

I have no idea why you're struggling that much honey, it's not like those restraints were giving in even the slightest bit... I guess you would really like to join us in our little menage-a-trois over here. Too bad for you, huh? It must suck to be a chaste virgin loser... I mean, it usually sucks if you're just deprived of any pussy and can't even jerk off at home because of that tight steel chastity device you had your cock locked up in. But in your case, being held captive bound and gagged while all those pussies are basically just inches away – that must be pure hell!

God, you're probably out of your mind after three weeks of this. Sitting there, chained to the ground, longing to touch our soft skin and squeeze our perky tits! I bet you would love to taste our pussies... And feel how wet and tight they are sliding up and down your shaft. None of that is gonna happen, though. But really, a show like this one is not something for a beta like you to be rewarded with, so you should show a little more gratitude! Just enjoy your little dick trying to get hard, dripping precum like a faucet while we make each other cum again and again!
