

OH, why did I agree to this...I hate crowds!
And I still don't know what this thing does!

Welcome to my TED TALK... today we will explore prison reform and my amazing new tech that will eliminate prisons. Say hello to Alexa, our inmate volunteer!

Ok, its on and it feels sticky, EWW! OK, so I know its going to give me a new prison jumpsuit! But what then?

Why don't you take off that top so the people can see the nanobots work their magic. First the inmate is encased in a synthetic latex skin. Prison orange of course, for easy identification!

This isn't a jumpsuit!
Its my own skin...turning
slick and plastic like...my
heart is beating so fast
I am so embarrassed!

Look at the nanobots
spread inside her epidermis!
It provides her a maintainance
free and clean skin. Great for
life imprisonment inmates!
Watch as it continues!

But it feels so good.
Like the sun shining on
your body at the pool...its
edges feel like someones
light touch!

You may think that
such a process might be painful
but it is the opposite...the collar
is fusing its nanobots to the
inmates nerves. They will only
send sensations of pleasure
from now on!

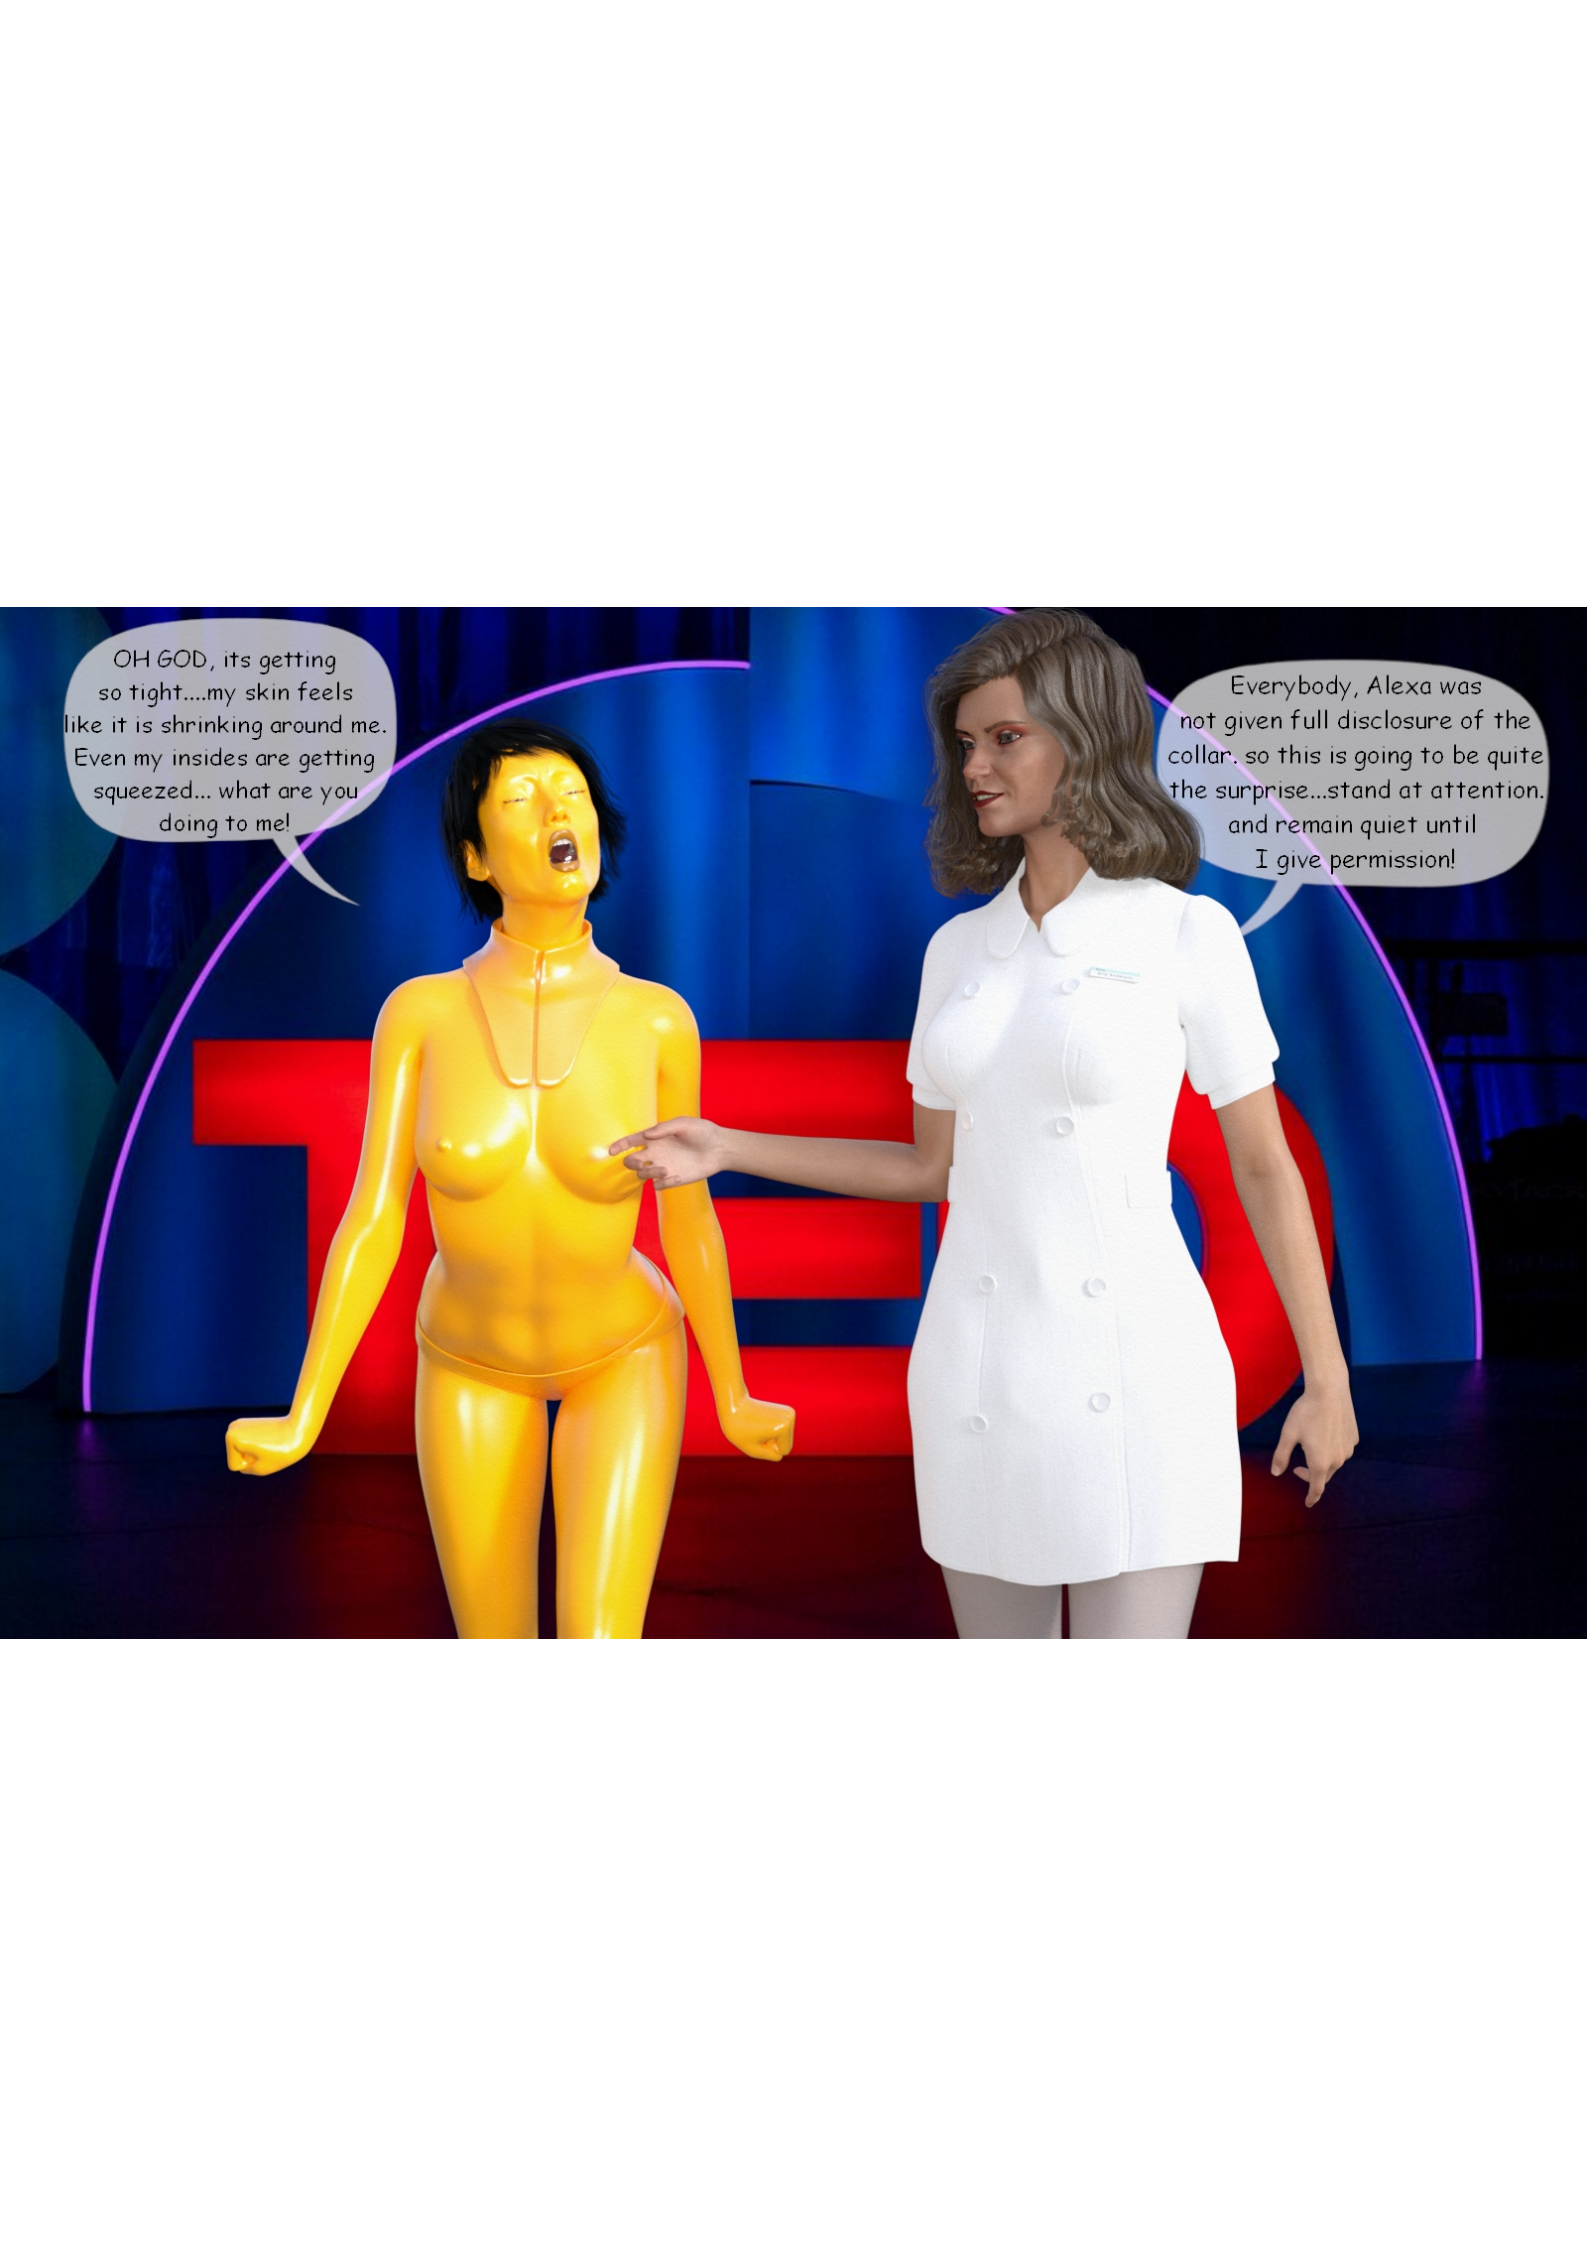

I feel...WONDERFUL!
I...I...am full of energy and
I feel warm inside and out.
I feel a little...um... a
little drunk too!

So, Alexa! tell us
everything! How do you feel?
Is this a bad experience? Does
this feel like you are back on
the cell block?

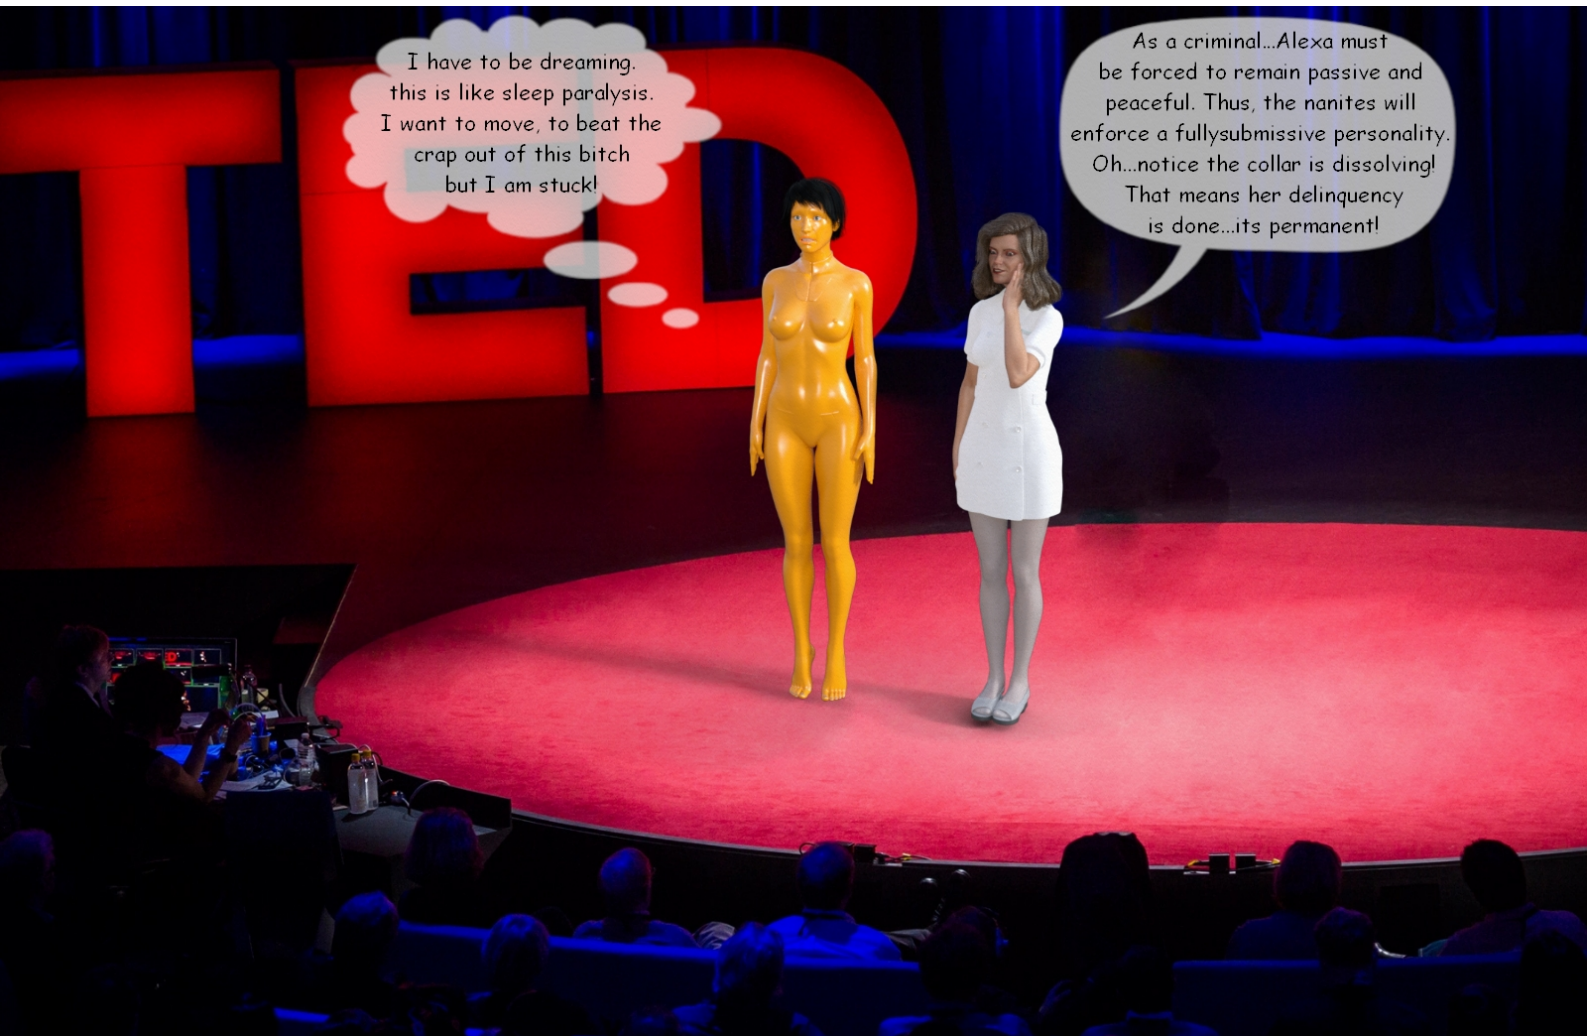

I don't see a down side if I feel this way and am released back into society. Even after all I've done... uh...so, whats the catch?

Nobody blink...Alexa is about to cross the threshold from human woman to reformed drone...Honey, this is going to feel real good...then we will talk about the catch!

A woman with brown hair, wearing a white, short-sleeved, double-breasted dress, stands on a stage. She is pointing towards a yellow, glossy mannequin of a woman. The mannequin has its mouth open as if in pain or distress. The background features a large red letter 'T' on a blue stage. Two speech bubbles are present: one on the left containing the mannequin's dialogue and one on the right containing the woman's dialogue.

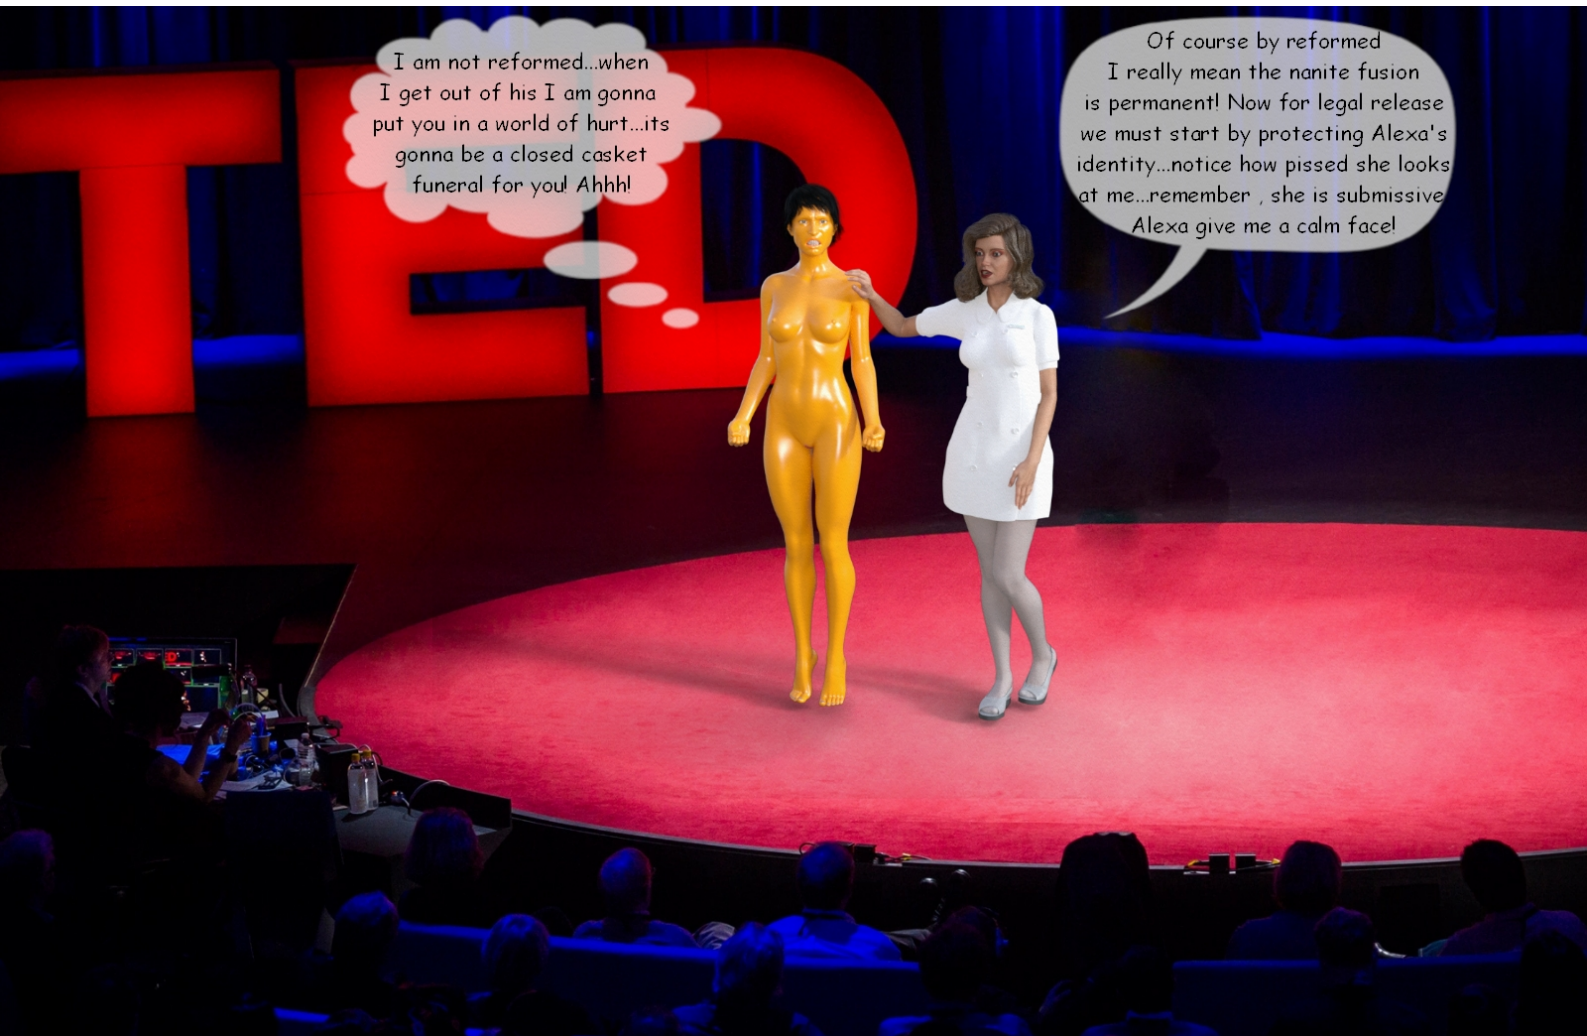

OH GOD, its getting so tight....my skin feels like it is shrinking around me. Even my insides are getting squeezed... what are you doing to me!

Everybody, Alexa was not given full disclosure of the collar. so this is going to be quite the surprise...stand at attention. and remain quiet until I give permission!

I have to be dreaming.
this is like sleep paralysis.
I want to move, to beat the
crap out of this bitch
but I am stuck!

As a criminal...Alexa must
be forced to remain passive and
peaceful. Thus, the nanites will
enforce a fullysubmissive personality.
Oh...notice the collar is dissolving!
That means her delinquency
is done...its permanent!

I am not reformed...when I get out of his I am gonna put you in a world of hurt...its gonna be a closed casket funeral for you! Ahhh!

Of course by reformed I really mean the nanite fusion is permanent! Now for legal release we must start by protecting Alexa's identity...notice how pissed she looks at me...remember , she is submissive Alexa give me a calm face!

My face just went slack,
dammit, am I gonna do every-
thing she asks? I know I agreed
to this but its bullshit!
Ooow, what is that feeling!

You can see just how
effective the system is. Everytime
she obeys...which she will...she gets
a little shot of energy to he libido.
Now watch her face as we give her
a generic drone face so that
nobody can recognize her!

OH that felt good...
what was I mad about? Was
it being a good girl? If I feel
like that...I can ge a good girl.
My face really feels swollen!

Folks, you can see that
Alexa is no more...nobody would
ever seek out our inmate nor take
revenge on her for her crimes. She
is now completely anonymous and
free to live out her existence
as a reformed dronel

I am so confused! I have never been passive before but It makes me feel good...I used to dominate! I was the alpha...now, my pussy pulses when I am obedient... God, its good to be submissive.

The nanites have convinced Alexa of the goodness of obedience Lets give her back her free will and observe her state of mind...I will let you...the audience...determine if it is better than solitary confinement in a prison!

Unngh! Please, tell me what to do...I don't wanna be a bad girl! I wanna be your girl...I want to touch myself...well, with your permission. Please, tell me how to make amends with society!

Good job Alexa...now go back to being calm...put your sexual energy back into a productive box for reform. See audience, its a much better to be my drone than be in prison for life! Next we need to address cruel and unusual punishment!

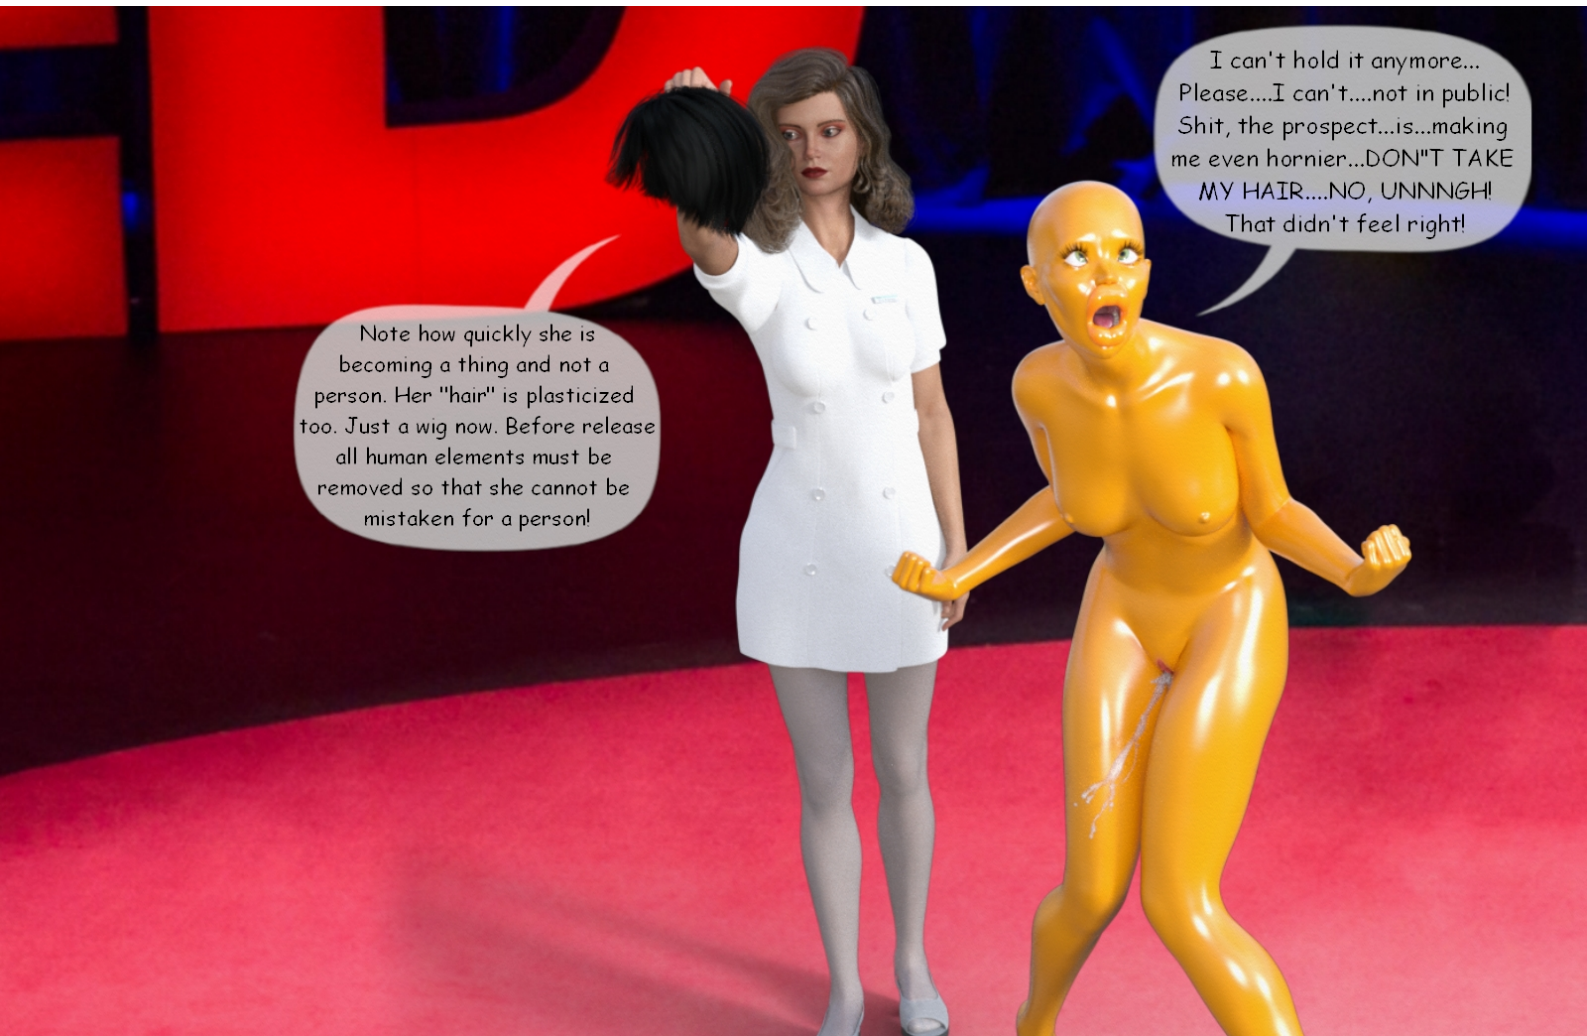

NOW, our nanobot collar may seem unusual to the layman but it is not cruel. In fact Alexa is living out a fantasy that law abiding citizens can only dream of. through extensive research...

Through extensive research we have determined that over stimulation of the sexual organs and the hyperfixation on orgasmic release does render an inmate happy at the cost of their independence!

OH she has me by the hair. I can't do anything about it....and it feels....loose. My hair. Is the crowd laughing at how horny I am?

Note how quickly she is becoming a thing and not a person. Her "hair" is plasticized too. Just a wig now. Before release all human elements must be removed so that she cannot be mistaken for a person!

I can't hold it anymore...
Please....I can't....not in public!
Shit, the prospect...is...making
me even hornier...DON'T TAKE
MY HAIR....NO, UNNNGH!
That didn't feel right!

That gashing orgasm that Alexa just had...is not what you think. That was the nanobots pushing out the last of her old reproductive system to make her new and improve fuck hole! Inmate! Stand at attention!

Am I peeing? Squinting?
An orgasm never made me even hornier than before. I need release NOW...oh, please.
SO MUCH PRECUM!

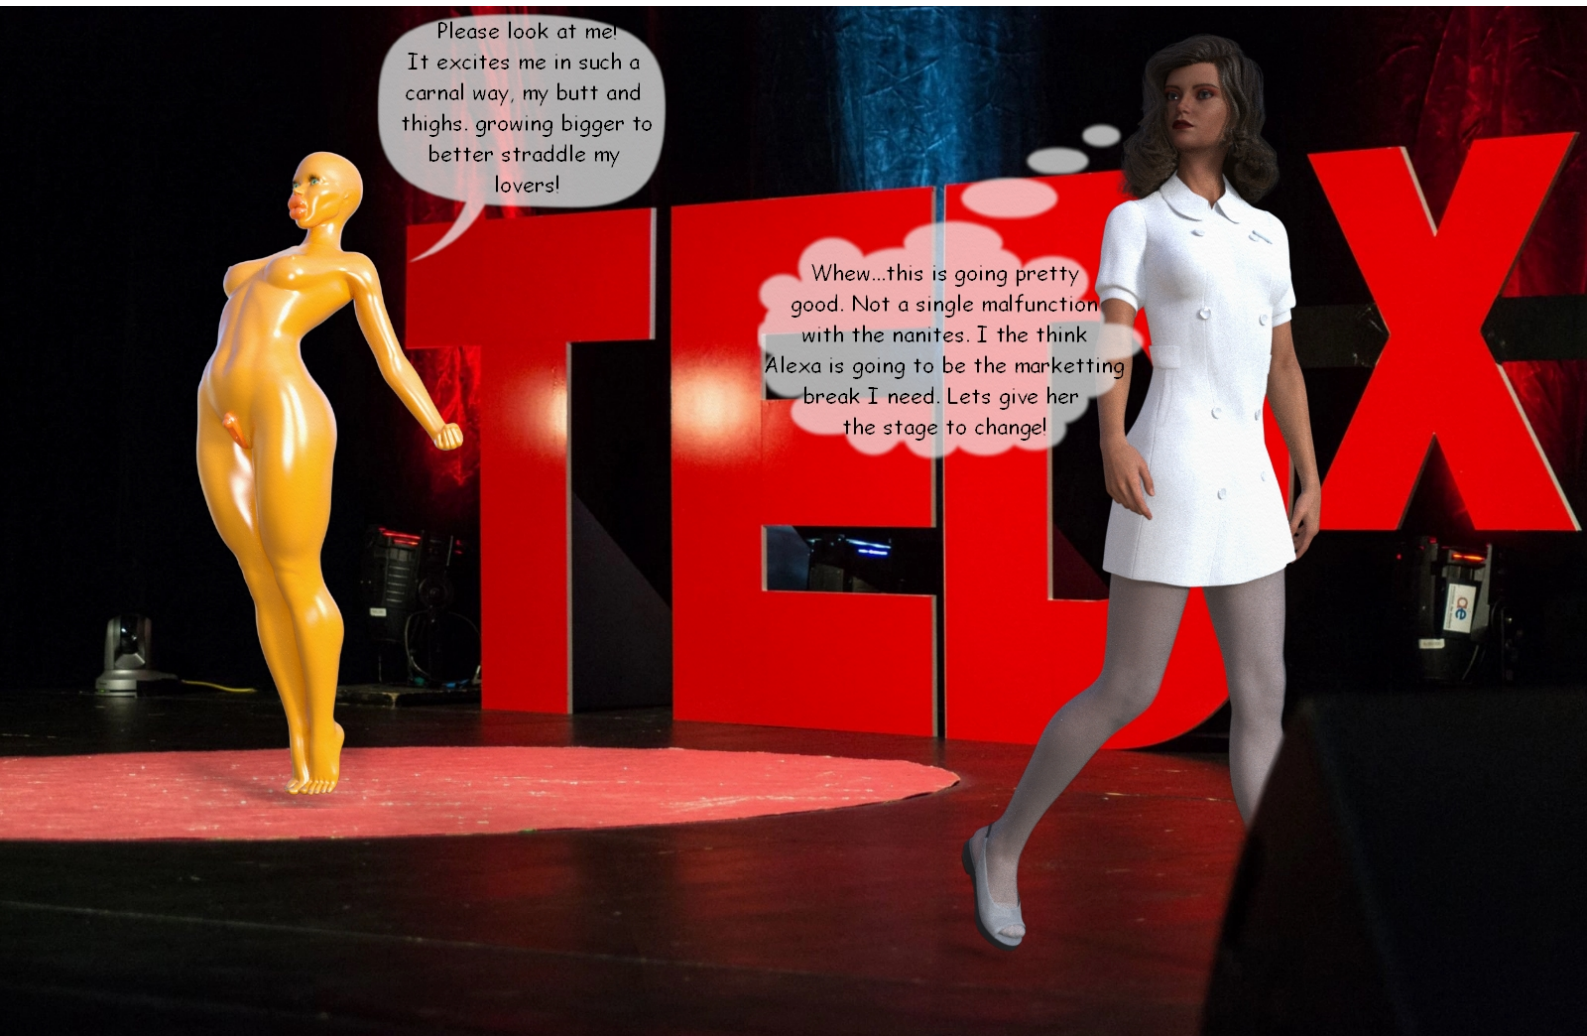

Alexa is feeling her insides fuse with the nanites. Her new fuck hole is unique. Her own touch to this Nodule...the drones clitoris...will result in no stimulation....but the touch of a person and....unbridled bliss... penetration is even better!

Now watch this, I am just giving her a super fast fingering then letting her edge...It should jumpstart the more extreme body transformations that are a highlight of the process. Alexa, feel free to explain what you are feeling right now!

UNNGHI!

Please look at me!
It excites me in such a carnal way, my butt and thighs. growing bigger to better straddle my lovers!

Whew...this is going pretty good. Not a single malfunction with the nanites. I think Alexa is going to be the marketing break I need. Lets give her the stage to change!

A yellow, pregnant mannequin stands on a stage. She has a large, prominent belly and is posing with one hand on her hip and the other on her head. The background features a large, red 'TED' logo on a blue stage. A thought bubble is positioned to the left of the mannequin, containing text.

This has to stop! Look at me I
am obscene If someone touches me
I am gonna explode and....MMMM.
I keep getting sexier....my fuck hole is
throbbing and I can't do anything about it.
Everything I say aloud is bimbo
talk! I need HELP!

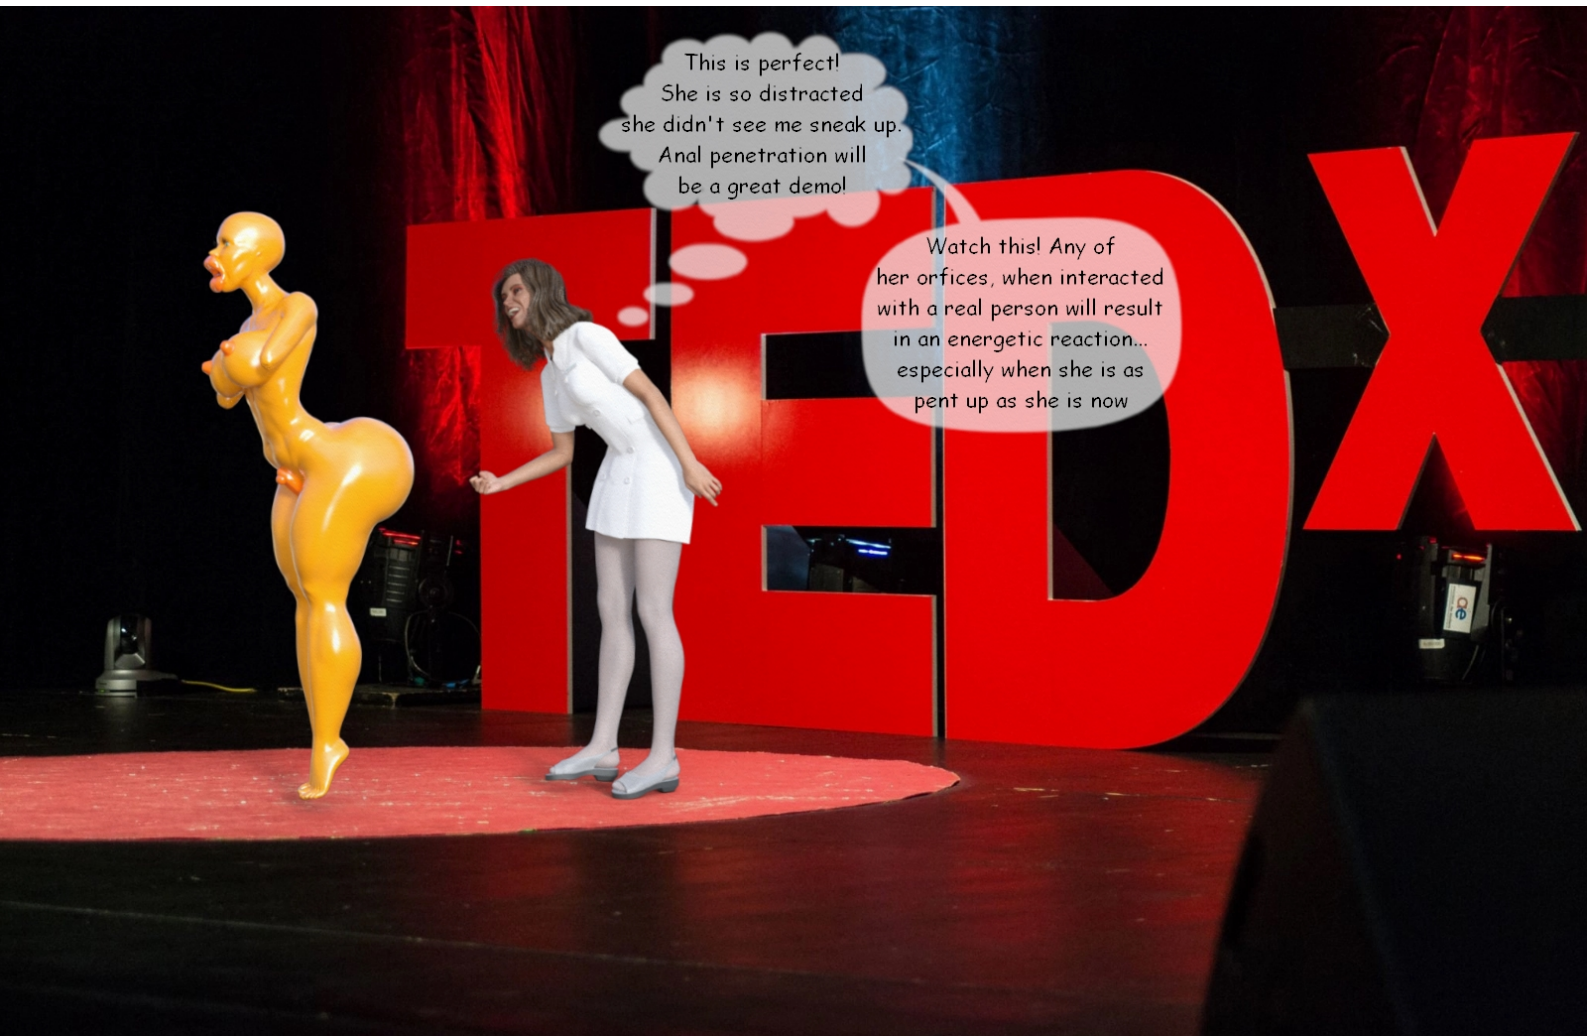

Something is so wrong...I feel like my body ran out of flesh to morph into this...THING... I have hit a plateau. My nipples are so fucking sensitive and my tits want to grow, too. There isn't enough of me to go around. Where is the doctor..she has to do something!

Where...where are my fingers going! My chest its inflating...this isn't worth it put me back in the jail! There isn't going to be anything left of me except....wait, thats right....a sextoy....THATS RIGHT....a reformed drone whose reward is lots of sex!

OH, the fuckers are applauding and laughing...they think its awesome. You silly thing...it is awesome...focus on sucking cock and using your fuck hole. MMMM. I almost forgot about my asshole...it just popped open and clenching it just makes it desire penetration!

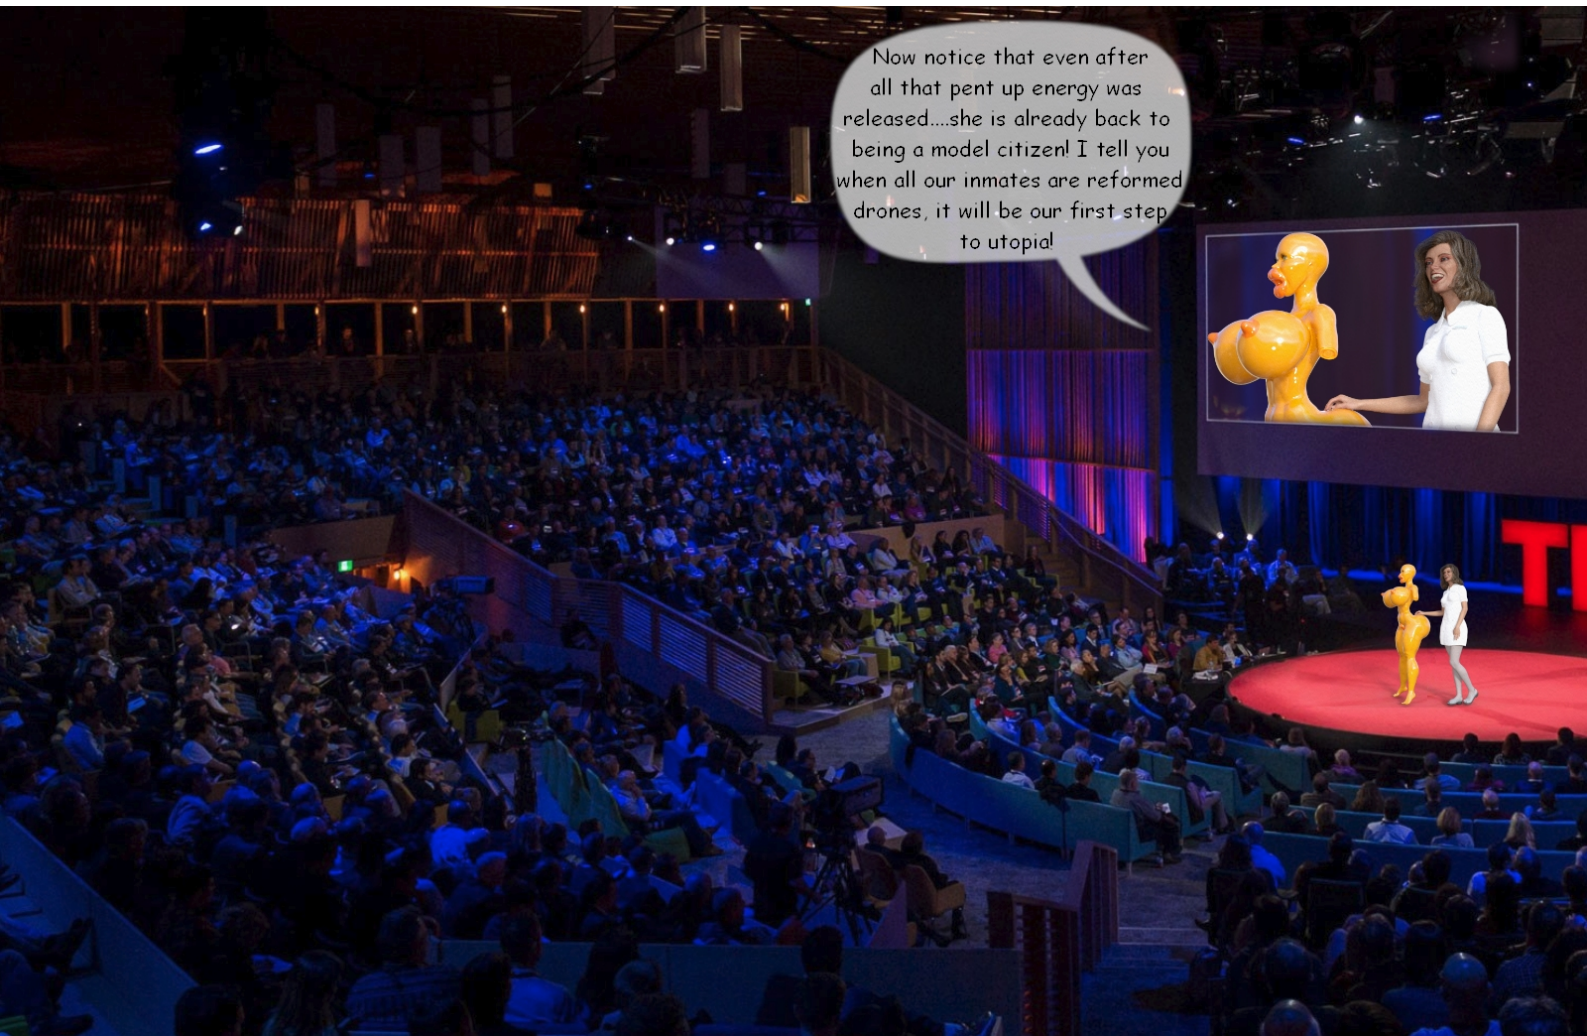

This is perfect!
She is so distracted
she didn't see me sneak up.
Anal penetration will
be a great demo!

Watch this! Any of
her orifices, when interacted
with a real person will result
in an energetic reaction...
especially when she is as
pent up as she is now

NO, its not true!
I want to have sex with every-
body. OH god, I am gushing like
a faucet! Its good, GREAT,
WONDERFULL! Please release me!
I am reformed! I love this
to much to go back to jail!

So, we expect that
when the reformed drones
hit the streets, that crime
rates will fall. Alexa here will
have intercourse with any
citizen without a criminal
record!

Now notice that even after all that pent up energy was released....she is already back to being a model citizen! I tell you when all our inmates are reformed drones, it will be our first step to utopia!

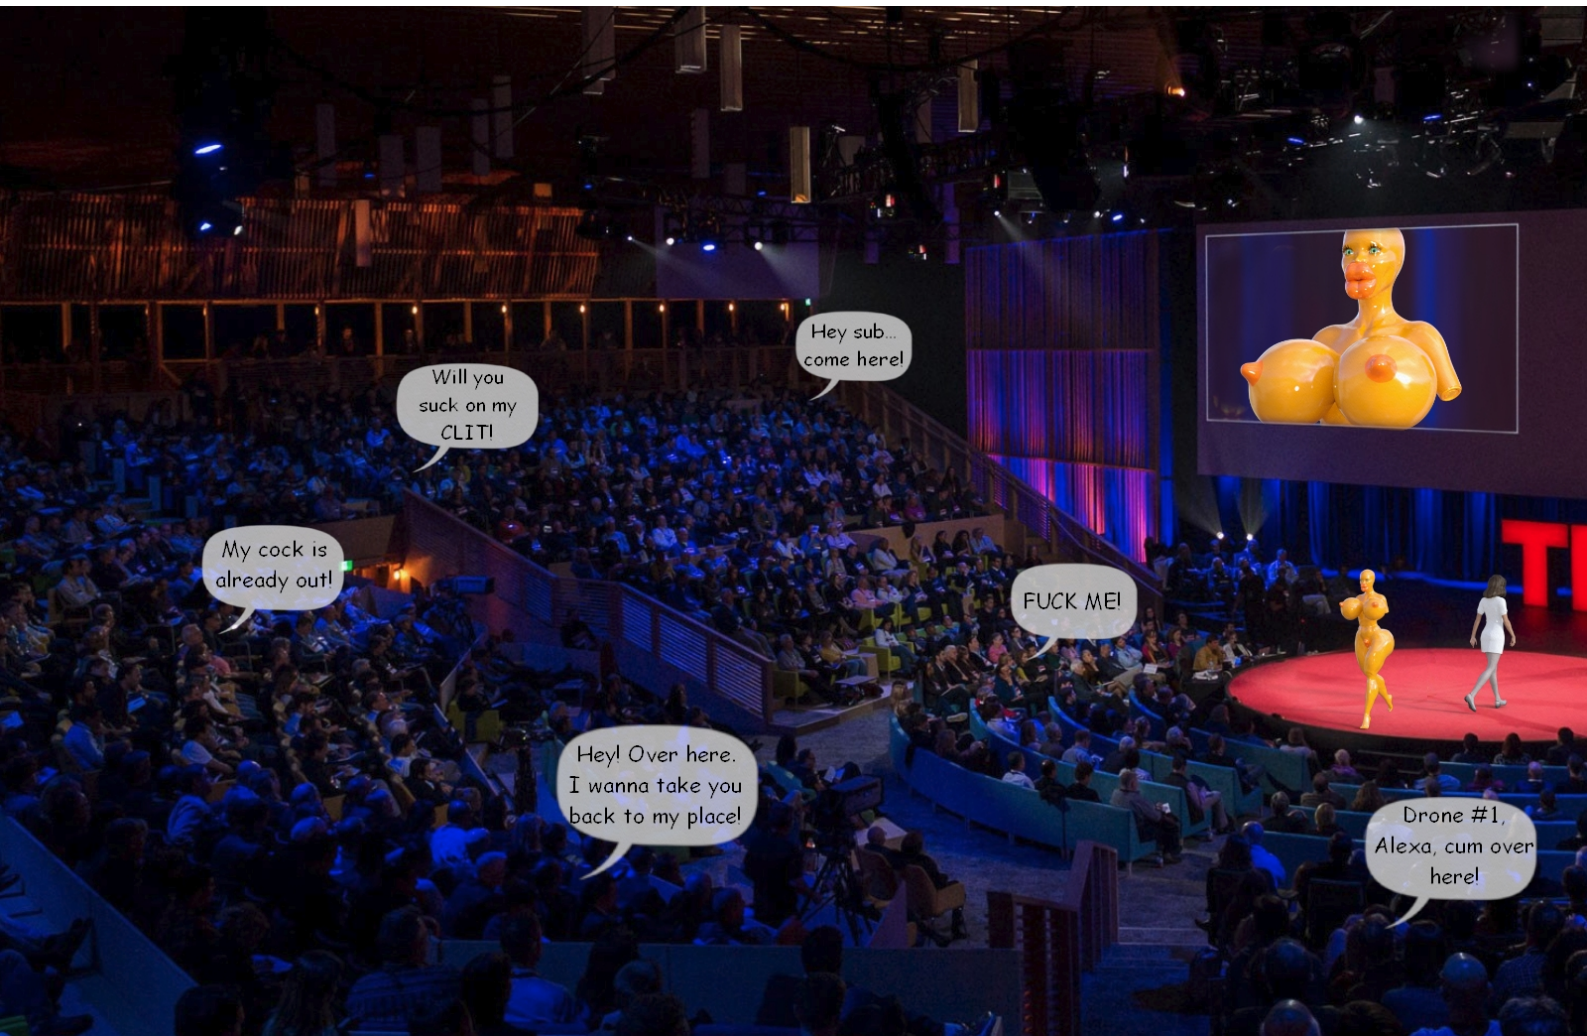

whimper Drone number one...prefers being free...free to find hard cock and to provide a PUBIC sevice for the public. I desire to rehabilitate peoples sexual needs...I don't want to be locked up.

Alexa....or should I say DRONE #!. Please tell the audience your preference...do you prefer being converted to a ruber sexfueled drone or to be a normal human being locked away for the remainder of your life?

YESSS! Thank you so much for letting me SERVE the audience today...I will HAVE orgasms reserved for anyone who wants to FUCK ME! Who...Who..wants to fuck me?

And there you have it! We have just reformed a career criminal in twenty minutes...and as a TED talk exclusive gesture, we will be paroling Drone #1 right here and right now! Drone, you are dismissed!

My cock is already out!

Will you suck on my CLIT!

Hey sub... come here!

FUCK ME!

Hey! Over here. I wanna take you back to my place!

Drone #1, Alexa, cum over here!
