[Intro]

G Em C (x4)

[Verse 1]

G Em C G
By the look in your down-turned eyes,
Em C G
you've had enough of these angry skies.
Em C G
I can't wait just like you can't wait
Em C
until we're out, past familiar gates.
D C D
Your hands are freezing cold on my face,
C G
just like the winter snow that covers up this place.
Em C G Em C G ...

[Verse 2]

Em C G
It's what you wrote in the book's first page.
Em C G
It's what I've hungered for on that stage.
Em C G
Those seven words shook the life back in,
Em C D
so let's just run 'til we lose our breath.
C D
Point me at lost islands. Point me at the sea.
C Em - C - Em - C - Em
I'd love to know the sound of nothing else but you.

[Bridge]

C Em
For the life of me, I don't know
C Em
what took us so long, but here we are.
C Em
Standing face to face, suddenly
C Em
everything makes sense, at least to me.

[Outro, repeat as desired]

G Em C ...
