ORANGE SUN TEA:

by Le Lady Moon

Ingredients:

- 72 ounces water
- 8 -10 raspberry iced tea bags (or chamomile, echinacea, peach, etc)
- 1 cup orange juice (optional)
- Orange slices
- Sugar or sweetener packets (+ or – depending on your desired sweetness)

This tea could not be any easier to make! It's perfect for springtime and promotes bringing in love, prosperity, relaxation and happiness. Pour the water and submerge your tea bags into a large seal-able pitcher. Place the pitcher in the sun for at least 1-2 hours. You can do this inside on your counter near a window or outside. Make sure that it is sealed so nothing blows into your pitcher. Let the rays of the sun infuse in your tea. After your tea is done, remove the tea bags and add the orange juice, a few orange slices and sugar. Stir until blended and pour tea over ice. Makes 9 servings.

Oranges represent the sun and fire with magickal uses for money, love, luck, abundance, happiness, prosperity, positivity and divination. Peaches promote fertility, wishes and enhancing inner power, Chamomile promotes relaxation while echinacea promotes healing. Raspberries also promote healing and love.
