

TRIPOM CARD LIST (GENERATION 3.1)

This is a list of all the cards in the main set. The generation column identifies when the character was first introduced. Any card that has a PT box refers to a prototype card. These differ from the mass-produced version and are extremely rare. Please refer to the TriPom Collectors Guide for more information.

PROMO

Each event has its own promotional card. These are the cards that have been released to date. Most people can obtain these by trading with attendees from other events. Leftovers from previous events are sometimes available at Chocolina's.

Due to demand, many of these cards have been reprinted. If the card has "2nd" written on the medal, this means it is a reprint produced by us at a later date and not an original promo from the original event.
