****IMPORTANT EDITORS NOTE:** During this episode, do not show on screen any cards that are not included in this deck. Even if we mention them, just don't show them on screen. We don't want to give anyone the impression that a card is included in this deck when you buy it, if it is not.**

@JoshLeeKwai - @jordanpigeon @commandcast

Our DMU coverage isn't even finished yet but it's already time to start talking about the next set of new cards. It is the Warhammer 40K Commander decks! We're doing the full deck reveal for one of the four decks today. It is the "Necron Dynasties" deck. It is a mono-black Artifact creature/vehicle recursion deck. We'll be showing off all 42 (yes 42!) new cards and then doing our usual breakdown of the STATS and reprint value. BUT FIRST:

30 BASIC LANDS

(30 Basic Lands? Boo!!!)

FINANCIAL VALUE **All prices are taken prior to the deck being revealed**

Remember: This is only the reprint value. This does not take into account the new cards.

Reprint Value for this deck is: \$67.18

There are so many new cards included in the precon that it's very difficult to compare this to decks of the past. To help with this comparison, Truc did some math:

Interpolated Deck Price: \$110.15

This is definitely on the low side as compared to Commander precon of the past (especially considering there are only 10 new cards):

Commander 2019 - Average Reprint Value \$80 (Adjusted \$94)

Commander 2020 Ikorla - Average Reprint value \$96 (Adjusted \$110)

Commander 2021 Strixhaven - Average Reprint Value \$88 (Adjusted \$114)

Commander 2021 Forgotten Realms - Average Reprint Value \$115 (Adjusted \$130)

Midnight Hunt Precons - Average Reprint Value \$103 (Adjusted \$118)
Crimson Vow Precons - Average Reprint Value \$76 (Adjusted \$90)
Neon Dynasty Precons - Average Reprint Value \$73 (Adjusted \$89)
New Capenna Precons - Average Reprint Value \$94 (Adjusted \$111)
Baldur's Gate Precons - Average Reprint Value \$104 (Adjusted \$114)

MAJOR REPRINTS (We can't go over every card. Full deck list is linked in the show notes.)

CARDS \$5 OR MORE (there are 4 - not bad considering)

Darkness	\$16.00
Living Death	\$8.50
Caged Sun	\$7.00
Mystic Forge	\$6.00

CARDS \$2 OR MORE (There are 9. Reminder: this # includes the >\$5 cards)

Gilded Lotus	\$4.50
Endless Atlas	\$4.50
Reliquary Tower	\$3.75
Thought Vessel	\$3.50
Mutilate	\$2.75

**NOTE* Every card in all of these decks is "in the world" of 40K. They didn't include a single card in any of these decks that has its old/regular Magic art from before. If it's a reprint, it's new artwork in the world of 40K.*

What do we think of the deck overall?
