I miss you

What I heard for you is the most wonderful feeling

C'mon, I'm obviously craving you

Understand that I love you madly

I want to feel your gaze in my gaze!

Nothing makes sense when you're not around

I love you all the time.

I want your eyes to flash from my eyes next ...

I hate sharing you with someone else,

You will always live with me in my memories

If I die, one day your love;

The red rose will be a symbol of our love.
