

I am the only lone
Homely teen with feelings so full blown
Somehow no one knows
They're all choads that's why I'm so alone

I know it's only me
I'm a fully scarred and lonely teen
Entirely unique
I'm the only lonely teen you just can't know

You just can't know
You're such a choad
You just can't know
You're such a

That's why I, changed my normal lunchtime seat
Not coming, back until you invite me
Just sitting, all alone quite publicly
I'm sad, the whole school should know

Has anyone noticed me
Maybe Emma from Chemistry

There's no one quite like me
I love The Office and posting edgy memes
Watch Riverdale and think
Bout how Jughead and I we walk alone

Jughead's the single other guy
Like me, Except for Catcher in the Rye
I've read that book 8 times
Holden Caulfield, we're identical

I walk surrounded by dumb stiffs
I'm a protagonist

Why did you say you like that book as much as me
Why have you said that you are also lonely
No one could also feel these lonely feelings
D'you want to hang Friday though?

Everyone is such phony
Except Jughead, Holden, and me

When I go to university
Won't be a fully scarred and lonely teen
Meet the friends of my dreams
They'll see that I am Holden Caulfield!

My new friends, lonely rolling deep beside me
My cool friends, fitted in some fresh Hot Topic
We're serving main character energy
Together we're alone
