Side Effects

Somewhere, in a secret prison you never heard from, real dangerous prisoners got locked away. Nobody miss them, nobody ask questions.

Let me go! It wasn't me.

The subject looks perfect. What have he done? Murderer? Rape?

Yes Ma'am. And even more. He is highly aggressive and very brutal. First he killed 10 people with his belt, then he went to the Burger place and eat. There the cops take him. He killed two of them.

Excellent. Take him to my room, officer. And take care that he is ready.

Side Effects

We are witnesses of a secret project of the government. Lead Scientist, Prof. Dr. Dr. Penelope Riley, 44, injected her newest formula into the bloodstream, not listening to the loud and harsh protests of the unwilling participant, who lying naked and bounded on the medical bed. The formula should reduce aggressive and dominant behaviour. So criminals should be integrated into the society.

Officer, you can bring him back into his cell. I order an assasment every second day. Start, today!

Are u stupid? Let me go! Bitch! I'll kick your god damn ass if I get free! Motha fucka. I did not do it! Let me go!

Yes Ma'am. I'll arange everything.

Over the days the body of the prisoner changed. The massive muscle mass melted away, his bone structure also changed so that he shrank massively. But the changes do not go unnoticed, other prisoners noticed. On day 5, in the evening...

What have that crazy bitch done to me? *sniff* I look so small, those feelings... Why do I want to cry? *sob* I don't even want to kill those bitches anymore!

Yo Martin, U are nothing more then a puss and I'll fuck your ass in da Shower very soon! HaHa

Me a Puss? Fuck yourself Greg. Fuck yourself until you die, Asshole!

HaHa, u are so funny Girl! Know what? Big Greg really need a *fap* ride... Do you *fap fap* hear that Babe? U *fap fap fap*...

At 5 a.m.

He is dead Officer. Bring his corpse to the Morgue. I'll observe his body later. Then bring the other study Subject to my Examination Room. Oh...and inform the Concierge to clean the cell asap.

What? Greg is dead? How?

Oh! No! Not now! I...can't!
My hair is like a mess!

Yes, Ma'am.

Side Effects

Officer, please no! Can't you wait until I'm dressed? And combed my hair?

What am I saying? Clothes? Hair? Damn...

Oh come on little boy. The doctor want to see YOU now, not later. Put on your damn clothes or go naked...I don't care.

Ok, ok...I...i understand Ma'am.. I am so sorry...

Jeezas...that isn't me! I... want to kick her ass!...But... I feel so weak near her.

Side Effects

What the fuck? What happend with Greg? This isn't blood...it smells... salty?

Correct. It seems that he mastubates several hours before he died. What you see is his semen.

Oh...my...

Side Effects

Well, well. It seems that there are some unplanned results. Massive loss of Height and Muscle Mass. Hair growth...are those breasts? I have to examine that. Get naked.

But Ma'am...

The doc said: Get naked. You better remove your clothes, before I give a helping hand!

Side Effects

So soft..and squishy...no sign of chest hair. Yes I would clearly say: Those are breasts on your chest.

sigh
I know Doc...they are... sensitive...But what did you know about breasts...with your „mosquito bites“ on top.

Be carefull what you say, lad!

I wonder how you can examine people like me while you always look that horny. I bet you could be a pro cock sucker.

Side Effects

Ahm...w..WHAT?

You!...You...

You are...so damn right! How did you know? I really love to suck cocks.

Bigger is better, you know...soo delicious... so salty...even your little pee here...hmm.

Is driving me crazy... making me totally wet. I'll show you how much pro I really am!

Side Effects

And with his last male sperm ejakulation his body changed finaly. His little penis and testicle shriveld and form a vagina, while his hips flared out giving his booty a nice female tone. The face became soft and there are no signs left that he once was a very bully men. Without any energy left the new woman felt asleep while the last drops of her sperm start to flow down over her body...

Side Effects

Doc? Finally! Are you okay? How did he did that?

Mhhh? What do you mean officer?

Are you serious doc? First: YOU gave him a Blowjob after he told you that you love giving BlowJobs!

I did WHAT? But...as you say... I truly feel the need to...Oh my...

He also told you that you don't have breasts. Look down Doc, please.

Why should I? I feel them as usua... I feel...ligh... very..light?

Side Effects

*HOLY SHIT!
MY BREASTS? Where...
WHAT? How...*

*Yep...They are gone...
not existend. You are
a flatty Doc.*

*But look at the
subject Ma'am. He isn't
a HE any more...*

Side Effects

Wow! Look at that BEAR down there!
That is what I call 70's...hehe.
Welcome to Womanhood...Sister.
And boy...with that breasts
she will get a lot of attention.

Yes, incredible and unbelievable.
A complet genderchange. How
is that possible?

I have a theory Officer. But first:
Lay her on the bed please. I want to
see HOW much Woman she is.

But look at the
subject Ma'am. He isn't
a HE any more...

Side Effects

Hm...let's see. They are soft and it seems very sensitive. Size? Hm...36C at least. All natural. Fairly normal breasts for someone who was male before...

m h m m m m

h m m m... y e a...

o h h h

Hm...wet...extremely wet. Ah..and there is a hymen...a Virgin...Ob boy...you enjoy that Babe? Hm...I know...I enjoy a huge dick between my li....damn it!

slik

Side Effects

My my...a little squirter...I would say she is 100% female. Of course I need to make some tests, but not today... I need to overthink what happend here today.

Side Effects

Ok. I know what we should do next. Officer, bring her back. Not into her old cell, no. Give her the security room, so that she can be watched all time.

Also give her some clothes. Her body lost a lot of muscle mass and she don't need to get a cold.

Make sure that all person who will get in contact with her wear Ear protection. You do the same please.

If something unusal happen bring her back to me. If not I NEED to see her in a week.

Side Effects

Are you sure Doc? We should fix the changes you had first. The oral fixation seems very strong if you ask me...

But I don't ask you Officer. I know exactly what I do and the „need“ to blow is not important..or that my once proud breasts shrink to not existend. This case is more important.

Side Effects

After the officer and the prisoner are gone our Scientist start to overthink what happend over the last week...

The subject startet to change after I injected him with my new serum...

Over the week his male aspects start to decrease while womanly attributs appear...

And it seems that he, without knowing it, can „controll“ other people body and mind...with his words?

In the security tape I hear how he said to the died prisoner he should fuck until he die...well he did and his cell was full of sperm and blood...

He said to me that I love to give BlowJobs. He did not know that I prefer woman. But I instantly got this urge to give head...to every guy somehow. And my proud E-Cups shrank to nothing because he said that I have mosquito bites...well I have now...

I know exactly what I should do... but am I willing to try? Hell yes...I AM!

Side Effects

...and so she injected herself the Serum that changed the prisoner and gave him, now her, somehow controlling effects over other body's and minds.

Ouch!
No matter how much experience
I have...this tiny sting always
hurts!

Side Effects

...and so she injected herself the Serum that changed the prisoner and gave him, now her, somehow controlling effects over other body's and minds.

*And now I have to wait
how fast the results kick in.
But for today...I'm gone.*

Side Effects

...and so she injected herself the Serum that changed the prisoner and gave him, now her, somehow controlling effects over other body's and minds.

What for a day. I...

ohhh

I think I need a bath.
A hot bath...mhhh

Side Effects

Mhhh....a nice...re..relaxing...
bath at the end of the day...

mhhh

God...why do I feel
so aroused? Every step
send shivers...ohh...
trough my body.

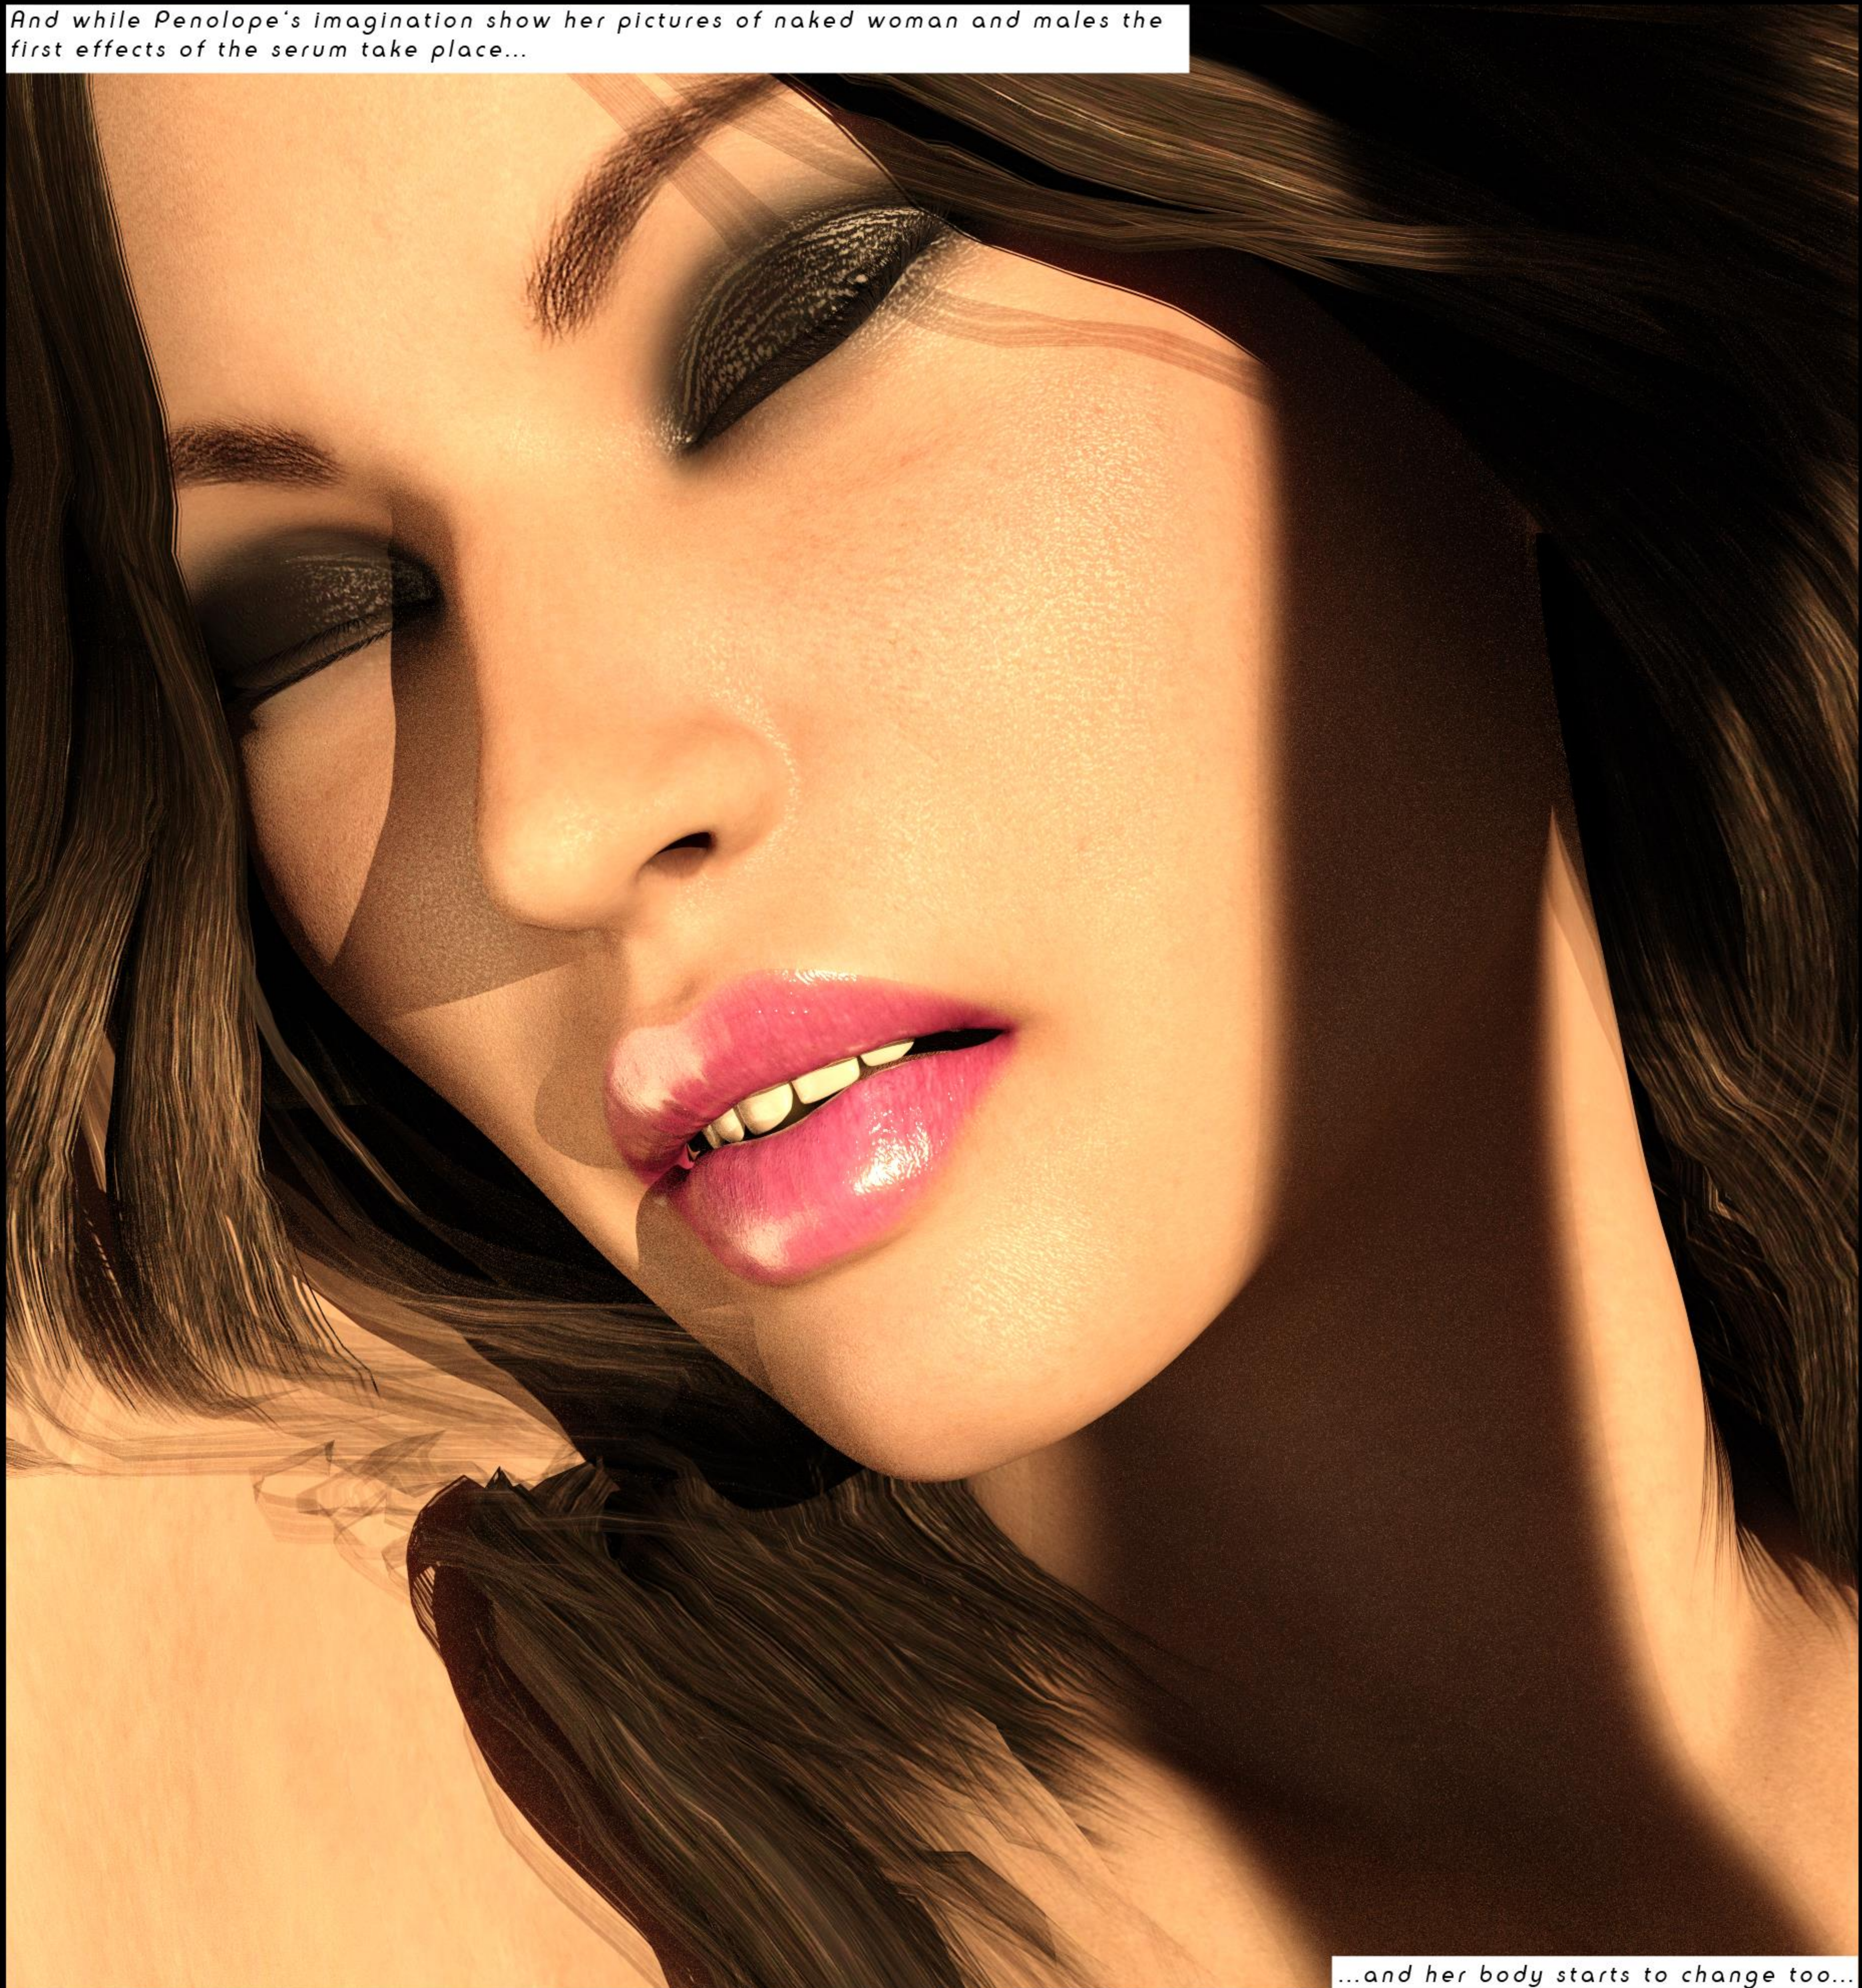

•mhhh•

Ahhh...that feels...
sooo good afer a
long and hard day...

...long and hard...

Side Effects

And while Penelope's imagination show her pictures of naked woman and males the first effects of the serum take place...

...and her body starts to change too...

Side Effects

...her cheekbones seems to balloon out, Her lips, already full and kissable plump up to a bigger size...

Side Effects

...but not only her lips growing into a perfect Blowjob size. Her eye lashes grow longer while her nose seems to shrink a little...all in all her face became more second with every second...and her hands move down to her intim parts...

grow

shrink

Side Effects

But not only her face is changing. Even her tiny breasts are involved

•mh•h•

Side Effects

and start to regrow...not much, but bigger than her mosquito bites...

•mhho

grow

Side Effects

...and while her breasts comes near B-Cup range a strong orgasm, rock her body...

Side Effects

...after „relaxing“ and bathing Penelope move straight forward to her bedroom.

Wow. That was intense. Don't know why, but my body seems to be very sensitive. Maybe a side effect of the serum?

Side Effects

But if...why is it acting on my body that fast? The subject changed over days...and he fully changed into female after to huge orgasm today.

Are sexual actions a trigger? Does they increase the change?

Side Effects

*But now it is time for a deep
sleep...and dream...maybe
of huge cocks...mhhh*

Side Effects

But her „dreams“ become more erotic as she imagined. Let us remove her duvet.

mhhh...very huge...
like my old boobies was...damn
that bitch...but I'll have my
revenge!

Side Effects

And we see how the serum works while she went into deep slumber. Penelope's cell structure change and her skin start to tighten up...looking younger and younger every second.

Side Effects

But not only her age seems to change...her muscle tone seems to be fitter. Penelope's belly muscle's are clearly defined now. But also her titties seems to grow back to her former glory...

Side Effects

plump

plump

...her titties also get an „little“ extra. It seems that two small implants appear and forming two perfect orbs of Bewbs...with a soft „plump“ her titties expand to a new size.

Side Effects

It seems that her newly inflated bewbs want to reach their origin size, now with implants, and they fill up, slow and steady.

growth

growth

But that is not all. Her allready thinned pubic hair vanished and leaved her pussy completly bald. Her outer Labia also thicken and gave her pussy a thigher view.

Side Effects

But as every amazing dream, the time is flying like crazy and in the morning....

mhhh *yawn*....
Already?

piep
piep
piep

Maybe you know that sound every morning? I personally hate it and often wish to my real rich so that I never need an alarm sound for my job...but it will be always a... DREAM.

Side Effects

By all gods! I can't believe that my body changed so fast. The subject Martin needed a whole week to change...

Baby, look at your body. You look like in your middle 20's and not like an 44 years old single woman....

...god...they feel so amazing but are clearly fake. ohhh... and so sensitive...

But Penelope did not reconize that her body get hornier with every fondling of her body parts.

Side Effects

...it never was felt...
so hawt...so extreme....

Oh my...that feels...so
amazing...

squish

...my pussy...is...on
fire...mhhh

Oh...

Oh my!

squish

Side Effects

Oh my gawd...
that is not normal.
How could I be **THAT**
horny all the time?

GROW

After her orgasm Penelope's Butt start to bubble up, giving her some nice curves.

THAT was really
intense. Hmm...
B..wut...I need to
get ready for w-work.

shiver

Side Effects

But It feels so good. My skin...the feelings...they was never that intense.

But no matter how amazing...fondling is fondling...work is work. And I need to go to work... NOW!

Side Effects

No need to say that Penelope's new found youth and look bring some attention...which she clearly enjoy.

Side Effects

Even Penelope's security Officer, Sgt. Amanda Weinsteinberg, looks stunned...or shocked?...at the changed body of the Professor.

*Doc! What the...
how? So...impressiv...*

*Like what You see,
Officer? Don't be ashamed!
I DO love what I see
in the mirror.*

Side Effects

But the Sgt wouldn't be an excellent officier if she wouldn't curious... and so she startet to ask as they arraired in the privateoffice.

How did that happen?
I saw how they shrunk down
to nearly not existend.

I can't say her
the truth that I injected
me the serum. But...
what should I say?
How explain?

Well Officer, it isn't your
concern, but we always worked
well together. The truth is:
I don't know. As I woked up this
morning, they have grown
back.

Side Effects

*Ma'am, seriously?
I mean it is great that they
are grown back...but...*

*...those are clearly bigger
then your old size. I mean:
I never had breasts, you know.
I always was a true AA Cup and
I am proud about my lack of
breasts.*

*But it is not only that. Your
face and your body looks...
younger. Maybe a woman
in her early 30's...maybe 25.*

*...your Nose shrunk, your Lipps
have grown. Your hair have more
volume and looks silkier... and
your body tone is that of a
well trained person. But I
know that exercising isn't
your thing.*

*I understand what happend
yesterday. The prisoner changed the complete
week until her became a woman. He...pardon..
She spoke about your Need for BlowJobs
and now you need it. She spoke about
your „Mosquito Bites“ and they shrunk.*

*It is obvious that the experimental serum
changed him and added that potential to
influence and change other people. But she
is in her new room, nobody talked to her
since yesterday, as you orderd. So...why
did your body change that drasitcaly?*

Side Effects

Penelope realised that she underestimated her officer. But what should she do? What could she say?

Think fast Penny.
Hell, why am I so aroused?
Right now? Think...she
is right with that what
she said...

Sargeant...your power of
observation is ...excellent.
I am glad that YOU are my
security officer...but...

Should I try to
manipulate her as the
prisoner did it wit
me?

...right now I can't give you
all information you wanted to
know. They are out of your
security Level.

Nah...I should wait
some days before I
try that step.

And now enough about me.
Bring me the case about
E-117-4...and Amanda?
Thank you for your
worries about my health.
Everything is fine.

But Ma'am...
well...you are the boss, Doc.
I'll bring you the orderd case.

Side Effects

In the meantime, our prisoner Martin is slowly waking up after she passed out after her final transformation into a woman. But still is he in dreamland.

For what Amanda?

Like for that mess here Doc. I hired Chad, i instructed him and on his first day, like this happend.

Well...I would say you had to pay for that mistake. Let us fix that soon.

Do you find a cure? Or a protection? You like did not change this time as she wanted to change you.

No. The changement are part of molecular hypnosis usage. For that you need to hear her voice. I did not hear her. I read her and your lips to answer.

Like what? How?

Easy! Earbuds...

Earbuds?

Earbuds!

And now Officer, let us fix that mess here and secure that "Lady" here.

Like yes, Ma'am!

Side Effects

She is so heavy...how can one person like THAT heavy...Damn! Doc? A little help would be helpfull.

Officer! Of course is her body heavy for you. You are a midget. Your body height is at least 50% reduced and your muscle strength even more. What did you expect?

Ugh...

Fine...I'll help you...Officer.

Side Effects

This was successfull.
The Prisoner is back in
her room, Chad is in
the other room. Yes?
What is it Officer?

Ah I see. Well that is
fast ansverd. This rooms
door have sensores.
When the Door stands
open they activate
all cameras around.

Yes. If you want to
see it too...it's recorde.
But I need some time
to calculate the correct
dosage for her anaesthetic.
I was...busy...in that
time..

Well...you have the
right to know. I was
giving head to Mr. Denvers.

Yes, and Mr. Smith too.

Well...yes? It took time
to get them out of the
room, checking out what
happend, calculating the
dosage, coming here...

Well...Doc...
how did you like know
that help was needed?
Why do you reconized
me, even with those
changes?

Welcome to the club. Since she changed me to giving head it drives me crazy...any fucking second...

I think we should spend some time and checking the salty health state of some of our male employees. Sounds interesting Officer?

*Hm...my body feels...

After all that Sex and enjoyment?
Must be another side effect of the
Serum. And the clapping of my
ass cheeks tell me that my body
have a new growth spurt. Did
that mean that the formula is
still changing my physique or
is that another side effect?
I have to research that...*

Side Effects

*It truly is unbelivabel how sensitive my body have become. I never enjoyed sex THAT much... never need to be touch that extreme.
Even thinking about any sexual makes my head fuzzy and my pussy wet...extremly wet.
Even my typical icecold Officer had pure enjoyment and pleasure...*

But what...or why...is my body changing? Everytime I felt pleasure and calm down it changed. Had the prisoneer the same effect? I have to examine her...

But first...some selfexamination.

Side Effects

Oh my gawd!
How can I be THAT horny?
After hours of hawt sex?

Side Effects

Oh my gawd!
That feels...uh...hmmm.
Ye..ahh...s!

Side Effects

hmmm

Ah...so...refreshing...

That was so...intense!
My head feels like wool,
but right now I don't
feel different.

Side Effects

*Hmmm...
i dunno...maybe the side
effect have worn off? But
how could it be?*

*And why does
my voice sound so high
pitched?*

*Nahh, the effect could not
have worn off. The Prisoner
changed by herself AND
Mandy...ahm...Amanda.*

Side Effects

Oh my...

Blonde? I...never used that color in my hair!

Gosh! I look like a sexualized Barbie Doll, but not like a serious researching and working scientist! What have I done?

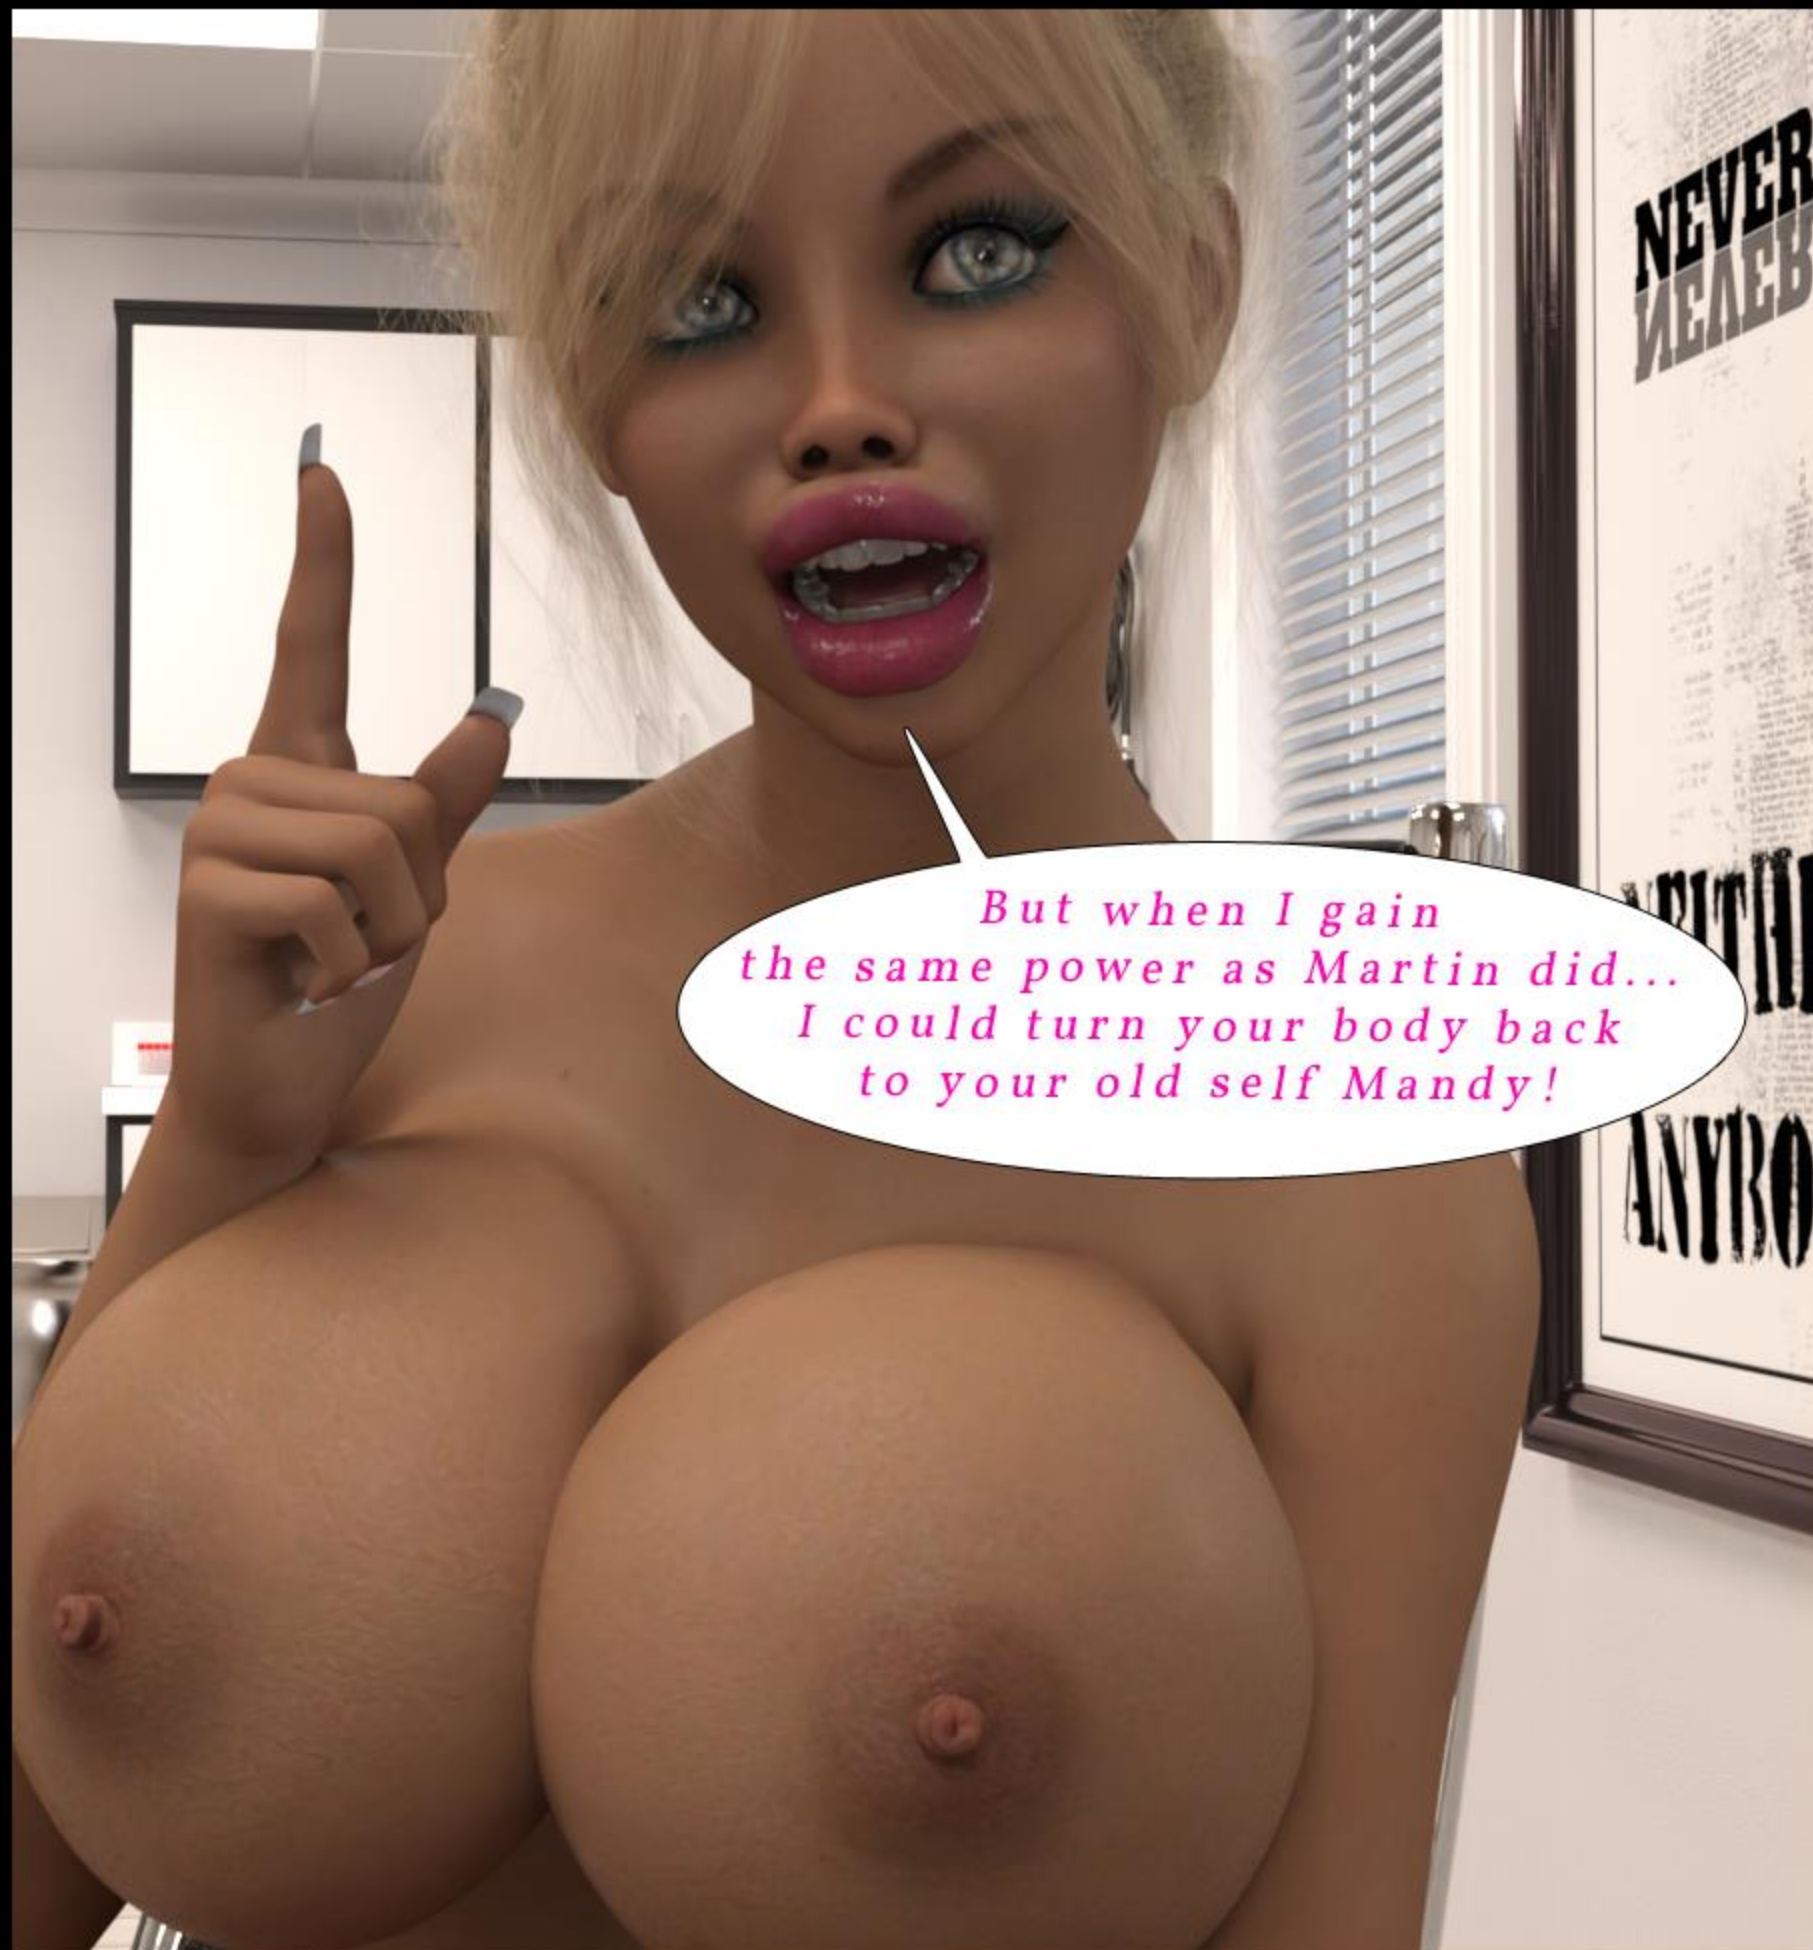

Side Effects

Side Effects

Side Effects

But when I gain the same power as Martin did... I could turn your body back to your old self Mandy!

Of course... you could Penny... or you could make it even worse...like Martin did by accident.

Don't take it personell, but look at you. As Martin become female and you injected yourself that Serum is just one day difference.

He flattend your tatas and increased the urge to give head... and a few minutes back you fucked, like myself, nearly the half crew...and...

Like yea...I know. Sex never felt THAT amazing And every time i enjoyed that pleasure my body change...

Just your body? Penny...do you hear yourself? All that „Like's“ and „Giggle“ - you are turning into a sexcrazed Airhead. A Bimbo! Like what Martin said to you!

Yes, that is what I fear most. To become a like mega dumb, ultra horny and sexcrazed Bimbo.

No. I was like protected, but I think that this is like another side effect of that Serum. Look at Martin, how she changed. I belive: If she had the orgasmic and like so intense Sex we had the last hours, she would be even more bimbofied.

But how? I like changed by her commands, but you was protected.

Why not give it a try? Better her then you? And you could do a research while you stay abscent?

Side Effects

It would be like so good to see her as a Bimbo... craving for huge dicks on big muscled men...

That would be fair Doc. When should we...

..squeezing her like big, phat titties around those cocks while blowin' them hard. mhhh

...excuse me... Doc?

mhhh...
slurp

What? So fast? How can some one become that horny in no time?

Seriously Penny? Fingering yourself while we talk? How naughty...

Side Effects

Side Effects

Are you feeling better now?

Thank you, Officer! That was close...to close.

It was horrifying. I could feel how the logic melted like ice on a tropical beach ... and how those NEEDs rised.

And how I could not stop that sweet Prurience, flooding my mind. *giggle*

Stop talking Doc. You start giggling again. What should we do now?

Side Effects

Mandy!
What have I done?
I don't want to be
a stupid Bimbo!

My my,
who starts crying?
Calm down Penny.
We find a a
way.

Yea...you
are right...again. I know what
I do. I will use the rest of the
anaesthetic. So I can't get
horny...

...and will not turn
into a sexcrazed Airhead.

That is a
partial solution...but
better as nothing.

Side Effects

Side Effects

Exactly how
I left her. Now...let

What the! Oh...please! NO!

Side Effects

You all must think that I am stupid, hm? But tell U what. I once was an high graded college student...and I don't allow it that U turn me into some kind of Bimbo!

But not only that Mandy is eating her wet snatch out like a pro...there are still the subliminal messages that Mandy could start on the PC, before she was caught by the awoken Martina...and those messages are now bombarding her brain like sexual bombs of joy.
