

Don't Worry

Be Happy

Whistle Riff in original key of B
Low String required

```
A|-----  
E|--7-4---4-----  
C|-----6---3-6-3/1---1-3---3-1---3-1-----  
G|-----4-----4-----4-1-4--
```

No long string? Just that high G? The low note is a G# major, the lowest note on your ukulele is C, so you have to transpose up 4 steps.

```
1 2 2 4  
G#-A-A#-B-C
```

Changing the chords

```
B - D#  
C#m - Fm  
E - G#
```

A quick guide to transposition and a wicked riff, yes, yes.
