# Commission Sheet

## ★ Basics

Commissions will **ONLY** be accepted during the time they're open, otherwise it may result in a penalty.

Commissions must follow a strict script structure as well as some writing rules, otherwise they won't be accepted.

### Script Structure

Title: "..."

Characters: A, B, C[Details in brackets], ...

Stage: A, B, ...

"Script Body"

### Writing Rules

There's no minimum length but shouldn't be longer than **350** words. Extra words will be charged **\$0.30/word**.

The script is both an **OBJECTIVE NARRATION AND DESCRIPTION** that serves as a guide for me to make an animation out of it. Abstain from putting **UNNECESSARY COMMENTS** that won't be visually reflected in the animation.

The script must be clean, take care of **GRAMMAR AND ORDER**.

Try to be as detailed as possible, use adjectives if you want, unless it's just for opinion.

**"A eats B, who is scared, and keeps walking"**

You **CAN** give me any material (model/sound files) and make a reference to them like this:

**"A burps [Sound1]"** References to sounds used in past animations are ok too.

### Example

**Title: Miku's Super Feast Dream**

**Characters: Miku, Rin, Luka [swimsuits]**

**Stage: A pool**

Miku and co. are lying down on some chairs at the pool, sleeping. Miku wakes up after her stomach gurgles [Sound1]. Miku, surprised at her own stomach, looks around and notices Rin and Luka. Miku's belly rumbles again [Sound2] as she smiles and sticks her tongue to the side, looking mischievous. She gets up and walks slowly in their direction. Miku gets down on her knees in front of Rin and munches Rin's legs. Rin continues sleeping while Miku swallows her down. Once she's all inside, Miku lets out a large burp [Sound3], which wakes Luka up. Luka notices Miku's big belly and tries to run away. However, Luka suddenly begins to float and shrink. Miku, who is using magic, makes tiny Luka float back to her mouth, where she is swallowed.

Inside Miku's stomach, Rin is still sleepy and yawns. Luka falls right into Rin's mouth and is swallowed. Miku's belly rumbles violently which causes her to hold a big burp, but when she is about to let it out, she wakes up.

Miku looks around, confused, but goes back to sleep without worrying. The camera shows that Rin and Luka aren't there before moving back to Miku's chest, which has grown greatly in size.

## ★Notes

When choosing characters, make sure there're available models (for mmd/in .pmx), a quick google search should help

Some models might not be able to expand and my skills to make them capable are limited so it's discussable

## ★ Sending the script

Scripts can be sent to:

★ [commissionsyvz@gmail.com](mailto:commissionsyvz@gmail.com)

★ [Patreon DM](#)

Your script will be reviewed thoroughly and you'll get a reply regarding the prices, slots, etc.

There are limited slots for commissions, you will be told if they run out.

Patron commissions have a higher priority, short scripts also have a higher priority over long ones.

If you've already commissioned in the past, you might be given a lower priority to move new commissioners forward.

**Do not send scripts when commissions are closed!**

## ★ Paying and scheduling the commission

Once the price for the commission is clear, you'll be sent an invoice. (Only if prices are applied)  
After it's been paid, your commission will be scheduled.

Normally I try to finish animations in about a month, but the actual amount of time depends on many factors: time length, difficulty, real life stuff, etc. For that reason, don't ask me to hurry, we don't want rushed work.
