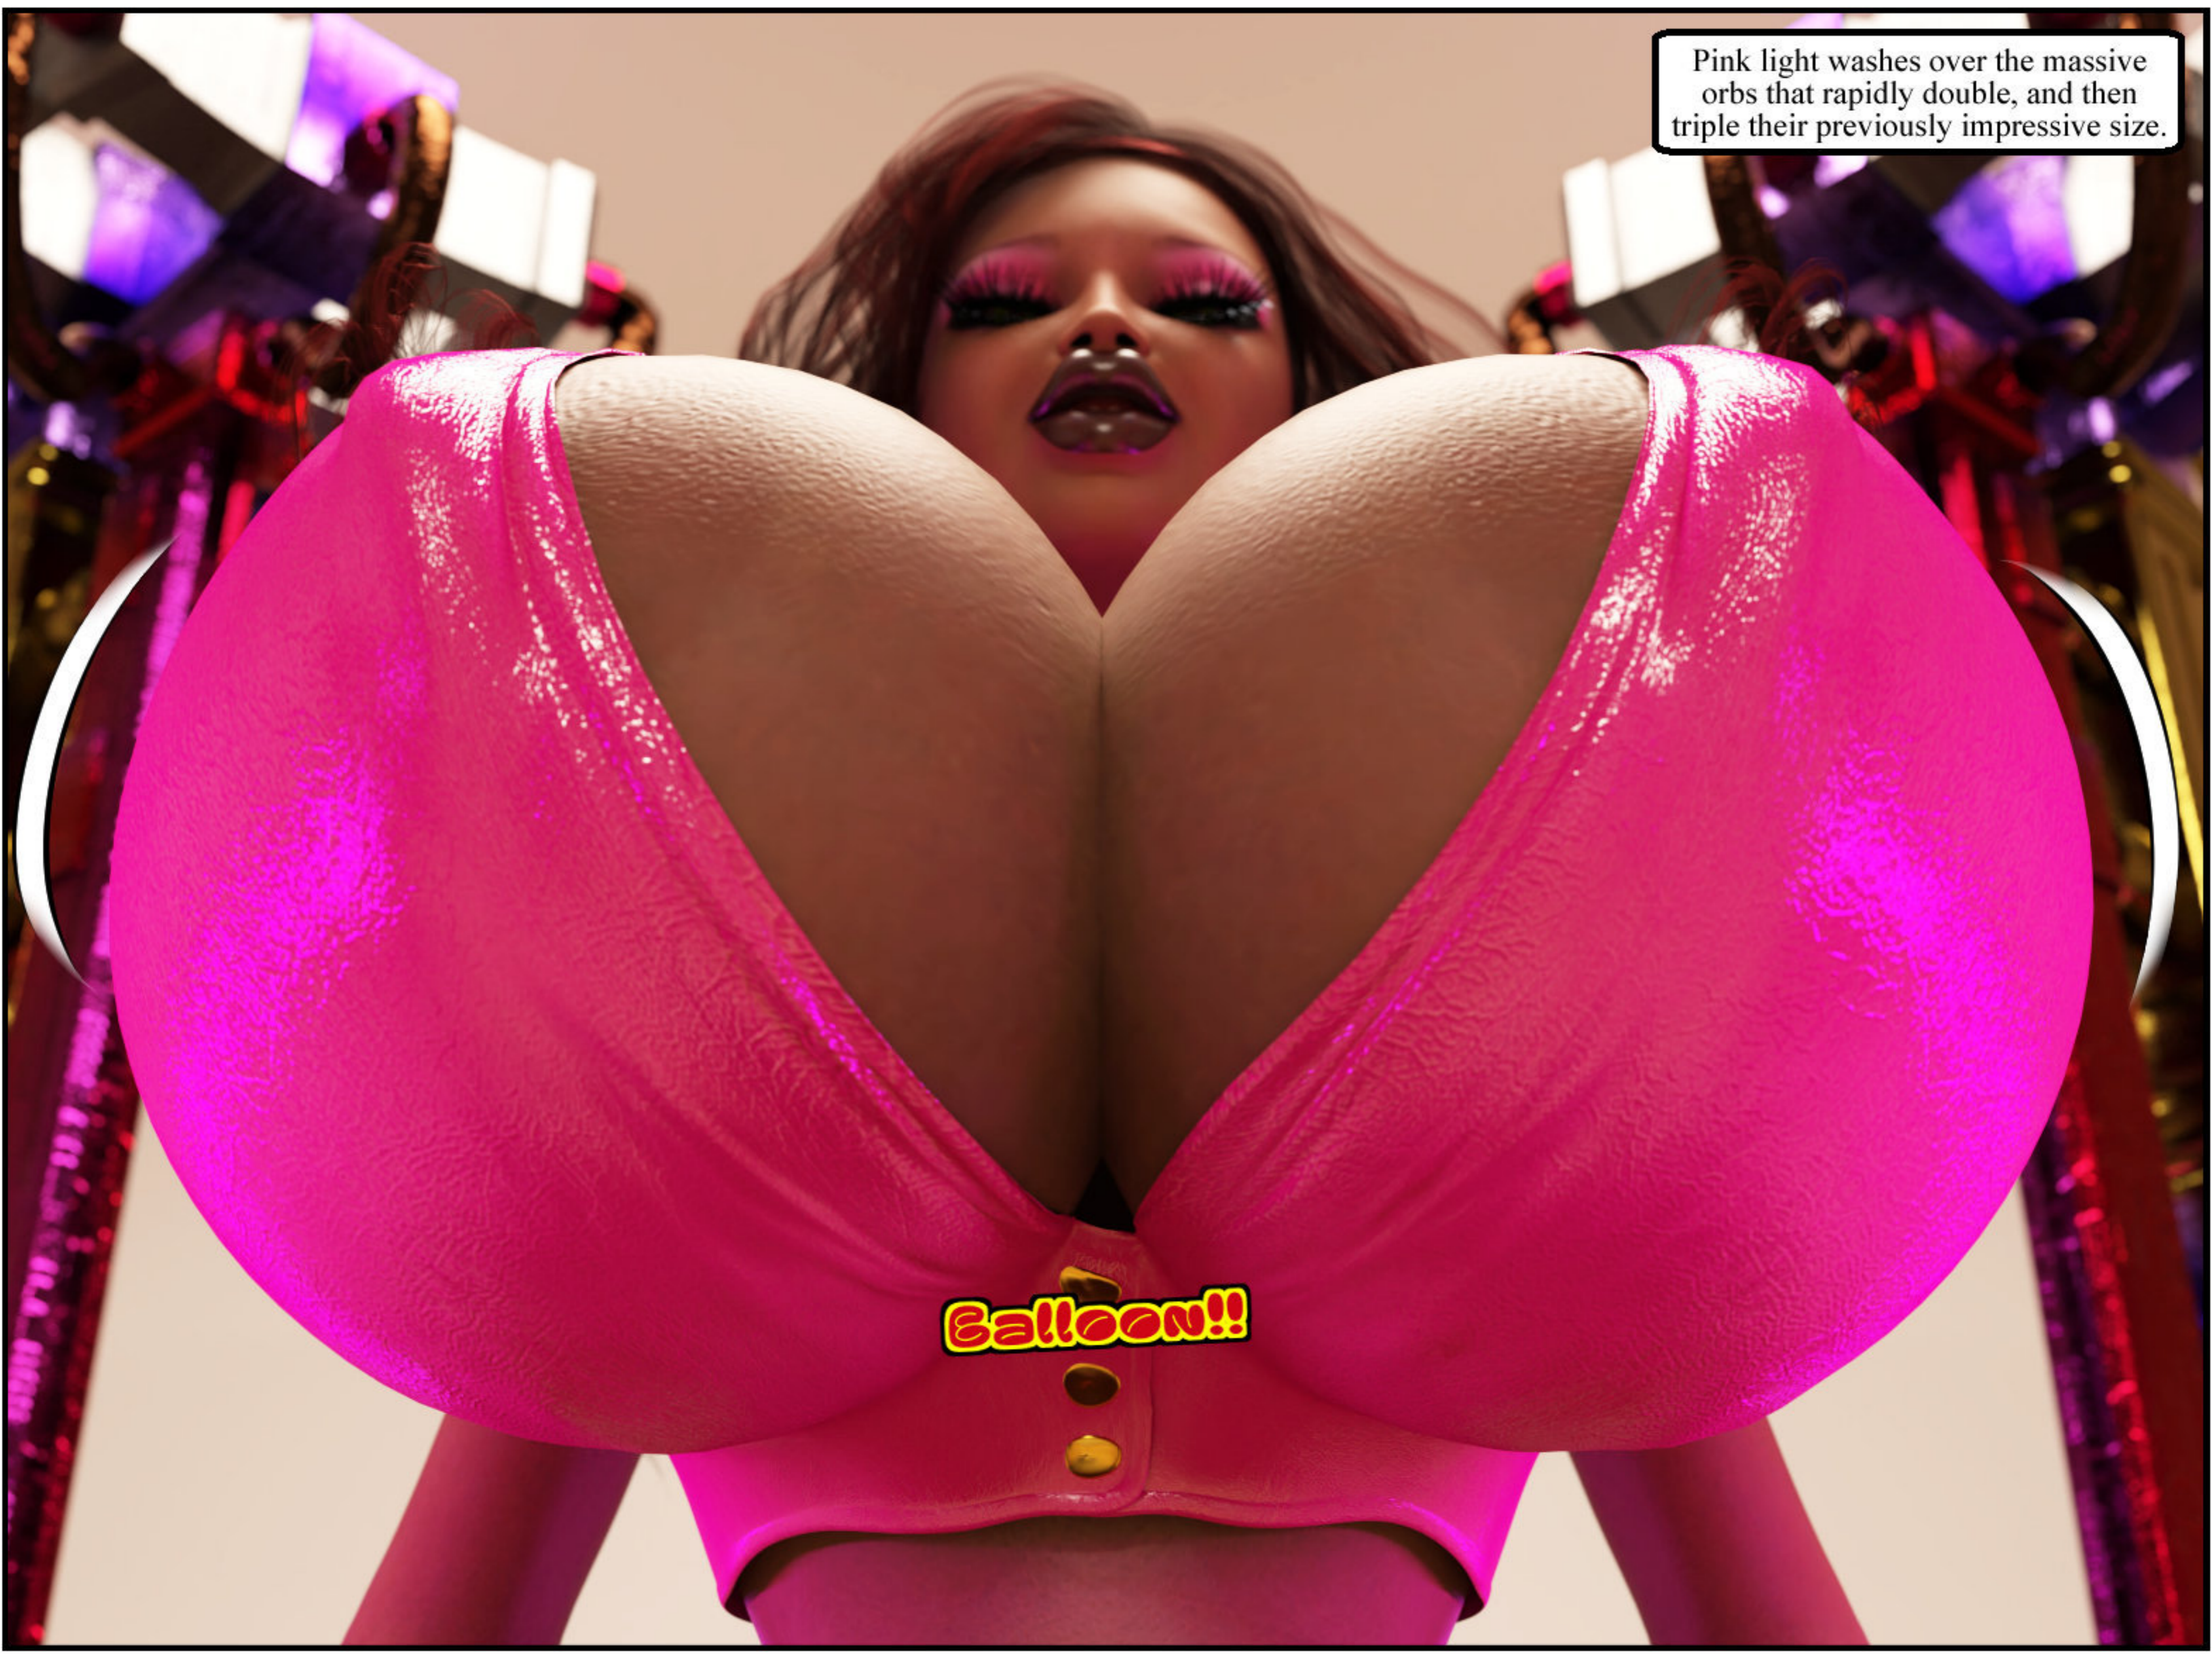

The machine appears to be done with Misty above the neck, but below that is her sizable chest and ripe jugs.

Enlarge!!

Pink light washes over the massive orbs that rapidly double, and then triple their previously impressive size.

Balloon!!

Misty's bust looks to almost equal Kindra's, and the scanner seems to be satisfied with that for now.

So it continues its downward motion,
washing its transformative pink light
over more areas of Misty's figure.

Riper!

Like her delicious, firm, bubble butt.
The pink beams almost seem to infuse
it with additional booty fullness.

Juicier!

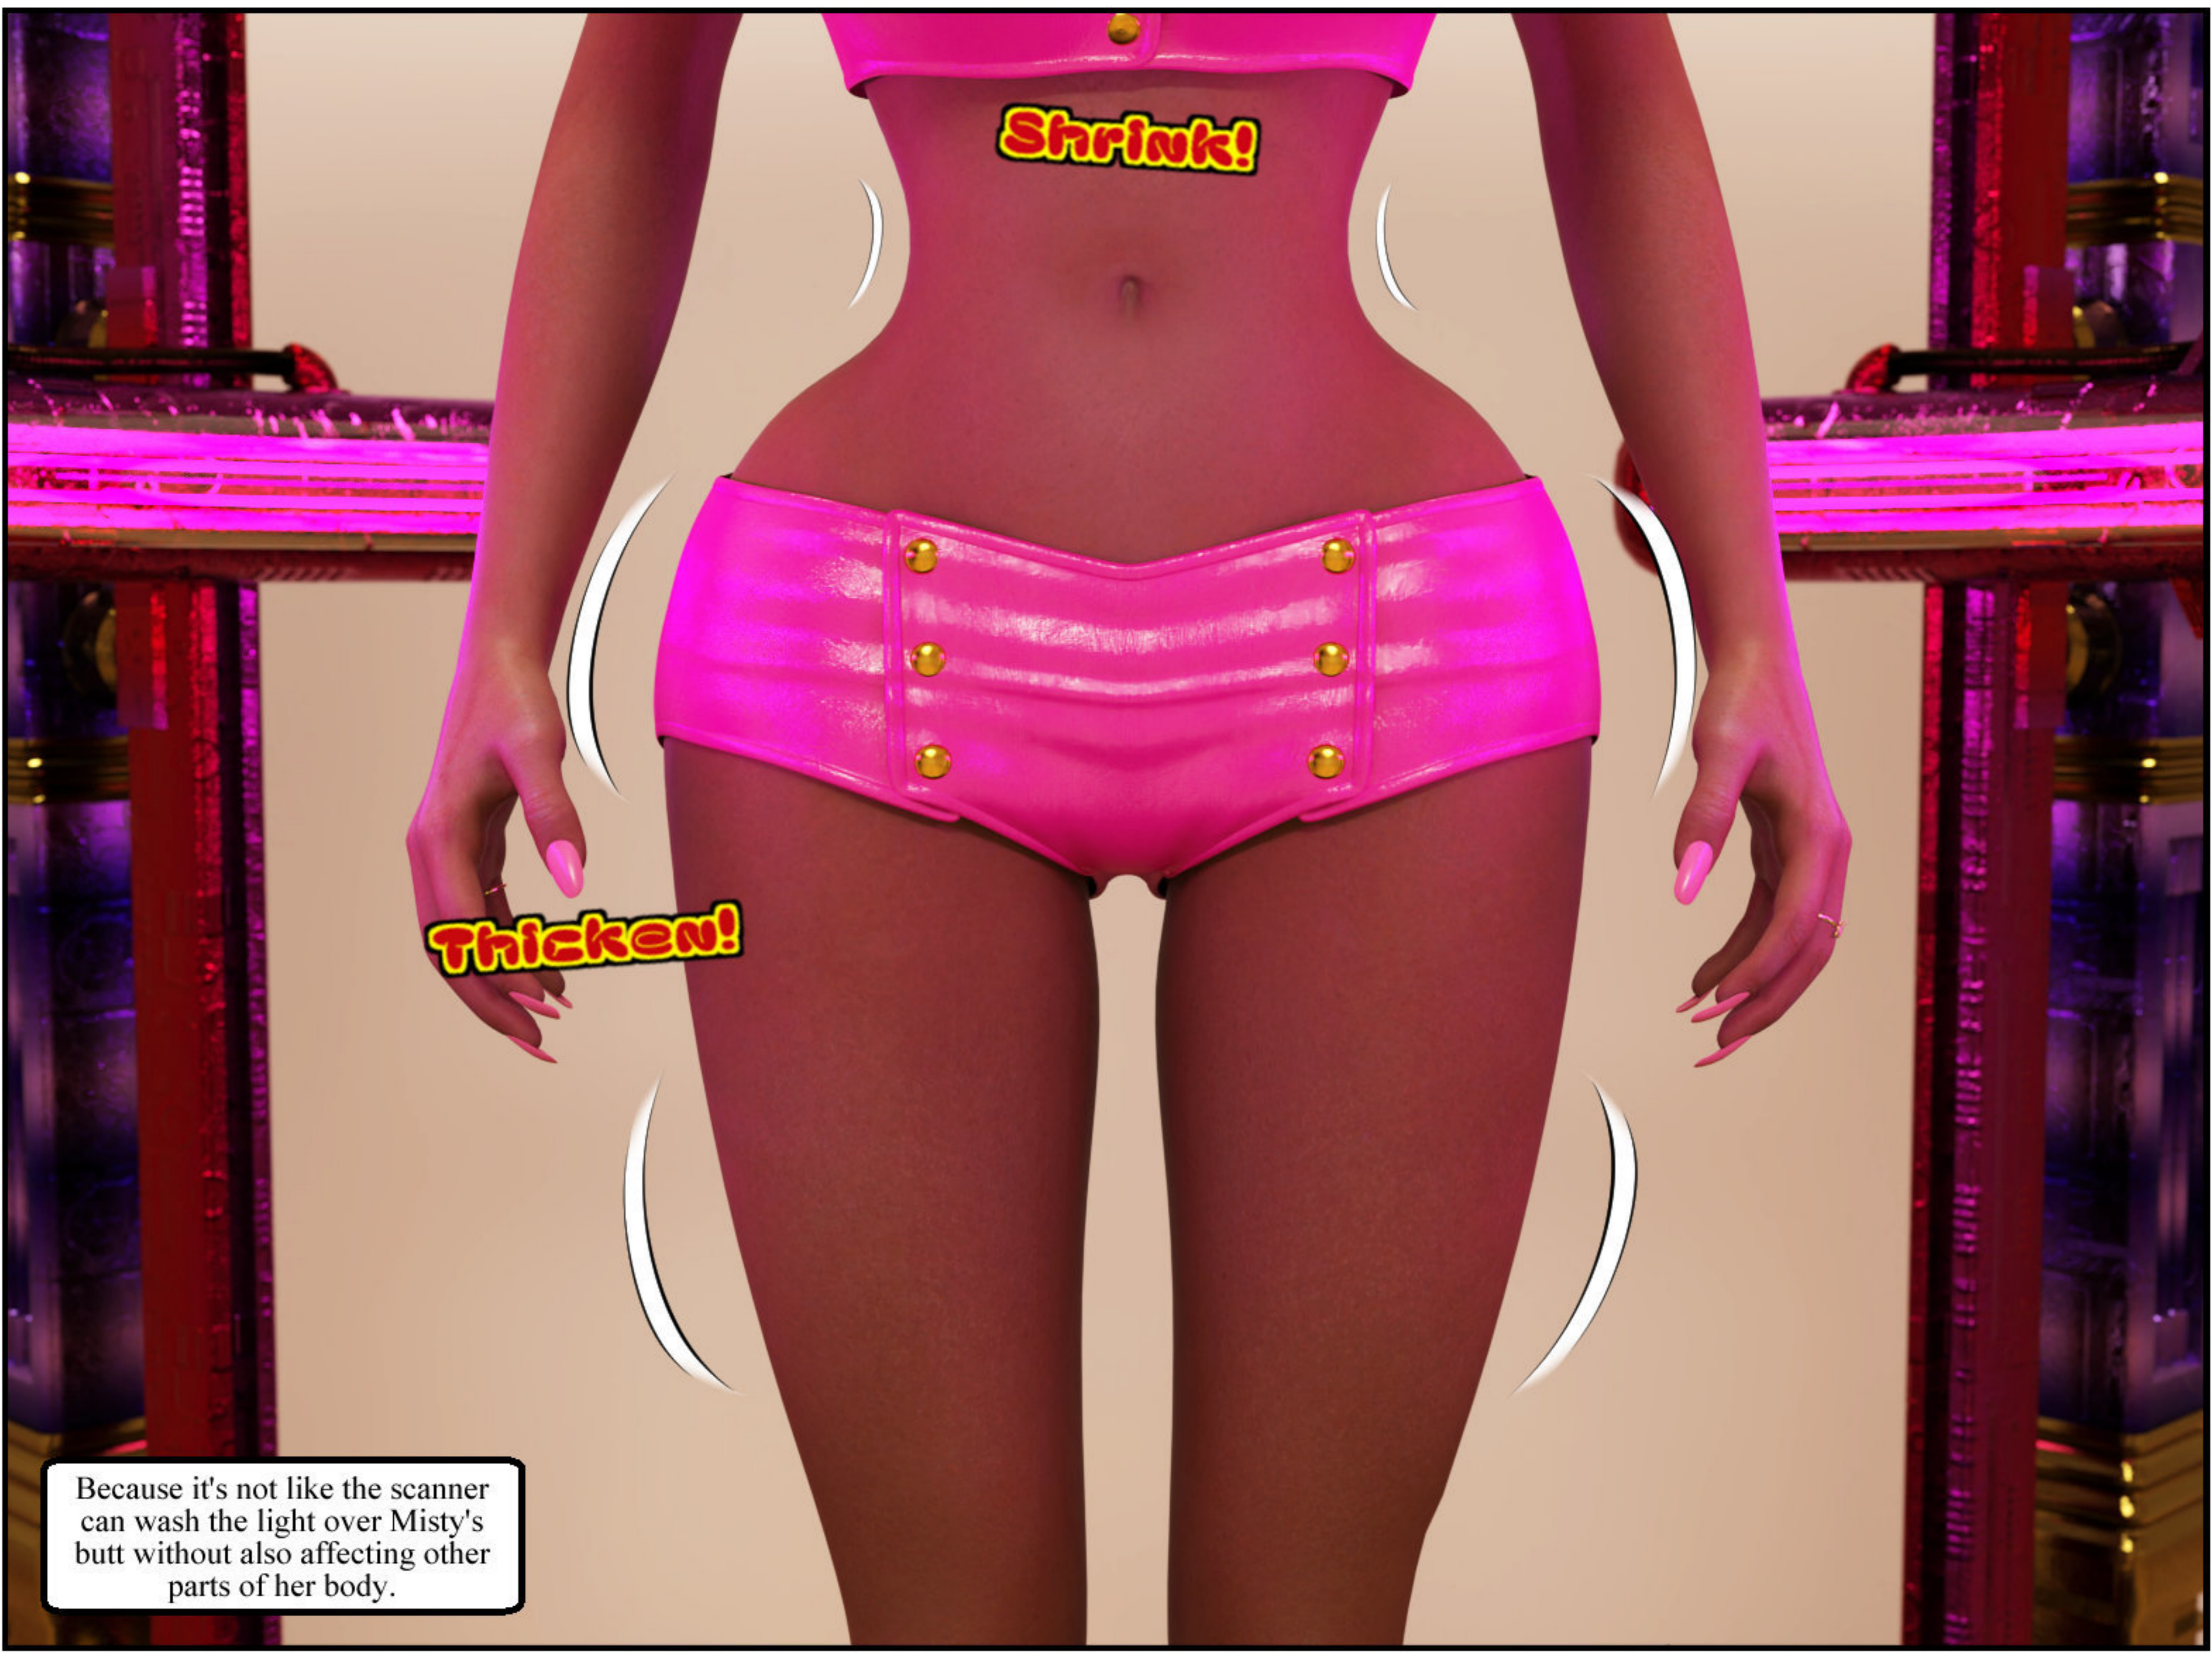

Or you could say with more
bootifulness, as her ass also grows to
two or three times its previous bulk.

Bubblier!

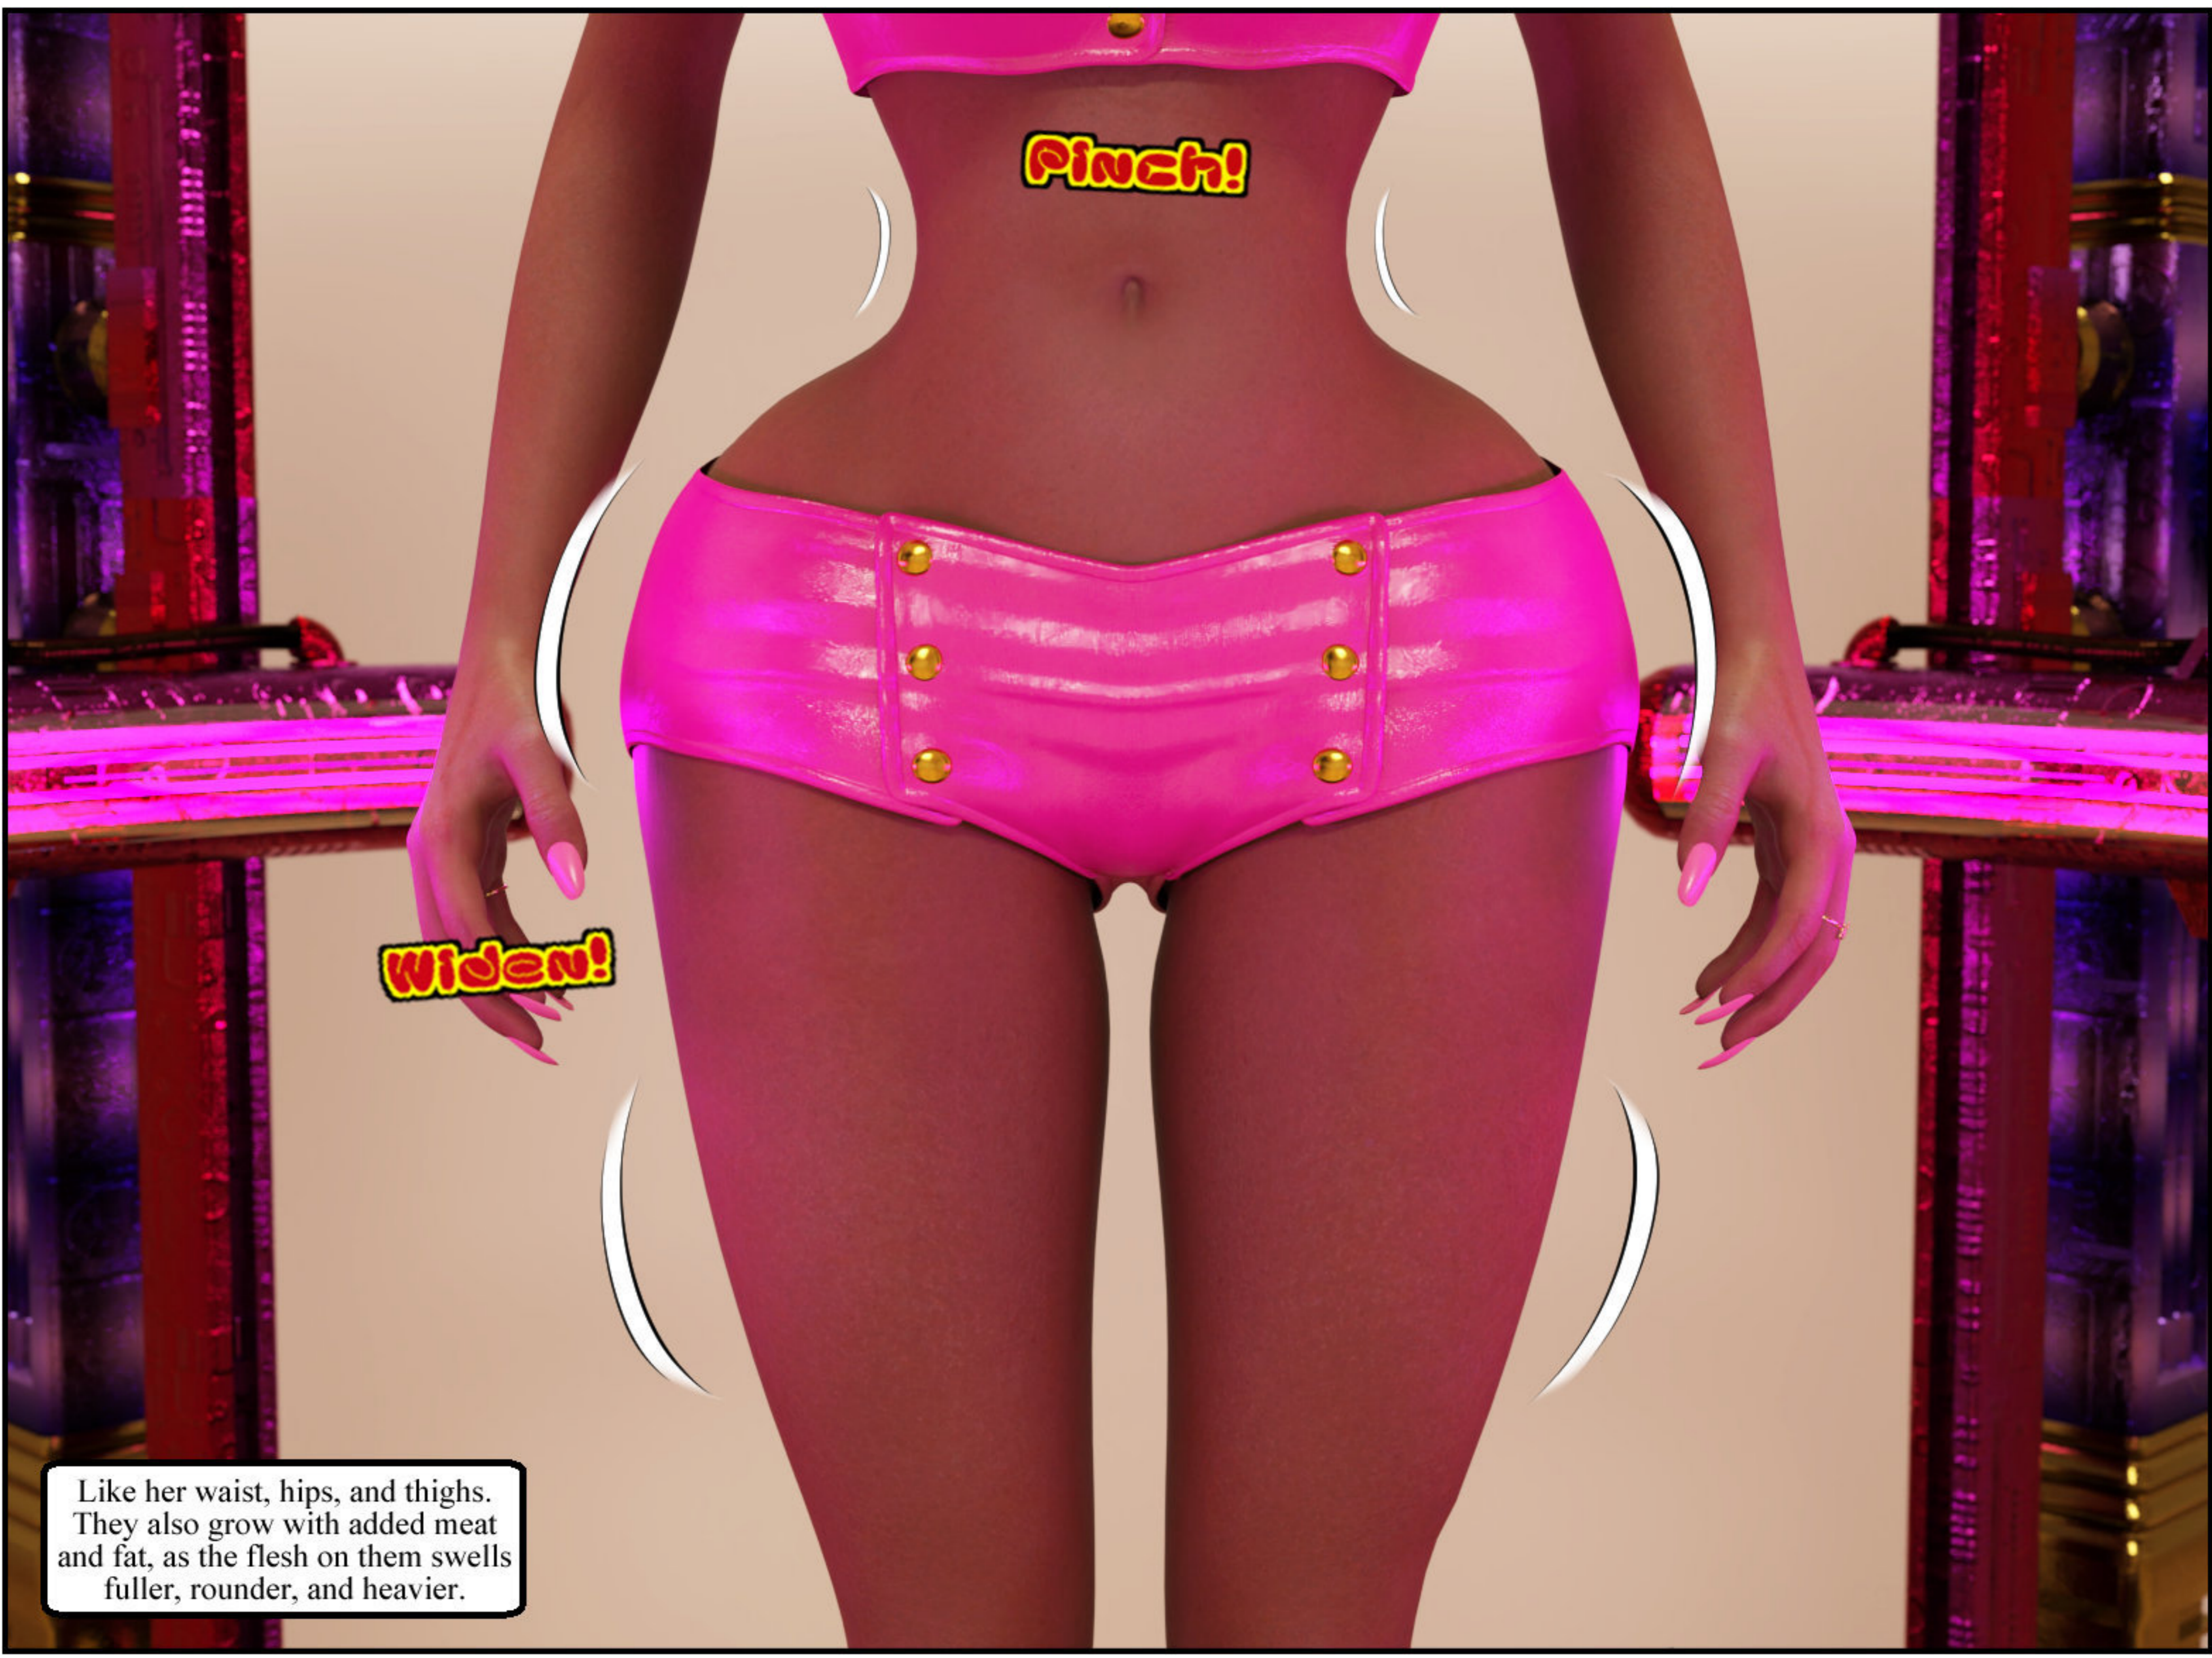

But let's back up for just a moment. I think we need to call attention to something that could be very important.

Shrink!

Thicken!

Because it's not like the scanner can wash the light over Misty's butt without also affecting other parts of her body.

Pinch!

Widen!

Like her waist, hips, and thighs. They also grow with added meat and fat, as the flesh on them swells fuller, rounder, and heavier.

Cinch!

Voluptuous!

Except for her waist, of course. It pinches inward as if it is being gripped in the tight embrace of an hourglass-hugging corset.

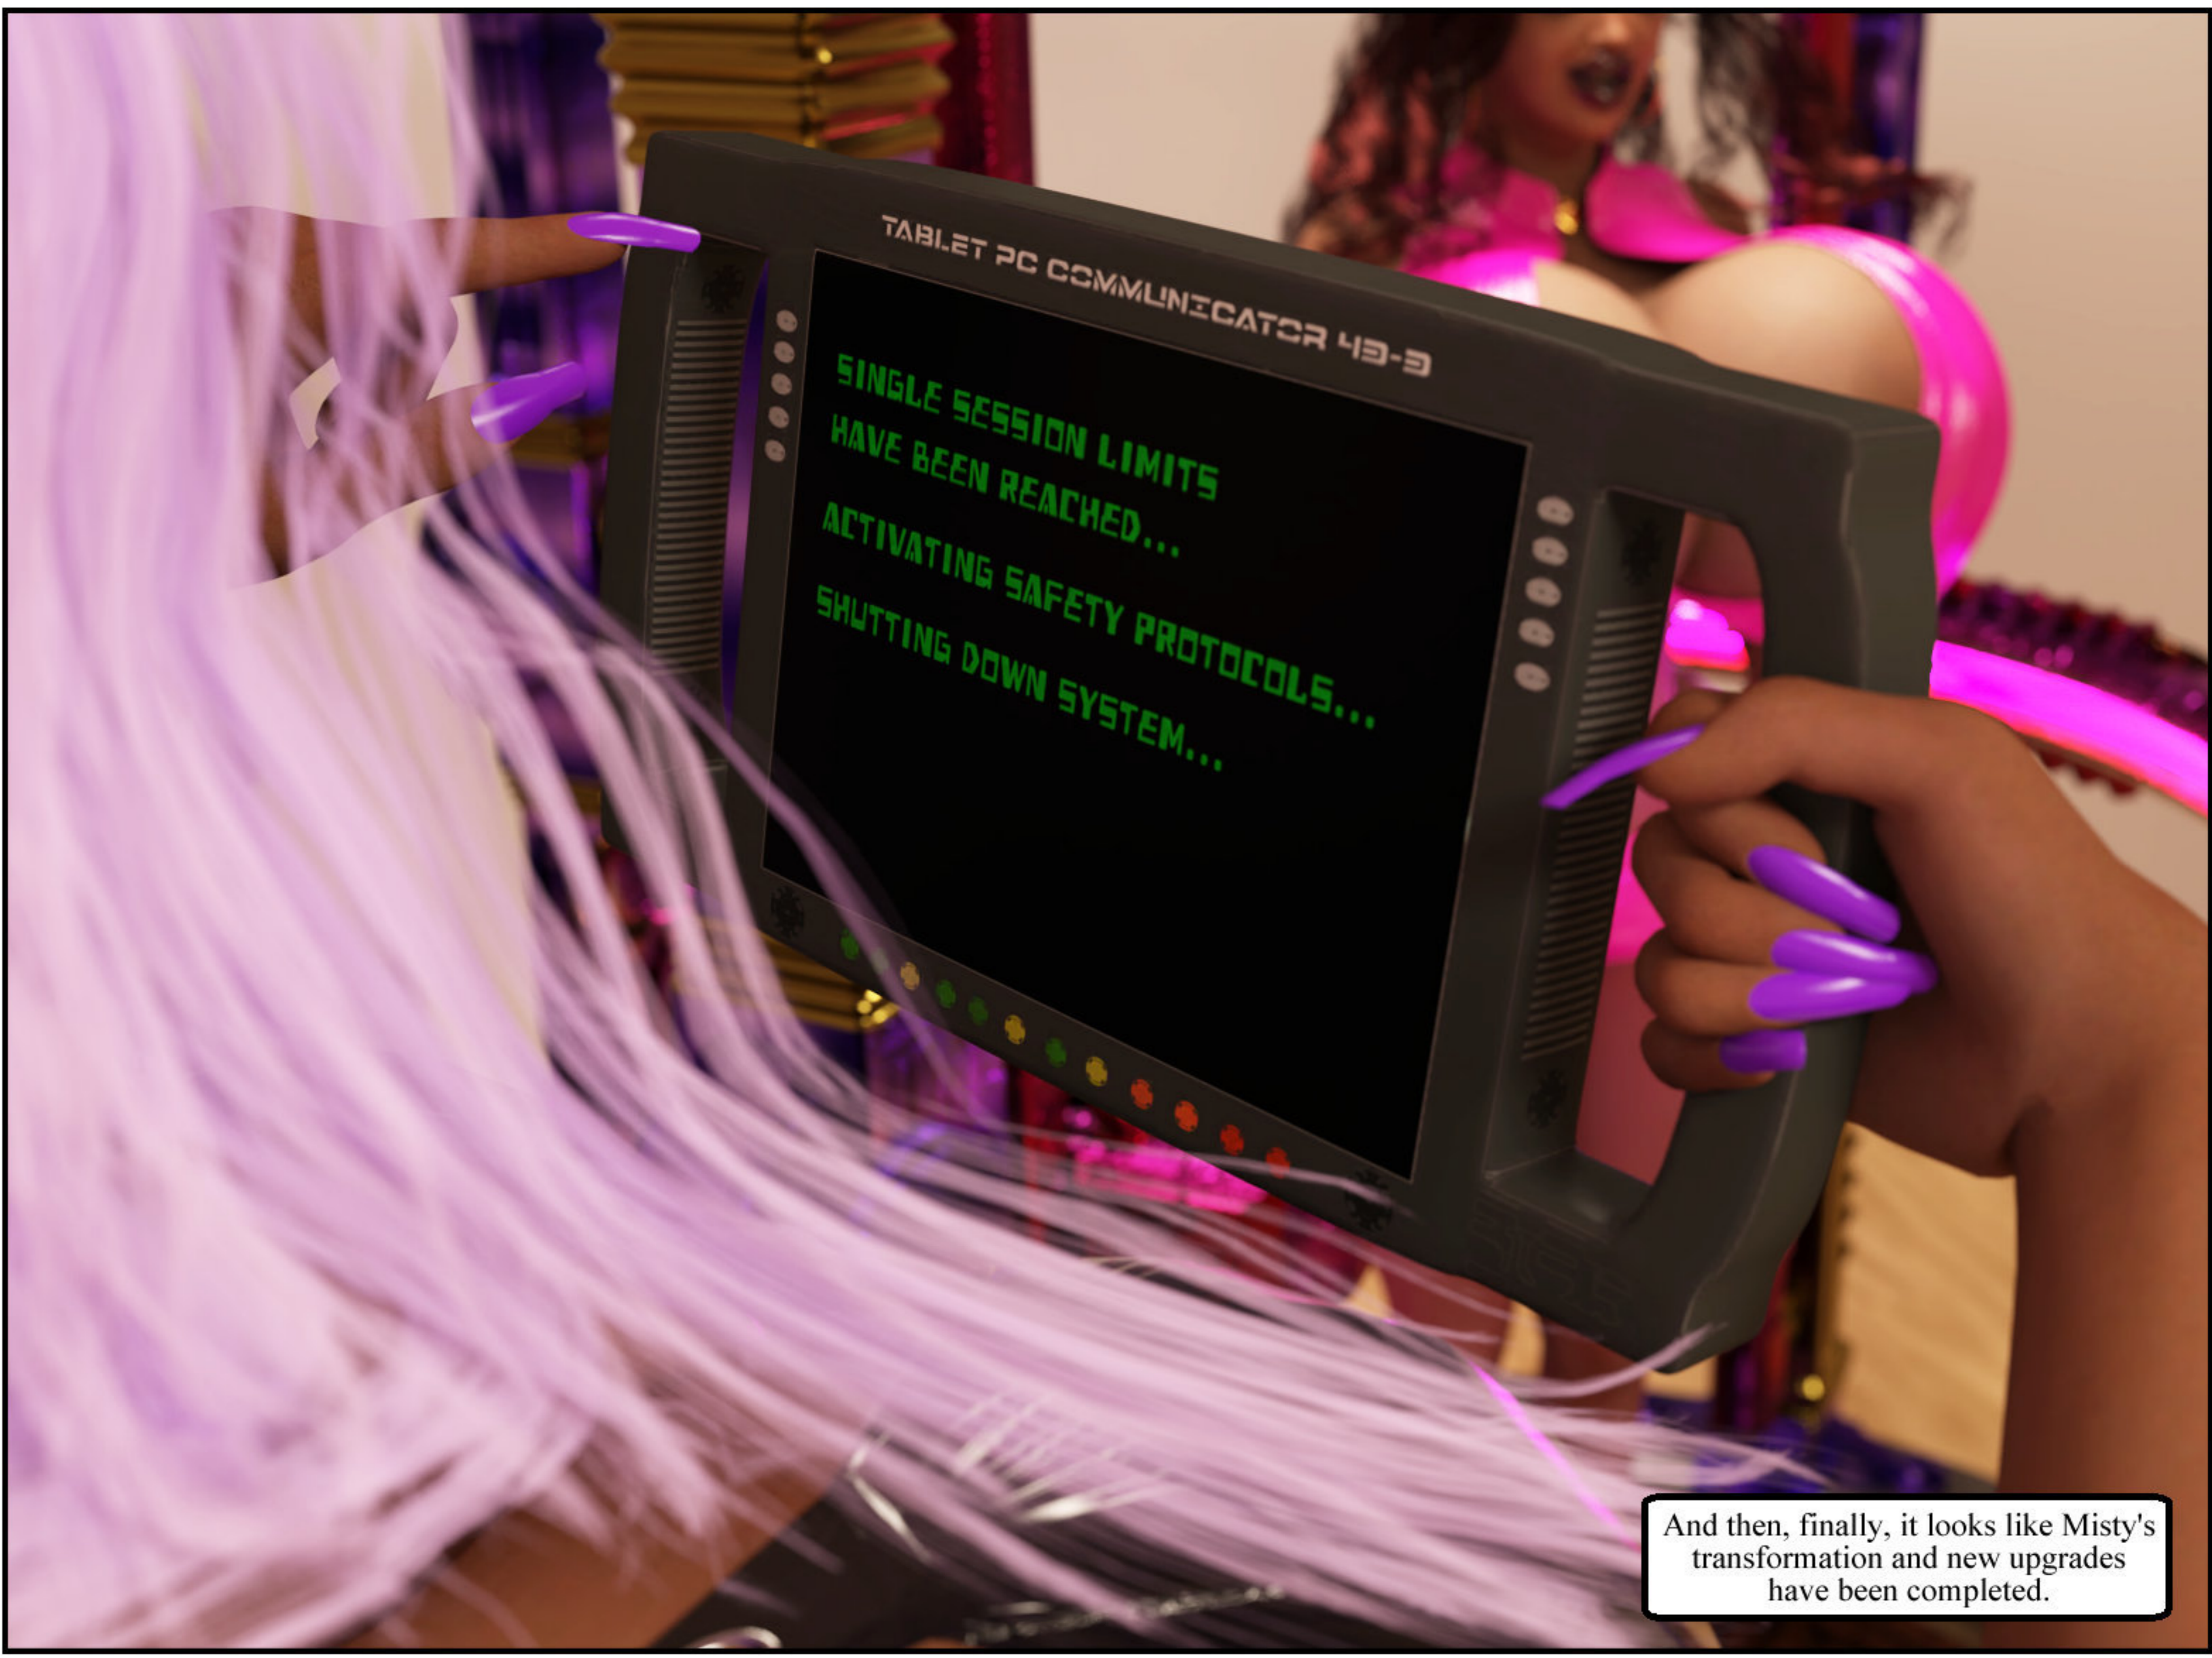

You might think that the machine would be done at this point, but it stutters for a second and then moves upward a little.

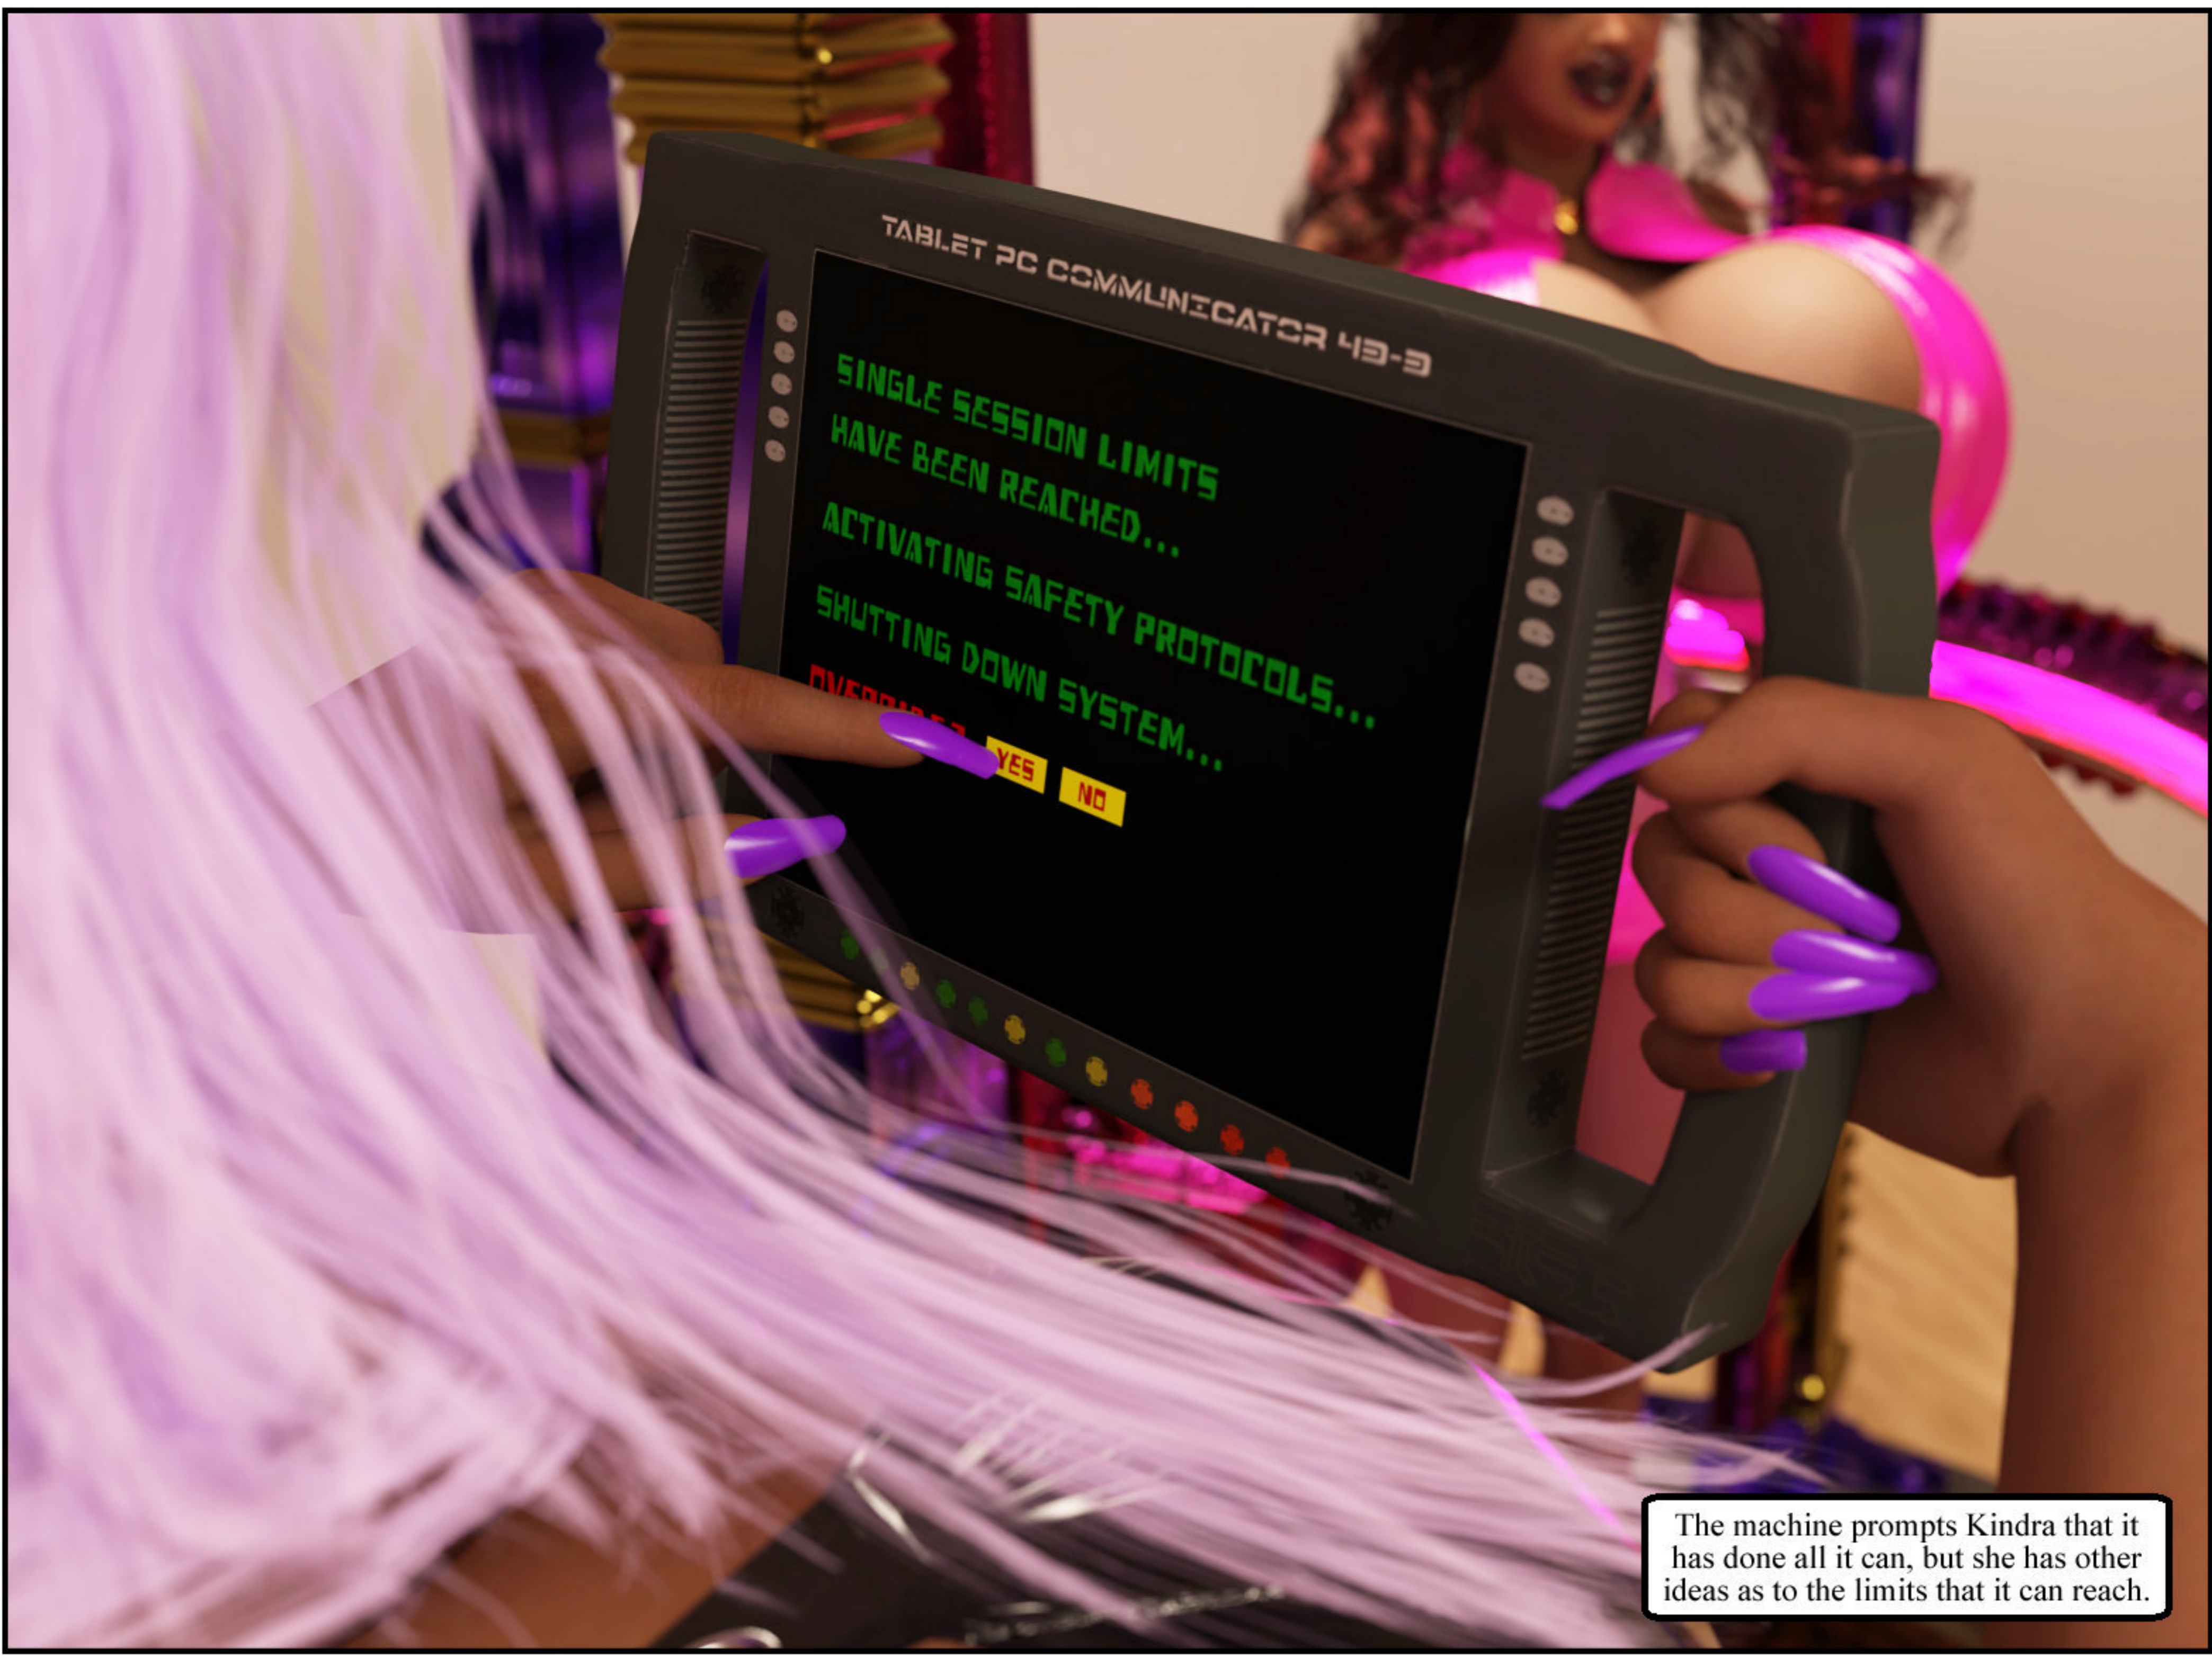

style

Grow!

It does a few short passes up and down near Misty's hands, and her nails are promptly remodeled to better match her new look.

And then, finally, it looks like Misty's transformation and new upgrades have been completed.

TABLET PC COMMUNICATOR 43-3

SINGLE SESSION LIMITS
HAVE BEEN REACHED...
ACTIVATING SAFETY PROTOCOLS...
SHUTTING DOWN SYSTEM...

OVERRIDE? YES NO

The machine prompts Kindra that it has done all it can, but she has other ideas as to the limits that it can reach.

Kindra does not even hesitate to push the override button. The machine had started to power down, but it whirrs quickly back to life.

Are we done--
Oops! Nope!
Not yet.

Why do I hear a ripping sound?

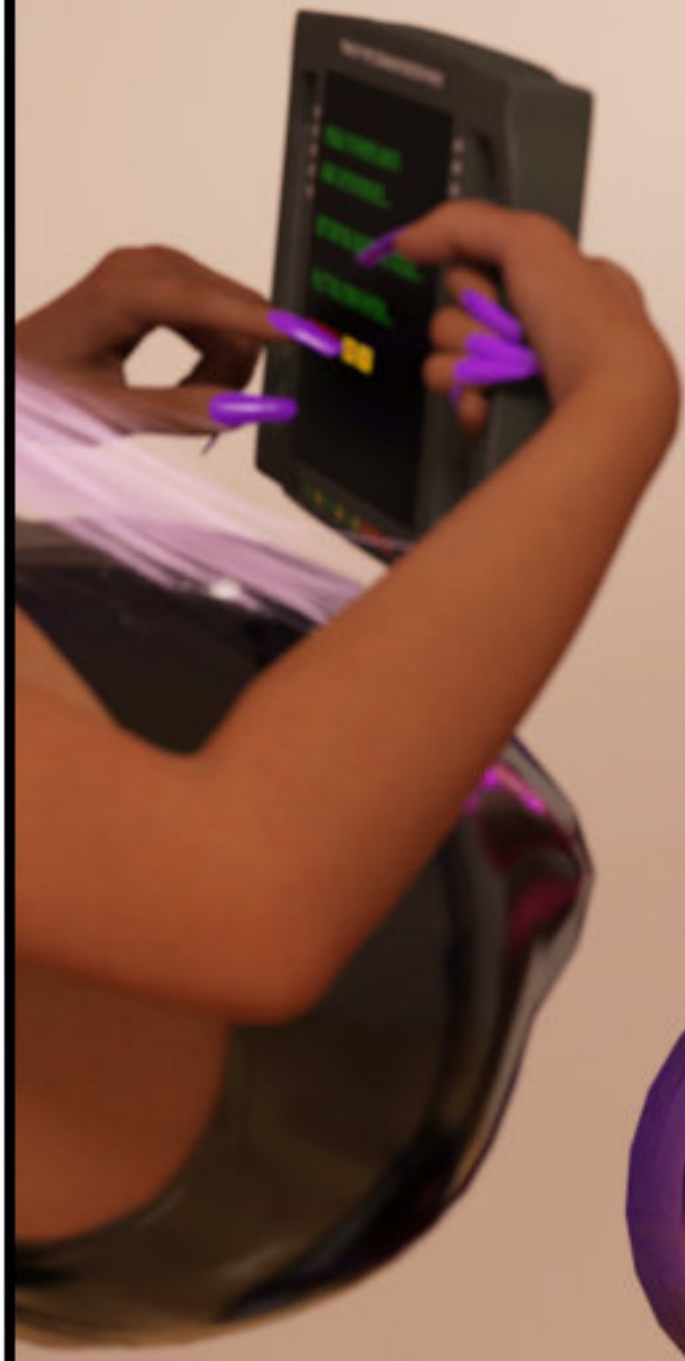

This time it starts at the bottom and pans up Misty's body, which grows taller, fuller, rounder, and more curvaceous in one big spurt!

Taller!

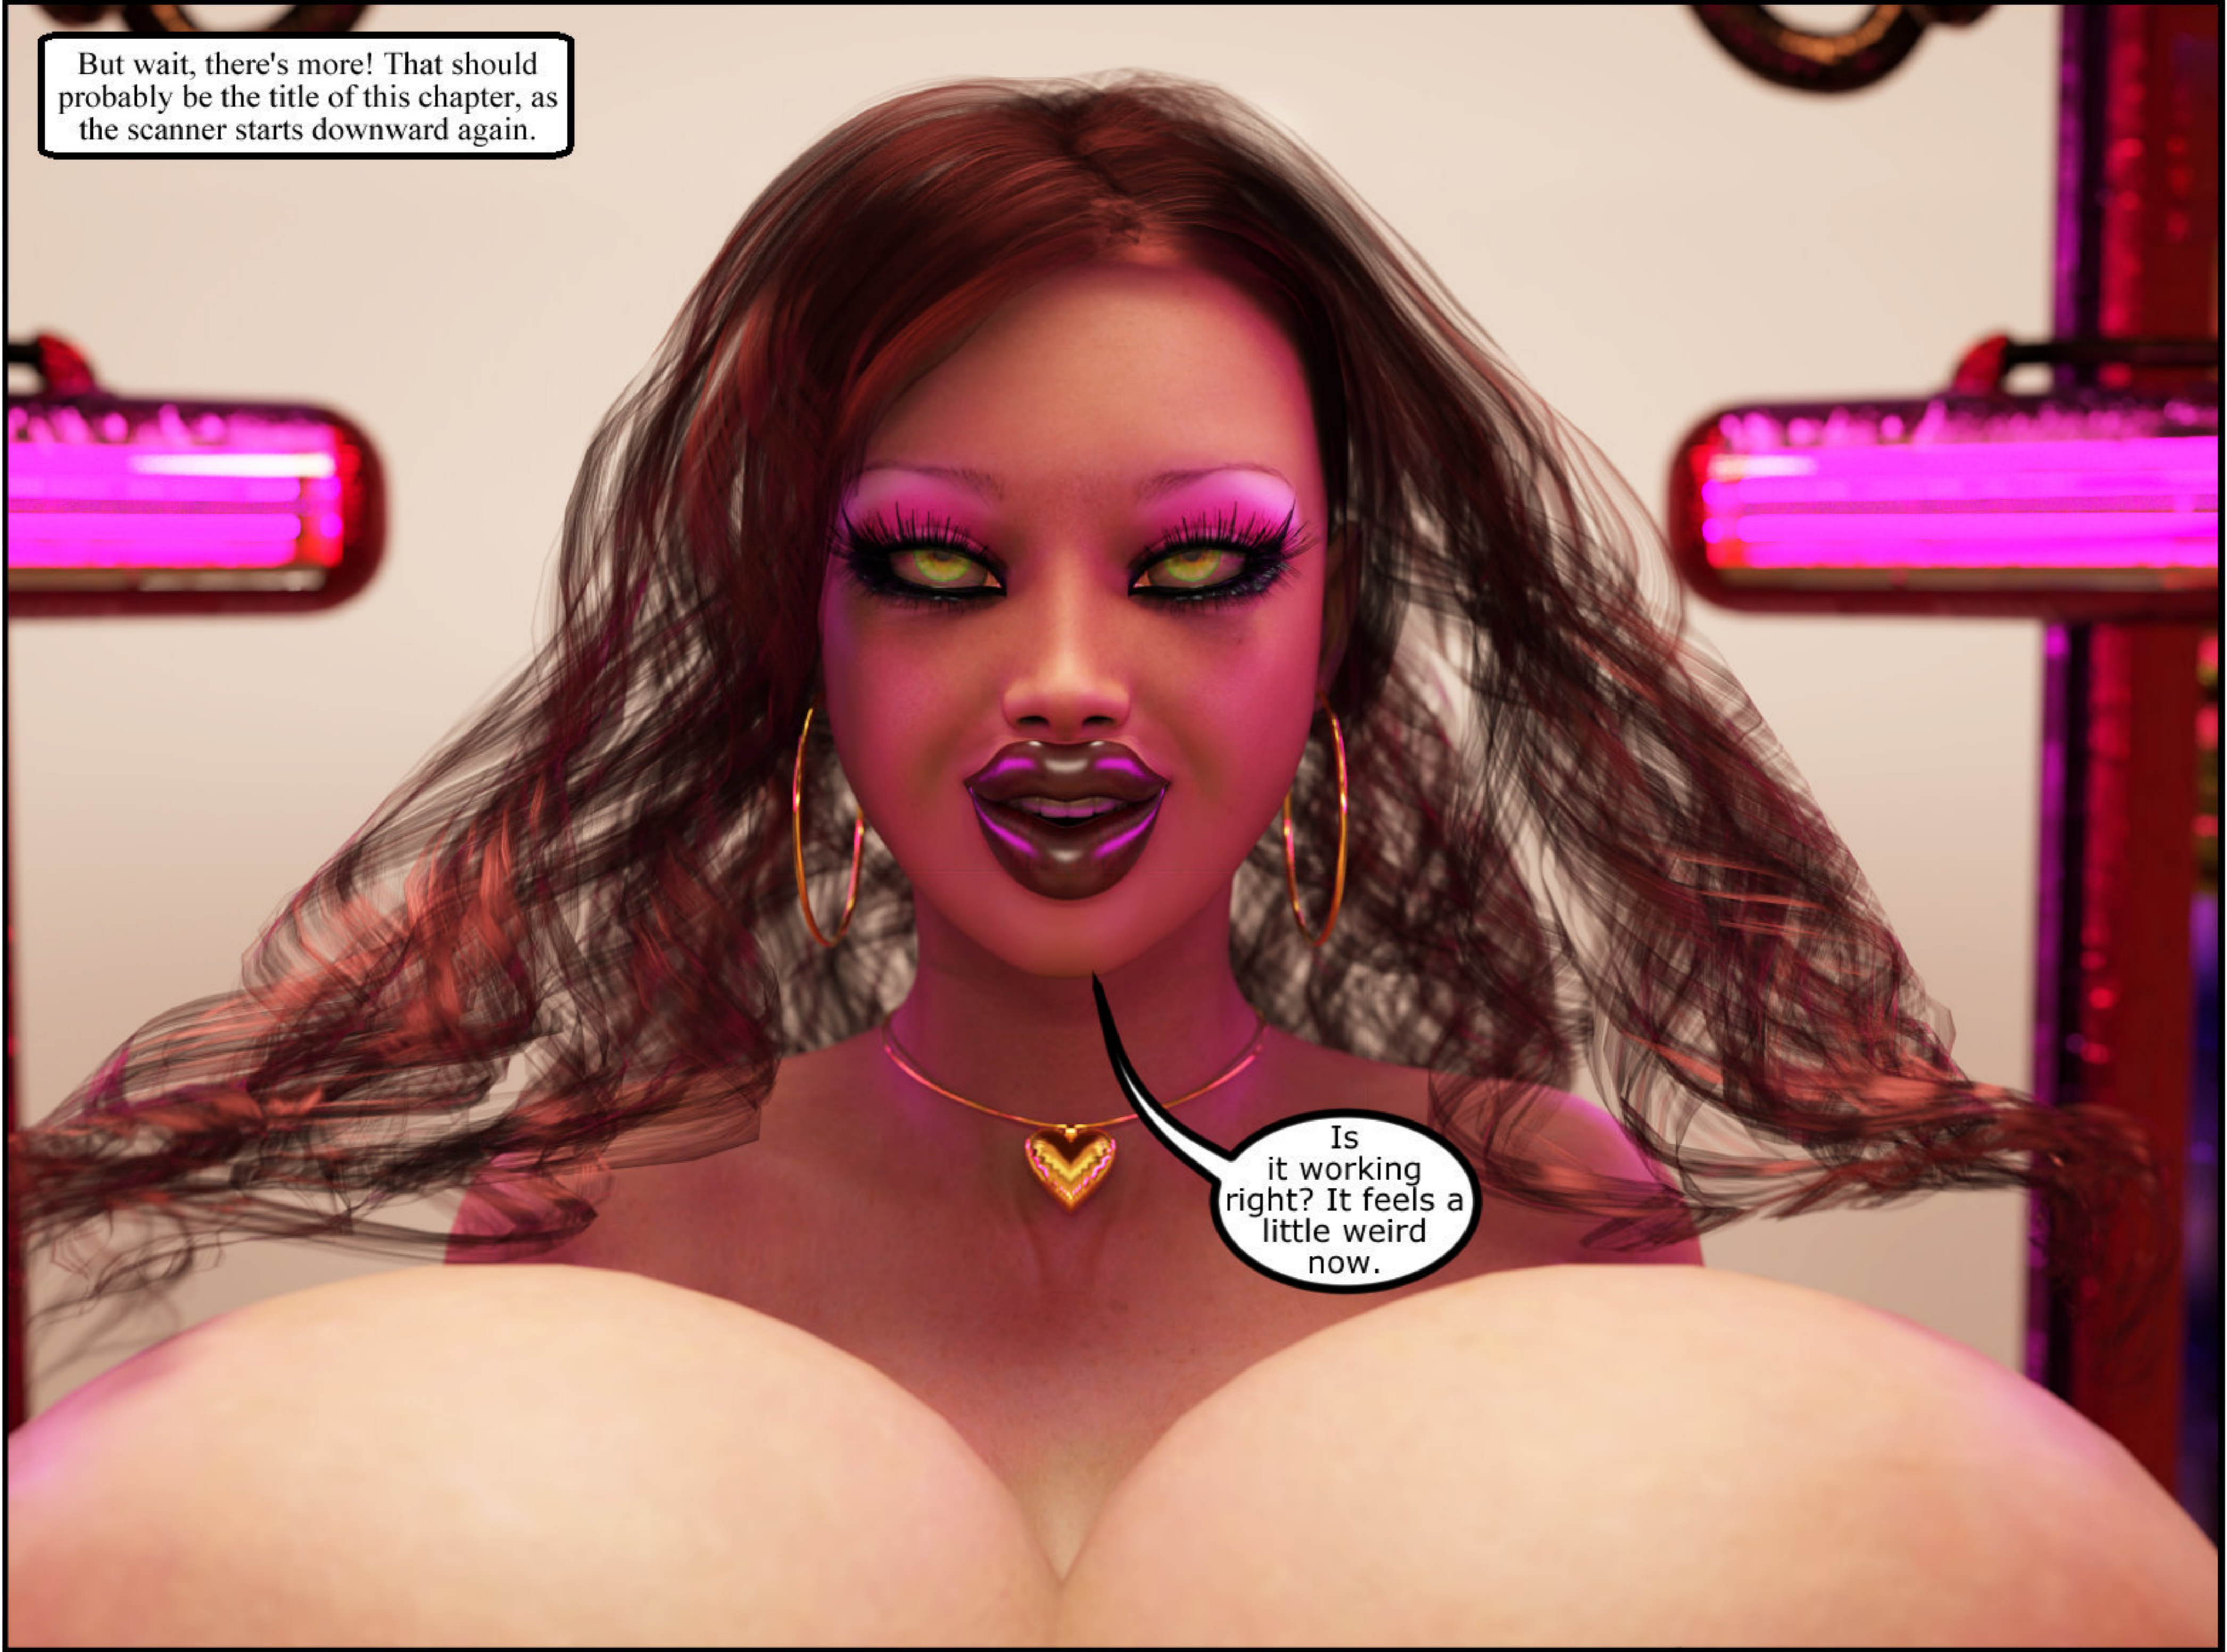

TEAR!

Bustier!

Curvier!

But wait, there's more! That should probably be the title of this chapter, as the scanner starts downward again.

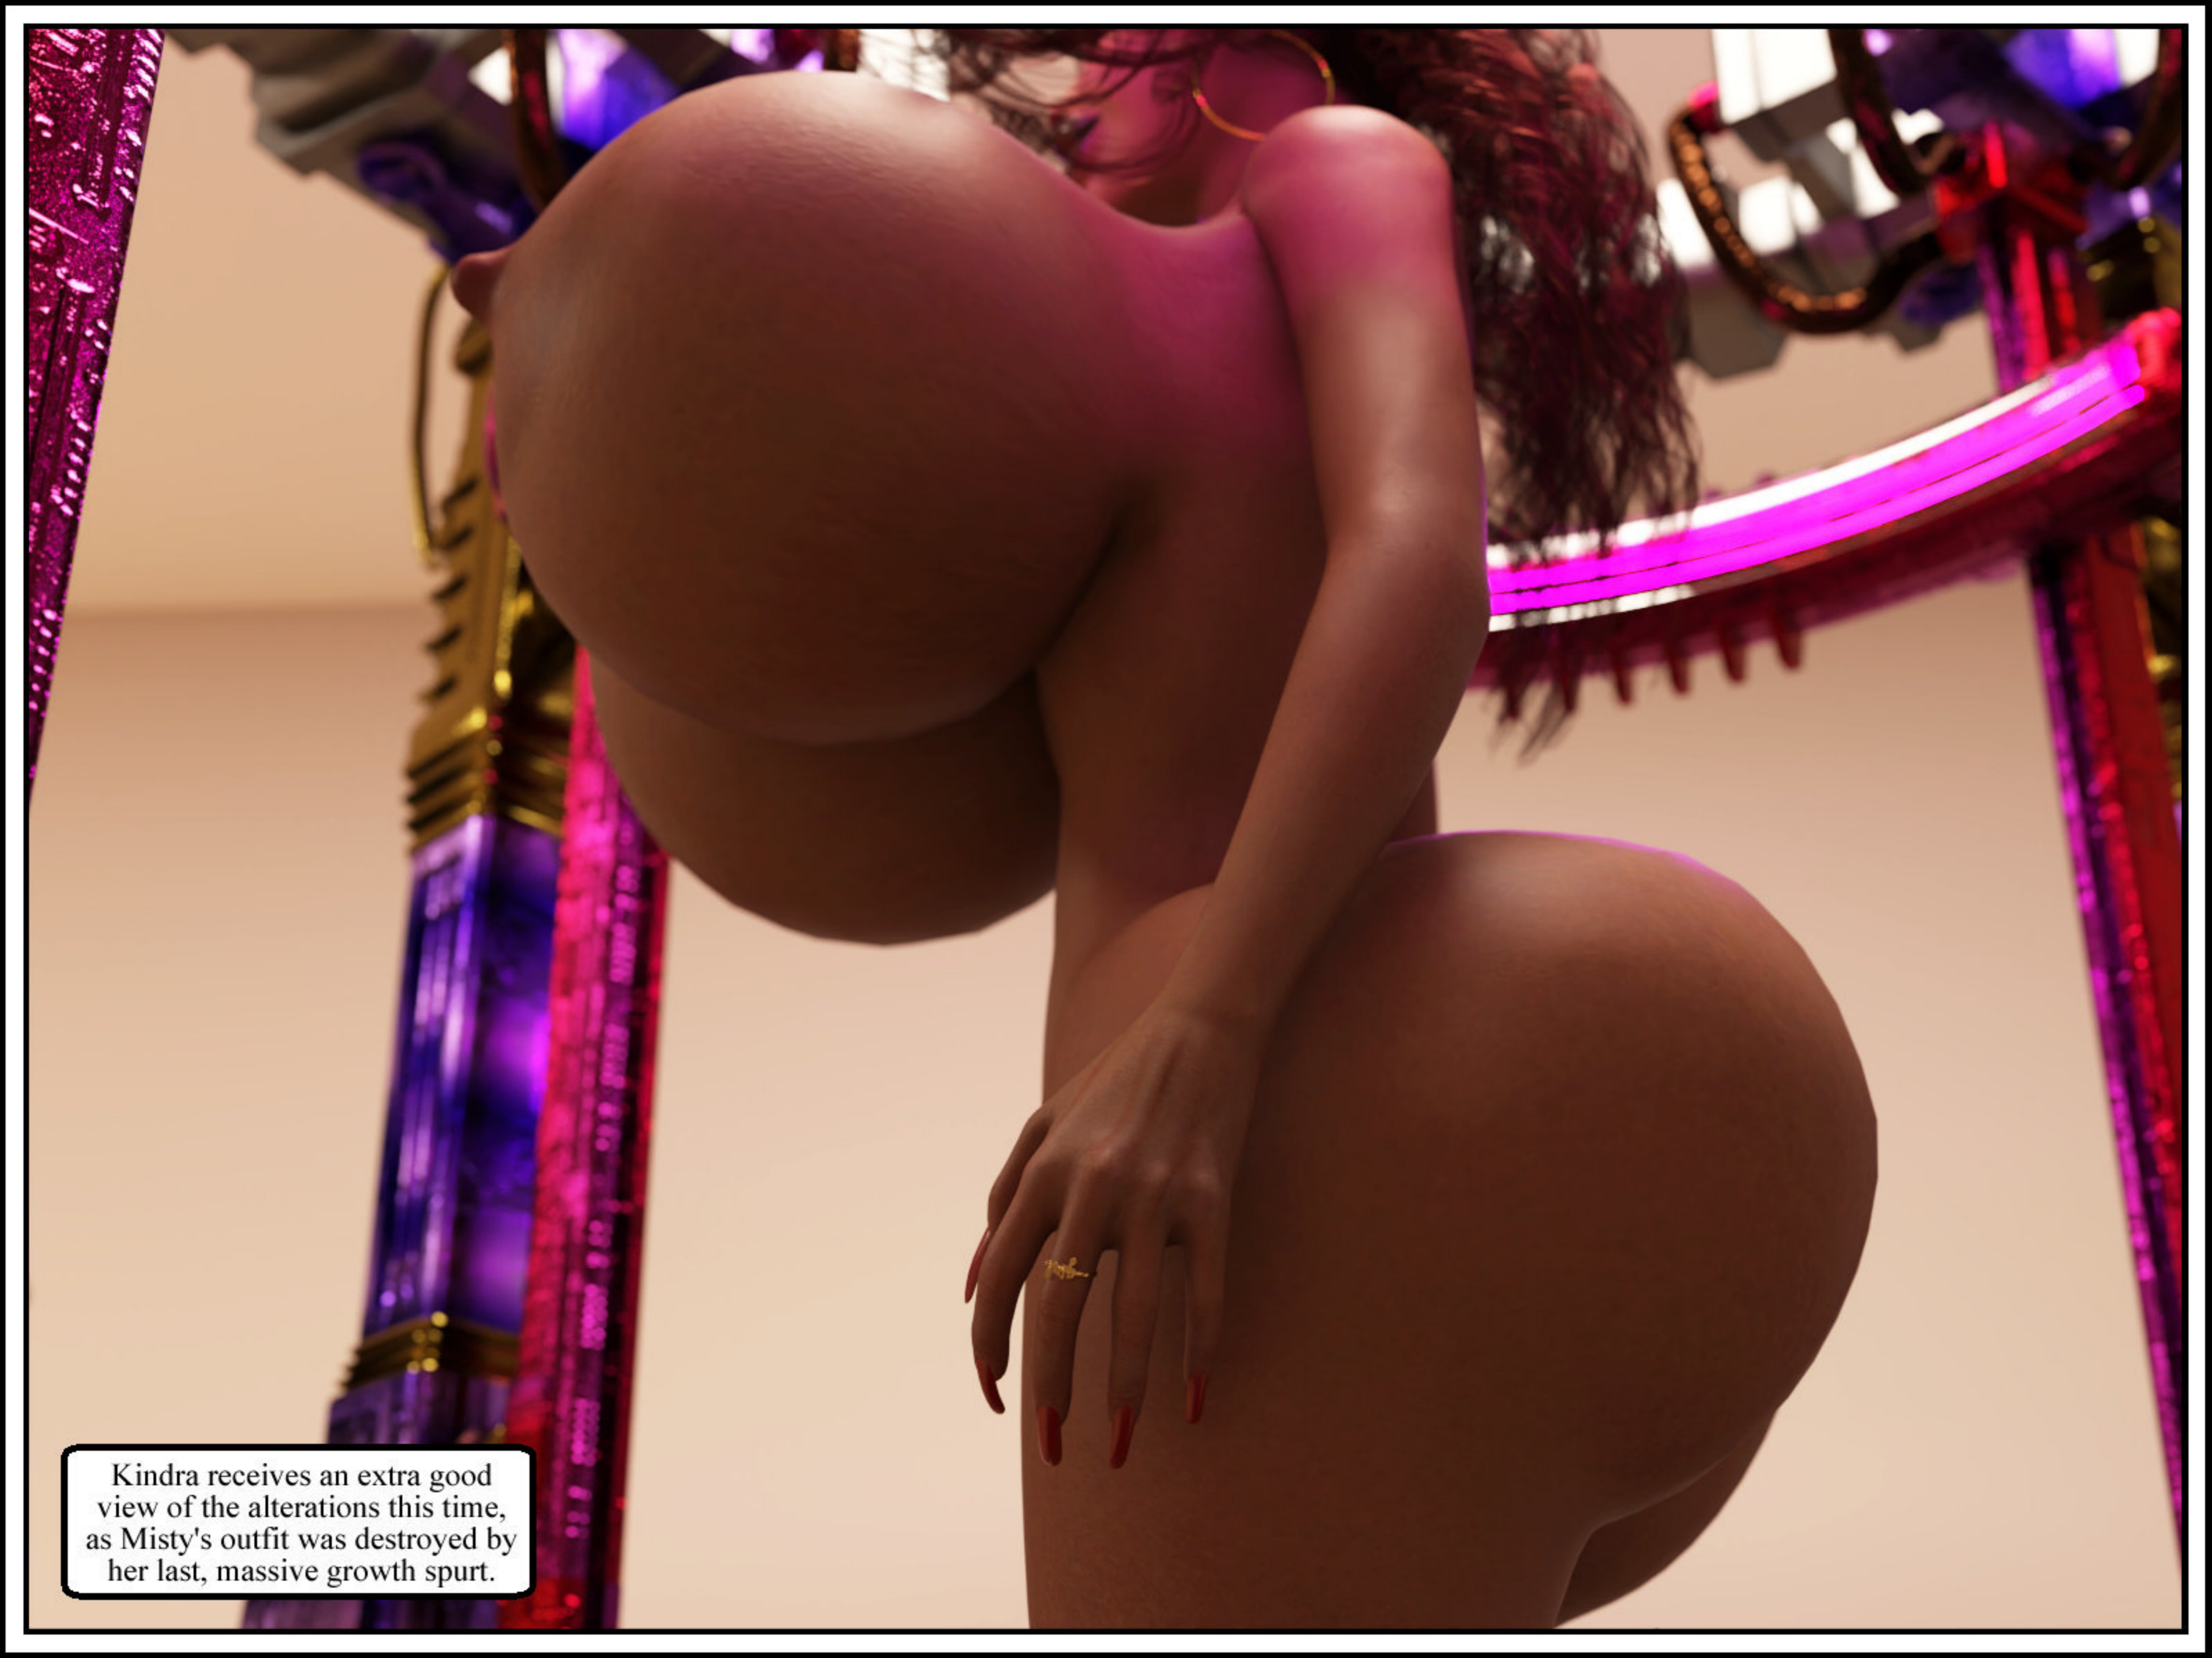

Is it working right? It feels a little weird now.

It passes over Misty's face and the changes are quite drastic: hair color, lip color, eye color, and her makeup are all suddenly altered.

LIGHTER!

Like, more intense maybe?

Kindra receives an extra good view of the alterations this time, as Misty's outfit was destroyed by her last, massive growth spurt.

TANNED!

So it is very clear that Misty's skin grows much more tanned, so the booth does actually do that too. It is the Techno **Tanner** after all.

All of the subtle little changes are on full display, even her nail color, as the booth makes its final pass over Misty.

With an almost tired wheeze, and a slight puff of smoke, the Techno Tanner does eventually power down.

Wow!
You look
so--

Hawt!
I know. I
can tell. I can
feeeelllll it.
Mmmm!

Once the scanner stops moving,
Misty steps down from the
platform and poses. Her new and
improved figure is on full display.

And
it feels
goooooood!
Better than good.
I feel fucking
obscene!

She is basically nothing but
super-tan tits and ass now. Every
inch of her bulges and bounces
with erotic, carnal energy.

Which is exactly what Kindra wanted, but even she is stunned and awed to see the results standing before her in all its lewd glory!

You look fucking obscene too! That worked better than I could have imagined!

The story will
continue in the
next part.
