# Metamorphosis

*Hello there! I'm Professor Dr. Emil Rosen, a geneticist with a passion for transformation. I'm on the brink of a breakthrough that could change everything for people like me, trapped in bodies that don't match who we are inside. You see, I'm a woman... trapped in a man's body. But with my latest discovery, that could all change.*

**Eureka!**

*Emil Rosen, Professor, Dr.,  
DoB - March 15th, 1992  
32 Years old*

**That's the formula! Finally!  
It's stable... The solution  
for all people like me, without  
lengthy procedures and  
hormone therapy...**

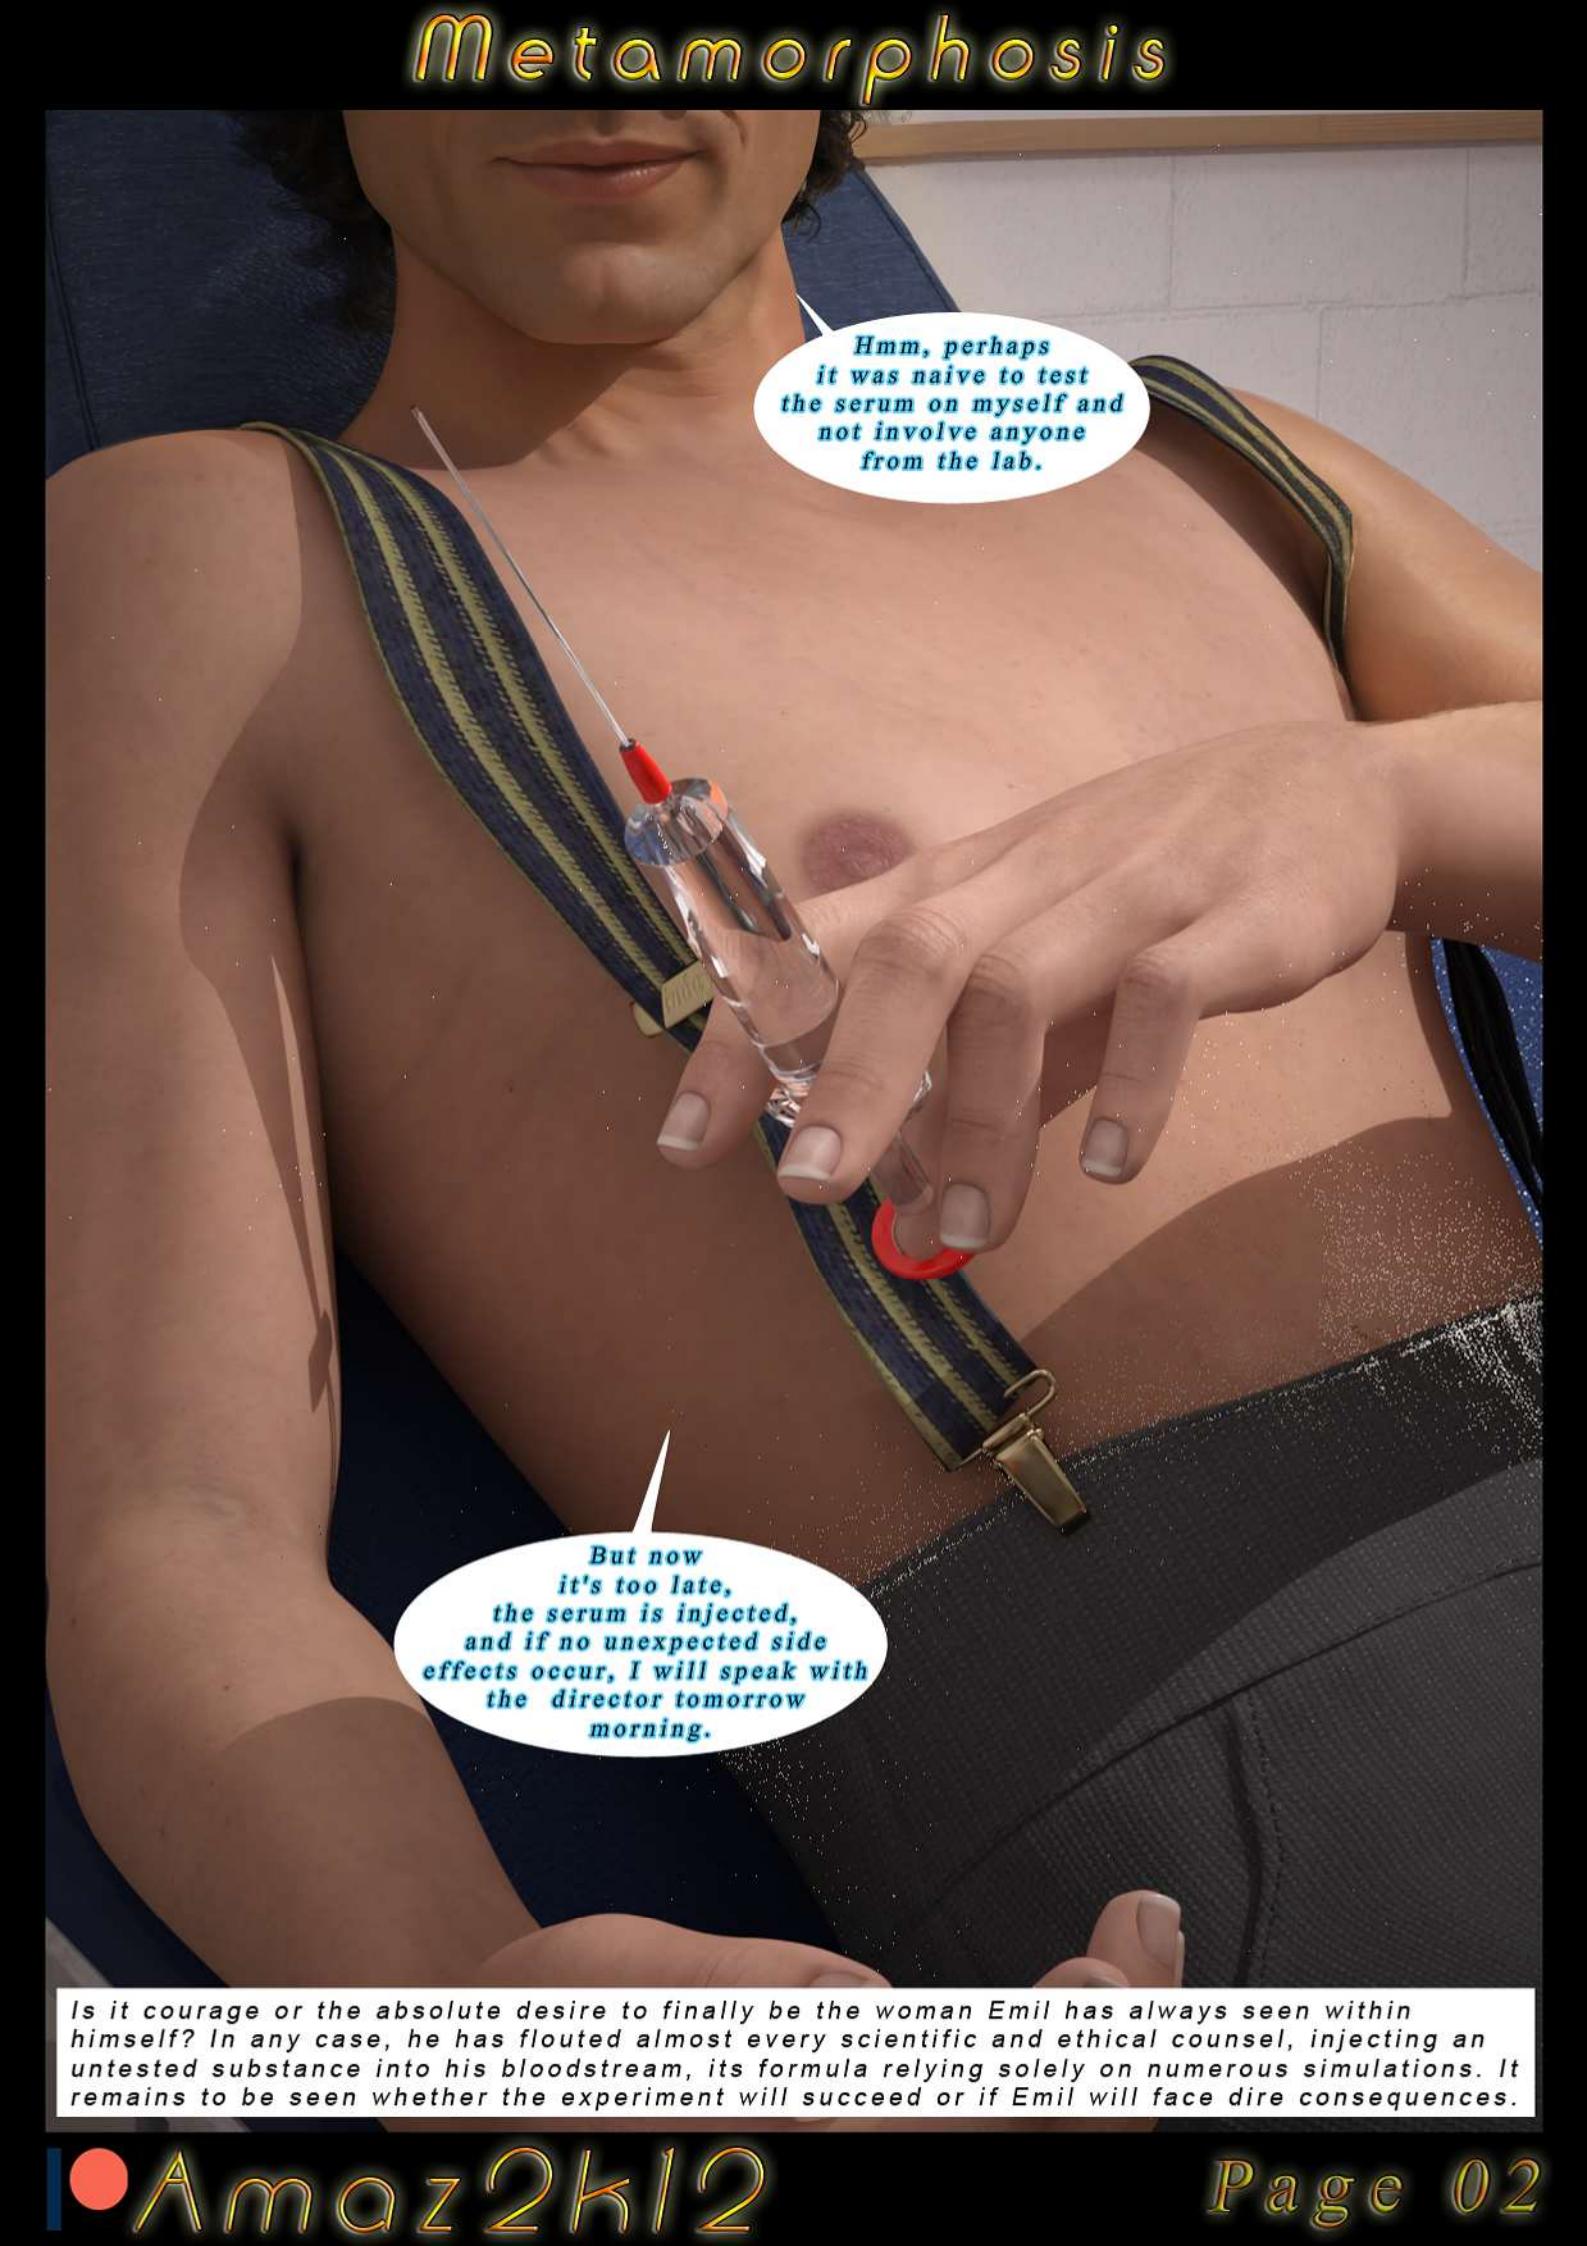

*I've developed a formula capable of altering chromosomes, turning a male Y chromosome into a female X chromosome, and vice versa. It's a journey of metamorphosis, and I'm determined to make dreams reality. Welcome to 'Metamorphosis'.*

**This is how the world sees me. But that's wrong.**

**And that, that's who I truly am. I've chosen to call myself Elina.**

# Metamorphosis

A close-up photograph of a man's chest and upper abdomen. He is wearing a blue and green striped tank top. A large, clear plastic syringe with a red plunger and needle is inserted into his left chest. His right hand is holding the syringe. The background is a plain, light-colored wall.

Hmm, perhaps  
it was naive to test  
the serum on myself and  
not involve anyone  
from the lab.

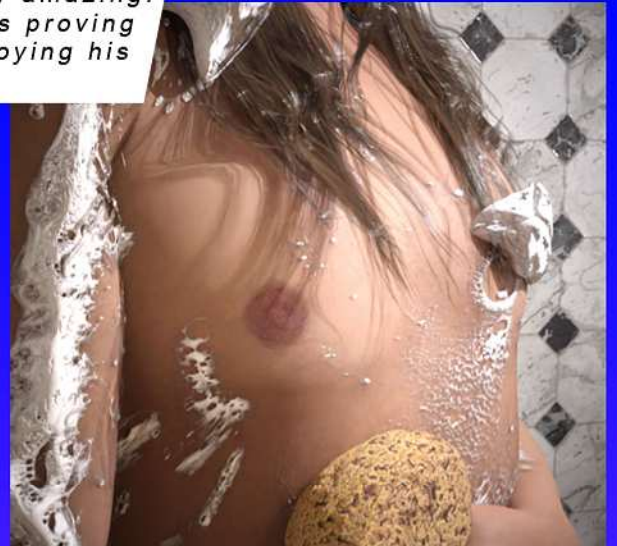

But now  
it's too late,  
the serum is injected,  
and if no unexpected side  
effects occur, I will speak with  
the director tomorrow  
morning.

Is it courage or the absolute desire to finally be the woman Emil has always seen within himself? In any case, he has flouted almost every scientific and ethical counsel, injecting an untested substance into his bloodstream, its formula relying solely on numerous simulations. It remains to be seen whether the experiment will succeed or if Emil will face dire consequences.

# Metamorphosis

The effects of F-B1m-B are turning out to be absolutely amazing! Contrary to what we expected from earlier versions, it's proving to be incredibly stable and effective. While Emil is enjoying his shower, something truly magical is happening.

His nipples are responding in the most wonderfully feminine way... they're becoming a bit darker and noticeably wider, both of them swelling up.

And that feeling, like a knot behind the tissue, is just getting bigger and bigger - his chest is starting to blossom!

It's like experiencing what young girls go through during puberty when their breasts start to develop. And here's the best part: Emil, a 32-year-old man, is now experiencing this incredible transformation, thanks to F-B1m-B! It's like his body is joyfully embracing its true womanly self, ready to bloom into something beautiful....

# Metamorphosis

*As night falls, body and mind find solace. It's during these quiet hours that muscles and tissues undergo their nightly renewal, adapting to the day's demands. Emil, like many others, experiences this nightly transformation. However, with a chromosome-altering substance coursing through his veins, his metamorphosis takes on a new dimension, guiding him on a journey of transition to become a Her.*

*Gradually, two delicate buds of womanhood emerge beneath his skin, growing steadily but surely.*

*As the night progresses, his budding womanhood continues to take shape, forming small, petite breasts and gently stretching Emil's skin...*

# Metamorphosis

As the clock strikes 7, signaling the start of Emil's day, his body has already undergone a visible transformation. Unaware of the changes, Emil stretches upon waking - at 32, one isn't as limber as they used to be. But it's during this stretch that Emil first notices the subtle sway of his newly blossomed, delicate breasts, a sign of the overnight transformation he has undergone.

*\*YAWN!\**

What a fantastic night!  
Slept like...  
huh?

What...  
is that wiggling  
on my chest? I haven't  
gained weight,  
have I?

Or could  
it be that my breasts are...  
blooming?

*\*wobble\**

*\*jiggle\**

# Metamorphosis

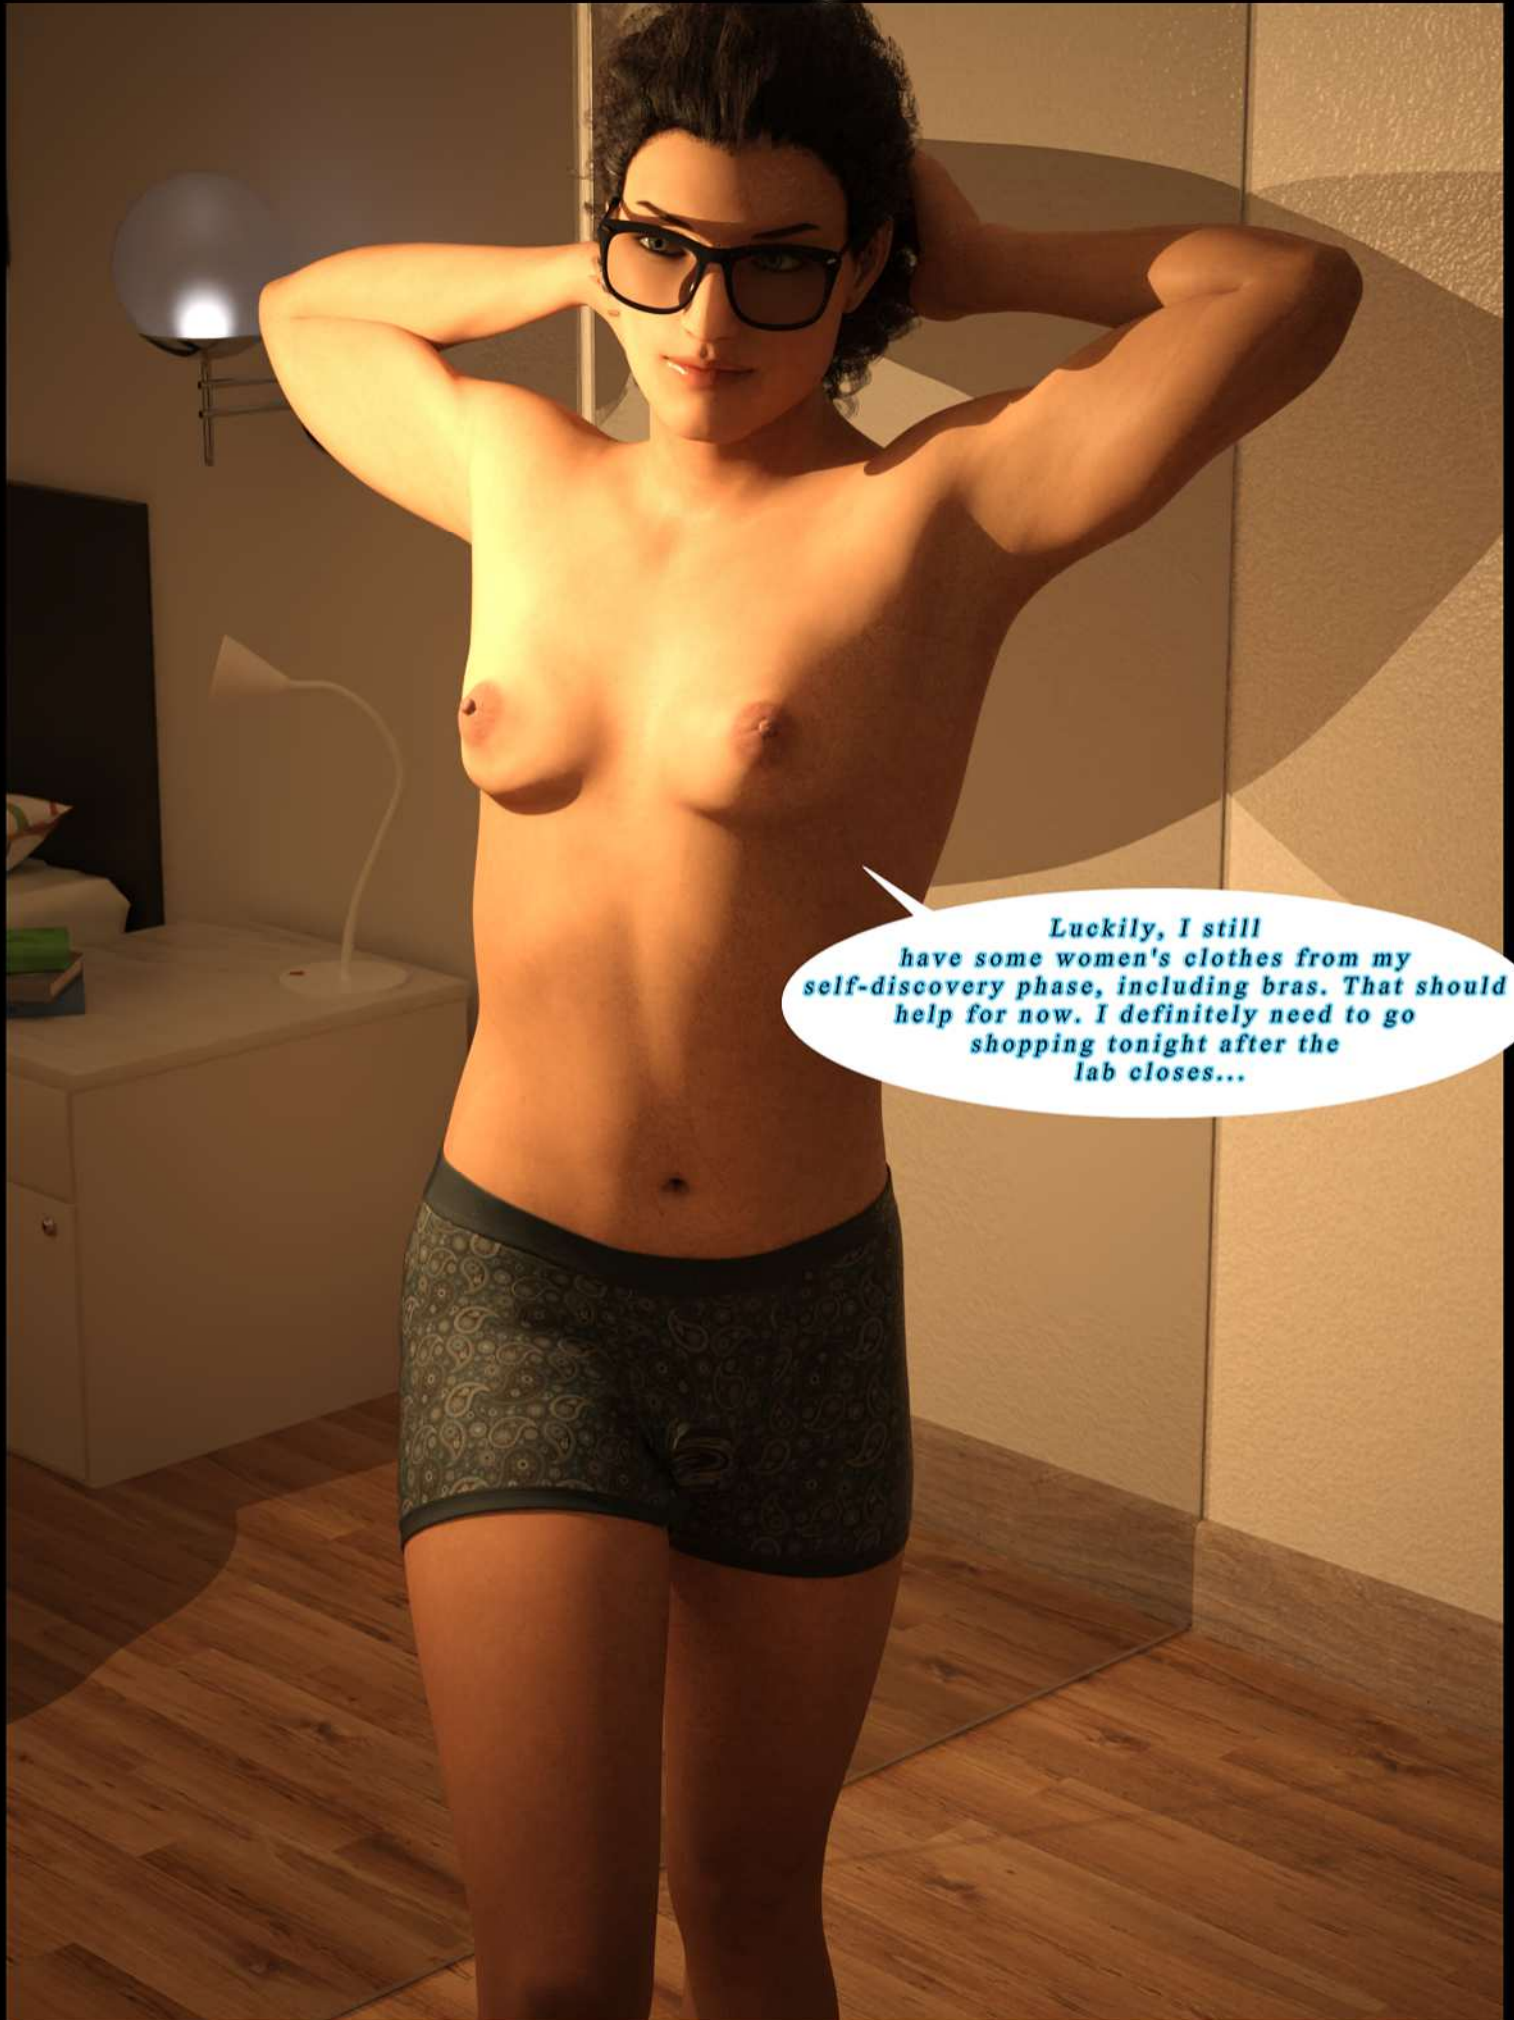

Wow, my serum really works! These are undoubtedly female breasts, and they are... uh...

... so sensitive and nipples are stiff!

# Metamorphosis

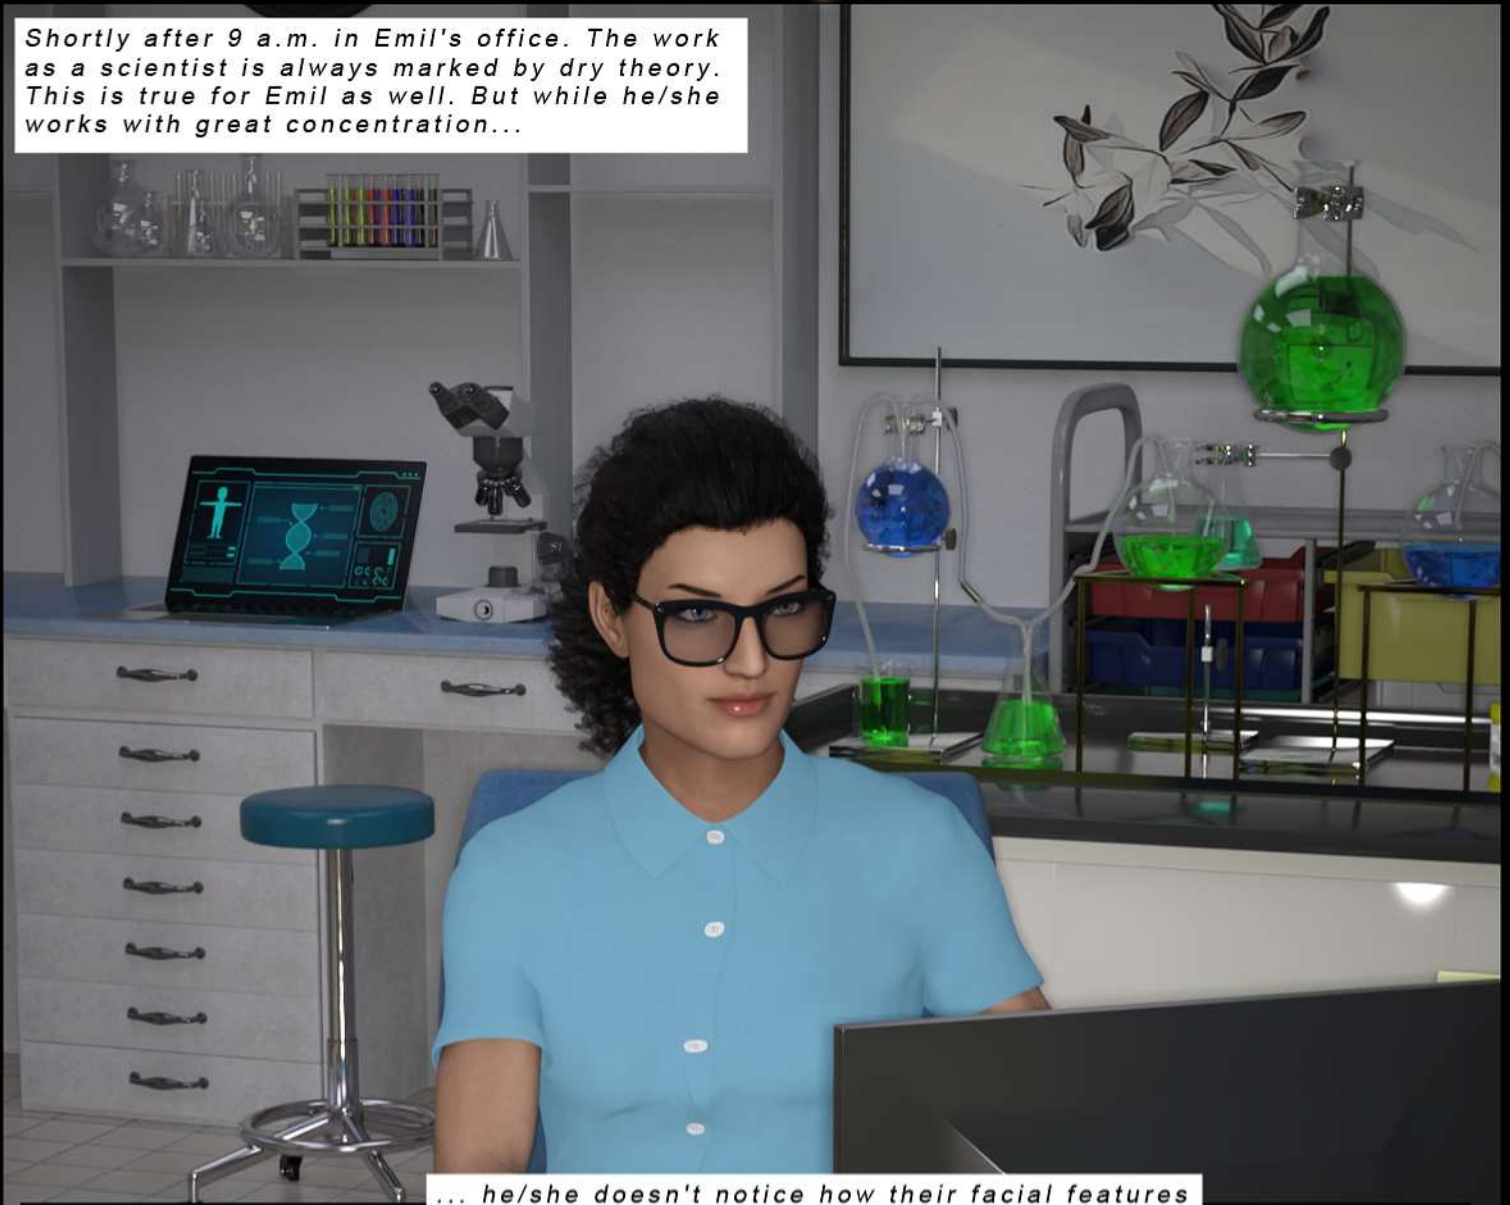

Luckily, I still have some women's clothes from my self-discovery phase, including bras. That should help for now. I definitely need to go shopping tonight after the lab closes...

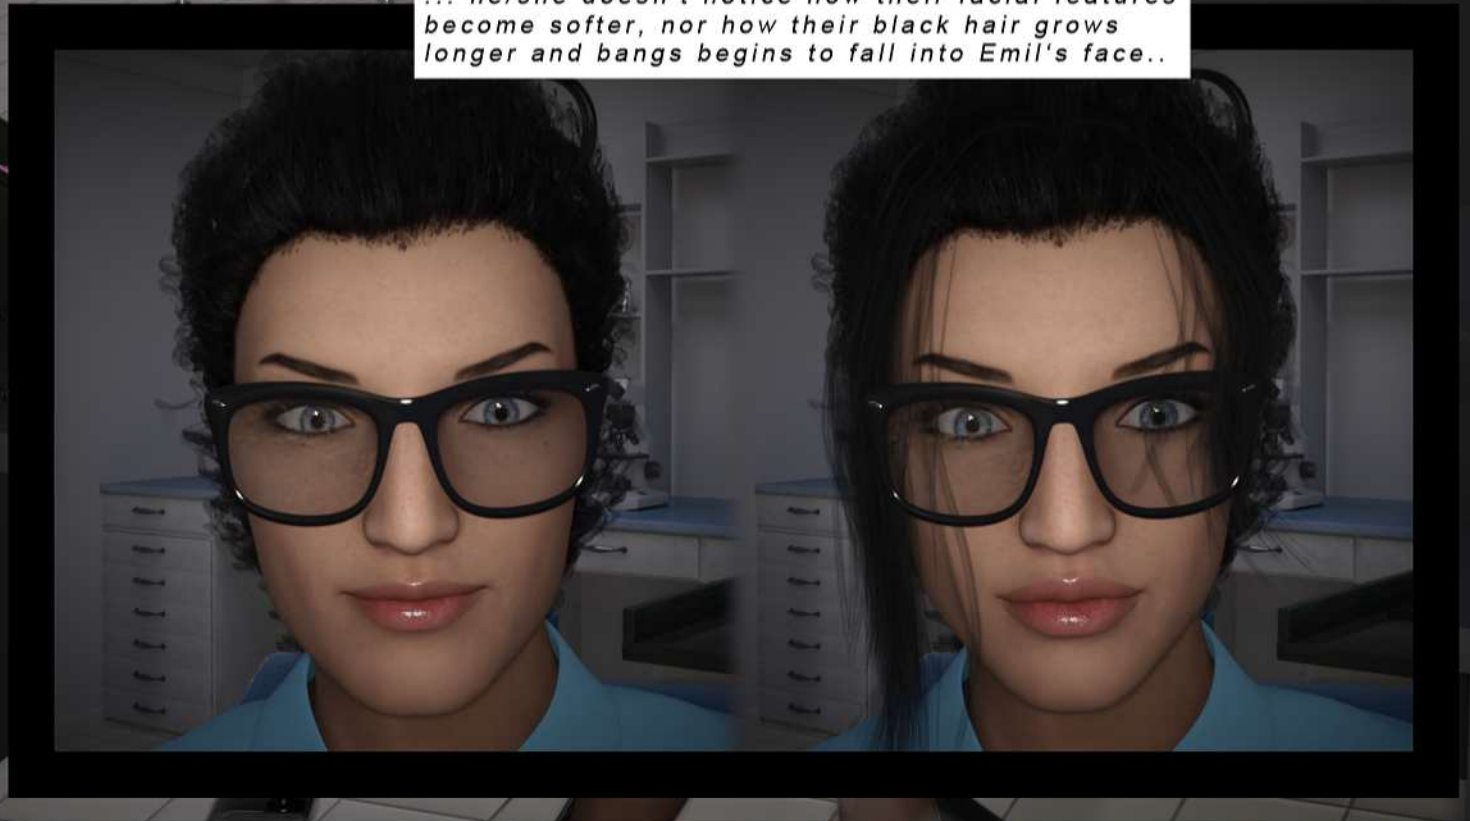

# Metamorphosis

Shortly after 9 a.m. in Emil's office. The work as a scientist is always marked by dry theory. This is true for Emil as well. But while he/she works with great concentration...

... he/she doesn't notice how their facial features become softer, nor how their black hair grows longer and bangs begins to fall into Emil's face..

# Metamorphosis

Just before noon, Dr. Emil Rosen meets with the lab director as scheduled. The meeting with the lab director is a failure.

Dr. Rosen!  
Something like this has never happened to me in my 45 years as a scientist!

Your experiment is an affront. It challenges the God-given order of gender. All documentation for your chromosome serum must be destroyed immediately.

The pinnacle of arrogance is testing this substance on yourself! How could you?

**But, Professor!**

You are a threat to the integrity of this lab and to the entire faculty. I am terminating your contract immediately.

You have the rest of the day to clear out your office. Your access card will be deactivated starting tomorrow. Good day!

**My serum could benefit thousands of people! It works - I'm living proof. It would end the era of long hormone therapies and painful surgeries for everyone born into the wrong gender. Please consider...**

Considering you've been fired, Dr. Rosen, get out!

It's not just the self-experiment itself that's the problem, but the director's blatant rejection of transgender individuals, who are increasingly demanding and fighting for their rights in today's modern world.

# Metamorphosis

For now, Emil must concede; the director's reservations about transgender individuals like her are formidable. However, giving up is not an option for her.

**Ma'am, this isn't the final word on this matter. As scientists, we should embrace diversity in all its forms. I assure you, I will take this issue to court and make it known publicly. Expect to hear from my lawyer.**

# Metamorphosis

Still fuming, Emily heads home. She had anticipated many things, but not a summary dismissal. However, the excitement doesn't go without consequences. Due to her high blood pressure, the serum's active ingredient is greatly stimulated...

**I need to stop and buy a new bra. This one is pinching...**

**And maybe some new panties... if the serum has done its work, I shouldn't be wearing boxers anymore...**

**I should take a break... I'm feeling weird.**

# Metamorphosis

As Emil's face takes on noticeably more feminine features, her body shrinks, barely perceptible, by just a few centimeters. Does she look younger now than just a moment ago?

**HNNNNNGH!** 

Oh  
Gosh! My Tits... erm...  
boobs...no... breasts are growing in  
public... I can't hide  
this.

# Metamorphosis

*Are those... my breasts? Wow... they've grown so much in just a few seconds. What size are they now?*

# Metamorphosis

And with a loud SHRRRIP, Emil's shirt gave way to the growing mass of his chest, revealing two well-rounded, natural breasts to the bright sunlight. But not for long, as Emil, though surprised, reacted in a fraction of a second.

Oh no! My chest...  
I have big melons on my chest  
now! And everyone can  
see them!

SHRRRIP!  
SHRRRIP!

\*squish\*

\*wobble\*

Ma'am!  
Your behavior is  
inappropriate! Cover  
yourself!

# Metamorphosis

If you're blessed with such a large bust, you should choose the right clothing. But fantasizing in public about your breasts growing in seconds for everyone to see? That's unacceptable behavior...

Ma'am, I sincerely apologize... I...

... a colleague played a prank on me. Apparently, he loosened the buttons on my blouse, so they had to give way to this mass sooner or later. Now that this shirt is ruined, would you be so kind as to show me to the nearest clothing store?

Oh... but sure. There's a clothing store next door. And be wary of guys who play such pranks in the future!

Thank you for your understanding, Ma'am!

# Metamorphosis

**Geez...  
best Day ever.  
First I get fired without  
notice, and then my blouse gives  
way in public – how  
embarrassing.**

**Double D cups...  
I needed a Double D cup  
bra for these girls...**

**Such a  
large bust is quite  
unusual in my  
family.**

**But the  
serum works with outstanding  
results.**

After a brief search, Emil found a temporary solution. Exhausted from the events of the day, he headed home.

# Metamorphosis

Later that evening, after Emil washed the day away with a warm shower, she settled in front of the TV...

-Today's News-  
Good evening, ladies  
and gentlemen. Welcome to Today's  
News. I'm your host, Tom Tucker.  
Today in Quahog, a well-known  
local Family Guy is...

He He He,  
am I on TV? Look  
Louis, I'm on  
TV!

One hour later...

**\*yawn\***  
Maybe I should  
call it a night and go  
to bed...

... but as always, before the TV, Emil gradually  
drifted off into dreamland.

# Metamorphosis

While Emil is fast asleep...

...around 2 a.m...

Fuck me harder. Show me what for a Slut I am!

Oh, babe! You are an absolute dream. I've never seen a bimbo like you.

The highly erotic late-night TV program being broadcast unconsciously influences his/her dreams...

ZZZ  
ZZZ  
ZZZ

...which, in turn, activates the altered gene sequence and...

# Metamorphosis

As Emil sleeps, the remaining male structures merge and transform into female organs, with the labia minora, clitoris, and ovaries emerging from the formerly male tissues, fully replacing the original features.

02:15 a.m.

02:20 a.m.

02:25 a.m.

Finally, a fully functional female reproductive system has formed. The hormonal structure in Emil's body is now completely aligned with the female XX chromosome.

Welcome to womanhood, Emil.

# Metamorphosis

Following his internal clock, Emil wakes up at 5 a.m...

*\*yawn\**  
Oh my... Oh my...  
did I fall asleep in front of  
the TV? And it's already  
morning?

I feel so  
good... mhhh

WAIT!  
IT'S GONE?!

My Dick  
is gone!

I have  
a Pussy! I'm a  
woman!

# Metamorphosis

A woman with long, dark, curly hair is shown from the waist up. She has extremely large, prominent breasts that are the central focus of the image. She is looking slightly to the right with a surprised expression. Her hands are placed on her hips. The background is a plain, light-colored wall.

I can hardly believe it! My serum has worked completely.

Uhhh...  
So sensitive,  
so warm, and yet so  
moist - this desire...  
is this normal?

The  
F-B1m-B formula  
is a complete  
success.

But now  
I have to get ready;  
I need new identification  
papers, new clothes,  
and a new job!

# Metamorphosis

I have a lot on my to-do list for today. First, I need some new clothes. My chest has grown larger than I expected.

Then I need to go to the office to register my gender change and get a new ID card.

After that, I have to see my lawyer about the termination...

Earlier, when I looked in the mirror, it was probably just my imagination that my hair seemed lighter, almost blonde. Maybe it was the lighting?

Or is my serum still active? That should be impossible now that the feminization process is complete...

Hmm, the nearest boutique isn't far away, but it's a shame the city has such run-down streets; I don't feel very safe.

# Metamorphosis

Emil isn't entirely wrong to assume that the feminization process is complete - his XY chromosome has indeed mutated into an XX chromosome, ...

... and his body has become biologically female in just a few days. However, he was mistaken in thinking that the transformation process was finished...

# Metamorphosis

So far, everything is going according to Emil's plan - and here we see her in the boutique, browsing through the clothing racks.

Ooh, check out this top!

As she wanders through the racks of clothing, each piece seems more beautiful than the last...

Hmm, I wonder if it looks good on me or makes my boobs look huge?

Well, they are huge, after all!

Her hair color gradually shifts, becoming a strikingly bright shade of blonde.

Yep, that's the one!

Just sexy as hell!

As she left the clothing store, she wasn't just wearing new, more form-fitting clothes.

Wow, what an amazing shopping trip! But there's still more to do!

Her lips had plumped up, becoming fuller and more voluptuous, eventually forming a perfect pout. Even her skin had appeared less pale, taking on a healthier glow.

# Metamorphosis

# Metamorphosis

We've already seen the effects of stimulation on Emil - but, oh boy, stimulation also brings about a warm, cozy feeling... kind of like a tanning bed, right?

I know  
I was, like, supposed  
to be doing something else...  
umm... errr...

Oh yeah!  
It's time to, like, chill and  
get a little tan on!  
So amazing!

20 minutes later...

\*wobble\*

\*wobble\*

Oh... pooh...  
is it over already?  
Aww, nooo...

# Metamorphosis

# Metamorphosis

Wow, that was, like, sooo awesome, ma'am!

Oh honey, I'm so glad to - wow, Miss!

A gorgeous babe like you normally has her makeup all done! Did you forget yours? We can check in the back if you need to freshen up...

Um... I'm, like, not good with, um, make... stuff. Can you, like, show me how?

Wait, what? You're joking, right? A hot little thing like you?

Huh? 'Cause, like, I've only been, um, a girl, like, today, duh!

You? A guy? No way! That's unbelievable!

There was this, like, uh... thing I took, like, a few days ago, and it, like, turned me from the dude I was into, like, this super hot babe...

... do you, like, think I look cute?

That serum... girl, I'd love to get my hands on it. The things I could do with that...

# Metamorphosis

Tell you what, you get this beauty session for free, deal?

Huh? Oh, sure, you can, like, totally have the... uh, stuff!

It's, like, at my place, but I can't, like, remember... everything's, like, behind this super pink, um, cloud... teehee!

Yay, free makeUp... uh, pretty time?

So, sweetie, would you by any chance be interested in a job?

Umm... yeah, I, like, wanna get a job. Do you, like, got one?

You know, in the film industry? Adult films, to be exact...

Whaaat, really? Oh my gosh, like, so cool!

Wow, are her boobs actually growing right before my eyes like a balloon being blown up?

How hot is that?!

# Metamorphosis

Her cup size just doubled in minutes...

... and she's looking kinda totally spaced out.

I'm sure you're gonna fit right in with us, honey.

By the way, what's your name, sweetheart?

Aww, what a cute name, babe...

So, where do you keep your ID and apartment key? I should probably get you home later, don't you think?

Huh?

Ummm... I'm Emmi... \*giggle\*

Tee hee, thanks! You're, like, super hot and stuff!

Like, totally! You got, um, nice... bewbs!

Do you like mine too? They're, like, totally huge...

# Metamorphosis

Later that same evening, in Emil's old office...

*\*click\**  
Yes?

Hi Jim,  
it's Sabrina.  
I've got the  
formula ...

Can you  
believe it? His laptop  
wasn't even password  
protected!

Excellent!  
Any issues accessing  
her laptop?

Was her  
story just a  
fairy tale?

Right,  
genetic modification,  
according to his notes. This  
is definitely something your  
lab department at AmazCorp  
would find fascinating.

Indeed!  
Quite fascinating.  
Bring the device, my  
team will analyze  
the serum code.

By the  
way, Emmy needs new  
identification. Do you think  
you could take care  
of that for me?

Sure,  
no problem. What  
should her new  
name be?

Name... hmm...  
how about Emmy Bubbles?  
It's playful and cute, don't  
you think?

Emmy Bubbles?  
Noted... the name  
really fits.

I agree!  
She seems to  
have forgotten so much  
and is really leaning into  
her new role.

And to  
think she was  
once a professor...  
unbelievable.

Talk soon, Jim.

Bye, Sab.  
And... thanks.  
*\*click\**

# Metamorphosis

Four weeks later...

Hi, cuties...

... Like, sooo nice you're back with me.

My phone... uhhh... it's super smart... or, umm, something... 'cause without it, like, you couldn't even see me! That'd be sooo boring, right?

I got, like, these new shoes today! They're pink and, um... super tall... like, 9 inches or whatever!

Ohhh... your money is, like, sooo amazing! How 'bout this... if you give me 1k more, I'll... umm... take my top off?

Do ya like it? My top? I'm, like, sooo in love with it

Oh, and I did, like, this new... umm, movie thing today... what was it called again? Emmy Love... uh... machine? Whatever! Long names are, like, sooo confusing! I'm just, like, a total airhead and stuff...

Emil's scientific discoveries on modifying XY to XX chromosomes were groundbreaking. However, his formula had entirely different effects on him than originally intended. His new self, Emmy Bubbles, is fully enjoying her new life. Her metamorphosis was a complete success.

# The End

I hope you enjoyed the comic  
Thank you for reading.
