[Amy]

Heya! Sorry, I know you're at work at the moment, but think you could swing by my place afterwards? I've got something pretty sweet I wanna show you. I'll try to hold off till you get here~ No promises though! See ya then~

[Narrator]

As requested, you arrive at your friend Amy's house after work.

[Amy]

Oh, hi! Come in, come in~

[Narrator]

You follow her through into her lounge, where she picks up a small can off the coffee table.

[Amy]

This is what I wanted to show you.

[Narrator]

The can appears to have a comic-style illustration of a big bicep being flexed, with the words 'Stronger Soda' emblazoned on it.

[Amy]

The reviews online says it works really well, and I know you like big muscles as much as I do, so I figured we could have some fun? Well, I've been excited to try this thing all day, so now that you're here...

[Amy]

sipping some soda (or water, whatever you have lol) Ahh~ Wow, it tastes great too. I'm not really sure how long it's meant to take before it... kicks in... I think I feel it actually... yeah something's definitely coming... oh wow... *m*

[Narrator]

As you watched, Amy's body seemingly underwent a surge of swelling. You could now see faint outlines of muscles on her arms and legs.

[Amy]

Oh wow, I thought this stuff would have some effect but, this looks like it'll be good. Well, this time, I'm going all in,

[Amy]

some more gulps of soda Ahh~ This time should be a bit bigger, oh wow, it feels bigger too... are you ready? *m* Oh yes, look at that *m* they're swelling out~ Look at me *m* my body is getting so strong *m* and so quickly, that's awesome *m*

[Narrator]

As you watch, Amy's figure bulges out, her muscles swelling and swelling all over her body. Her chest beneath her crop top began to define itself into a solid 8 pack, and her biceps began to form and swell on her arms. Her thighs also bloated out with muscle, and her shoulders and pecs seemed to be growing larger as well.

[Amy]

Oh my... Okay, that was incredible... These clothes got so tight all of a sudden too. But still, look at these things? *flex effort* Oh wow, look at that bump~ I've really got muscles now. I feel like I should test them, don't you? Well how about...

[Narrator]

Amy reached over and grabbed you under your arms, then lifted you into the air.

[Amy]

medium effort Wow, while it's not super easy, it's way easier than I'd expect. Especially being shorter than you. For now though, I'm gonna get even stronger!

[Amy]

some more gulps of soda Okay, let's see how strong I get this time... Oh here it comes... *m* Oh yes, this feels *m* incredible!

[Narrator]

As you watched, Amy's body begin to swell again. Her muscles bulged out once more, thicker and thicker. Her jeans were very quickly forcibly destroyed by her swelling thigh muscles, and her crop top also snapped as her shoulders seemed to broaden even further. However, you both noticed another transformation as well. Amy's head was slowly rising higher as her body filled with more and more muscle mass. You could see her head visibly rising upwards towards your own as her growth continued. It continued rising and rising as her muscles continued to swell impossibly larger, and her shoulders broadened even further, now far broader than your shoulders too. However, her growth soon stopped again.

[Amy]

Aww, I was hoping I'd get taller than you~ I guess there's always next time. But just LOOK at the rest of me. And wow, these guys are solid. Here~

[Narrator]

Having shown no reaction at all to her nudity, she grabbed your hand and led it over to her bicep. She was right, her flesh which was once quite soft was now very firm and strong.

[Amy]

And if you think that's strong, wait till I *flex effort* flex, ahaha~

[Narrator]

You could feel the muscle swell in your hand as she flexed, and the pure physical strength of it was incredible.

[Amy]

Now then, we have to do our test again~

[Narrator]

She once again lifted you up under your arms, though this time she seemed to have very little trouble doing so. Her form, despite not being taller than your own, was far broader, and her densely packed together muscles could move your mass easily.

[Amy]

Pfft~ Wow, that was so easy. You weigh like nothing now, like as light as a sheet of paper. Oh this is so awesome, I'm so jacked already, and there's nothing to stop me getting even stronger.

[Amy]

some more gulps of soda Oh yeah, now this time, I'm definitely gonna get taller than you~ *m* Ohh yeah, here goes! *m*

[Narrator]

Again, Amy's body swelled outwards and upwards. Her already massive figure grew taller and wider as her shoulders broadened even more. Her physique was so muscular it was getting plain ridiculous, and her height was rising too. You watch as her eyes were level with yours for a moment, then with another spurt of growth they kept rising up past yours. Soon, Amy was grinning down at you as her face rose away, leaving you to stare on into her absurdly huge and still swelling pecs. When her nipples were about level with your forehead, her growth slowed yet again.

[Amy]

stretching Ahh~ Now that was awesome! Not only are you far weaker than me, but you're now much shorter than me too~ How cute you've become, ehehe~. Well, if I could pick you up like you were nothing last time, I'm gonna need something even heavier to test *flex* these bad boys.

[Narrator]

At her flex, her enormous bicep swelled up seemingly another 3 inches.

[Amy]

Now, let's see. I guess the couch will do. Take a seat~

[Narrator]

As she gestured, you sat down on the couch.

[Amy]

Now then, let's see here... *small effort*

[Narrator]

With the tiniest off efforts from Amy, the entire couch was lifted immediately 5 feet up into the air. Your head was only a few inches away from the ceiling.

[Amy]

Whoaa~ Even I wasn't expecting it to be quite that easy. But wow, this stuff really is awesome~ Soo, even if I'm already stronger than I have any need to be, probably already the strongest person in the whole world, I don't see why I can't still go bigger.

[Amy]

gulping down the last of the soda Ahh~ All empty, this should be a big one~ *m* Oh, that was fast *m* wow, this one feels so strong *m* yess, make me bigger and bigger *m* keep making me more powerful! *m*

[Amy]

Growth moans to go under narration

[Narrator]

Gulping down all that soda at once had seemed to cause a massive growth spurt in Amy, as her whole body began to swell outwards much faster than any of the previous times. You stepped away gently as her head rose away, and her pecs, thighs and abs grew somehow even more massive. She was very quickly approaching the ceiling, but didn't seem to notice as the growth had taken hold of her. Without even a spark of a reaction, Amy's head and shoulders crashed through the ceiling and into the floor above, still swelling out. Pieces of debris continued to fall around her as her body grew, disrupting more and more of the ceiling. All of her that was still visible from the ground floor was still swelling out thicker and stronger with each and every spurt she encountered. Until, at last, it finished once again.

[Amy]

Oh wow, that was incredible! Heey~ You coming up?

[Narrator]

You began to walk up the stairs, gingerly awaiting what you might find upstairs. Nervous with excitement, you pulled open the door to the room above the lounge.

[Amy]

There you are~ So, what do you think?

[Narrator]

Amy's body filled the room. Her shoulders were almost as broad as the room was wide, and her pecs extended half way along it. While her head was larger than it had been, it still looked relatively small compared to the huge bulk of muscle that was the rest of her body. As you stared, Amy remembered something.

[Amy]

Oh, and can you fetch me another one of those cans from the fridge? Ahaha, don't tell me you thought it was over? They only sold in bulk online, I've got a lot more growing to do!
