## **DOWNLOAD REQUIREMENTS**

### **Programs**

VRChat Creator Companion  
<https://vrchat.com/home/download>

Blender 3.6 or later  
(I use Blender 3.6 LTS, but the .blend files will NOT work before 3.0 and may be unstable pre 3.6)  
<https://www.blender.org/download/>

[Latest Poyomi Toon Shader](#) (Or at least, some version that has poyomi 9.0)  
I recommend the VPM instead of the unitypackage though!  
<https://poyomi.github.io/vpm/>

You only need [Pumkin's Avatar Tools](#) if you want to have multiple SoapDragons in 1 project

---

## **UPLOAD INSTRUCTIONS**

Make sure you watch the tutorial video on how to upload, even if you've uploaded avatars to VRChat before! My bases work a bit different than other bases so they can be super customizable while also being optimized :)

### **[🔗 ALL TUTORIALS PLAYLIST](#)**

The MP4s are the same videos if you would like to have offline copies of them :)

- [🔗 Main upload](#)
- [🔗 Adding the Soap Bar DLC](#)
  - This was made for SoapDogs but the steps are completely identical for *any* avatar it's being put onto

(Most up to date tos can be found [here](#) but I try to keep this one updated too)

## **TERMS OF USE**

"My", "I", refer to ironicsoap. "Product", "Avatar", and "Content" refer to anything I have listed up on Gumroad or Ko-Fi for sale/download.

When purchasing my products, you are purchasing a license for a **single person / account holder** to use. This license is **non-transferable** except through an agreement with me

If you wish to purchase the product for another person to use, use the Gumroad gifting feature to purchase the license for their email instead of your own email. If you have accidentally double-purchased, contact me!

### **DO NOT:**

- Re-sell or re-distribute my avatars, products, or any of the downloaded content I provide
  - INCLUDES, BUT NOT LIMITED TO:
    - Reuploading to another site for free or for sale
    - Sending the files to another person who does not own a license for the product
    - Porting the avatar/product to other software / games with the purpose of reselling or redistributing the port to others who haven't purchased the avatar.
    - Including parts of my product(s) in another product for use by people who do not own a license for the product(s)
    - Uploading onto the accounts of those who do not own the product
- Remove or alter the credit within the chest if the base includes one. This includes modifying the texture.
- Use or edit the avatar in any offensive / hateful ways; such as but not limited to: homophobia, transphobia, racism, antisemitism, hate speech, etc
- Create explicit sexual or fetish edits or use for explicit sexual or fetish content.
- Use for any NFT, crypto, or AI dataset training purposes
- Claim credit for the base
- Please don't upload the included premades to avatar worlds/pedestals, since they have demo versions by me already :)

### **YOU MAY:**

- Use as a streaming avatar (I am not providing a .vrm/.vsf, but conversions are allowed!)
- Use in Youtube / Twitter / TikTok / etc posts!
- Upload as a public avatar on VRChat
  - Public uploads are *required* to keep the credit toggle within the menu in addition to the credit within the chest. It must be legible and unedited.
- Tag me in your posts!! I'd love to see people using and enjoying the base :]
- Remove the credit button in the menu if the avatar is uploaded as Private (NOT THE CREDIT IN THE CHEST)
- Port the avatar to other software / games, as long as you follow the rest of the TOS :)
  - Uploading the avatar to another software/game where people who have not purchased it may obtain it counts as re-distributing the avatar.

## Refunds

- Since I sell digital products, they are impossible to "return". I have no ability of telling if you have downloaded the files. If you have any issues with the base though, please contact me and I'll do my absolute best to help :)
- If you've accidentally overpaid for a 2D base while meaning to buy the regular base (need to have paid at least 5\$ over the corresponding 3D base) feel free to reach out to me by email ([ironicsoapanimation@gmail.com](mailto:ironicsoapanimation@gmail.com)) and I can either partially refund you the difference, or give you a coupon code for the difference with no expiry date!  
If you've paid the exact price of the 3D base, I will give you a coupon for however much off makes the 3D base = 5\$ :)

## Commercial Use terms

- **Commissions**
  - Selling edit / texturing commissions is allowed! However, **both parties need to own the product**. Even if the avatar is uploaded as public for the client to clone.
  - If you are commissioning someone, you need to ask for their **RECEIPT** of ownership, do **not** take their word that they own the base.  
**You may be banned from my community and/or have your license revoked if you are redistributing my products to those who do not own them.**
    - If you want to be 100% certain they own the product, have them verify their license key in my discord server. <https://discord.gg/RpU6bEFryy>
    - You can also email me at [ironicsoapanimation@gmail.com](mailto:ironicsoapanimation@gmail.com) with a license key and I can manually verify that it is valid :)
- Selling assets for my bases is allowed, but I'd like to be contacted first! You cannot include any of the base's original content and must state that the avatar is not included in the asset package.
  - Using my logos or branding to advertise with is not allowed. (SoapCats, SoapDogs, Sealines, etc..)
- Other commercial use situations that are not covered here, PLEASE contact me about! (3D printing, using in merch, etc)

## What happens if you break my TOS?

- You will be banned from all community spaces I moderate (Discord and VRC Group)
- Your license to my content will be revoked if the violation is severe enough

If you have an honest appeal, email [ironicsoapanimation@gmail.com](mailto:ironicsoapanimation@gmail.com), but I do not revoke licenses lightly.
