

1.

Yu: Where am I ..... I, why am I here .....?

Researcher: This is a laboratory at OO Hospital. We are conducting research to cure you. I didn't think alchemy existed in modern times.....No, it's really strange.....

Yu: Ah..... ah! Mu, my chest suddenly ..... kyaaaaah!

Researcher: Oh no, it seems that the symptoms, which were suppressed for a while by the treatment, have been activated again by the patient's arousal of the mammary glands.....!

2.

Researcher: Anyway, first aid for now. .... Are you alright?

Yu: Itchy, my nipples are straining, do something fast! Oh no, it's itchy down there too..... I can't reach it....., I'm going crazy.....!

Researcher: Ugh, even if you say so, there's nothing I can do.....

Yu: You're going to fix me already, right? I don't care what you do anymore! I don't care what you do, just help me! I can't stand it.....

Researcher: No, I have a girlfriend ..... and I can't do anything except for medical treatment .....

Yu: Please, please, please, please! Please fuck me!

3.

Researcher: (I love big boobs, and my girlfriend has big boobs, but this is indeed ..... not bad, right?)

Researcher: Wow, okay. This is just a treatment, you know!

Yu: Nn-ah-ah-ah! Good, good oh oh! More oh oh oh!

Researcher: Oh, oh, I'll do it already!

4.

Researcher: The patient's mental state seems to have been deranged by the shock. .... Poor guy. .... There are other victims, so my superiors have told me to study this kid properly. I'm sure ..... we'll fix you up.

Yu: I don't care, just make me feel better!

Researcher: Every time the patient orgasms, the mammary glands become more active.....Here's what to do.....

Yu: It feels so good, nnooooooooooooooooooooo!

5.

Researcher: I'm going to ..... let it out!

Yu: Nnooooooooooooo! It feels so good to milk your tits! It's okay! I can go on like this now! I can do it like this!

Researcher: No, no, but it's too dangerous to continue like this .....

Yu: Well, heal me, heal me, heal me!

(three hours later)

6.

Yu: No, no, ..... don't stop, do more, more, do more.....

Researcher: No, no, no, no, I've done it four times already, I can't do any more .....

Yu: Then do something about it!

Researcher: j..... this is not for humans, but for now ..... no, it's a little bigger .....

Yu: Okay, that's enough! Insert it quick! .....

7.

Ken: Well, excuse me then. ....

Yu: Nnoooooooooo! That's good! This is so good!

Eheheh, every time my tits milk out, Iguuuuuu..... aheheh, eheheh..... happy.....

Ken: Haha, poor guy. .... I hope there won't be more victims. But lately I hear the killer is still doing the same thing one after another. .... What is it, making girls' boobs huge all over the place, or some other erotic game that doesn't sell well. ....

8.

I wonder if .....Yoshinochan will be like this too? Hehehe.....

I'm so tired! Am I tired or something? .....

Yukari managed to keep her life alive thanks to the research facility, but there is currently no prospect for her to return to normal. With her strong dependence on the pleasure and her mammary glands that never stop growing, Yukari may only be able to live in the research facility for the rest of her life, but that may not matter to her anymore.
